Section 1: Rural Decentralized Water Systems Grant

1.1 Introduction

The Rural Decentralized Water Systems (DWS) Grant program helps eligible individuals with low-to-moderate incomes finance the costs associated with household water wells and decentralized wastewater systems they own or will own. USDA Rural Development Rural Utilities Service (RUS) makes grants to qualified, private nonprofit organizations to establish lending programs for homeowners to borrow up to \$15,000 for building, refurbishing, and servicing household water wells and decentralized wastewater systems for an existing home. Subgrant awards can also be made from grant proceeds. For eligibility information, see the Fiscal Year 2026, Second Opportunity Notice of Funding Opportunity (NOFO), available under the “Overview” tab at this link: tinyurl.com/yxn6mps6.

In this guide, you will find information to help you understand the:

- Application process and deadlines
- Components of a completed application
- Scoring criteria and application review process

1.2 Authorization

The Consolidated Farm and Rural Development Act (CONACT) Section 306E authorizes the DWS Grant program (7 U.S.C. 1926(a) – available at this link: [Consolidated Farm and Rural Development Act.](#))

The DWS Grant program is found in the Code of Federal Regulations (CFR) Part 1776 (available at this link: [7 CFR Part 1776](#)). The proposal must explain what your project will accomplish by lending funds to individual well and wastewater treatment operation owners. Your proposal also must demonstrate the feasibility of the proposed revolving loan program in meeting DWS program objectives.

Your proposal must cover the following elements:

1. **Project Summary** – Present a brief project overview.

- Describe how these contributions will be used to pay your operational costs and provide financial assistance for projects.
- c. List the interest rate and any other fees or charges your borrowers will be assessed. Describe how those fees and charges are determined.

3.2.3 Work Plan

The work plan must describe the tasks and activities that will be accomplished with available resources during the grant period.

It must show the work you plan to do to achieve the anticipated outcomes, goals, and objectives of the DWS grant program. Describe any unusual or unique features of your project, such as innovations, reductions in cost or time, or extraordinary community involvement. The plan must:

An acknowledgement receipt of the application will be emailed to the applicant by grants.gov once the Agency has downloaded and acknowledged the application. All applications are reviewed for completeness. You will be notified in writing if your

application is incomplete, and no further action will be taken. If your application is determined to be ineligible, we will notify you with an explanation.

5.2 Evaluating your Application

Complete, eligible applications will be evaluated competitively by RUS employees from the Water and Environmental Programs. The employees will score applications using criteria outlined in Section 5.3, and will base its recommendations on factors such as eligibility, clarity, detailed information, application completeness, and conformity to application requirements.

5.3 Scoring Criteria

Your application and supporting information will be used to determine your priority for available DWS funds. Points are given only for well-documented factors in your application package and those that – in the opinion of the reviewers – meet the objectives outlined under each factor in 7 CFR Part 1776.9, “Scoring Applications” (available at this link: [7 CFR Part 1776.9](#)) and as outlined below.
