Notice of Funding Opportunity**

Funding Opportunity Title: *Evaluation of Cooperative Threat Reduction Programming in Iraq*
Funding Opportunity Number: *SFOP0005824*
Deadline for Applications: *Saturday June 1, 2019*
CFDA Number: *19.033*
Total Amount Available: *\$300,000*

A. PROGRAM DESCRIPTION

The Office of Cooperative Threat Reduction (CTR), part of the Department's Bureau of International Security and Nonproliferation (ISN), sponsors foreign assistance activities that seek to prevent proliferant states and terrorist groups from developing or acquiring WMD and delivery systems that could threaten the U.S. homeland and U.S. interests abroad.

ISN/CTR efforts include efforts to mitigate the threat of weapons of mass destruction (WMD) by a nonstate actor in Iraq through cooperative programmatic efforts. ISN/CTR efforts include training, equipment support, and other engagements, for stakeholders across Iraq. In order to implement counter-WMD threat reduction programming, ISN/CTR partners closely with a range of Iraqi Government counterparts, including security, industry, business, and academic stakeholders, as well as private industry and non-governmental organizations. The key objective for ISN/CTR's engagement in Iraq is empowering Iraqi partners to prevent, detect and respond to a WMD terrorist event by providing relevant training and equipment.

Priority Region: Iraq

Program Objectives:

For the current NOFO, ISN/CTR is seeking a new analysis and evaluation of its program work occurring from June 2014 – June 2019 in Iraq. This analysis will help provide ISN/CTR with a solid empirical basis to assess ISN/CTR's past programmatic effectiveness, devise new initiatives where needed, and choose among different activities to meet future programmatic needs.

No travel is required for this project. In addition to funds for development of a final report, submitted budgets should include funds for Arabic translation for assessment materials and for routine correspondence.

E. APPLICATION REVIEW INFORMATION

1. Criteria

Applicants should note that the following criteria serve as a standard against which all project proposals will be evaluated and identify significant considerations that should be addressed in all proposals. ISN/CTR will award a cooperative agreement to the applicant(s) whose offer represents the best overall value to the government from both a technical and cost perspective.

ISN/CTR will evaluate proposals against the stated criteria. Criteria are listed in descending order of importance.

- **Proposed Activity or Activities:** Applications should be responsive to the program framework and policy objectives identified in the solicitation, appropriate in the country/regional and organizational context, and should clearly describe what they propose to do and how they will do it. The proposed project(s) must directly relate to meeting the specified objectives and applicants should include specific information on how these objectives will advance ISN/CTR's mission. ISN/CTR will evaluate the project proposal in terms of how well it addresses the issues at hand, relevance and

feasibility of the proposed activities, the timeline for completion, and the extent to which the impact of the project will continue beyond the conclusion of the period of performance. (30)

- **Organizational Capability:** Applicants must demonstrate how their resources, capabilities, and experience will enable them to achieve the stated goals and objectives in an international technical context. The proposal(s) must identify all key partners and organizations that will be involved in implementation of this project. (25)
- **Budget:** Proposed costs will be evaluated for realism, fiscal control practices, and efficiency. ISN/CTR must be able to determine that proposed costs are reasonable, allowable, and allocable to the proposed project activities. ISN/CTR will evaluate the budget to determine if the overall costs are realistic for the work to be performed, if the costs reflect the applicant's understanding of the allowable cost principles established by 2CFR200, and if the costs are consistent with the program narrative. (15)
- **Past Performance:** In reviewing proposals, ISN/CTR will evaluate the organization's past performance on other federal and non-federal grants and cooperative agreements. This will include a review of whether objectives for past awards were met; whether the organization complied with the terms of conditions of past awards, including reporting and financial management requirements; and the timeliness of project implementation. (30)
