UPDATE/CLARIFICATION

Early Childhood Comprehensive Systems: Health Integration Prenatal-to-Three

Funding Opportunity Number: HRSA-21-078

Assistance Listings (CFDA) Number: 93.110

Date: March 1, 2021

Title: Clarification regarding the required *Attachment 6: Project Performance and Outcome Measures*

Below, HRSA is providing additional clarification regarding *Attachment 6: Project Performance and Outcome Measures*, where you are instructed to provide a list of selected custom process and outcome measures that you will use for program monitoring and performance reporting and include expected data sources and established instruments you plan to use.

Information included in *Attachment 6* should align with the response provided in the **Project Narrative**. Narratives should respond to the requirements outlined in the NOFO on pages 20–22 (Narrative Section: Evaluation and Technical Support Capacity) and describe an overall strategy to monitor and evaluate project performance, including reporting on required data elements, which should include an overview of expected data sources and established instruments that may be used for program monitoring and evaluation (to the extent these are known). You may use *Attachment 6* to provide a preliminary, compiled list of all planned process and outcome measures, including any anticipated custom measures. Successful applicants will have the opportunity to refine these measures and their monitoring and evaluation strategy upon award.

Visit <https://mchb.hrsa.gov/earlychildhoodcomprehensivesystems> for technical assistance and [frequently asked questions](#). Agency contacts are in the notice of funding opportunity (NOFO).
