Project Overview

Using 26 lines of text or up to 3,000 characters and spaces with no carriage returns, provide a comprehensive but succinct overview of the proposed project that includes basic details of who is doing what, where and why (in context of need documented elsewhere). Address the project's suitability as the most appropriate scale of response (local, statewide, multistate, or national) to the issue being addressed. Projects should effectively address the purpose statement, which is to "shape and influence forest land use on a scale and in a way that optimizes public benefits from trees and forests for both current and future generations."
