This form must be signed by both a program representative and the employee with signature authority for the award to be issued (see 516 FW 3, *Signature Authority for Grant and Cooperative Agreement Awards*). The completed and signed form must be maintained in the official award file.

Select all criteria that apply (from 505 DM 2):

	(1) Unsolicited Proposal: The proposed award is the result of an unsolicited application that represents a unique or innovative idea, method, or approach that is not the subject of a current or planned award, but is found to be advantageous to program objectives.
	(2) Continuation: The activity to be funded is necessary for the satisfactory completion of, or is a continuation of, an activity we are funding and holding a competition would have a significant adverse effect on continuing or completing the activity.
	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
✔	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.
	(5) Emergencies: Because of a compelling and unusual urgency, or substantial danger to health or safety, there is not enough time to follow adequate competitive procedures.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

The National Fish and Wildlife Foundation (NFWF) has been a long-time partner of the U.S. Fish and Wildlife Service (Service) in supporting Refuge programs, including Urban Wildlife Partnerships, Friends organizations, and youth programs. The NFWF's mission aligns well with the Refuge System's conservation programs and strategies for engaging the public, including engaging new audiences through partnerships, and leveraging funding for their work. In addition to its extensive knowledge and network of partners, the NFWF offers partner organizations with guidance and technical assistance in the application of grants and other types of technical assistance. NFWF participates regularly in Service training and workshops for the Refuge's Urban Program, as part of their in-kind services, which helps our key partners become more successful in building their programs and supporting Refuge System work.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.
