

U.S. Fish and Wildlife Service
Determination for Issuing a Single Source Financial Assistance Award

Instructions: In accordance with Service policy 516 FW 6, *Issuing Discretionary Grant and Cooperative Agreement Awards without Competition*, complete this form to document the justification for issuing a single source grant or cooperative agreement award. This form must be signed by both a program representative and the employee with signature authority for the award to be issued (see 516 FW 3, *Signature Authority for Grant and Cooperative Agreement Awards*). The completed and signed form must be maintained in the official award file.

Recipient Name: The Nature Conservancy
Project Title: Columbia and Remnant Dam Removals, Paulins Kill River, Warren County, New Jersey
Program Contact: Cathy Marion; Cathy_Marion@fws.gov

Select all criteria that apply (from 505 DM 2):

	(1) Unsolicited Proposal: The proposed award is the result of an unsolicited application that represents a unique or innovative idea, method, or approach that is not the subject of a current or planned award, but is found to be advantageous to program objectives.
	(2) Continuation: The activity to be funded is necessary for the satisfactory completion of, or is a continuation of, an activity we are funding and holding a competition would have a significant adverse effect on continuing or completing the activity.
	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
✓	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.
	(5) Emergencies: Because of a compelling and unusual urgency, or substantial danger to health or safety, there is not enough time to follow adequate competitive procedures.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

TNC's has acted as the lead non-governmental entity for the Columbia and Remnant Dam removal project since 2013, and has demonstrated a high level of proficiency in previous and ongoing project planning and management. TNC has provided in-kind and financial contributions for feasibility studies, 90% engineering design plans, permits, and has provided in-kind staff time and resources for ongoing scientific monitoring services. TNC has successfully acquired additional funds to support cost-sharing for this project, significantly reducing the overall cost of this project to the government. TNC has worked closely with and will continue to work with various state, Federal, private, and non-governmental partners who have provided technical expertise in science-driven dam removal, fish passage, and aquatic restoration projects in NJ. As such, TNC possesses the necessary skills and expertise to organize and complete the proposed project.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.

I, as the Service employee with signature authority for this award under 516 FW 3, have reviewed this program recommendation and find that it meets the requirements for a single source award.
