Section 1. Project Summary

PROJECT GOALS AND OBJECTIVES

Project Goals

- Restore the trail to remove safety issues associated with trail
- Provide long-term trail stabilization of trail surface and associate components
- Protect cultural and natural resources from erosion and soil loss

Project Objectives

STATEMENT OF PUBLIC PURPOSE

This project will benefit the public by enhancing the ability to use the trail system safely for recreational purposes and providing a more enjoyable experience for the visitor. The 7-member intern crew involved in this project will gain "hands-on" experience in the proper rehabilitation and protection techniques for stabilizing and maintaining trail systems. The hands-on training will include appropriate techniques to improve water control and drainage to prevent further erosion and soil loss, thus minimizing the impact on Mammoth Cave National Park's cultural and natural resources. The rehabilitation and repair project conducted will directly contribute to the public and interns', understanding of the cultural and natural resources, and will promote resource stewardship principles within the crews participating in the project.

STATEMENT OF WORK SUMMARY

An intern crew will repair heavily used trails by improving water drainage, removing tripping hazards, and building a durable trail surface. These improvements will make the trails safer for the public and will reduce soil erosion to protect nearby streams. The crew will learn hands-on trail building skills, develop the ability to work as a team, and learn about park resource protection.

Section 3. Single Source Justification

NATIONAL PARK SERVICE
SINGLE SOURCE POLICY REQUIREMENTS

National Park Service Policy FAP&P 1443-2015-06 requires a written justification which explains why competition is not practicable. The justification must address one of the following criteria.

In order for an assistance award to be made without competition, the award must satisfy one or more of the following criteria:

(1) Unsolicited Proposal – The proposed award is the result of an unsolicited assistance application which represents a unique or innovative idea, method, or approach which is not the subject of a current or planned contract or assistance award, but which is deemed advantageous to the program objectives. The unsolicited proposal must demonstrate an innovative capability or concept not currently available to the government, and prepared without Government involvement. ;

(2) Continuation – The activity to be funded is necessary to the satisfactory completion of, or is a continuation of, an activity presently being funded, for which competition would have a significant adverse effect on the continuity or completion of the activity;

(3) Legislative intent – The language in the applicable authorizing legislation or legislative history clearly indicates Congress' intent to restrict the award to a particular recipient of purpose;

(4) Unique Qualifications – The applicant is uniquely qualified to perform the activity based upon a variety of demonstrable factors such as location, property ownership, voluntary support capacity, technical expertise, or other such unique qualifications. Successful past performance, familiarity with existing requirements, capabilities that can be obtained or matched by a competitor, or a positive reputation, are not considered to be unique qualifications.

(5) Emergencies – Program/award where there is insufficient time available (due to a compelling and unusual urgency, or substantial danger to health or safety) for adequate competitive procedures to be followed.
