Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN): Grantee Progress Report (Year 2)
July 1, 2014 – December 31, 2014

Awardee:	
Awardee Number:	

Work Plan Instructions:

Please use the template to report on progress for **Year 2 reporting period, July – December, 2014**. Information requested can be entered into the text box for each program component. Please be concise but provide context and information that fully describes your successes, challenges, evaluation results/progress to date and progress toward meeting performance measures.

Work Plan

- Provide a succinct description of your accomplishments and progress made in meeting each of the current budget period activities and objectives. If objectives are not on target to be completed by end of budget year, you should provide the reason(s) for delay and identify strategies to be implemented to achieve the objectives.
- Successes: Information can be entered in progress notes.
    - Awardees must report progress made to date toward completing activities outlined in the work plan.
    - Awardees must describe any additional successes (e.g., identified through evaluation results or lessons learned) achieved in the reporting period.
    - Awardees must describe success stories
- Challenges – Information can be entered in progress notes.
    - Awardees must describe any challenges that might affect their ability to achieve annual and project-period outcomes, conduct performance measures, or complete the activities in the work plan.

- Awardees must describe any additional challenges (e.g., identified through evaluation results or lessons learned) encountered in the reporting period.
- Awardees must describe how CDC could help them overcome challenges to achieving annual and project-period outcomes and performance measures, and completing activities outlined in the work plan.

Evaluation Results– report evaluation progress or results for the work completed (including any data about the effects of the program).

Performance Measures: Please complete the table at the end of this template for current year progress, Year 2, July 1, 2014 through December 31, 2014. Under progress, please indicate if the performance measure is on target for the current year. Under comments, please briefly describe elements that contributed to meeting the performance measure, challenges to meeting it and strategies to facilitate meeting it.

Spell Check: Before submitting the completed work plan to your Project Officer, please run a spell check by clicking the button below.

Activity 4.8.10:	Partner 1: Select One Partner 2: Select One Partner 3: Select One Other (if applicable):	Start: Select Date End: Select Date

Evaluation Plan

Grantees should complete the evaluation plan template below for each of the following: 1) uncontrolled hypertension, 2) Health Coaching and/or Lifestyle Program, and 3) evaluation area of your choosing. A fourth evaluation area is optional.

Evaluation Area 1: Evaluation of efforts to address uncontrolled hypertension.

Note: According to the WISEWOMAN Technical Assistance Guidance document, grantees should work with their health care providers to establish standard protocols for follow-up of uncontrolled hypertension. The protocol will vary depending on the capacity of the health care facility, but at a minimum should include medication counseling. The protocol may include team-based care with pharmacists, nutritionists, nurse educators, community health workers or others. It may include use of electronic reporting and tracking of blood pressure trends, and self-measured blood pressure monitoring among other strategies. The aim is to help health care providers establish or strengthen practical methods to track and improve control of hypertension.

Evaluation Area 1 Progress:

Brief Overview of Evaluation Area 1: *Provide a brief description of what you plan to evaluate (i.e. intervention, activity component, and any contextual factors to address).*	

1a. Evaluation Question:		Evaluation Type: Select One	Person Responsible:
Indicator(s) *A specific, observable, and measurable characteristic or change that shows progress toward achieving a specified outcome.*	Source(s): *Select a source for each indictor.*	Method: *How you will collect the data for this indicator?*	Timing: *When you will collect the data for this indicator (i.e., start-end date and frequency)?*
	Select One		
	Select One

Evaluation Area 3: Select one of the following activities to evaluate and complete the evaluation framework.

☐ Demonstrate significant value of the WISEWOMAN program.

☐ Health outcomes and behavior change related to smoking cessation, physical activity increased, healthy eating, and hypertension control.

☐ Clinical support systems delivered by health care providers within the WISEWOMAN program that optimize control of hypertension such as:

a. Team-based care
b. Delivery system design
c. Health Information Technology/Electronic Health Records (EHR)
d. Self-management support.

☐ Partnerships with community based organizations that contribute significant resources to the program.

Evaluation Area 3 Progress:

Brief Overview of Evaluation Area 3: *Provide a brief description of what you plan to evaluate (i.e. intervention, activity component, and any contextual factors to address).*	

3a. Evaluation Question:		Evaluation Type: Select One	Person Responsible:

Performance Measures

Performance Measure	Progress	Comments
1. Program submits minimum data elements files on schedule and with no more than a 5% error rate. (Calculated from final MDE submission for each period and provided in a final validation report.)	Select status	
2. Program has actively engaged with a minimum of two public or private partner organizations to promote and support environmental changes for increased physical activity, access to healthy food choices, smoking cessation and elimination of exposure to secondhand smoke. (Data source is information provided in the annual performance reports (APRs).	Select status	
3. Program has met or exceeded 95% of its CDC approved screening goals. Screening goals include baseline and rescreenings. (Calculated using MDEs.)	Select status	
4. Program delivers risk reduction counseling to 100% of women screened. Risk reduction counseling includes appropriate referral to health coaching, community resources or lifestyle programs. (Calculated using MDEs and APRs.)	Select status	
5. Program follows-up with 100% of women with abnormal blood pressure values. Follow-up parameters should be determined by WISEWOMAN guidelines and facility medical protocol. (Calculated using MDEs and APRs.)	Select status	
6. Program ensures that 80% of women referred to a lifestyle program or health coaching participate in the program. Participation is defined as attendance at a minimum of one lifestyle program or coaching session. (Calculated using MDEs.)	Select status	
7. Program ensures that 60% of women who participate in a lifestyle program or health coaching complete the program. Completion is defined as the number of sessions that the evidence base for the program has determined to be required for behavior change. (Calculated using MDEs and APRs.)	Select status
