

Clarification Notice

HRSA-23-125, Rural Health Care Coordination Program

The following was added to the FAQs for this NOFO to clarify the requirement for a preliminary evaluation plan. The full FAQs document may be accessed on the HRSA website.

Could you assist me in understanding how to comply with the guidance related to the “preliminary evaluation plan”?

Pages 17 and 29 - For the **preliminary evaluation plan**, please include in your Project Narrative an approach for assessing the network’s progress towards achieving the desired outcomes. Describe how to track, measure, evaluate, and communicate progress toward meeting award-funded goals, and the process you will use to create a robust self-evaluation plan. **Refer to Evaluation and Technical Support Capacity section on page 17 for details.** Also, please refer to the Criterion 3 Evaluative Measures in the Program NOFO (page 29). A preliminary evaluation plan does not need to be in a separate attachment as previously noted in the NOFO.
