2. Executive Summary

The U.S. Department of State’s U.S. Mission New Zealand announces an open competition to implement a program to advance U.S.-Cook Islands and U.S.-Niue maritime cooperation,

economic and cultural ties. The program is intended to support local solutions and build local capacity to:

1. Increase economic linkages with the United States
2. Promote long-term economic prosperity through natural resource management
3. Reduce threats against the United States and the Pacific region.

Projects are encouraged to include a plan to build capacity and technical expertise among local communities and organizations.

Projects may address one or more of the following areas, but are not strictly limited to the following topics:

- Increasing economic linkages with the United States through exchange, education, work, and trade promotion programs;
- Promoting long-term prosperity by incorporating best practices for natural resource management;
- Advancing U.S.-Cook Islands and U.S.-Niue cooperation to enhance safety, especially in digital media, information technology, emergency preparedness, artificial intelligence, maritime, health, and other related sectors.

Projects may propose activities targeted through this solicitation in the following countries: Cook Islands and Niue.

This Annual Program Statement (APS) will help promote community-led solutions to advance U.S.-Cook Islands and U.S.-Niue economic and cultural ties, and strengthen cooperation by providing targeted funding for small-scale projects.

Grants funded under this APS will advance U.S. engagement in the Pacific Islands and contribute to the U.S. Department of State's Agency Strategic Plan 2026-2030 for a free and open Indo-Pacific region.

Through this program, local communities, CSOs, NGOs, universities, ministries, and faith-based religious institutions may seek resources and harness locally led solutions. Projects should seek to meet local or regional needs, involve local expertise and know-how in the design and implementation phases of the project, and should build monitoring and evaluation – including time-bound milestones for performance/results into the project. Projects may serve to implement discrete phases of larger projects or programs (i.e. one country of a multi-country program, only the public education phase of a law enforcement project, cyber safety program in only one region of a country-wide program, only a wharf mapping feasibility study of a broader ocean resource management program, etc.)

C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

The Public Diplomacy Section invites proposals for programs that support one of the following U.S. Mission New Zealand priority program areas listed below.

Examples of Public Diplomacy Small Grants Program programs include, but are not limited to:

- Academic and professional lectures, seminars, and speaker programs;
- Artistic and cultural workshops, joint performances, and exhibitions;
- Professional and academic exchanges and programs.

Priority Program Areas/Goals: Applicants may submit a proposal to address one of the program goals below. Proposals should focus on one or more of the priority outcomes, but applicants may also recommend their own objective.

Goal 1. Increase economic linkages to the United States

To expand on existing commercial collaboration and develop new connections for businesses in the United States, Cook Islands, Niue and the Pacific region, economic linkages need to be maximized and increased. Collaboration and cooperation between the United States, Cook Islands, and Niue is essential to achieving this.

For example, a past project supported by the Public Diplomacy Section that addressed this theme included the implementation of an Arizona State University curriculum in Niue and Cook Islands by local NGOs in partnership with national chambers of commerce to enable aspiring and local entrepreneurs to develop practical business plans to start, register and scale businesses. Best practices from this course include supporting local solutions, building local capacity, maximizing U.S. expertise and curricula, and engaging across sectors of public, private and civil society.

Project Audience(s): Primary beneficiaries of the project must be those based in the Cook Islands or Niue. Audiences may include local entrepreneurs and small businesses who are the engines of economic growth and job creation; chambers of commerce and business associations who serve as bridges between local businesses and U.S. counterparts; government trade and investment agencies responsible for trade, investment, and economic development; young people interested in entrepreneurship or international business; tourism sector stakeholders; export-oriented producers such as agriculture, fisheries, and handicrafts; or civil society organizations supporting economic development.

Priority Outcomes(s): Applicants may focus on one or more of the outcomes listed below. Applicants are encouraged to propose additional objectives and innovative activities that address the priority program areas.

1. Increased awareness of economic linkages between the U.S., Cook Islands, Niue, and/or Pacific
2. Improved knowledge of best practices for commercial collaboration, including greater awareness of U.S. solutions for products and services for Cook Islands- and Niue-based companies.
3. Improved ability to trade, partner, and develop business connections with the United States
4. More positive attitudes towards the United States, Cook Islands, and Niue economic linkages

5. Strengthened relationships between the United States, Cook Islands, Niue, and the Pacific

Goal 2. Promote Long-Term Economic Prosperity Through Natural Resource Management

To achieve long-term economic prosperity for the United States, Cook Islands, Niue and the Pacific region, best practices for natural resource management need to be shared and maximized. Collaboration and cooperation between the United States, Cook Islands, and Niue is essential to achieving this.

For example, a past project supported by the Public Diplomacy Section that addressed this theme included hosting a series of marine science workshops for local young professionals led by National Geographic explorers that equipped the next generation with U.S. technology to study and manage the ocean economy, raise awareness through new media, and brief senior governmental officials on findings. Best practices from the marine science workshops include supporting local solutions, building local capacity, maximizing U.S. expertise and technology, and engaging across sectors of public, private and civil society.

Project Audience(s): Primary beneficiaries of the project must be those based in the Cook Islands or Niue. Audiences may include local communities and traditional leaders who are stewards of land and marine resources; government agencies and policymakers who are responsible for fisheries, agriculture and tourism policy; youth and educational institutions who are future leaders and resource managers; civil society organizations and NGOs who have deep ties and technical expertise; or private sector stakeholders involved in tourism, fishing, agriculture, and related sectors.

Priority Outcomes(s): Applicants may focus on one or more of the outcomes listed below. Applicants are encouraged to propose additional objectives and innovative activities that address the priority program areas.

1. Increased awareness of U.S., Cook Islands, Niue, and/or Pacific best practices for natural resource management
2. Improved knowledge of best practices for natural resource management
3. Improved ability to manage natural resources
4. More positive attitudes towards the United States, Cook Islands, and Niue natural resource management
5. Strengthened relationships between the United States, Cook Islands, Niue, and the Pacific

Goal 3. Reduce threats against the United States and Pacific region

There are increased threats in the Pacific region to vital lanes of commerce, digital connectivity, maritime domain awareness, and in the health sectors. To reduce threats against the United States, the Cook Islands, Niue, and the Pacific region it is essential to enhance cooperation in safety, especially in digital media, information technology, emergency preparedness, artificial intelligence, maritime cooperation, health, and other related sectors. Collaboration and cooperation between the United States, Cook Islands, and Niue is essential to achieving this.

For example a past project supported by the Public Diplomacy Section that addressed this theme included a regional workshop for civil registrars in Cook Islands, Niue, Tokelau, Samoa, American Samoa, Tonga and Vanuatu to develop practical plans to use U.S. technology and innovation to strengthen identity security across the region, specifically how to share birth and death data across borders to prevent identity fraud and illegal immigration. Best practices from this regional workshop include supporting local and regional solutions to build local capacity, joint collaboration and coordination that resulted in tangible plans for increasing security, maximizing U.S. expertise and technology, and engaging across sectors of public and civil society.

Project Audience(s): Primary beneficiaries of the project must be those based in the Cook Islands or Niue. Audiences may include agencies responsible for safety, maritime authorities, information technology agencies and personnel responsible for protecting digital assets; regional organizations; or civil society organizations focused on safety and resilience such as community groups involved disaster prevention, public health, and resilience-building.

Priority Outcomes(s): Applicants may focus on one or more of the outcomes listed below. Applicants are encouraged to propose additional objectives and innovative activities that address the priority program areas.

1. Increased awareness of challenges and solutions to safety-related issues in the U.S., the Cook Islands, Niue, and/or Pacific region.
2. Improved knowledge of best practices for enhancing cooperation in safety-related fields as outlined above.
3. Improved resilience in digital media, information technology, emergency preparedness, artificial intelligence, maritime cooperation, health, and other related sectors.
4. More positive attitudes towards cooperation between the United States, the Cook Islands, and Niue.
5. Strengthened relationships between the United States, the Cook Islands, Niue, and the Pacific.

- approval of significant changes to project scope, objectives, or deliverables

D. APPLICATION CONTENTS AND FORMAT

Please follow all instructions below carefully. Proposals that do not meet the requirements of this announcement or fail to comply with the stated requirements will be ineligible.

Content of Application

Please ensure:

- The proposal clearly addresses the goals and objectives of this funding opportunity
- All documents are in English
- All budgets are in U.S. dollars
- All applicant authorized signatures are provided where indicated on the various, required forms.

The following documents are **required**:

1. Mandatory application forms

2. Proposal (5 pages maximum)

The proposal should contain sufficient information that anyone not familiar with it would understand exactly what the applicant wants to do. You may use your own proposal format, but it must include all the items below.

- **Proposal Summary:** Short narrative that outlines the proposed project, including project objectives and anticipated impact.
- **Introduction to the Organization or Individual applying:** A description of past and present operations, showing ability to carry out the program, including information on all previous grants from the State Department and/or U.S. government agencies as well as experience with and expertise in areas related to those described in this Annual Program Statement.
- **Problem Statement:** Clear, concise and well-supported statement of the problem to be addressed and why the proposed program is needed
- **Program Methods, Design, Activities, and Deliverables:** The “goals” describe what the program is intended to achieve. The “objectives” refer to the intermediate accomplishments on the way to the goals. These should be achievable and measurable. Describe the program activities and how they will help achieve the objectives.
- **Proposed Project Schedule and Timeline:** The proposed timeline for the program activities. Include the dates, times, and locations of planned activities and events.
- **Key Personnel:** Names, titles, roles and experience/qualifications of key personnel involved in the program. What proportion of their time will be used in support of this program?
- **Project Partners:** List the names and type of involvement of key partner organizations and sub-awardees (if applicable).

- **Future Funding or Sustainability** Applicant’s plan for continuing the program beyond the grant period, or the availability of other resources, if applicable.
- **Monitoring & Evaluation Plan:** Proposals must include a draft Monitoring and Evaluation (M&E) Performance Monitoring Plan (PMP). The M&E PMP should show how applicants intend to measure and demonstrate progress towards the project’s objectives and goals. Attachment PDS NZ Monitoring Indicator Table of this funding opportunity contains a template that may be used to fulfill this requirement. While the grantee is free to create their own template, completing Attachment PDS NZ Monitoring Indicator Table will ensure a thorough PMP.

The key components to the PMP are as follows:

- **Monitoring and Evaluation Narrative:** In narrative form, applicants should describe how they intend to monitor and evaluate the activities of their award. In addition, the applicant should describe any M&E processes, including key personnel, management structure (where M&E fits into the overall program’s staff structure), technology, and as well provide a brief budget narrative explaining any line-item expenditures for M&E listed in the program’s budget. If the proposal is from a prior grantee, the proposal discusses how the grantee has adapted, improved or otherwise modified their approach based on learning from previous experience. This narrative is limited to two pages.
- **Theory of Change Diagram:** Applicants are expected to submit either a Theory of Change diagram or an If-Then Statement that illustrates how project activities will lead to intended outcomes. Attachment PDS NZ Logic Model and Theory of Change Worksheet includes a suggested format for these requirements.
- **Monitoring and Evaluation Datasheet:** The applicant must include their proposed activities and their expected outputs and outcomes as well as the goals and objectives as written in the APS. The datasheet’s purpose is to explicitly illustrate how a project’s activities lead to tangible results (such as increased beneficiary skills, knowledge, or attitudes) that ultimately address a PDS objective.
- The selected applicant’s M&E PMP is subject to review and approval before any award will be issued under this APS. The selected applicant will be required to work with Public Diplomacy Section’s Monitoring and Evaluation Specialist to ensure the applicant’s M&E PMP achieves an expected level of expertise and meets PDS objectives.
- Expenses directly associated with monitoring and evaluation are considered allowable. The suggested template includes a space to list the portion of the total budget amount directly associated with monitoring and evaluation activities.

3. *Budget Justification Narrative*

- **Detailed Budget** - Applicants must submit a detailed line-item budget. Applicants are encouraged to utilize the template provided with the funding opportunity but are not required to do so (Attachment PDS NZ Budget Sample Template). Line-item expenditures should be listed in the greatest possible detail. The budget must identify the total amount of funding requested, with a breakdown of amounts to be spent in the following budget categories: personnel; fringe benefits; travel; equipment; supplies; consultants/contracts; other direct costs; and indirect costs. See Annex Section I for a description of the types of costs that should be included in each category. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If an organization is charging an indirect cost rate without a NICRA, it must apply it to the modified total budget costs (MTDC), refer to 2CFR§[200.1](#). **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.
- **Budget Justification Narrative** – Applicants must submit a budget justification narrative to accompany the detailed line-item budget. The purpose of the budget justification narrative is to supplement the information provided in the detailed budget spreadsheet by justifying how the budget cost elements are necessary to implement project objectives and accomplish the project goals. The budget justification narrative is a tool to help Embassy staff fully understand the budgetary needs of the applicant and is an opportunity to provide descriptive information about the requested costs beyond the constraints of the budget template. Together, the detailed budget spreadsheet, the budget justification narrative, and the SF-424A should provide a complete financial and qualitative description that supports the proposed project plan and should be directly relatable to the specific project components described in the applicant’s proposal.

Additional Budget Notes: Applicants who use Attachment PDS NZ Budget Sample Template, may include their budget justification narrative in that attachment. Applicants who use an alternative method, such as Attachment PDS NZ Detailed Budget Template - No Narrative, will need to provide a separate budget justification narrative document.

1. *Review Criteria*

Criteria: Each application submitted under this announcement will be evaluated and rated on the basis of the criteria enumerated below. The criteria are designed to assess the quality of the proposed project, and to determine the likelihood of its success.

- € **Quality and Feasibility of the Program Idea** – 30 points: The program idea should be innovative and well developed, with sufficient detail about how project activities will be carried out. The proposals should demonstrate originality and outline clear, achievable objectives that align directly with the priorities and requirements of the APS. The proposal includes a reasonable implementation timeline, and the project scope is appropriate and clearly defined. Finally, the proposal aligns with the following:
 - o The project clearly demonstrates a direct contribution to current U.S. foreign policy priorities.
 - o The project will positively impact America’s reputation among foreign government partners.
 - o The project will positively impact American’s reputation among foreign publics.
 - o The proposal does not include any activities contrary to the following Executive Orders:

 - Executive Order 14287: "[Protecting American Communities from Criminal Aliens](#)"
 - Executive Order 14168: "[Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government](#)

- € **Organizational Capacity and Record on Previous Grants** – 25 points:

- The project proposal demonstrates that the organization has sufficient expertise, skills, and human resources to implement the project, including internal controls in place to manage federal funds.
 - The organization demonstrates that it has a clear understanding of the underlying issue that the project will address.
 - The organization demonstrates capacity for successful planning and responsible fiscal management. This includes a financial management system, a bank account, and if applicable, satisfactory audit findings.
 - Applicants who have received grant funds previously have been compliant with applicable rules and regulations, including the Award Provisions and Standard Terms and Conditions.
 - Where partners are described, the applicant details each partner's respective role and provides curriculum vitae (CVs) for persons responsible for the project and financial administration. Proposed personnel, institutional resources, and partners are adequate and appropriate.
- **Project Planning/Ability to Achieve Objectives** – 20 points: The project plan is well developed, with sufficient detail about how activities will be carried out. The proposal specifies target audiences, participant recruitment, and geographic areas of implementation. The proposal outlines clear, achievable objectives. The proposal includes a reasonable implementation timeline. The project scope is appropriate and clearly defined.
 - **Budget** – 10 points: The budget and narrative justification are sufficiently detailed. The budget demonstrates that the organization has devoted time to accurately determine expenses associated with the project instead of providing rough estimates. Costs are reasonable in relation to the proposed activities and anticipated results. The results and proposed outcomes justify the total cost of the project. Budget items are reasonable, allowable, and allocable.
 - **Monitoring and Evaluation** - 10 points: There is a complete and thorough draft submission of a M&E Performance Monitoring Plan (PMP). This will include a list of proposed project activities, corresponding milestone, output, and outcome indicators, a description of data collection methods, and a timeline for collecting such information. The proposal presents a clear theory of change on how the program will address that problem. Use of the suggested template will satisfy these requirements. Funded projects will have their plans finalized during the negotiation phase, and monitoring plans may be subject to periodic updates throughout the life of the project.
 - **Sustainability** – 5 points: The project proposal describes clearly the approach that will be used to ensure maximum sustainability or advancement of project goals after the end of project activity.

2. *Indirect Costs*

If two or more applications receive equivalent scores based on the evaluation criteria outlined in this APS, preference will be given to the applicant with the lower indirect cost rate, as consistent with Executive Order 14332, Section 4(b)(iii). This preference will only be applied as a tie-breaking mechanism and does not supersede the primary evaluation criteria.

3. Review and Selection Process

- a. Acknowledgement of receipt. Applicants will receive acknowledgment of receipt of their proposal.
- b. Review. All submissions are screened for technical eligibility. **If a submission is missing any required forms/documents listed above in [Section D. Application Contents and Format](#), it will be considered ineligible and will not be reviewed by the grants review committee.** A technical review panel will review eligible proposals based upon the criteria noted in this APS.
- c. Follow up notification. Applicants will generally be notified within 120 days after the APS deadline regarding the results of the review panel.

2. Risk Review

- i. Under the merit review as required by 2 CFR 200.206, prior to making a Federal Award the Department will review and consider the following risk factors:
 - a. Financial stability
 - b. Management systems and standards
 - c. History of performance
 - d. Audit reports and findings
 - e. Ability to effectively implement project requirements
- ii. High Risk Designation

Awardees that are deemed to be high risk based on the above risk factors will be held to special award conditions. At a minimum, the recipient and/or project designated as High Risk will be required to submit monthly narrative reports and/or quarterly detailed financial reports. Recipients may also be required, upon request of the Grants Officer or Grants Officer Representative, to provide electronic copies of receipts or other supporting documentation (e.g., timesheets, travel documents) for costs incurred. The recipient may be required to pay all salaries supported by the grant via electronic funds transfer. Other special award conditions may also be included if deemed appropriate by the Grants Officer.

G. AWARD NOTICES

The award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The award agreement is the authorizing document, and it will be provided to the recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this APS does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

The award document will specify what reports are required and how often these reports must be submitted. **Note:** most recipients will be required to submit quarterly program progress and financial reports throughout the project period. The quarterly progress report should include an up-to-date copy of the PMP datasheet. Progress and financial reports are due 30 days after the reporting period. The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Successful applicants will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, typically program or sector and/or regions or country, the successful applicant will be required to maintain separate accounting records.

I. OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in [2 CFR 200.1](#).

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.

STEP Enrollment
