7. Executive Summary

NRCS is announcing the availability of up to \$52 million in Voluntary Public Access-Habitat Incentive Program (VPA-HIP) funding through [One Big Beautiful Bill Act \(OBBBA\), Public Law 119-21](#) to create or enhance state and Tribal government programs that encourage owners and operators of privately held farm, ranch, and forest land to voluntarily make that land available for access by the public for hunting, fishing, and other wildlife-dependent

recreation. VPA-HIP is a competitive grant program and only state and tribal governments may apply. Projects may be up to 3 years in duration. The maximum amount for a single award is \$3 million. Up to 25% of the funding for each award may be used to provide incentives to improve wildlife habitat on enrolled public access program lands. For new users of Grants.gov, see Section D of this Notice of Funding Opportunity (NOFO) for information about steps required before submitting an application through Grants.gov.

B. ELIGIBILITY

1. Eligible Applicants

The following entity types are eligible to apply:

- a. Native American tribal governments (Federally recognized), or
- b. State governments

The following applicants are considered ineligible:

- Foreign organizations and foreign public entities;
- "Partnerships" or other similar groupings, and
- Individuals

2. Other Eligibility Considerations

Any award made pursuant to this NOFO will be made to a single entity.

Each State or Tribal Government may submit only one application for VPA-HIP. An applicant organization may not submit more than one application for different

projects or for different approaches. In the case of applications submitted as revisions or corrections to a previously submitted application under this NOFO, the agency will consider the last application submitted prior to the established deadline.

Application Eligibility Considerations:

- Applications must meet submission requirements in section E.
 - For new users of Grants.gov, see section E.2. of this document for information about steps required before submitting an application via Grants.gov.
- An applicant organization may not submit more than one application for different projects or proposing different approaches. If the agency determines more than one version or substantially the same application has been submitted, the agency will only consider the last application submitted prior to the established deadline for purposes of the competition.

Awards Eligibility Considerations:

- The agency will make awards only
 - To a single entity,
 - For projects selected following the competitive review process (see section F.2.),
 - For projects that meet any specified cost share requirement (see item 3 of this section), and
 - To entities that:
 - Meet the eligibility criteria (see section B.) by the application deadline (see section A.6.).
 - Are not debarred, suspended, or otherwise excluded from receiving Federal awards (([2 CFR 200.206\(d\)](#)).
 - Have an active System for Award Management (SAM) registration ([2 CFR part 25](#)).
 - The agency does not determine poses an unacceptable risk related to proper management of a Federal award ([2 CFR 200.206](#)).
- Awards are not Farm Bill incentive contracts and therefore, not limited by the payment limitation in [16 USC Chapter 58](#).

Project Participant/Agricultural Producers Eligibility Considerations:

- Any producer receiving a payment through participation in a funded project must meet the eligibility requirements of 7 CFR Parts [12](#) and [1400](#) and have control of the land involved for the period of performance.

- Any producer receiving a payment through participation in a funded project is subject to the Adjusted Gross Income (AGI) limitation. In addition, they must have an AGI that does not exceed \$900,000. If provided an award, the Recipient must self-certify and maintain records showing that participating producers receiving payments using Federal funding meet the eligibility and AGI requirements. Section 1704 (a)(3) of the 2018 Farm Bill states the Secretary may waive the AGI limit on a case-by-case basis if the Secretary determines that environmentally sensitive land of special significance would be protected as a result of such waiver. Awardees may request waivers once their project commences.
- Section 1240B of the Food Security Act of 1985, [16 U.S.C. 3839aa-2](#), prohibits duplicative payments. Accordingly, direct, or indirect payments cannot be made for a practice for which an individual or legal entity has already received funds or is contracted to receive funds through any USDA conservation program (e.g., Conservation Reserve Program, Environmental Quality Incentives Program, Agricultural Management Assistance, Conservation Stewardship Program). If provided an award, the recipient must self-certify that payments to producers using Federal funding are not duplicative.

3. Cost Sharing

There is no cost sharing requirement for this opportunity. If cost-share is included in an application, it will not be considered during the competitive review process.

C. PROGRAM DESCRIPTION

The authorizing statutes and regulations for this opportunity are [16 U.S.C. 3839bb-5](#) and [7 CFR 1455](#).

VPA-HIP provides funding to state and tribal governments to create or enhance public access programs that encourage owners and operators of privately held farm, ranch, and forest land to voluntarily make that land available to the public for wildlife-dependent recreation. Examples of wildlife-dependent recreation include hunting, fishing, and other wildlife-dependent recreation.

States and tribal governments receiving funding (awardees) must ensure that land enrolled under the public access program has appropriate wildlife habitat that benefits a variety of species and, if needed, support landowners to maintain or enhance appropriate habitat on program lands made accessible to the public. Awardees can use up to 25 percent of VPA-HIP grant funds to provide incentives for wildlife habitat improvement on enrolled program lands. Awardees are required to follow NRCS conservation practice standards for habitat improvement activities. This requirement can be waived if an awardee provides a justification that NRCS deems adequate and appropriate.

The 2018 Farm Bill included a provision requiring NRCS, to the maximum extent practicable, to expend \$3 million of VPA-HIP funding to increase public access on lands covered by U.S.-held wetland easements (enrolled under either the Wetland Reserve Program (WRP) or the Wetland Reserve Easement component of the Agricultural Conservation Easement Program). NRCS requires all awardees to target VPA-HIP engagement to Wetland Reserve Easement (WRE) landowners to encourage participation in the public access program. This requirement can be waived if there are no WRE lands available to participate in the geographic area where the project is taking place.

Priority will be given to applicants that propose the following:

- (1) To maximize participation by offering a program the terms of which are likely to meet with widespread acceptance among landowners;
- (2) To ensure that land enrolled under the State or tribal government program has appropriate wildlife habitat;
- (3) To strengthen wildlife habitat improvement efforts on land enrolled in a conservation reserve enhancement program under section 1231A or on land covered by a wetland reserve easement under section 1265C by providing incentives to increase public hunting and other recreational access on that land;
- (4) To use additional Federal, State, tribal government, or private resources in carrying out the program; and
- (5) To make available to the public the location of land enrolled.

NRCS funding can be used to:

- Provide financial incentives to landowners to participate in a public access program;
- Provide infrastructure or equipment (e.g., property identification signs, gates, cattle guards, fencing, kiosks, etc.) associated with implementation of the public access program;
- Provide incentives to landowners to improve wildlife habitat on lands enrolled in a public access program (no more than 25 percent of a state or tribe's VPA-HIP proposed project budget may be used for wildlife habitat incentives);
- Reimburse awardees for technical assistance costs associated with working to enroll landowners in a public access program or to assist landowners with implementing a habitat improvement project (technical assistance cannot exceed 10 percent of the overall VPA-HIP funding request); and

- Reimburse direct administrative costs associated with implementing the project (examples of direct administrative costs that are potentially eligible for reimbursement include travel, supplies, and program advertising; personnel costs are considered technical assistance and do not fall under administrative costs).

If a state or tribe provides funding to landowners for habitat improvement, landowners must adhere [to NRCS conservation practice standards](#) for these activities. This requirement may be waived by NRCS upon request with a justification by a state or tribe.
