2. Executive Summary

The U.S. Mission Nigeria announces a competition to implement the EducationUSA Nigeria Advising Program, expanding access to U.S. higher education for qualified Nigerian students while strengthening advising services that promote informed and lawful study. Target participants include academically strong Nigerian secondary school and university students; eligible recipients are organizations with nationwide advising and program implementation capacity. The program implements two core initiatives: the EducationUSA Opportunity Funds Program (OFF), covering essential up-front costs including standardized testing, application fees, visa interview travel, and initial flights to enable merit-based competition for U.S. admissions;

and support for four advising centers that deliver accurate, outcome-driven guidance aligned with U.S. priorities, emphasizing pre-departure orientations on student visa responsibilities, status maintenance, and U.S. law compliance.

OFP recruitment must entail a rigorous, transparent selection process designed to identify the highest-performing students whose academic profiles and career trajectories align with U.S. strategic interest in STEM, AI, and critical emerging technologies.

EducationUSA advising centers will promote informed, lawful study pathways, the program curbs visa misuse and illegal immigration while expanding access for top talent, advancing U.S. foreign policy priorities through American higher education excellence, Freedom 250 support, commercial diplomacy, and strengthened U.S. institutions and workforce development in critical sectors.

C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

Nigeria sends thousands of talented students to U.S. universities each year, contributing nearly \$900 million to the American economy in 2024/2025 alone. These students are fully immersed at American institutions, support local businesses, and return home as advocates for American values and partners in commerce. However, a few qualified Nigerian applicants cannot afford the upfront costs of standardized tests, applications, and travel—meaning American universities miss out on exceptionally talented international students who can meaningfully advance university research, support U.S. businesses in college communities, develop relationships that open the Nigerian market for U.S. businesses upon their return. This program removes financial barriers for high-achieving students, ensuring American colleges and universities can recruit top talent from Africa's largest economy while generating significant economic returns for American communities.

The EducationUSA OFP delivers measurable results: in 2025, 34 Nigerian students enrolled in U.S. institutions for fall semester, each representing a significant increase in economic activity in American college towns. This funding request of up to \$168,200 will cover application costs, visa fees, and travel expenses that prevent qualified international students from reaching U.S. campuses. By investing modest amounts in removing barriers—test fees, passport costs, and travel logistics—we secure substantial returns through high achieving students who serve as campus leaders, researchers, teaching assistants, and other functions while building a network of U.S.-educated Nigerian professionals who will drive future trade, investment, and diplomatic cooperation between our nations. The program also sustains advising centers in four Nigerian cities, expanding the pipeline of qualified applicants to American institutions.

Project Audience(s)

Primary Audience 1: High-Achieving Prospective Students

Geographic Location: Nationwide (resident in Nigeria)

Age Group: Final-year secondary school students, recent secondary school graduates, and early-career university graduates.

Profile/Profession: Academically strong students with demonstrated leadership potential, community engagement, and a clear interest in pursuing full-time degree programs in the United States.

Primary Audience 2: EducationUSA Advisers

Geographic Location: Four standard EducationUSA advising centers in Jos, Kano, Calabar, and Ibadan.

Profile: EducationUSA advisers and staff responsible for advising services, outreach, and program implementation at standard centers.

Project Goal: Advance U.S. strategic interests by promoting American excellence in higher education,

expanding access for high-achieving Nigerian students to accredited U.S. institutions, and strengthening compliance with U.S. visa regulations. The project aims to reinforce U.S. global leadership in innovation and workforce development, support commercial diplomacy, and contribute to a stronger, safer, and more prosperous United States by developing talent pipelines in critical sectors. It will also strengthen the capacity of EducationUSA advising centers to deliver accurate, outcomes-driven guidance, including pre-departure preparation that emphasizes lawful study and proper visa use, positioning participants as credible partners and future leaders aligned with U.S. priorities.

Project Objectives:

Objective 1: Support a competitive cohort of approximately 40 high-achieving Nigerian students through the OFP by covering essential pre-departure costs (e.g., standardized tests, application fees, passports, visa and SEVIS fees, and travel), resulting in a strong proportion of participants gaining admission to accredited U.S. institutions and contributing to U.S. economic competitiveness, research, and talent pipelines in critical sectors.

Objective 2: Strengthen the institutional capacity of four standard EducationUSA advising centers through program funds and adviser stipends to improve service delivery, program quality, and data-driven outreach, as demonstrated by increased advising reach, higher participant satisfaction, and more successful applicants from diverse regions, while advancing American excellence and supporting commercial diplomacy objectives.

Objective 3: Expand access to accurate, timely, and comprehensive information about U.S. higher education while implementing structured pre-departure orientations that emphasize proper use of student visas, maintenance of legal status, and compliance with U.S. laws, leading to better-informed applicants, reduced reliance on fraudulent advising sources, and supporting U.S. priorities to reduce visa misuse and illegal immigration.

2. Substantial Involvement

The U.S. Mission will be substantially involved in the implementation of this cooperative agreement, including but not limited to participation in the review and selection of OFP finalists, as well as providing oversight and guidance for program activities at designated EducationUSA advising centers. This involvement will ensure alignment with U.S. foreign policy priorities and adherence to program objectives. (See Other Information).

Recipients may also be required, upon request of the Grants Officer or Grants Officer Representative, to provide electronic copies of receipts or other supporting documentation (e.g., timesheets, travel documents) for costs incurred. Other special award conditions may also be included if deemed appropriate by the Grants Officer.

G. AWARD NOTICES

The award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The award agreement is the authorizing document, and it will be provided to the recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

In cases of more than one FADR Data Element, typically program or sector and/or regions or country, the successful applicant will be required to maintain separate accounting records.

I. OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants

or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in 2 CFR 200.1.

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.

STEP Enrollment

U.S. citizens who travel to Nigeria are encouraged to enroll in the Department of State's Smart Traveler Enrollment Program (STEP) available at: <https://step.state.gov/step/>. Enrollment enables citizens to receive security-related messages from the Embassy and makes it easier for us to locate you in an emergency. The Embassy also recommends that all travelers review the State Department's [travel website at travel.state.gov](http://travel.state.gov) for the [Travel Warnings](#), Travel Alerts, and Nigeria Specific Information.

Recruitment Strategy for High-Achieving Prospective Students

Administration critical fields include AI/machine learning, cybersecurity, advanced manufacturing, biotechnology, quantum science, energy, aerospace, and related disciplines.

The organization’s recruitment strategy must include development of outreach efforts to recruit students as well as potential STEM professionals to support technical assessment, interview

coordination, and any anticipated partnerships with science competitions, university departments, innovation hubs, or other entities.
