2. Executive Summary

The U.S. Department of State's U.S. Embassy Kyiv announces an open competition to implement a program to build Ukraine's capacity to support wounded veterans through adaptive sports by leveraging American leadership, innovation, and expertise in sport. Capitalizing on President Trump's announcement of the Decade of Sports (2024–2034) and the United States' role as host of global sporting events – including the 2026 FIFA World Cup and the 2028 Olympic Games – this award harnesses the unifying power of American sport to advance rehabilitation, strengthen partnerships, and project American leadership. By strengthening institutional capacity to deliver long-term sports programs nationwide, the program will ultimately rehabilitate and reintegrate veterans living across Ukraine. Veterans will emerge with tools and networks needed to drive Ukraine's recovery solidifying the United States' role as a leader in Ukraine. The successful program will deliver results through activities such as specialized athletic clinics, sports-focused English language programming, and/or adaptive sports tournaments. By demonstrating the benefits of American athletic models, the project will expand the reach of adaptive sports as a tool for rehabilitation and strengthen U.S.-Ukraine cooperation.

C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

The full-scale invasion in February 2022 has created significant human and economic challenges for Ukraine, leaving tens of thousands of veterans requiring rehabilitation, new skills, and pathways to meaningful employment. Supporting returning veterans across the country is essential to help Ukraine build a resilient workforce, reduce long-term dependence on foreign assistance, and advance a stable, secure, and economically self-sufficient future. Ukraine faces a need to support returning veterans in regions throughout the country. The United States is uniquely poised to support these efforts as a global leader in adaptive sports with proven models and practices that reintegrate veterans into the community.

This award leverages American expertise in sport to support Ukraine's rehabilitation while promoting strategic collaboration between the United States and Ukraine. It aligns with President Trump's Decade of Sports (2024–2034), which highlights American excellence in athletics, sports diplomacy, and innovation and economic growth. Hosting the 2026 FIFA World Cup and the 2028 Olympic and Paralympic Games provides an historic opportunity to showcase American leadership in sports, innovation, accessibility, and community engagement.

Over the past year, the U.S. Embassy Kyiv has strengthened cooperation with Ukrainian sports organizations through public diplomacy programs, professional exchanges, partnerships with

American institutions, and initiatives that introduce U.S. expertise in adaptive sports and rehabilitation. Building on these efforts, the Embassy seeks to expand opportunities that highlight the contributions of Ukrainian veterans to the country's recovery and long-term prosperity while advancing the United States' commitment to supporting resilient partners.

All projects should build on or establish formal institutional linkages, peer-to-peer mentorship, or exchange frameworks between Ukrainian entities and U.S.-based adaptive sports organizations, university sports science departments, or VA-affiliated adaptive sports networks. Applicants should collaborate with U.S. entities specialized in adaptive sports or American adaptive sports professionals to build programs based on American methods and expertise in adaptive sports.

Projects can support one or more of the following focus areas:

- Adapt and scale existing programs for adaptive sports to oblasts in and beyond Kyiv to establish community-level capacity;
- Integrate a holistic model of mental health and psychosocial support to physical training;
- Increase the English language capacity for adaptive sports professionals to facilitate direct knowledge exchange and international competition participation;
- Build a cadre of regional and adaptive sports coaches and administrators through specialized training proven U.S.-aligned curricula and certificate standards;
- Connect adaptive sports training to post-military transition, workforce readiness, and community leadership;
- Increase regional availability of adaptive sports equipment through U.S. technical assistance in equipment customization, local maintenance capacity, or low-cost/locally fabricable adaptive technology designs.

Project Audience(s): Ukrainian professionals working in rehabilitation and adaptive sports, seeking to strengthen practical skills, improve their sports-related English-language proficiency and engage with American best practices in rehabilitation, adaptive sports, and community reintegration.

Secondary Audience: Wounded veterans in Ukraine. The participants must be able to attend in-person programming and take part in adaptive sports activities.

Project Goal: To strengthen Ukraine's capacity to rehabilitate and reintegrate veterans by expanding adaptive sports programming based on American models and best practices. This initiative advances U.S. leadership in sports diplomacy, promoting collaboration, and reinforcing the long-term strategic cooperation between the United States and Ukraine.

Project Objectives:

Applicants should explain time-bound metrics for each objective covered.

Objective 1. Improve capacity of coaches and/or service providers to support veterans' physical and mental well-being.

- Train regional coaches and/or service providers teaching methods in adaptive sports based on U.S. best practices, and issue local certificates so trained professionals can continue teaching others after the project ends.

- Equip regional coaches and/or service providers with English language skills or mental health and psychosocial support tools to strengthen their ability to work effectively with veterans in adaptive sports.

Objective 2. Expand participation in adaptive sports in regions of Ukraine.

- Adapt and scale existing adaptive sports programs to a defined number of oblasts beyond Kyiv, establishing community-level infrastructure and program delivery capacity;
- Increase the number of veterans in respective regions who receive adaptive sports training, based on American methods and practices.

Objective 3. Increase awareness of U.S. excellence in adaptive sports.

- Organize at least one adaptive sports tournament showcasing the results of the program.
- Produce and disseminate promotional and informational materials (e.g., success stories, media features, social media content) highlighting the U.S. excellence in adaptive sports and outcomes of the project.

2. Substantial Involvement

The U.S. Embassy Kyiv will be substantially involved in the design, oversight, and strategic direction of the program to ensure alignment with U.S. foreign policy priorities and public diplomacy objectives. The Embassy will review and approve key project components, including work plans, curricula, branding, outreach strategies, and selection criteria for participants and U.S.-based experts. The Embassy will recommend relevant U.S. government resources and facilitate connection with American Spaces as venues for program development and delivery.

The Embassy will monitor program implementation and performance through regular reporting, meetings, and site visits (as feasible), and will provide feedback to ensure quality and impact.

The Embassy will support visibility and strategic communications, including amplification through official platforms when possible. The Embassy will provide guidance on messaging, branding, and public diplomacy aspects of the program to ensure consistency with U.S. government communications strategies and maximize the program's impact on perceptions of U.S. innovation leadership.

I. OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in [2 CFR 200.1](#).

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.

STEP Enrollment

U.S. citizens who travel to Ukraine are encouraged to enroll in the Department of State's Smart Traveler Enrollment Program (STEP) available at: <https://step.state.gov/step/>.
