

Notice of Funding Opportunity

Application due Wednesday, July 29, 2026

National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR)

Rehabilitation Research and Training Center (RRTC) on Interventions to Promote Community Living Among People with Disabilities

Opportunity number: HHS-2026-ACL-NIDILRR-RTCP-0215

Before you begin

If you believe you are a good candidate for this funding opportunity, secure your [SAM.gov](#) and [Grants.gov](#) registrations now. If you are already registered, make sure your registrations are active and up to date.

SAM.gov registration (this can take several weeks)

You must have an active account with SAM.gov. This includes having a Unique Entity Identifier (UEI).

[See Step 2: Get Ready to Apply](#)

Grants.gov registration (this can take several days)

You must have an active Grants.gov registration. Doing so requires a Login.gov registration as well.

[See Step 2: Get Ready to Apply](#)

Apply by the application due date

Applications are due by 11:59 p.m. Eastern Time on Wednesday, July 29, 2026.

To help you find what you need, this NOFO uses internal links. In Adobe Reader, you can go back to where you were by pressing Alt + Left Arrow (Windows) or Command + Left Arrow (Mac) on your keyboard.

Eligibility	<u>6</u>
Program description	<u>8</u>

Basic information

Administration for Community Living

National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR)

Summary

Research to improve interventions that lead to better community living outcomes for people with disabilities.

Funding details

Type: Grant

Expected funding: \$925,000

Expected awards: 1

Funding range: \$920,000 to \$925,000 per budget period

We plan to fund one award in five 12-month budget periods for a total five-year period of performance of September 1, 2026 to August 31, 2031.

Length of project period: 60-month project period with five 12-month budget periods.

Have questions?

See [Contacts and Support](#).

Key facts

Opportunity name:

Rehabilitation Research and Training Center (RRTC) on Interventions to Promote Community Living Among People with Disabilities

Opportunity number:

HHS-2026-ACL-NIDILRR-RTCP-0215

Federal assistance listing:

93.433

Statutory authority: Title II of the Rehabilitation Act of 1973, as amended. 29 U.S.C. § 764(b)(2)

Key dates

Application deadline:

July 29, 2026

Optional notice of intent deadline:

July 13, 2026

Expected start date:

September 1, 2026

Expected award date:

September 1, 2026

Informational conference call:

July 10, 2026

Eligibility

Who can apply

Eligible applicants

Only these types of organizations may apply:

- States.
- Public or private agencies, including for-profit agencies.
- Public or private organizations, including for-profit organizations.
- Institutions of higher education.
- Indian tribes and tribal organizations.

Faith-based and community organizations that meet the eligibility requirements are eligible for awards under this funding opportunity.

Other eligibility requirements

You must propose to run an RRTC on Interventions to Promote Community Living Among People with Disabilities that is responsive to each of the requirements in the Program Description section.

Disqualifying factors

We will review your application to make sure it meets these responsiveness requirements.

We won't consider an application that:

- Is submitted after the [deadline](#).
- Is not responsive to each of the requirements in the Program Description section of this notice.
- Is from an individual, including a sole proprietorship, or a foreign entity.
- Is received in paper format that didn't have a previously approved exemption from ACL.
- Requests an indirect cost rate that is higher than 15%.
- Proposes a budget that exceeds \$925,000 in any single budget year.
- Proposes a project period that exceeds 60 months.

Application limits

If you submit the same application more than once under this notice of funding opportunity (NOFO), we will only acknowledge the last on-time submission.

Cost sharing

This program has no cost-sharing requirement, meaning you do not need to contribute to the costs of this project.

If you choose to include cost-sharing funds, we won't consider it during review.

Cost sharing commitments

If awarded, you must provide the amount of cost-sharing funds you promised. We put these commitments in the Notice of Award.

If you don't provide your promised amount, we may decrease the amount of funding we give you or use other enforcement actions.

You'll have to include your cost-sharing funds when you fill out your [federal financial reports](#).

Post-award requirements

Before you apply, make sure you understand the requirements that come with an award.

See [Step 6: Learn What Happens After Award](#) for information on regulations that apply, reporting, and more.

Statutory authority

Title II of the Rehabilitation Act of 1973, as amended. 29 U.S.C. § 764(b)(2).

Program description

Background

Laws and policies protecting the civil rights of people with disabilities have helped promote their community inclusion and participation. Despite these advances, people with disabilities tend to have lower levels of community participation than people without disabilities. These community participation outcomes are driven by individual and systems level factors.^{[1],[2]}

Barriers to independent living and community participation include individual characteristics,^[3] fragmented service delivery systems,^[4] lack of affordable, accessible housing,^[5] lack of reliable, accessible transportation,^{[6],[7]} and difficulty finding qualified caregivers or personal attendants.^[8]

Barriers to community inclusion and participation exist for people with a wide range of disabilities, including but not limited to traumatic brain injury^[9] intellectual and developmental disabilities,^{[10],[11]} physical disabilities,^{[12],[13]} blindness and low vision,^{[14],[15]} deafness or hearing loss,^[16] and serious mental health conditions.^{[17],[18]}

To date, few studies have systematically and rigorously tested interventions or strategies that address these barriers and promote community living among people with disabilities. Given the complexity of factors that are associated with community living and participation outcomes, there is a need for high quality research to examine the effectiveness of multi-faceted, multi-level interventions that address some combination of individual-level characteristics and environmental-level barriers to promote community living among people with disabilities.

NIDILRR establishes this Rehabilitation Research and Training Center (RRTC) to conduct research on interventions toward improved community living outcomes for people with disabilities. The RRTC will also provide research-based training, technical assistance, and dissemination of informational materials to people with disabilities, service providers, and other relevant stakeholders.

The purpose of this program

This priority is in alignment with the following [ACL strategic priorities](#):

- Caregiving.
- Connecting people to services.
- Whole-person health.

ACL's Administrator establishes a priority for the funding of a Rehabilitation Research and Training Center (RRTC) on Interventions to Promote Community Living Among People with Disabilities. This RRTC will test the efficacy and scalability of interventions that aim to improve community living outcomes among people with disabilities.

You are required to address the following requirements in your proposal:

- Specify the population or populations of people with disabilities who you will focus on for your research and knowledge translation activities.
- Conduct a systematic review of research that has been conducted on the effectiveness of interventions that are intended to improve community living outcomes for people with disabilities.
 - With this review you must characterize the strengths and weaknesses of the evidence base for community living interventions for people with disabilities.
- Conduct two rigorous research studies on the efficacy or scalability of an intervention or interventions that aim to improve community living outcomes for people with disabilities.
 - You must conduct at least one of these studies at the scale up evaluation stage of research, as described in [NIDILRR's stages of research framework](#).
 - You must conduct these research studies on an intervention or interventions that address some combination of individual characteristics (e.g., health, functional abilities, training and education levels, socioeconomic status) and environmental barriers (e.g., transportation, housing, health care access) that impact community living outcomes for people with disabilities.
 - You must propose sufficiently rigorous designs that assess the efficacy or scalability of the intervention or interventions being studied, while measuring and controlling for other relevant factors.
- Serve as a national resource center focused on community living and community living interventions for people with disabilities, by conducting knowledge translation activities that include, but are not limited to:
 - Collaborating with groups or organizations representing people with disabilities and other stakeholders, to develop and implement strategies to increase real-

world use of the RRTC's research findings. These organizations may include centers for independent living (CILs).

- Providing research-based information and technical assistance related to effective community living programs and interventions, to individuals with disabilities and their representatives, service providers, and other key stakeholders.
 - Providing research-based training to people with disabilities and their representatives, family members, service providers, and other key stakeholders to facilitate improved community living outcomes for individuals with disabilities. This training may be provided through conferences, workshops, public education programs, pre-service or in-service training programs, and similar activities.
 - Disseminating research-based information and materials related to improving community living outcomes for people with disabilities.
 - Involving people with disabilities in the conduct of the RRTC's research and knowledge translation activities, to maximize the relevance and uptake of the RRTC's knowledge and products.
 - Conducting a state-of-the-science conference on interventions to improve community living outcomes of people with disabilities. You must hold this conference in the fourth year of the performance period, and publish a comprehensive report on the proceedings of the conference by the end of the fourth year of the grant cycle.
- Ensure that all websites and information products that the RRTC develops or maintains are in compliance with standards developed under section 508 of the Rehabilitation Act (29 U.S.C. 794d). For websites, this compliance currently requires meeting Web Content Accessibility Guidelines (WCAG) 2.0/2/1 AA success criteria.

Funding policies and limitations

Changes in HHS regulations

As of October 1, 2025, HHS adopted [2 CFR 200](#), with some exceptions included in [2 CFR 300](#). These regulations replace those in 45 CFR 75.

Policies

All activities proposed in your application and budget narrative must align with applicable law, including but not limited to statutes, executive orders, federal regulations, and applicable judicial holdings. Accordingly, discretionary awards shall not be used to fund, promote, encourage, subsidize, or facilitate: racial preferences or other forms of racial discrimination by the recipient, including activities where race or intentional proxies for race will be used as a selection criterion for employment or program participation; denial by the recipient of the sex binary in humans, or the belief that sex is a chosen or mutable characteristic; illegal immigration; or any other initiatives that compromise public safety. If an application does not align, the application will not receive funding to the extent permitted by law and applicable court orders.

- We will only make awards if this program receives funding. If Congress appropriates funds for this purpose, we will move forward with the review and award process.
- Support beyond the first budget period will depend on:
 - Appropriation of funds.
 - Satisfactory progress in meeting your project's objectives.
 - A decision that continued funding is in the government's best interest.
- If we receive more funding for this program, we will consider:
 - Funding more applicants.
 - Extending the period of performance.
 - Awarding supplemental funding.
- You may not use funds from this NOFO for any diversity, equity, inclusion, and accessibility (DEI and DEIA) activities. This includes:
 - DEI- or DEIA-related research.
 - Activities that discriminate based on race, color, religion, sex, national origin, or other protected traits.
- Under this NOFO, you can't continue existing projects without expansion or new and innovative approaches.
- Meals are allowed only in limited circumstances linked to program activities, like during travel or when approved in advance by ACL. See Allowable Costs and

Activities, Exhibit 4: Selected Items of Cost, Meals in the [HHS Grants Policy Statement](#).

- There are restrictions on certain telecommunications and video surveillance equipment. See [2 CFR 200.216](#) to make sure this does not apply to any proposed equipment in your application.

Unallowable costs

- Construction or major rehabilitation of buildings.
- For guidance on other types of costs that we restrict or do not allow, see General Provisions for Selected Items of Costs of the Uniform Guidance, [2 CFR 200.420](#).

Indirect costs

Please note: Congress has determined that Rehabilitation Research and Training Centers are limited to an indirect cost rate of 15% (29 U.S.C. § 764(b)(2)(N)). You must limit your proposed indirect cost rate for this grant to 15%.

You may not charge costs included in your indirect cost pool as direct costs.

Subawards

As the prime recipient, you must maintain a substantive role in the project. This means that you conduct funded activities and provide services necessary and integral to completing the project.

Monitoring your subrecipient's activities alone as described in [2 CFR 200.332](#) is not a substantive role.

We do not fund awards where your role is primarily a conduit for passing funds to other organizations unless that arrangement is authorized by statute.

All subrecipients must have a Unique Entity Identifier (UEI) through the System for Award Management (SAM.gov).

Subrecipients must meet the [eligibility requirements](#) of this NOFO.

Salary rate limitation

The salary rate limitation in the current appropriations act applies to this program. You may not use awarded funds to pay a salary at a higher rate than the rate for Executive Level II.

For the Executive Level II salary, please see [the Office of Personnel Management information on executive and senior level employee pay](#).

The salary limitation reflects a person's base salary (including any portion of the salary that is paid with indirect costs). It does not include fringe benefits or any income the person is allowed to earn outside of the duties of the applicant organization.

This salary limitation also applies to subawards, contracts, and subcontracts under an ACL grant or cooperative agreement.

Program income

If you earn any money from your award-supported project activities (known as program income), you must use it for the purposes and under the conditions of the award. Find more about program income at [2 CFR 200.307](#).

Step 2: Get Ready to Apply

In this step

Find the application package	<u>15</u>
Get registered	<u>15</u>
Join the informational call	<u>16</u>

Find the application package

The application package has all the forms you need to apply. You can search for it at [Grants.gov](https://www.grants.gov) using opportunity number [HHS-2026-ACL-NIDILRR-RTCP-0215](https://www.grants.gov/award/HHS-2026-ACL-NIDILRR-RTCP-0215). Then select the Package tab.

We recommend that you select the **Subscribe button** from the View Grant Opportunity page for this NOFO to get updates.

You can also find materials at [Applying for Grants on ACL's website](#).

If you can't use Grants.gov to download application materials or have other technical difficulties, including issues with application submission, [contact Grants.gov](#) for assistance.

Get registered

SAM.gov

You must have an active account with SAM.gov to apply. SAM.gov registration can take several weeks. Begin that process today.

To register:

- Go to [SAM.gov Entity Registration](#) and select Get Started. From the same page, you can also select the Entity Registration Checklist for the information you will need to register.
- You must agree to the [financial assistance general certifications and representations \[PDF\]](#) specifically. Those for contracts are different.

When you register, you will also receive your required Unique Entity Identifier (UEI).

Once you register:

- You will have to maintain your registration throughout the life of any award.
- If your organization has multiple UEIs, use the one associated with your physical location.

Grants.gov

You must also have an active account with [Grants.gov](https://www.grants.gov). You can see step-by-step instructions at the Grants.gov [Quick Start Guide for Applicants](#).

Join the informational call

We will provide general information about this funding opportunity at an informational conference call. It will be held on:

- **Date:** July 10, 2026
- **Time:** 1 to 3 p.m. ET

You must register for this call in advance.

Contact Megan.Alvarado@acl.hhs.gov to register for this call.

Step 3:

Build Your Application

In this step

Application contents and format

18

Application contents and format

Applications include five main components. This section includes guidance on each.

Make sure you include each of these:

Component	Submission format
Project abstract	Use the Project Abstract Summary form.
Project narrative	Use the Project Narrative Attachment form.
Budget narrative justification	Use the Budget Narrative Attachment form.
Attachments	Insert each in the Other Attachments form.
Other required forms	Upload using each required form.

Required format

Required format for application contents.

Font: Times New Roman or Arial

Format: PDF

Size: 12-point font

Footnotes and text in graphics must be 12-point.

Spacing for project narrative main content: Double-spaced

Spacing for budget narrative: As needed

Spacing for project summary, tables, footnotes: Single-spaced.

Please note: Applicants who unnecessarily place project narrative text in tables or figures to avoid the double-spacing requirement run the risk of exceeding the page limit.

Margins: 1-inch

Include page numbers.

Project abstract

Page Limit: 1

Provide a detailed yet concise description of your proposed project, activities, and intended outcomes. The abstract can be single- or double-spaced.

Project narrative

Page Limit: 80 Pages

The project narrative is the most important part of the application. We use it as the primary basis to decide whether your project addresses the requirements described in the program description section of this NOFO. We also use the content narrative to review the merit of your project. The project narrative should give a clear and concise description of your project.

You should address these [merit review criteria](#) as you write your project narrative.

- Importance of the problem.
- Alignment with ACL Strategic Priorities.
- Design of research activities.
- Design of dissemination activities.
- Design of training activities.
- Design of technical assistance activities.
- Project staff.
- Plan of operation.
- Adequacy and accessibility of resources.

Include all critical information in the project narrative and not in appendices.

Cite all of your sources in the project narrative.

We will instruct reviewers to disregard all content on the pages beyond the 80th page of your project narrative.

Work plan

You must provide a work plan for your project within your Project Narrative. The work plan connects your goals, anticipated outcomes, and the major tasks you are proposing.

The work plan must cover all years of the project period.

To complete your work plan, see the [project work plan sample template](#) on our website.

Budget justification narrative

Page Limit: None

The budget narrative supports the information you provide in Standard Form 424-A. See [\[other required forms\]\(#48-step-3-build-your-application-other-required-forms\)](#).

It includes added detail and justifies the costs you ask for. As you develop your budget, consider:

- If the costs are reasonable and consistent with your project's purpose and activities.
- The restrictions on spending funds. See [funding limitations](#).

Justify all the costs, including showing how you calculated them. To create your budget narrative, see the [sample format \[PDF\]](#) on our website.

You must submit a budget for each year of grant funding requested.

Attachments

You will upload attachments in [Grants.gov](#) using the Other Attachments Form.

Table of contents

Page limit: None

The table of contents should show where and how the important sections of your proposal are organized. While you will submit your proposal electronically, the reviewers may use printed copies during the review process. The table of contents will assist reviewers as they evaluate your proposal.

References

Page limit: None

You must provide references for works cited in the project narrative. You may provide references in any format (i.e., APA, AMA, MLA). The format must be consistent throughout the project narrative.

Vitae/biosketches of key personnel

Page Limit: None

You must provide vitae or biosketches of key personnel for the project. The vitae or biosketches should include information that is relevant to your proposed project. You are encouraged to use the [NIH's biographical sketch format](#). This format gives reviewers a concise description of your training, expertise, and productivity that is related to the proposed project.

Data management plan

Page limit: None

You must provide a data management plan for your project. We will review the data management plan for compliance before making an award.

The data management plan is your plan for making your NIDILRR-funded data available to the public at the end of your grant. The Data Management Plan must include the following:

- A description of the types of data you will collect for your project.
- A description of how you will organize, store, and preserve your project data.
- A description of the metadata to be provided for useful analysis of the data by others. Metadata include descriptions and labels for variables and values in your dataset.
- A description of the data repository that you will use to make your data available to the public at the end of your grant. We recommend that you use the [ICPSR](#) as your data repository, but you may select a different data repository.
 - If you select a different data repository, you must provide information on how the data repository will provide long-term preservation and free public access to the project data.
- If applicable, describe why your data cannot be submitted to a data repository.
- A description of the informed consent process that will enable data sharing.
- Costs associated with data management can be included in your budget.

If you require technical assistance in preparing your data management plan for this application, contact ICPSR at ICPSR-help@umich.edu or 734-647-2200.

Commitment letters

Page limit: None

You must include commitment letters from key individuals and organizations that will have a significant role in carrying out your project. A letter should explain their role and commitment to your project.

Summary of key individuals and organizations

Page limit: None

You must submit a list of key individuals and their organizations that will have a significant role in your project. This includes consultants and contractors.

We will use this information to screen for conflicts of interest with potential peer reviewers for your application.

Indirect cost rate agreement

Page limit: None

Please attach a copy of your current indirect cost rate agreement approved by the Department of Health and Human Services or another Federal agency.

Other required forms

You will need to complete some standard forms. Upload the standard forms listed below at [Grants.gov](https://www.grants.gov). You can find them in the NOFO [application package](#) or review them and their instructions at [Grants.gov forms](#).

Forms	Submission Requirement
Application for Federal Assistance (SF-424)	With application.
Supplemental Information for the SF-424 Application for Federal Assistance [PDF]	With application.
Assurances for Non-Construction Programs (SF-424B)	With application.
Budget Information for Non-Construction Programs (SF-424A)	With application.
Project Narrative Attachment form	With application.
Attachments	With application.
Project/Performance Site Location(s)	With application.
Grants.gov Lobbying form(Certification Regarding Lobbying)	With application.
Project Abstract Summary	With application.

Important: Public information

When filling out your SF-424 form, pay attention to Box 15: Descriptive Title of Applicant's Project.

We share what you put there with [USA spending](#). This is where the public goes to learn how the federal government spends their money.

Instead of just a title, insert a short description of your project and what it will do.

[See instructions and examples \[PDF\]](#).

Step 4:

Learn About Review and Award

In this step

Application review	<u>25</u>
Award notices	<u>29</u>

Application review

Initial review

We review each application to make sure it meets the responsiveness requirements listed in the disqualification factors section. If your application does not meet these criteria, we will disqualify it and we will not move it to the merit review (scoring) phase.

If your application exceeds the page limit for the project narrative, we will instruct reviewers to not review the pages that exceed the page limit. See the [required format](#) section.

Merit review

A panel reviews all applications that pass the initial review. The members use the criteria and subcriteria below. Review criteria come primarily from NIDILRR's program regulations ([45 CFR 1330.24](#))

Criterion	Total number of points = 100
1. Importance of the problem	10 points
2. Alignment with ACL Strategic Priorities	5 points
3. Design of research activities	40 points
4. Design of dissemination activities	5 points
5. Design of training activities	10 points
6. Design of technical assistance activities	5 points
7. Project staff	10 points
8. Plan of operation	10 points
9. Adequacy and accessibility of resources.	5 points

Criteria

Importance of the problem (Maximum points: 10)

- The extent to which the applicant clearly describes the need and target population.
- The extent to which the proposed project will have beneficial impact on the target population.

Alignment with ACL Strategic priorities (Maximum points: 5)

- The extent to which the proposed project aligns with [ACL's strategic priorities](#) of caregiving, connecting people to services, or whole-person health.

Design of research activities (Maximum points: 40)

- The extent to which the research activities constitute a coherent, sustained approach to research in the field, including a substantial addition to the state-of-the-art.
- The extent to which the methodology of each proposed research activity is meritorious, including consideration of the extent to which:
 - The proposed design includes a comprehensive and informed review of the current literature, demonstrating knowledge of the state-of-the-art.
 - Each research hypothesis or research question, as appropriate, is theoretically sound and based on current knowledge.
 - Each sample is drawn from an appropriate, specified population and is of sufficient size to address the proposed hypotheses or research questions, as appropriate, and to support the proposed data analysis methods.
 - The source or sources of the data and the data collection methods are appropriate to address the proposed hypotheses or research questions and to support the proposed data analysis methods.
 - The data analysis methods are appropriate.
 - Input of individuals with disabilities and other key stakeholders is used to shape the proposed research activities.
 - Implementation of the proposed research design is feasible, given the current state of the science and the time and resources available.
 - The applicant identifies and justifies the stage of research being proposed and the research methods associated with the stage.

Design of dissemination activities (Maximum points: 5)

- The extent to which the materials to be disseminated are likely to be effective and usable, including consideration of their quality, clarity, variety, and format.
- The extent to which the methods for dissemination are of sufficient quality, intensity, and duration.
- The extent to which the materials and information to be disseminated and the methods for dissemination are appropriate to the target population, including consideration of the familiarity of the target population with the subject matter, format of the information, and subject matter.

- The extent to which the information to be disseminated will be accessible to individuals with disabilities.

Design of training activities (Maximum points: 10)

- The extent to which the proposed training materials are likely to be effective, including consideration of their quality, clarity, and variety.
- The extent to which the proposed training methods are of sufficient quality, intensity, and duration.
- The extent to which the proposed training materials and methods are accessible to individuals with disabilities.

Design of technical assistance activities (Maximum points: 5)

- The extent to which the methods for providing technical assistance are of sufficient quality, intensity, and duration.
- The extent to which the information to be provided through technical assistance covers all of the relevant aspects of the subject matter.
- The extent to which the technical assistance is appropriate to the target population, including consideration of the knowledge level of the target population, needs of the target population, and format for providing information.
- The extent to which the technical assistance is accessible to individuals with disabilities.

Project staff (Maximum points: 10)

- The extent to which the applicant encourages applications for employment from people with disabilities, who may include but are not limited to people with disabilities who have the greatest support needs.
- The extent to which the key personnel and other key staff have appropriate training and experience in disciplines required to conduct all proposed activities.

Plan of operation (Maximum points: 10)

- The adequacy of the plan of operation to achieve the objectives of the proposed project on time and within budget, including clearly defined responsibilities, and timelines for accomplishing project tasks.
- The adequacy of the plan of operation to provide for using resources, equipment, and personnel to achieve each objective.

Adequacy and accessibility of resources (Maximum points: 5)

- The extent to which the applicant is committed to provide adequate facilities, equipment, other resources, including administrative support, and laboratories, if appropriate.

Risk review

Before making an award, we review the risk that you will mismanage federal funds or fail to complete the project objectives. We need to make sure you've handled any past federal awards well and demonstrated sound business practices.

We use [SAM.gov](#) Responsibility/Qualification to check this history for all awards likely to be over \$250,000. We also check Exclusions.

If we find a significant risk, we may choose not to fund your application or to place specific conditions on the award.

You can see more details about risk review at [2 CFR 200.206](#).

Selection process

When making funding decisions, we consider:

- Merit review results. These are key in making decisions but are not the only factor.
- The larger portfolio of agency-funded projects, including project type and geographic distribution.
- The past performance of the applicant. We may choose not to fund applicants with management or financial problems.
- Reasonableness of proposed costs to the expected results and the likelihood you will achieve those results.
- Available funding.

We may:

- Fund applications in whole or in part.
- Fund applications at a lower amount than requested.
- Decide not to allow a prime recipient to subaward if they may not be able to monitor and manage subrecipients properly.
- Choose to fund no applications under this NOFO.

The ACL Administrator makes all final award decisions.

Before we make final funding decisions, ACL leadership will review all potential awards.

They will check for:

- Adherence to applicable laws.
- Alignment to agency priorities (see [Administration for Community Living's \(ACL\) Mission, Vision & Strategic Priorities](#)).
- To the extent allowed by law and court orders, we will give a funding preference to applications that align with agency priorities. Your application may receive this preference if it aligns with one or more of the following ACL strategic priorities: caregiving, connecting people to services, or whole-person health.

Award notices

If you are successful, we will email a Notice of Award (NoA) to your authorized official.

We will email you or write you a letter if your application is disqualified or unsuccessful.

The NoA is the only official award document. The NoA tells you about the amount of the award, important dates, and the terms and conditions you need to follow. Until you receive the NoA, you don't have permission to start work.

To see what is in a NoA, see an example on our [website \[PDF\]](#).

Step 5: Submit Your Application

In this step

Application submission and deadlines	<u>31</u>
Application checklist	<u>33</u>

Application submission and deadlines

See [find the application package](#) to make sure you have everything you need.

Make sure you are current with SAM.gov and UEI requirements. See [get registered](#). You will have to maintain your registration throughout the life of any award.

Deadlines

Optional notice of intent

Due on July 13, 2026.

We ask that you let us know if you plan to apply for this opportunity. We do this to plan for the number of expert reviewers we will need to evaluate applications. You do not have to submit a notice of intent to apply.

Please email the notice to Megan.Alvarado@acl.hhs.gov.

In your email, include:

- The funding opportunity number and title.
- The name and contact information for the project principal investigator.
- A brief description of the proposed activities.
- A list of key individuals and their organizations that will have a significant role in your project.
- A list of individuals whose selection as a peer reviewer might constitute a conflict of interest due to their involvement in the application development.

Application

Due on Monday, July 29, 2026 at 11:59 p.m. ET.

Grants.gov creates a date and time record when it receives the application. If you submit the same application more than once, we will accept the last on-time submission.

The grants management officer may extend an application due date based on emergency situations such as documented natural disasters or a verifiable widespread disruption of electric or [Grants.gov](#) service.

If you can't submit your application because of problems with Grants.gov, you will need verification for us to consider accepting your application. Call the [Federal Service Desk](#) before the application due time and record your tracking number. Save your tracking number and any error messages you receive.

Submission methods

Grants.gov

You must submit your application through Grants.gov. See [get registered](#).

For instructions on how to submit in Grants.gov, see the [quick start guide for applicants](#).

Make sure that your application passes the Grants.gov validation checks or we may not get it. Do not encrypt, zip, or password protect any files. The link above will also help you learn how to create PDFs.

If you can't submit your application because of problems with Grants.gov, you will need verification for us to consider accepting your application. Call the [Federal Service Desk](#) before the application due time and record your tracking number. Save your tracking number and any error messages you receive.

See [contacts and support](#) if you need help.

Intergovernmental review

This NOFO is not subject to executive order 12372, Intergovernmental Review of Federal Programs. No action is needed.

Application checklist

Make sure that you have everything you need to apply:

Component	How to Upload	Included in page limit?
<input type="checkbox"/> Project abstract	Use the Project Abstract Summary form.	No
<input type="checkbox"/> Project narrative , including Work Plan	Use the Project Narrative Attachment form.	Yes
<input type="checkbox"/> Budget justification narrative	Use the Budget Narrative Attachment form.	No
<input type="checkbox"/> Attachments	Insert each in a single Other Attachments form.	
<input type="checkbox"/> Table of contents		
<input type="checkbox"/> References		No
<input type="checkbox"/> Vitae/biosketches of key personnel		No
<input type="checkbox"/> Data management plan		No
<input type="checkbox"/> Commitment letters		No
<input type="checkbox"/> Summary of key individuals and organizations		No
<input type="checkbox"/> Indirect cost agreement		No
<input type="checkbox"/> Other required forms	Upload using each required form.	
<input type="checkbox"/> Application for Federal Assistance (SF-424)		No
<input type="checkbox"/> Supplemental Information for the SF-424 Application for Federal Assistance		No
<input type="checkbox"/> Assurances for Non-Construction Programs (SF-424B)		No
<input type="checkbox"/> Budget Information for Non-Construction Programs (SF-424A)		No
<input type="checkbox"/> Project Narrative Attachment form		No
<input type="checkbox"/> Attachments		No

Component	How to Upload	Included in page limit?
<input type="checkbox"/> Project/Performance Site Location(s)		No
<input type="checkbox"/> Grants.gov Lobbying form (Certification Regarding Lobbying)		No
<input type="checkbox"/> Project Abstract Summary		No

Step 6: Learn What Happens After Award

In this step

Post-award requirements and administration 36

Post-award requirements and administration

Administrative and national policy requirements

There are important rules you need to know if you get an award. You must follow:

- All terms and conditions in the Notice of Award. You can find information at [managing a grant](#) on our website. We incorporate this NOFO by reference.
- The rules listed in [2 CFR 200](#), Uniform Administrative Requirements, Cost Principles, and Audit Requirements, effective October 1, 2025. These replace those in 45 CFR 75, with some exceptions in 2 CFR 300.
- The HHS [Grants Policy Statement \(GPS\)](#). This document has terms and conditions tied to your award. If there are any exceptions to the GPS, they'll be listed in your Notice of Award.
- All federal statutes and regulations relevant to federal financial assistance, including those highlighted in the [HHS Grants Policy Statement](#), Appendix D: HHS Administrative and National Policy Requirements
- All anti-discrimination laws: By applying for or accepting federal funds from HHS, recipients certify compliance with all federal antidiscrimination laws and these requirements and that complying with those laws is a material condition of receiving federal funding streams. Recipients are responsible for ensuring subrecipients, contractors, and partners also comply.
- The [ACL Public Access Policy \[PDF\]](#).
- All [regulations](#) for the protection of the rights, welfare, and wellbeing of human subjects involved in research conducted or supported by the U.S. Department of Health and Human Services. [The HHS Office for Human Research Protections](#) has information and resources related to these important requirements.

Compliance and oversight

Recipients must demonstrate ongoing compliance with the [Administration for Community Living's \(ACL\) Mission, Vision & Strategic Priorities](#) through program design, implementation, performance reporting, fiscal management, and evaluation.

Failure to meaningfully align funded activities with applicable statutory authorities and agency priorities may result in corrective action, additional reporting requirements, enforcement actions, or other remedies consistent with 2 CFR Part 200 and the terms and conditions of the award.

Through alignment with these priorities, funded projects will help ensure that older adults and people with disabilities can live with dignity, independence, and full participation in the communities they call home.

Managing award changes

After award, either you or ACL may request changes. We manage these using the rules at 2 CFR 200 and 300, including [2 CFR 200.308](#) and [2 CFR 300.308](#).

Reporting

If your application is successful, you will have to submit financial and performance reports. To learn more about reporting, see [Managing a Grant, Funding Requirements on our website](#).

Financial and performance reports

The terms and conditions in the Notice of Award will have information on performance and financial reports including:

- How often you will report.
- Any required form or formatting.
- How to submit them.

FFATA and FSRS reporting

The Federal Financial Accountability and Transparency Act (FFATA) requires:

- Data entry at the FFATA Subaward Reporting System for all sub-awards and sub-contracts you issue for \$30,000 or more.
