## Before You Begin

- **Active [SAM.gov](#), [eBRAP.org](#) and [Grants.gov](#) registrations are required for application submission.** User registration for each of these websites can take several weeks or longer. Each applicant must ensure their registrations are active and up to date prior to application preparation.
- **Read this funding opportunity announcement in the order it is written before beginning to prepare application materials.** It is the responsibility of the applicant to determine whether the proposed research meets the intent of this funding opportunity and that all parties meet eligibility requirements.
- **To support application preparation, additional resources are available** including an application process [FAQ](#), a [Guide for Intragovernmental & Intramural Applicants](#) and a [CDMRP Video Series](#) detailing the application process.

## Who to Contact for Support

### eBRAP Help Desk

301-682-5507  
[help@eBRAP.org](mailto:help@eBRAP.org)

*Questions regarding  
funding opportunity submission  
requirements,  
as well as technical assistance  
related to pre-application or  
intramural application submission.*

### Grants.gov Support Center

800-518-4726  
International: 1-606-545-5035

## Section Shortcuts

[Basic Information](#) | [Eligibility](#) | [Program Description](#) | [Application Contents and Format](#) | [Submission Requirements](#) | [Application Review Information](#) | [Federal Award Notices](#) | [Post-Award Requirements](#) | [Other Information](#)

# 1. Basic Information About the Funding Opportunity

**Summary:** The fiscal year 2026 (FY26) Neurofibromatosis Research Program (NFRP) Synergistic Idea Award (SIA) supports new ideas that represent synergistic approaches to neurofibromatosis (NF) research involving **two or three** Principal Investigators (PIs). These investigators should utilize their complementary and synergistic perspectives to address a central problem or question in NF research. ***Applications must include preliminary and/or published data that are relevant to NF and the proposed research project.***

### Distinctive Features:

- **Partnering Principal Investigators:** One PI will be identified as the Initiating PI and will be responsible for the majority of the administrative tasks associated with application submission. An additional one or two PI(s) will be identified as a Partnering PI. Each partner will be recognized as a PI, submit a separate application (even if the partners are at the same organization), and receive an individual award.

**Funding Details:** The Congressionally Directed Medical Research Programs (CDMRP) expects to allot roughly \$6.4M to fund approximately two SIA applications with total cost caps of \$3.2M per award. The maximum period of performance is 3 years. It is anticipated that awards made from this FY26 funding opportunity will be funded with FY26 funds, which will expire for use on September 30, 2032. Awards supported with FY26 funds will be made no later than September 30, 2027.

### Submission and Review Dates and Times

- **Pre-Application (Letter of Intent) Submission Deadline:** 5:00 p.m. Eastern Time (ET), September 8, 2026
- **Application Submission Deadline:** 11:59 p.m. ET, September 22, 2026
- **End of Application Verification Period:** 5:00 p.m. ET, September 28, 2026
- **Peer Review:** December 2026
- **Programmatic Review:** March 2027

**Announcement Type:** Initial

**Funding Opportunity Number:** HT942526NFRPSIA

**Assistance Listing Number:** 12.420

## Section Shortcuts

Basic Information | [Eligibility](#) | Program Description | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

## 2. Eligibility Information

### 2.1. Eligible Applicants

#### 2.1.1. Organization

[Extramural](#) and [intramural U.S. Department of War \(DOW\)](#) organizations are eligible to apply, ***including foreign and domestic organizations, for-profit and nonprofit organizations, and public or private entities.***

#### 2.1.2. Principal Investigator

Each Principal Investigator (PI) must be at or above the level of assistant professor, or equivalent, and plan to commit **at least a 10% level of effort** for each budget year throughout the entirety of the award.

Independent investigators affiliated with an eligible organization are eligible to be named PI or Partnering PI on the application, regardless of ethnicity, nationality or citizenship status.

Investigators do not have to be from academic institutions.

An investigator may be named on only one FY26 NFRP SIA application as PI.

### 2.2. Cost Sharing

Cost sharing is not an eligibility requirement.

### 2.3. Other

Awards are made to eligible **organizations**, not to individuals. Refer to the GAI for additional [recipient qualification requirements](#).

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

### 3. Program Description

The Defense Health Agency Contracting Activity (DHACA) is soliciting applications to this funding opportunity using delegated authority provided by United States Code, Title 10, Section 4001 (10 USC 4001). The CDMRP is the program office managing this FY26 funding opportunity as part of the Neurofibromatosis Research Program (NFRP). The CDMRP is located within the Defense Health Agency Research and Development (DHA R&D), which is a part of the Department of Defense, DOD, herein referred to using the secondary title Department of War, DOW. Congress initiated the NFRP in 1996 to provide support for research of exceptional scientific merit that promotes the understanding, diagnosis, and treatment of neurofibromatosis (NF), including neurofibromatosis type 1 (NF1), neurofibromatosis type 2 (NF2) and schwannomatosis. Appropriations for the NFRP from FY96 through FY24 totaled \$452.85 million (M). The FY26 appropriation is \$25M.

The vision of the NFRP is to decrease the clinical impact of neurofibromatosis and schwannomatosis. The mission of the NFRP is to promote research directed toward the understanding, diagnosis, and treatment of neurofibromatosis, and schwannomatosis to enhance the quality of life for persons with these disorders that impact Service Members, Veterans, and the American public.

#### 3.1. Award History

The NFRP Synergistic Idea Award (SIA) mechanism was first offered in FY20. Since then, 38 Synergistic Idea Award applications were received, and 27 were recommended for funding.

#### 3.2. Intent of the Synergistic Idea Award

The NFRP Synergistic Idea Award supports new ideas that represent synergistic approaches to NF research involving **two or three** PIs. These investigators should utilize their complementary and synergistic perspectives to address a central problem or question in NF research. This award is designed to support both new and pre-existing partnerships and encourages participation of PIs from other research fields. ***Applications must include preliminary and/or published data that are relevant to NF and the proposed research project.***

The NFRP seeks applications from investigators working in a wide spectrum of disciplines, including, but not limited to, basic science, engineering, bioinformatics, population science, translational research and clinical research.

##### 3.2.1. Strategic Goals and Areas of Emphasis for the SIA

The NFRP seeks to support innovative, high-impact research that will foster new directions for and address neglected issues in NF research; sponsor multidisciplinary and multi-institutional collaborations that will bring new perspectives to the field; promote translational and clinical studies to move promising ideas from bench to bedside; and develop a balanced portfolio of meritorious research related to all aspects of NF1, NF2 and schwannomatosis.

**Strategic Goals:** The NFRP's current strategic goals are:

- Support basic and exploratory research.
- Facilitate rapid testing of potential therapeutics.

## Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Increase capacity and multi-disciplinary research through support and development of vital resources and the next generation of NF researchers to improve patient care.
- Encourage research in areas of critical interest to NF patients.

The NFRP encourages applicants to review the [NFRP Strategic Plan](#) for more information on its goals.

**Areas of Emphasis:** To meet the intent of the funding opportunity, all applications should specifically address the critical needs of the NF community in one or more of the areas of emphasis listed below. The NFRP also encourages all applicants to include materials and data from diverse populations in their research.

- NF2- and schwannomatosis-related areas (e.g., hearing, balance, schwannoma, ependymoma, meningioma, LZTR1, SMARCB1).
- Endpoint validation, biomarker discovery, and technological innovation for assessments.
- Application of data science.
- Non-tumor manifestations not limited to:
  - Pain
  - Cognitive manifestations
  - Sleep
- Heterogeneity of NF-related phenotypes.
- Genetics, genomics, epigenetics, systems biology, metabolomics or similar approaches.
- Preclinical efficacy studies.
- Target identification and drug discovery.
- Nutritional, environmental, and other modifiers of NF.
- Health services research.

**Note: Not all areas of emphasis are applicable to every award mechanism. If the proposed research project does not address at least one of the FY26 NFRP areas of emphasis, justification should be provided that it addresses an important problem related to NF research and/or patient care.**

### 3.2.2. Key Elements for the SIA

- The SIA requires more than one PI. One PI will be identified as the Initiating PI and will be responsible for the majority of the administrative tasks associated with application submission. The other PI(s) will be identified as a Partnering PI. All PIs should contribute significantly to the development and execution of the proposed research project. If recommended for funding, each PI will be named on separate awards to the recipient organization(s). Each award will be subject to separate reporting, regulatory, and administrative requirements. For individual submission requirements for the Initiating and Partnering PI(s), refer to [Section 5.3, Submission Instructions](#).
  - The research project must be supported by the unique expertise, experience, and abilities of each PI, and it must clearly define the synergistic components that will facilitate and accelerate progress in a way that could not be accomplished through independent efforts.

## Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Each proposed study must include clearly stated plans for interactions among all PIs and organizations involved. The plans must include communication, coordination of research progress and results, and data sharing.
- Multidisciplinary projects are encouraged, and multi-institutional projects are allowed.
  - Multi-institutional applications must provide an intellectual property plan to resolve potential intellectual and material property issues and to remove institutional barriers that might interfere with achieving high levels of cooperation to ensure the successful completion of this award.
- Participants will share data following the FAIR (Findable, Accessible, Interoperable, and Reusable) Data Principles for reproducible science found in “The FAIR Guiding Principles for scientific data management and stewardship” (<https://www.nature.com/articles/sdata201618>). Refer to the Research Sharing Plan document in [Attachment 7](#).

### 3.2.3. Other Important Considerations for the SIA

**Clinical trials are not allowed within this funding opportunity. *For the purposes of this funding opportunity, research that meets the definition of a clinical trial is distinct from clinical research.***

All projects should adhere to a core set of standards for rigorous study design and reporting to maximize the reproducibility and translational potential of clinical and preclinical research, such as those described in the [STROBE](#), [CONSORT](#), [SPIRIT](#) and [ARRIVE guidelines 2.0](#).

Applications from investigators within the DOW and applications involving multidisciplinary collaborations among academia, industry, the DOW, the U.S. Department of Veterans Affairs (VA) and other federal government agencies are highly encouraged. These relationships can leverage knowledge, infrastructure and access to unique clinical populations that the collaborators bring to the research effort, ultimately advancing research that is of significance to Service Members, Veterans, their Families and the American public. If the proposed research relies on access to unique resources or databases, the application must describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research.

**Research Involving Animals:** All research funded by the FY26 NFRP Synergistic Idea Award involving new and ongoing research with animals must be reviewed and approved by the DHA R&D Office of Research and Regulatory Compliance (ORRC) Animal Care and Use Review Office (ACURO), in addition to the local Institutional Animal Care and Use Committee (IACUC) of record. IACUC approval at the time of submission is **not** required. ***Allow at least 3 to 4 months for ACURO regulatory review and approval processes for animal studies.*** Refer to the GAI for additional information.

In accordance with the National Defense Authorization Act for Fiscal Year 2026, Section 732, the CDMRP does not support the conduct of painful research (U.S. Department of Agriculture pain category D or E) involving domestic cats or dogs, except for studies relating to military or service animals.

## 3.3. Funding Instrument

The funding instrument for awards made under the program announcement will be grants (31 USC 6304).

## Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

### 3.4. Funding Details

**Period of Performance**: The maximum period of performance is **3** years.

**Cost Cap**: The combined total costs budgeted for the entire period of performance in the applications of the Initiating PI and Partnering PI(s) should not exceed \$3.2M. If indirect cost rates have been negotiated, indirect costs are to be budgeted in accordance with the organization's negotiated rate. Collaborating organizations should budget associated indirect costs in accordance with each organization's negotiated rate.

A separate award will be made to each PI's organization.

The PIs are expected to be partners in the research, and direct cost funding should be divided accordingly unless otherwise warranted and clearly justified.

All direct and indirect costs of any subaward or contract must be included in the direct costs of the primary award.

The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum **3** years.

The appropriateness of the budget for the proposed research will be assessed during peer review.

**Direct Cost Restrictions**: For this award mechanism, direct costs:

May be requested for (not all-inclusive):

- Travel in support of multi-institutional collaborations.
- Costs for the Initiating and each Partnering PI to travel to one scientific/technical meeting per year. The intent of travel to scientific/technical meetings should be to present project information or disseminate project results from the NFRP Synergistic Idea Award.

Must not be requested for:

- Clinical trial costs.

## Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

# 4. Application Contents and Format

## 4.1. Application Overview

Application submission is a two-step process requiring both a **pre-application** submitted via the Electronic Biomedical Research Application Portal ([eBRAP](#)) and a **full application** submitted through eBRAP or Grants.gov. Depending on the submission portal, certain aspects of the application will differ.

**Intramural DOW organizations submitting a full application should follow instructions for submission through eBRAP.**

**Extramural organizations submitting a full application must follow instructions for submission through Grants.gov.**

## 4.2. Pre-Application Components

Pre-application submissions must include the following components.

**Letter of Intent (LOI) (one-page limit):** Provide a brief description of the research to be conducted. Include the FY26 NFRP area of emphasis under which the application will be submitted.

## 4.3. Full Application Components

The CDMRP requires separate full application package submissions for the Initiating PI and Partnering PI(s), even if the PIs are located within the same organization. The application submission process for each Partnering PI uses an [abbreviated full application package](#).

### 4.3.1. Full Application Components for the Initiating PI

Each application submission must include the completed full application package for this program announcement. See [Appendix 1](#) for a checklist of the full application components.

**(a) SF424 Research & Related Application for Federal Assistance Form (Grants.gov submissions only):**

***IMPORTANT:*** When completing the SF424 R&R, enter the **eBRAP log number** assigned during pre-application submission into **Block 4a – Federal Identifier**.

**(b) Attachments:**

Each attachment of the full application components must be uploaded as an individual file in the format specified and in accordance with the [formatting guidelines](#) in the GAI.

- **Attachment 1: Project Narrative (10-page limit): Upload as “ProjectNarrative.pdf”.**

Describe the proposed project in detail using the outline below.

- **Background:** Clearly articulate the scientific rationale for the proposed research project. Cite relevant literature. **Applications must include preliminary and/or published data that are relevant to NF and the proposed research project.**
- **Hypothesis:** State the hypothesis to be tested or the objective to be reached.

## Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Specific Aims:** Concisely explain the proposed research project’s specific aims to be funded by this application. If the proposed research project is part of a larger study, present only tasks that this award would fund.
- **Research Strategy and Feasibility:**
  - Describe how the experimental design, methods, and analyses, including appropriate controls, sample size estimations, blinding, randomization, power analysis, and data handling, are designed to achieve reproducible and rigorous results in sufficient detail for scientific peer review. Address potential problem areas and present alternative methods and approaches. **Include specific examples of synergistic elements incorporated into the research design.**
  - Describe how data will be collected, handled, and analyzed in a manner that is consistent with the study objectives. Include a complete power analysis to demonstrate that the sample size is appropriate to meet the objectives of the study.
  - Consult appropriate [guidelines](#) to ensure relevant aspects of rigorous and reproducible research are adequately planned for and, ultimately, reported.
  - Describe how well any animal studies proposed are designed to achieve the objectives, including the choice of model and endpoints/outcome measures to be used.
  - If the proposed research will use human subjects or anatomical samples, include a plan for the recruitment of subjects or the acquisition of samples and document the experience of the PI(s) and/or key collaborators in recruiting human subjects for similar projects. Clearly describe the tissue or tumor type to be studied, where applicable (e.g., encapsulated versus diffuse plexiform neurofibroma). **Clinical trials are not allowed under this funding opportunity.**
- **Project Coordination and Communication:** Describe plans for communication, decision-making, allocation of resources, conflict resolution, coordination of research progress and results, and sharing of data among all PIs and organizations participating in the project.

If the proposed research involves access to military and/or VA patient populations and/or DOW or VA resources or databases, describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research. Also include a plan for obtaining any required data sharing, memorandum of understanding or other agreements required to access and publish data. Refer to the GAI, [Appendix 4](#), for additional considerations.

- **Attachment 2: Supporting Documentation: Combine and upload as a single file named “Support.pdf”.** 

***There are no page limits for these components unless otherwise noted. Include only components described below; inclusion of items not requested or viewed as an extension of the Project Narrative will result in the removal of those items or may result in administrative withdrawal of the application.***

- **References Cited:** List the references cited in the Project Narrative using a standard reference format (include URLs, if available).
- **List of Abbreviations, Acronyms and Symbols:** Provide a list of abbreviations, acronyms and symbols.

## Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Facilities, Existing Equipment and Other Resources:** Describe the facilities and equipment available for performance of the proposed project; include any additional facilities or equipment proposed for acquisition at no cost to the award. Indicate whether government-furnished facilities or equipment are proposed for use. If so, reference the original or present government award under which the facilities or equipment items are now accountable. There is not a standardized form for this information.
- **Publications and/or Patents:** Include a list of relevant publication URLs and/or patent abstracts. If articles are not publicly available, then copies of up to five published manuscripts may be included in Attachment 2. Extra items will not be reviewed.
- **Letters of Support:** Provide individual letters signed by collaborating individuals and/or organizational officials demonstrating that the PI has the support and resources necessary for the proposed work. Letters from the PI's Department Chair, or appropriate organization official, should also confirm that the PI(s) meet [eligibility criteria](#). If applicable, provide a letter of support, signed by the lowest-ranking person with approval authority, confirming participation of intramural DOW collaborator(s) and/or access to military populations, databases or DOW resources. If applicable, provide a letter of support signed by the VA Facility Director(s), or an individual designated by the VA Facility Director(s), confirming access to VA patients, resources and/or VA research space.
- **Intellectual and Material Property Plan (if applicable):** Provide a plan for resolving intellectual and material property issues among participating organizations.
- **Inclusion Enrollment Report (only required if clinical research is proposed):** Provide an anticipated enrollment table(s) for the inclusion of women and minorities using the "Public Health Service (PHS) Inclusion Enrollment Report," a three-page fillable PDF form that can be downloaded from eBRAP. The enrollment table(s) should be appropriate to the objectives of the study with the proposed enrollment distributed on the basis of sex, race, and ethnicity. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity, or race (typically classified as exempt from Institutional Review Board [IRB] review) are exempt from this requirement.
- **Sex as a Biological Variable Strategy (two-page limit is recommended):** Describe the strategy for how sex will be considered as a biological variable. This strategy should include a brief discussion of what is currently known regarding sex differences in the applicable research area. Clearly articulate how sex as a biological variable will be factored into the data analysis plan and how data will be collected and disaggregated by sex. If needed, provide a strong rationale for proposing a single-sex study, based on justification from scientific literature, preliminary data or other relevant considerations. Refer to the [CDMRP Directive on Sex as a Biological Variable in Research](#) for additional information.

***Do not submit a copy of the National Institutes of Health Data Management and Sharing Plan or duplicate the Data Management Plan which will be requested only after a recommendation for funding is made.***

Refer to the [CDMRP Directive on Sharing Data and Research Resources](#) for more information about the CDMRP's expectations for making data and research resources publicly available.

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Attachment 3: Technical Abstract (one-page limit): Upload as “TechAbs.pdf”.** 

Write the technical abstract using the outline below. Clarity and completeness within the space limits are highly important.

Of particular importance, programmatic reviewers may not have access to the full application and therefore rely on the technical abstract for appropriate description of the proposed research project’s key aspects. Technical abstracts should be written using the outline below. Clarity and completeness within the space limits are highly important.

- **Background:** Present the scientific rationale behind the proposed research project.
- **Hypothesis/Objective(s):** State the hypothesis to be tested and/or objective(s) to be reached.
- **Specific Aims:** State the specific aims of the study.
- **Study Design:** Describe the study design, including appropriate controls.
- **Impact:** Briefly describe how the proposed research project will have short-term and/or long-term impact on NF research and/or patient care.

- **Attachment 4: Lay Abstract (one-page limit): Upload as “LayAbs.pdf”.** 

The lay abstract should address the points outlined below *in a manner that is readily understood by readers without a background in science or medicine*. Avoid overuse of scientific jargon, acronyms and abbreviations. **Do not duplicate the technical abstract.**

- Summarize the objectives and rationale for the proposed research.
- Describe the ultimate applicability of the research.
- What population will the research help, and how will it help them?
- What are the potential applications, benefits and risks of the anticipated outcomes?
- What is the projected time it may take to achieve a patient-related outcome?
- What are the likely contributions of the proposed research project to advancing research, patient care and/or quality of life?
- How will the data and resources generated during the performance of the proposed research project be shared with the research community (scientific and advocacy organizations) and the public?

- **Attachment 5: Statement of Work (three-page limit): Upload as “SOW.pdf”.** 

Refer to eBRAP for the [Suggested SOW Format](#).

For guidance on preparing the SOW, refer to [Example: Assembling a Generic Statement of Work](#). Include milestones for data or research resource(s) sharing.

Each PI must submit an identical copy of a jointly created SOW. The specific contributions of the Initiating PI and each Partnering PI should be clearly noted for each task.

- **Attachment 6: Impact Statement (one-page limit): Upload as “Impact.pdf”.** State explicitly how the proposed research project addresses one or more of the [FY26 NFRP Areas of Emphasis](#). If the project does not address an area of emphasis, provide justification that the proposed research project addresses a critical problem in NF

## Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

research and/or patient care. Describe the anticipated outcomes (short-term gains) from the proposed research and how they will be used as a foundation for future research projects. Explain the anticipated long-term gains from the proposed research project, including how the new understanding may ultimately contribute to the goal of advancing NF research and/or patient care. Describe how the data and resources generated during the performance of the proposed research project will be shared with the research community (scientific and advocacy organizations) and the public. If applicable, describe how the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.

- **Attachment 7: Research Sharing Plan (two-page limit): Upload as “ResourceSharing.pdf”.** Describe the type of data or research resources (e.g., bio-specimen, analysis tool/software, training material) to be made publicly available as a result of the proposed work. Describe the mechanism (e.g., direct sharing, repository, mixed mode) by which data and resources generated during the period of performance will be shared with the research community and other affected communities, including clinical research participants. Include the name of the repository(ies) where scientific data and resources arising from the proposed study will be archived, if applicable. Identify and provide the rationale for any data or resources that will not be shared (e.g., for intellectual property, feasibility, cost, or other considerations). The plan should also protect participant privacy, confidential and proprietary data, and performer/third-party intellectual property. Provide a milestone plan for disseminating data/results including when data and resources will be made available to other users. In cases where the study participant could potentially derive medical or other benefit from the information, explain whether the results of screening and/or study participation will be shared with the participant or their primary care provider, including results from any screening or diagnostic tests performed as part of the study.

Resources developed through NFRP funding are available to the scientific community and can be accessed at <https://cdmrp.health.mil/nfrp/resources/nfrpresources>. Investigators are urged to leverage and contribute to these resources, and to include a sharing and distribution plan within the Research Sharing Plan section of the application.

- **Attachment 8: Synergy Statement (one-page limit): Upload as “Synergy.pdf”.** Discuss in detail the advantages of addressing this problem through the combined expertise of the PIs and how this contributes to the synergy of the application. Describe how the proposed project is centered on a unified theme that addresses a central problem or question rather than a set of less related subprojects. Include each PI’s history of synergistic and collaborative study with one another and/or with other investigators. Describe the elements of interdependence in the proposed work and the balance of contributions of each PI to the overall synergy of the project. Describe how the combined efforts/experience of the PIs will result in a level of productivity that is greater than that achievable by each PI working independently, and will better address the research question.
- **Attachment 9: Animal Research Plan (three-page limit): Upload as “AnimalResPlan.pdf”.** (*Attachment 9 is only applicable and required for applications proposing animal studies.*)

If the proposed study involves animals, a summary describing the animal research that will be conducted must be included in the application. Consult the [ARRIVE guidelines 2.0](#) (Animal Research: Reporting *In Vivo* Experiments) to ensure relevant aspects of rigorous animal research are adequately planned for and, ultimately, reported. The

Animal Research Plan may not be an exact replica of the protocol(s) submitted to the IACUC. The Animal Research Plan should address the following points to achieve reproducible and rigorous results for each proposed animal study:

- Briefly describe the research objective(s) of the animal study. Explain how and why the animal species, strain, and model(s) being used can address the scientific objectives and, where appropriate, the study’s relevance to human biology.
  - Summarize the procedures to be conducted. Describe how the study will be controlled.
  - Describe the randomization and blinding procedures for the study, and any other measures to be taken to minimize the effects of subjective bias during animal treatment and assessment of results. If randomization and/or blinding will not be utilized, provide justification.
  - Provide a sample size estimate for each study arm and the method by which it was derived, including power analysis calculations.
  - Describe how data will be handled, including rules for stopping data collection, criteria for inclusion and exclusion of data, how outliers will be defined and handled, statistical methods for data analysis, and identification of the primary endpoint(s).
- **Attachment 10: Transition Plan (one-page limit): Upload as “Transition.pdf”.** Provide information on potential methods and strategies to move the project’s findings to the next phase of development, clinical trials, and/or delivery to the commercial market after successful completion of the award (e.g., specific potential industry partners, specific funding opportunities to apply for). In addition, provide a realistic timeline for near-term clinical investigation and a plan to distribute the findings or intervention to the NF community.
  - **Attachment 11: Representations (*Grants.gov submissions only*): Upload as “RequiredReps.pdf”.** All extramural applicants must complete and submit the [Required Representations](#) document available on eBRAP. 
  - **Attachment 12: Suggested Intragovernmental/Intramural Budget Form (*if applicable*): Upload as “IGBudget.pdf”.** If an [intramural DOW organization](#) will be a collaborator in the performance of the project, complete a separate budget for that organization using the [Suggested Intragovernmental/Intramural Budget](#) form available on eBRAP.

### (c) Additional Application Materials:

The following are additional forms for application submission. Follow the instructions specific to the submission portal, as found within the GAI.

Grants.gov

eBRAP.org

---

#### i. Research & Related Senior/Key Person Profile (Expanded)

- **Biographical Sketch**
- **Current/Pending Support**

*Intragovernmental applicants must include their internally supported research and development programs.*

---

#### ii. Research & Related Budget

*Initiating and Partnering PIs must have a separate budget and justification specific to their distinct portions of the effort that the applicant organization will submit as separate Grants.gov or eBRAP application packages. The Initiating PI should not include budget information for Partnering PI(s), or vice versa, even if they are located within the same organization. Refer to [Section 3.4, Funding Details](#), for detailed budget information.*

---

#### iii. Project/Performance Site Location(s)

---

**iv. Research & Related Subaward Budget Attachment(s)** *(if applicable, Grants.gov submissions only)*

---

### 4.3.2. Full Application Components for Each Partnering PI

Refer to the equivalent attachment above for details specific to each of the following application components. See [Appendix 1](#) for a checklist of the full application components required for the Partnering PI.

(a) [SF424 Research & Related Application for Federal Assistance Form](#) (*Grants.gov Submissions Only*):

(b) **Attachments:**

- [Attachment 5: Statement of Work \(three-page limit\)](#): Upload as “SOW.pdf”. Each PI must submit an identical copy of a jointly created SOW.
- [Attachment 11: Representations](#) (*Grants.gov submissions only*): Upload as “RequiredReps.pdf”.
- [Attachment 12: Suggested Intragovernmental/Intramural Budget Form](#): Upload as “IGBudget.pdf”.

## 4.4. Other Application Elements

If recommended for funding, a data management plan compliant with Section 3.c, Enclosure 3, [DoD Instructions 3200.12](#) will be requested.

The government reserves the right to request a revised budget, budget justification and/or additional information for applications recommended for funding.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

# 5. Submission Requirements

## 5.1. Location of Application Package

Download the application package components for HT942526NFRPSIA from [Grants.gov](#) or [eBRAP](#), depending on which submission portal will be used.

## 5.2. Unique Entity Identifier and System for Award Management

The applicant organization must be registered as an entity in the System for Award Management (SAM), [SAM.gov](#), and receive confirmation of an “Active” status before submitting an application through Grants.gov. Organizations must include the unique entity identifier (UEI) generated by the SAM in applications to this funding opportunity and maintain an active registration in the SAM at all times during which it has an active Federal award or an application under consideration. i

## 5.3. Submission Instructions

The CDMRP uses two portal systems to accept pre- and full application submissions. The workflow below shows which portal system to use for pre- and full application submissions, respectively.

### *Application Submission Workflow*

### 5.3.1. Pre-Application Submission

All pre-application components must be submitted by the Initiating PI through [eBRAP](#) including submission of contact information for each Partnering PI. i

During the pre-application process, eBRAP assigns each submission a unique log number. This unique log number is required during [the full application submission process](#). The eBRAP log number, application title and all information for the PI, Business Official(s), performing

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)  
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

organization, and contracting organization must be consistent throughout the entire pre-application and full application submission process. Inconsistencies may delay application processing and limit or negate the ability to view, modify and verify the application in eBRAP. Contact the [eBRAP Help Desk](#) if any changes need to be made.

After the Initiating PI confirms submission of the pre-application, the Partnering PI(s) will be notified of the pre-application submission via an email from eBRAP. **The Partnering PI(s) must follow the instructions provided in the email to associate the partnering pre-application with their eBRAP account.** If not previously registered, the Partnering PI(s) must register in eBRAP.

**Partnering PIs should not initiate a new pre-application based on the same research project submitted by the Initiating PI.** Partnering PIs are urged to associate the partnering pre-application with their eBRAP account as soon as possible. If this is not completed by the full application deadline:

- Any intramural Partnering PI will not be able to submit their full application package components to eBRAP.
- The Partnering PI(s) will not be able to view and modify their full application during the verification period in eBRAP.

### 5.3.2. Full Application Submission

**Grants.gov Submissions:** Full applications from extramural organizations *must* be submitted through the Grants.gov Workspace. 

**eBRAP Submissions:** Only [intramural DOW organizations](#) may submit full applications through eBRAP. 

### 5.3.3. Applicant Verification of Full Application Submission in eBRAP

Independent of the submission portal, once the full application is submitted, it is transmitted to and processed in eBRAP; the transmission to eBRAP may take up to 48 hours. At this stage, the PI and organizational representatives will receive an email from eBRAP instructing them to log in to eBRAP to review, modify and verify the full application submission. **The Project Narrative and Research & Related Budget Form cannot be changed after the application submission deadline.** Other application components, including subaward budget(s) and subaward budget justification(s), may be changed until the [application verification period](#) ends. The full application cannot be modified once the application verification period ends. 

## 5.4. Submission Dates and Times

The pre-application and full application submission process should be started early to avoid missing deadlines. Regardless of submission portal used, all pre- and full application components must be submitted by the deadlines stipulated in this program announcement. There are no grace periods for deadlines; failure to meet submission deadlines will result in application rejection. **The DHACA cannot make allowances/exceptions for submission problems encountered by the applicant.**

Submission dates and times are specified in [Section 1, Basic Information](#).

### 5.5. Intergovernmental Review

Not applicable for this funding opportunity.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

# 6. Application Review Information

## 6.1. Application Compliance Review

***Submitting applications that propose essentially the same research project to different funding opportunities within the same program and fiscal year is prohibited and will result in administrative withdrawal of the duplicative application(s).***

While it is allowable to propose similar research projects to different programs within the CDMRP or to other organizations, duplication of funding or accepting funding from more than one source for the same research is prohibited. See the [CDMRP's Directive on Research Duplication](#).

Including classified research data within the application and/or proposing research that may produce classified outcomes or outcomes deemed sensitive to national security concerns, may result in application withdrawal.

Members of the FY26 NFRP Programmatic Panel must not be involved in any pre-application or full application including, but not limited to, concept design, application development, budget preparation and the development of any supporting documentation, including personal letters of support/recommendation for the research and/or PI. Programmatic panel members **may** provide [letters](#) to confirm [PI eligibility](#) and access to laboratory space, equipment and other resources necessary for the project if that is part of their regular roles and responsibilities (e.g., as Department Chair). ***A list of the [FY26 NFRP Programmatic Panel members](#) can be found on the CDMRP website.***

Additional restrictions and associated administrative responses are outlined in [Section 9.2, Administrative Actions](#).

## 6.2. Review Criteria

### 6.2.1. Pre-Application Screening Criteria

Pre-applications submitted to this funding opportunity are used for program planning purposes only (e.g., reviewer recruitment) and will not be screened.

### 6.2.2. Peer Review Criteria

To determine technical merit, all applications will be evaluated individually according to the following **scored criteria**, which are listed in decreasing order of importance:

- **Synergy**
  - How the proposed partnership between the PIs is likely to result in a level of productivity that is greater than that achievable by each PI working independently.
  - To what degree the contributions of each PI to the project are appropriate and balanced.
  - How the proposed project is centered on a unified theme that addresses a central problem or question, rather than a set of less related subprojects.
  - How well the application describes the PIs' complementary and synergistic perspectives to address a central problem or question in NF research.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- How well the application addresses processes for ongoing communication, decision-making, conflict resolution, allocation of resources, coordination of research progress and results, and sharing of data among all participating PIs and organizations.
- **Research Strategy and Feasibility**
  - The extent to which the scientific rationale supports the research project and its feasibility as demonstrated by a review and analysis of the literature and relevant preliminary data (preliminary data do not need to come from the NF research field).
  - How well the hypotheses, experimental design, methods, and analyses are developed and support completion of the aims.
  - To what extent the power analysis demonstrates that the sample size is appropriate to meet the objectives of the study, and how well the statistical plan and analyses are developed and integrated into the project.
  - How well potential problems are identified, and alternative approaches are addressed.
  - How well any animal studies proposed are designed to achieve the objectives, including the choice of model and endpoints/outcome measures to be used.
  - Whether the strategy for considering sex as a biological variable is appropriate to the objectives of the study, or whether the justification for a single-sex study is sufficiently strong.
  - If applicable, whether the strategy for the inclusion of women and minorities, and the distribution of proposed enrollment, are appropriate for the proposed research. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity, or race (typically classified as exempt from IRB review) are exempt from this requirement.
- **Personnel**
  - To what degree the PIs' experience, expertise, and records of accomplishment demonstrate their ability to successfully complete the proposed research project.
  - To what extent the levels of effort by the PIs (minimum of 10% each per budget year) and other key personnel are appropriate to ensure success of the proposed research project.
  - How the partners' combined expertise will better address the research question.
- **Impact**
  - If applicable, to what extent the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.
  - To what extent:
    - The anticipated results from the proposed research will make a contribution to the NFRP mission and will impact NF research and/or patient/survivor care.
    - The anticipated outcomes (short-term goals) will be used as the foundation for future research projects.
    - The anticipated long-term gains will contribute to the goal of advancing NF research and/or patient care.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- The data and resources generated during the performance of the proposed research project will be shared with the research community (scientific and advocacy organizations) and the public.
- How well the proposed research project addresses one or more of the [FY26 NFRP Areas of Emphasis](#) or a critical problem in NF research and/or patient care.

In addition, the following criteria will also contribute to the overall evaluation of the application, but will not be individually scored and are therefore termed **unscored criteria**:

- **Research Sharing Plan**

- To what extent the plan for sharing project data and research resources is appropriate and reasonable, and includes dissemination to affected communities, study participants, and/or the scientific community. If applicable, whether specific repository(ies) are named where data and research resources arising from the project will be stored.

- **Budget**

- Whether the budget is appropriate for the proposed research.

- **Environment**

- To what extent the scientific environment and level of institutional support are appropriate for the proposed research project.
- How well the research requirements are supported by the availability of and accessibility to facilities and resources.
- If applicable, to what degree the intellectual and material property plan is appropriate.

- **Application Presentation**

- To what extent the writing, clarity, and presentation of the application components influence the review.

### 6.2.3. Programmatic Review

To make funding recommendations and select the application(s) that, individually or collectively, will best achieve the program objectives, the following criteria are used by programmatic reviewers:

- Ratings and evaluations of peer reviewers
- Relevance to the priorities of the FY26 NFRP, as evidenced by the following:
  - Adherence to the intent of the funding opportunity
  - Program portfolio composition
  - Relative impact
  - Programmatic relevance to [FY26 NFRP Areas of Emphasis](#)

## 6.3. Application Review and Selection Process

### 6.3.1. Pre-Application

There is no review and selection process for pre-applications submitted to this funding opportunity. **CDMRP will NOT provide an invitation to submit a full application after pre-**

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

**application submission.** Applicants are encouraged to develop pre-application and full application components concurrently and submit a full application AFTER successful submission of the pre-application.

### 6.3.2. Full Application

All applications are evaluated by scientists, clinicians and consumers in a two-tier review process. The first tier is **peer review**, the evaluation of applications against established criteria to determine technical merit, where each application is assessed for its own merit, independent of other applications. The second tier is **programmatic review**, a comparison-based process in which applications with high scientific and technical merit are further evaluated for programmatic relevance. Final recommendations for funding are subject to review and approval by a designated official. **The highest-scoring applications from the first tier of review are not automatically recommended for funding. Funding recommendations depend on various factors as described in [Section 6.2.3, Programmatic Review](#).** Additional information about the two-tier process used by the CDMRP can be found on the [CDMRP website](#).

Funding of applications received is contingent upon the availability of federal funds for this program, the number of applications received, the quality and merit of the applications as evaluated by peer and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a [limited time period](#) based on the fiscal year of the funds.

### 6.4. Risk, Integrity and Performance Information

Prior to making an assistance agreement award where the federal share is expected to exceed the simplified acquisition threshold, as defined in the Code of Federal Regulations, Title 2, Part 200.1 (2 CFR 200.1), over the period of performance, the federal awarding agency is required to review and consider any information about the applicant that is available in the SAM.

An applicant organization may review the SAM and submit comments on any information currently available about the organization that a federal awarding agency previously entered. The federal awarding agency will consider any comments by the applicant, in addition to other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics and record of performance under federal awards when determining a recipient's qualification prior to award, according to the qualification standards of the Department of Defense Grant and Agreement Regulations (DoDGARs), Section 22.415.

In accordance with National Security Presidential Memorandum-33 and all associated laws, all fundamental research funded by the DOW must be evaluated for affiliations with foreign entities. All applicant organizations must disclose foreign affiliations of all key personnel named on applications. Failure to disclose foreign affiliations of key personnel shall lead to withdrawal of recommendations to fund applications. Applicant organizations may be presented with an opportunity to mitigate identified risks, particularly those pertaining to influence from foreign entities specified in law. Implementation of mitigation discussions and utilization of the [DOD Component Decision Matrix](#) must decrease risk of foreign influence in accordance with the above-mentioned laws and guidance prior to award.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
Application Review Information | [Federal Award Notices](#) | Post-Award Requirements | Other Information

## 7. Federal Award Notices

For each compliant full application received, the organizational representative(s) and PI will receive email notification when the funding recommendations are posted to eBRAP, typically within 6 weeks after programmatic review. At this time, each PI will receive a peer review summary statement on the strengths and weaknesses of the application and an information paper describing the application receipt and review process for the NFRP award mechanisms. The information papers and a list of organizations and PIs recommended for funding are also posted on the program's page within the CDMRP website. After all awards are made, the CDMRP includes individual award information in a searchable [database](#).

If an application is recommended for funding, after the email notification is posted to eBRAP, a government representative will contact the person authorized to negotiate on behalf of the recipient organization.

***Only an appointed DHACA Grants Officer may obligate the government to the expenditure of funds to an extramural organization.*** No commitment on the part of the government should be inferred from discussions with any other individual. ***The award document signed by the Grants Officer is the official authorizing document (i.e., assistance agreement).***

***Intragovernmental obligations of funding will be made according to the terms of a negotiated Inter-Agency Agreement and managed by a CDMRP Science Officer.***

Funding obligated to ***intragovernmental and intramural DOW organizations*** will be sent through the Military Interdepartmental Purchase Request (MIPR), Funding Authorization Document (FAD) or Direct Charge Work Breakdown Structure processes. Transfer of funds is contingent upon appropriate safety and administrative approvals. Intragovernmental and intramural DOW investigators and collaborators must coordinate receipt and commitment of funds through their respective Resource Manager/Task Area Manager/Comptroller or equivalent Business Official. 

An organization may, at its own risk and without the government's prior approval, incur obligations and expenditures to cover costs up to 90 days before the beginning date of the initial budget period of a new award.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

# 8. Post-Award Requirements

## 8.1. Administrative and National Policy Requirements

Applicable requirements in the DoDGARs found in 32 CFR, Chapter I, Subchapter C, and 2 CFR, Chapter XI, apply to grants and cooperative agreements resulting from this program announcement.

The GAI contain information regarding [administrative requirements](#) and [national policy requirements](#).

Refer to full text of the latest [DoD R&D Terms and Conditions](#) and the [DHACA Terms and Conditions](#) for further information.

***If there are delinquencies in technical reporting requirements for any existing DHA or U.S. Army Medical Research and Development Command awards at the applicant organization, DHACA will not issue any new awards to the applicant organization until all delinquent reports have been submitted.***

Applications recommended for funding that involve animals, human data, human specimens, human subjects or human cadavers must be reviewed for compliance with federal animal and/or human subjects protection requirements and must be approved by the DHA R&D ORRC, prior to implementation. This administrative review requirement is in addition to the local IACUC, IRB or Ethics Committee (EC) review.

## 8.2. Reporting

Annual technical progress reports as well as a final technical progress report will be required. Annual and final technical progress reports must be prepared in accordance with the Research Performance Progress Report (RPPR).

The Award Terms and Conditions will specify whether additional and/or more frequent reporting is required.

**Award Expiration Transition Plan:** An [Award Expiration Transition Plan](#), using the template available on eBRAP, must be submitted with the final progress report. The Award Expiration Transition Plan must outline whether and how the research supported by this award will progress and must include source(s) of funding, either known or pending.

**PHS Inclusion Enrollment Reporting (required for research proposing clinical research):** Enrollment reporting on the basis of sex, race, and/or ethnicity will be required with each annual and final progress report. The [PHS Inclusion Enrollment Report](#) is available on eBRAP.

Awards resulting from this program announcement may entail additional reporting requirements related to recipient integrity and performance matters. Recipient organizations that have federal contract, grant and cooperative agreement awards with a cumulative total value greater than \$10M are required to provide information to the SAM about certain civil, criminal and administrative proceedings that reached final disposition within the most recent 5-year period and that were connected with their performance of a federal award. These recipients are required to disclose, semiannually, information about criminal, civil and administrative proceedings as specified in the applicable [Representations](#).

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

### 8.3. Additional Requirements

Unless otherwise restricted, changes in the PI or organization will be allowed on a case-by-case basis, provided the intent of the award mechanism is met.

An organizational transfer of an award supporting an Initiating PI or Partnering PI is discouraged and will be evaluated on a case-by-case basis.

An organizational transfer of an award will not be allowed in the last year of the original period of performance or any extension thereof.

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements  
Application Review Information | Federal Award Notices | Post-Award Requirements | [Other Information](#)

# 9. Other Information

## 9.1. Program Announcement Version

Questions related to this program announcement should refer to the program name, the program announcement name and the program announcement version code CD26\_01d.

## 9.2. Administrative Actions

After receipt of full applications, the following administrative actions may occur.

### 9.2.1. Rejection

The following will result in administrative rejection of the full application:

- The Project Narrative is missing.
- The Budget is missing.
- The pre-application was not submitted.
- The Synergy Statement is missing ([Attachment 8](#)).
- Failure to submit all associated components (Initiating PI and each Partnering PI) by the application submission deadline.

### 9.2.2. Modification

- Pages exceeding the specified limits will be removed prior to reviewing all documents.
- Documents not requested will be removed.

### 9.2.3. Withdrawal

The following may result in administrative withdrawal of the full application:

- A member of the FY26 NFRP Programmatic Panel is named as being involved in the development or execution of the research proposed or is found to have assisted in the pre-application or application processes.
- The application includes the name(s) of personnel from either of the CDMRP peer or programmatic review companies for which conflicts cannot be adequately mitigated. For FY26, the identities of the peer review contractor and the programmatic review contractor may be found on the [CDMRP website](#).
- Personnel from the applicant or collaborating organizations are found to have contacted persons involved in the review or approval process to gain protected evaluation information or to influence the evaluation process.
- The application from an extramural organization, including non-DOW federal agencies, is received through eBRAP.
- The federal government recipient organization (including an intramural DOW organization):  
(a) cannot accept and execute the entirety of the requested budget in FY26 funds; and/or

## Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements

(b) cannot coordinate the use of contractual, assistance or other appropriate agreements to provide funds to collaborators.

- The application fails to conform to this program announcement description.
- The application includes URLs, with the exception of links in the References Cited and Publication and/or Patent sections.
- The application includes research data that are classified and/or proposes research that may produce classified outcomes, or outcomes deemed sensitive to national security concerns.
- The same research project is submitted to different funding opportunities within the same program and fiscal year.
- The application does not include preliminary and/or published data that are relevant to NF and the proposed research project.
- The application fails to demonstrate access to relevant study population or resources.
- A clinical trial is proposed.
- Failure to submit all associated (Initiating and each Partnering PI) application components by the submission deadline.
- The application does not address at least one of the [FY26 NFRP Areas of Emphasis](#).
- An investigator may be named as a PI or partnering PI on a single application to this program announcement. If an investigator is named multiple times as a PI, only the first application received will be accepted; additional applications will be administratively withdrawn.

### 9.2.4. Withhold

Applications that appear to involve research misconduct will be administratively withheld from further consideration pending organizational investigation. The organization will be required to provide the findings of the investigation to the DHACA Grants Officer for a determination of the final disposition of the application.
