

U.S. Fish and Wildlife Service
Determination for Issuing a Single Source Financial Assistance Award

Instructions: In accordance with Service policy 516 FW 6, *Issuing Discretionary Grant and Cooperative Agreement Awards without Competition*, complete this form to document the justification for issuing a single source grant or cooperative agreement award. This form must be signed by both a program representative and the employee with signature authority for the award to be issued (see 516 FW 3, *Signature Authority for Grant and Cooperative Agreement Awards*). The completed and signed form must be maintained in the official award file.

Recipient Name: Redwood Community Action Agency

Project Title: Spartina Eradication and Control

Program Contact: Kurt Roblek, Deputy Refuge Manager

Select all criteria that apply (from 505 DM 2):

	(1) Unsolicited Proposal: The proposed award is the result of an unsolicited application that represents a unique or innovative idea, method, or approach that is not the subject of a current or planned award, but is found to be advantageous to program objectives.
✓	(2) Continuation: The activity to be funded is necessary for the satisfactory completion of, or is a continuation of, an activity we are funding and holding a competition would have a significant adverse effect on continuing or completing the activity.
	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
✓	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.
	(5) Emergencies: Because of a compelling and unusual urgency, or substantial danger to health or safety, there is not enough time to follow adequate competitive procedures.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

Based on the sensitivity of salt marsh habitat, potential impacts to mariculture operations, and community opinion, utilizing herbicides to manage/control invasive Spartina is not an option. Additionally, Refuge staff and RCAA have lead the way in researching and formalizing control methods leading to publications. The very specialized and physical work necessary to sufficiently remove Spartina from salt marsh habitat requires intensive training and unique modifications to brush-cutters (i.e. not off-the-shelf) to result in success. The Refuge has available funds to conduct primary and secondary treatments of salt marshes to continue necessary management and meet Refuge goals and objectives.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.
