A. PROJECT DESCRIPTION

Overview: The Bureau of International Narcotics and Law Enforcement Affairs of the U.S. Department of State announces an open competition for organizations to submit applications to carry out a project to support Guatemala's National Civilian Police (PNC) with the implementation of the Police Athletic League (PAL) program in Guatemala. The targeted population is at-risk youth in Guatemala between the ages of seven (7) and eighteen (18) who live in communities at high risk of violence and gang activity and be considered to live in the rural areas of Guatemala with low PNC presence as a community outreach program. The Police Athletic League will be launched by the PNC in July 2022 as a pilot program within the Central District, initially in zones 5 and 21 of Guatemala City.

Further expansion in the second phase of the grant (January 2023 to July 2024) will include locations: Zone 18 in Guatemala City, and Zone 3 in Villa Nueva, both in the Central District, Escuintla in the South District, Coban-Alta Verapaz in the Northeast District, Puerto Barrios-Izabal in the East District, Quetzaltenango in the West District, and Solola in the Northwest District. The goal is to have approximately 350 kids enrolled in each location. Initial activities anticipated will include soccer, basketball and dance/choreography. Future activities, depending on available infrastructure and interest identified by the youth of the implementation areas, could include swimming, karate-taekwondo, swimming, chess, and arts & crafts.

One of the overall commitments of the program is to keep at-risk youth out of criminal activities and gang affiliation for life; as well as transmit PNC values to youth. The idea is that once kids complete the program, they are eager to continue to higher education, get a job, become a coach, a police officer, or a professional sports player. The program promotes private sector scholarships and sport recruitment activities. Anecdotaly, many kids who participated in the PAL program in nearby El Salvador are now playing in first and second division soccer, are technical assistants to coaches, are attending the police academy, have jobs, and/or are continuing with higher education.

To initiate program implementation and future expansion, the implementer will provide logistics support and quality control tools to the National Civilian Police's (PNC) Crime Prevention Unit, as well as assist the PNC to identify ideal candidates for this program and help them establish the time distribution required to be in the program. PAL activities must be contemplated within a PNC's officer daily distribution of tasks, and not seen as an additional activity in the officer's spare time. INL seeks to assist Guatemalan youth through programs that keep those at-risk from gang affiliation and prevent them from participating in criminal activities, while promoting a positive relationship between law enforcement officers and the communities they serve.

The implementer shall provide initial training for up to 10 newly assigned police officers and 50 community volunteers to have the adequate skills to work as youth coaches. The implementer will later provide regular in-service refresher training for all police officers and community volunteers. In addition, the implementer should create data bases to track trained officers, community volunteers, and kids who have enrolled in the program throughout the history of the program. The implementer shall coordinate with the PNC's Crime Prevention Unit to have access to the information that may be available from prior years.

Priority Region/Countries

The priority regions in the country of Guatemala are:
Central District

Guatemala City
Zone 5 (Approx. 65,600 residents)
Zone 18 (Approx. 200,000 residents)
Zone 21 (Approx. 75,300 residents)
Villa Nueva
Zone 3 (Approx. 25,500 residents)

South District
Escuintla (Approx. 103,000 residents)
Northeast District
Coban-Alta Verapaz (Approx. 53,300 residents)
East District
Puerto Barrios-Izabal (Approx. 56,600 residents)
West District
Quetzaltenango (Approx. 132,000 residents)
Northwest District
Solola (Approx. 45,300 residents)

Problem Statement: The gang problem in Guatemala is undoubtedly one of the worst in the region, since most young people living in the red zone district of the city are tempted, and sometimes forced, to join gangs. Many commit crimes from a very early age as they are exposed to these criminal organizations because they do not have any positive and productive program in which they can focus and occupy their free time. We believe that by providing resources focused on sports, especially in the areas identified as at-risk, we can provide youth with better options for their emotional development and sense of belonging.

Project Vision: With this project, INL hopes to engage as many young people living in at-risk areas as possible in sports activities that will motivate them to replicate these practices in other communities and with future generations, offering them a safe space to grow as athletes and at the same time envision a better future for themselves and their communities.

With these activities we will also be generating a relationship of trust between the National Civil Police and the population to create awareness of police work and efforts to reduce the problem of youth inclusion in gangs, generating a better citizen security.

Project Goal(s) and Objectives:

Goal 1: Reduce crime and violence perpetrated by youth ages seven (7) to eighteen (18) by engaging them in positive activities that improve their quality of life, develop their life skills, and offer the prospect of a better future through sports and activities.

Goal 2: Improve the relationship between law enforcement personnel and the communities they serve.

Goal 3: Increase the capacity of PNC's Crime Prevention Unit personnel to ensure program sustainability over time.

Objective 1: During the first year (September 2022 to August 2023), establish a Police Athletic League pilot project in scope and scale by creating disciplines and targeting at-risk youth ages

seven (7) to eighteen (18) in zones 5 and 21 of Guatemala City in the Central District, then expand the program in phase two (September 2023 to August 2024) to zone 18 in Guatemala City and zone 3 in Villa Nueva, both in the Central District, as well as Escuintla in the South District, Coban-Alta Verapaz in the Northeast District, Puerto Barrios-Izabal in the East District, Quetzaltenango in the West District, and Solola in the Northwest District.

Activity 1: Survey communities to identify disciplines that can be implemented and later identify new municipalities where the program can be expanded.

Activity 2: Identify and select police officers and community volunteers that can become PAL coaches.

Activity 3: Plan, coordinate, and oversee the delivery of basic and advanced training to PAL coaches to ensure quality throughout the program.

Activity 4: Provide sports equipment to PAL coaches and participating kids to guarantee correct implementation of the different sports and indoor activities.

Objective 2: Provide administrative and logistical support, including materials and resources for PAL in the 7 priority municipalities (+2,400 kids), and in new municipalities as the program grows.

Activity 1: Provide sports equipment to PAL coaches and participating kids to guarantee correct implementation of the different sports and indoor activities.

Activity 2: Maintain and regularly update the program's social media outlets (e.g., Instagram and Facebook) to provide information to the enrolled kids, attract new audiences, parents, teachers, and coaches.

Activity 3: Utilize input from experienced prevention coaches/officers and best practices to constantly improve and innovate the program.

Activity 4: Plan, coordinate, and conduct daily trainings for all actively enrolled kids.

Activity 5: Plan, coordinate, and conduct quarterly tournaments in each program nationwide.

Activity 6: Maintain a database of kids who participated in the program.

Activity 7: Maintain a database of donated equipment, condition, and location. Assign responsibility for maintenance and safe storage of equipment to a specific official or volunteer.

Objective 3: Perform monitoring and evaluation activities in each participating program through the PNC Crime Prevention Unit Delegations to ensure continued improvement and implementation of best practices.

Activity 1: Establish a monitoring and evaluation plan, that incorporates outcome indicators to be able to track the continuity of youth in the program, as well as perception of security forces, PNC.

Activity 2: Coordinate weekly visits (one per participating program) to observe, evaluate, and give recommendations on PAL implementation.

Activity 3: Following the visits, provide written reports to the PNC's Crime Prevention Unit of observations from the field visits as well as recommendations for improving.

Objective 4: Provide motivational activities for youth and instructors through competitions and annual conferences. Recognize outstanding talent throughout the program.

Activity 1: Plan, coordinate, and conduct dedicated annual workshops for experienced PAL coaches and volunteers. These workshops should recognize outstanding talents and achievements.

Activity 2: Plan, coordinate, and conduct annual competitions for the multiple sport disciplines where kids can be recognized nationally and can become role models and motivators for other communities to join the program.

Activity 3: Plan, coordinate, and conduct all eliminatory activities prior to the annual competitions.

Activity 4: Ensure that police coaches use 10 minutes prior to each training activity to promote values and life skills to the kids. Encourage kids to put these lessons into practice during their time in the program, at home, and with friends.

Objective 5: Within the first eight months of award, have an established mechanism for PAL beneficiaries to give back to the cities they live in through community service projects.

Activity 1: Identify and select the best ideas/proposals from PAL youth to beautify, improve or enhance their city parks, schools, and neighborhoods among others. Implementer must ensure coordination is made between PNC, school principals, and mayor's offices when the enhancements are in city parks or neighborhoods.

Activity 2: Provide the necessary supplies and resources for the PAL youth to complete the community service projects as planned.

Activity 3: Promote the community service projects throughout PAL and PNC social media (e.g., Instagram and Facebook).

Objective 6: Within two years of award, have an established system for private sector participation and contribution towards program sustainability and career/job opportunities for actively or formerly enrolled kids.

Activity 1: Promote PAL among local governments and the private sector in order to obtain support for ongoing activities.

Activity 2: Seek funding opportunities for program graduates to continue with their higher education at local universities or technical programs.

Activity 3: Conduct talent scouting activities that allow first and second division professionals of different sport disciplines to evidence the skills and abilities of the kids to be considered for professional teams.

Activity 4: Report to INL the companies involved, keep a database, and follow up with all the youth who obtain scholarships or are scouted by professional leagues nationwide.

Participants and Audiences

The target audiences are at-risk youth ages 7-18 living in neighborhoods at high risk of violence and gang activity, as well as youth in rural areas, PAL coaches, volunteers, and parents.

Project Expansion

If the project is successful, INL will consider the option of expanding the project to other municipalities in the country, subject to availability of future funding. Applicants may include in their proposal a brief section outlining how additional funds could potentially be used to expand work into additional activities or municipalities in future years. Applicants are strongly encouraged to demonstrate how their project might leverage funding through other organizations.

The following documents may be submitted separately or combined into one document. If combined, please be sure to adhere to the page limits for each section.

☐ **Proposal Narrative – Maximum 15 pages**

Applicants may use their own proposal template, but it must include all the sections below. Refer to Appendix A for additional guidance on drafting a proposal narrative.

E. APPLICATION REVIEW INFORMATION

1. Technical Evaluation Criteria

A technical evaluation committee, using the criteria shown in this Section, will evaluate the applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

2. Review and Selection Process

INL first reviews all submitted applications for technical eligibility, based on the list of required documents in Section D: Application and Submission Information. All technically eligible applications are then passed to a review committee, which will evaluate the applications against the Technical Evaluation Criteria listed in the previous sub-section. The application(s) selected by the review committee are then presented to INL management and the Grants Officer for approval.

INL will notify successful applicant(s) via email and pass along any conditions, recommendations, or questions from the review committee. INL will notify unsuccessful applicants via email after an award has been issued to the successful applicant(s); therefore this notification process may take several months.

INL reserves the right to fund any number of applications or none of the applications submitted and will determine the resulting level of funding for each award(s).

3. Federal Awardee Performance & Integrity Information System (FAPIIS)

For all awards with a federal total exceeding \$150,000, INL is required to review and consider any information about the applicant in FAPIIS.

Organizations are able to review and comment on any information about itself that a federal awarding agency previously entered and is currently in the designated integrity and performance system, accessible through SAM.gov. INL will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making

a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when conducting pre-award due diligence.

F. AWARD ADMINISTRATION INFORMATION

1. Federal Award Notices

The grant award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The DS-1909 award agreement is the authorizing document and will be provided to the recipient for review and signature via email or SAMS Domestic. The recipient may only start incurring program expenses beginning on the official project start date, unless pre-award costs are authorized in the award agreement.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO neither constitutes an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

2. Administrative and National Policy Requirements

Before submitting an application, applicants should review all the terms and conditions and that will apply to this award to ensure that they will be able to comply. These include, but may not be limited to:

- [2 CFR 25 - UNIVERSAL IDENTIFIER AND SYSTEM FOR AWARD MANAGEMENT](#)
- [2 CFR 170 - REPORTING SUBAWARD AND EXECUTIVE COMPENSATION INFORMATION](#)
- [2 CFR 175 - AWARD TERM FOR TRAFFICKING IN PERSONS](#)

- [2 CFR 600 – DEPARTMENT OF STATE REQUIREMENTS](#)
- [U.S. DEPARTMENT OF STATE STANDARD TERMS AND CONDITIONS](#)

INL will review and consider applications in accordance with the Office of Management and Budget's guidance located at 2 CFR part 200, all applicable Federal laws, and relevant Executive guidance. This may include, but is not limited to:

- Guidance for Grants and Agreements in Title 2 of the Code of Federal Regulations (2 CFR), as updated in the Federal Register’s 85 FR 49506 on August 13, 2020, particularly on:

3. Reporting Requirements

State Department Leahy Amendment Vetting Requirements

Funds provided under this award will be subject to Section 620M of the Foreign Assistance Act of 1961, as amended, a provision titled “Limitation on Assistance to Security Forces” (the “Leahy Amendment”). Subsection (a) of that provision states: “(a) In General.—No assistance shall be furnished under this Act [the Foreign Assistance Act] or the Arms Export Control Act to any unit of the security forces of a foreign country if the Secretary of State has credible information that such unit has committed a gross violations of human rights.” Accordingly, none of the funds under this award may be used to provide training or other assistance to any unit or member of the security forces of a foreign country if the Department of State has credible information that such unit or individual has committed a gross violation of human rights.

The recipient will be required to exercise due diligence to ensure compliance with the Leahy provision and State Department policy, and to cooperate with the State Department in implementation of the Leahy requirement for funds under this award. The Department implements the Leahy requirement by vetting units or individuals proposed for training or other assistance to check for credible information of a gross violation of human rights by such units or individuals. To facilitate State Department vetting, the Recipient must provide the required information for proposed participants at least sixty (60) calendar days prior to commencing award activities. This information should be submitted to the U.S. Embassy in the country where the award will be implemented in order to initiate Leahy vetting procedures.

Recipient Reports

Recipients will be required to submit financial reports and program narrative reports. The award document will specify how often these reports must be submitted.

Applicants should be aware of the post-award reporting requirements reflected in [2 CFR 200 Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters](#).

Foreign Assistance Data Review

As required by Congress, the Department of State must make progress in its efforts to improve tracking and reporting of foreign assistance data through the Foreign Assistance Data Review (FADR). The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Recipient(s) will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, the successful applicant will be required to maintain separate accounting records.

APPENDIX A: PERFORMANCE MONITORING PLAN

Monitoring is the ongoing collection and analysis of information to inform project management and decision making. A monitoring plan is an agreement between stakeholders about how, when, and by whom the intervention's results will be measured, and how measurement will inform decisions.

Requirements for INL Performance Monitoring are met through three documents:

1. Change Map;
2. Performance Indicator Reference Sheet; and
3. Performance Monitoring Reports.

The Change Map shows the links between project goals, objectives, and activities, as well as which goal, objective, or activity each indicator is intended to monitor. A complete Change Map is a required component of a project proposal, though all elements can be modified over the life of the project.

The Performance Indicator Reference Sheet (PIRS) provides detailed information for each indicator, including baseline and target values. An illustrative PIRS, defining three indicators and using notional data as needed, is a required component of a project proposal. A complete PIRS, with full information for every indicator, is required as an early project deliverable. The PIRS may be modified as needed over the life of the project.

The Performance Monitoring Reports provide information throughout the life of the project about the progress of project implementation and performance against indicator targets. INL and the Grantee will agree upon the quarterly reporting procedures and templates when the Statement of Work is finalized. No documents related to the Performance Monitoring Reports are needed at the time of the proposal.

APPENDIX B: PROJECT RISK ANALYSIS

Risks are unavoidable – all programs inherently contain both internal and external risks. However, with proper identification and management, risks can be prepared for, minimized or mitigated. The purpose of a risk analysis is to identify the internal and external risks associated with the proposed project in the application, rate the likelihood of the risks, rate the potential impact of the risks on the project, and identify actions that could help mitigate the risks. A risk analysis should not be considered a one-time exercise or a static document.

INL defers to organizations to conduct adequate risk analysis and remediation for all of its operations and advises that risk analysis and remediation occur throughout the life of a program and should result in revisions to risk analysis documents and processes as necessary. Applicants should incorporate all assumptions and external factors identified in the Monitoring Plan and Proposal Narrative into the risk analysis. Applicants should rate the likelihood of a risk and potential impact of the risk as “high”, “medium”, or “low.”

The safety and security of recipients and beneficiaries are of utmost importance. INL requires all recipients to conduct thorough risk assessments and take all actions necessary in accordance with those assessments to mitigate those risks. INL does not take responsibility for the risks incurred by any recipient.

INL has included a template for the Project Risk Analysis in the Related Documents tab of the NOFO announcement on [grants.gov](https://www.grants.gov). For more information about the Risk Analysis, please see 2 CFR 200.519.

APPENDIX C: BUDGET AND BUDGET NARRATIVE

Before grants are awarded, INL reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the INL program and availability of funds.

A. Budget Proposal

Complete budget proposals should include a Summary Budget; Detailed Budget; and Sub-grantee Detailed Budget(s), if applicable. The Summary Budget and Detailed Line-Item Budget should be combined in one spreadsheet document. They should be organized according to the OMB-approved budget categories:

- Personnel
- Fringe Benefits
- Travel
- Equipment
- Supplies
- Contractual
- Construction
- Other Direct Costs
- Indirect Costs

If proposing sub-grantee(s), applicants should include detailed sub-grantee budget(s) as additional tabs within the budget spreadsheet. These budgets should follow the same formatting as the primary budget proposal, including all OMB-approved budget categories.

B. Budget Narrative

The Budget proposal provides a numeric-based description of costs under the project. The Budget Narrative is a critical companion document to the Budget that provides numeric and narrative descriptions of each cost item included in the Budget.

All costs included in the project, whether federal or recipient cost share, must be allowable, allocable, reasonable, necessary, and consistent with OMB guidelines. The applicant should keep this in mind when drafting the Budget Narrative, as INL will reference both the Budget and Budget Narrative to determine whether proposed costs fit these requirements.

Category A. Personnel

This section should include all staff from the applicant organization that will work on this project.

- Identify staff by name, where possible, and position title and include a brief description of duties.
- List the annual or monthly salary of each position, their level of effort (i.e., percentage of time working on project), and number of months or years they will work on the project.
- If applicable, separate personnel by location (e.g., headquarters staff and field office X staff)

Category B. Fringe Benefits

Fringe Benefits are the non-wage compensation provided to employees in addition to their normal

wages or salaries. Common examples include health insurance, vacation and sick leave, and employer-paid taxes. Fringe benefit application must be consistent with organization's written policy.

- Explain how benefits are computed for each category of employee
- Specify the type of benefit and rate. If applicable, reference rates found in NICRA.

Category C. Travel

This category outlines travel planned for staff and participants.

- **Domestic and International Airfare**
 - Indicate origin and destination (city and country), number of travelers, number of trips each, unit cost per round trip, and purpose.
 - All travel must be booked with economy class fares only.
 - Where applicable, travel should comply with the Fly America Act. More information located here: <http://www.gsa.gov/portal/content/103191>.
- **In-Country Travel**
 - Indicate origin and destination cities, mode of transportation, number of travelers, and unit cost per traveler per trip.
- **Per Diem**

This includes lodging, meals and incidentals (M&IE) for staff and participant travel.

 - Rates of maximum allowances for U.S. and foreign travel are located here: <http://www.policyworks.gov/>.
 - Per diem rates must follow the organization's own policy; however, institutions may use official government per diem rates as reference.
 - Per diem rates may be prorated and/or removed if the project is paying for refreshments and/or meals for participants (e.g., while attending a workshop or conference).

Category D. Equipment

Equipment is defined as an item with a per-unit cost of \$5,000 or more and a service life of more than one year. If the item meets these criteria, all federal procurement policies and procedures must be followed. If an item does not meet these criteria, it should be listed as a supply item under Category E.

- Provide a description and justification for all equipment, breaking down the total cost into its components where possible.
- Specify whether the equipment will be purchased or rented.

Category E. Supplies

Supplies include tangible items (e.g., toner, laptops, paper) and intangible items (e.g., computer software and licenses) used to manage the project and activities.

- List items separately, including a brief description and justification for the item, number of units, and unit cost.
- For electronic supplies (e.g., mobile phones and laptops), specify which staff will receive the items and the programmatic need.

Category F. Contractual

- **Sub-grants**

A common distinction between sub-grantees and contractors is the role being played; is the entity simply providing a service or are they an implementing partner:

- Each sub-grant should be listed as a line within the main budget and be supported by a separate line-item sub-grant budget.
- For simple sub-grants, the applicant may elect to include the sub-grant's line items within the contractual section of the Budget Narrative; for more complex sub-grants, the applicant should include the sub-grant's line items at the end of the Budget Narrative.
- **Consultant Fees and Contracts**
Common examples include lecture fees, honoraria, travel and per diem for outside speakers or independent evaluators, and subject-matter expert consultants.
 - Describe the nature of the contract/consultancy and list number of people and rates
 - Fees and rates should be consistent with the level of experience and based on a fair market value.
 - Fees and honorarium should not exceed \$698/day per person, effective January 1, 2022. The 2021 rates will apply to all NOFOs issued before January 1, 2022, until amended.

Category G. Construction

Due to the nature of INL programs, construction costs are not allowable or applicable.

Category H. Other Direct Costs

Other direct costs are any costs not included in the other categories. This category may include the entity's operating expenses that are directly linked to the award but not included as an indirect cost.

- For shared costs (e.g., office rent, utilities, wifi, etc.), justify the percentage of the total cost that is being charged to this project.
- Audit costs can be included if they are not covered by indirect costs. Only the portion of an organizational audit cost associated with this project should be charged to this project.
- Avoid using vague wording such as "miscellaneous", "other", "etc.", and "contingency fund".

Category I. Total Direct Costs

This category simply adds together the totals of all previous categories (A through H) to provide a summary of all direct costs. No additional narrative information is necessary for this category.

Category J. Indirect Costs

Indirect costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. The organization's elected methodology must be used consistently for all federal awards.

Indirect costs can be included in the budget under one of the following methods:

- **Negotiated Indirect Cost Rate Agreement (NICRA)**
Applicants with an established NICRA may charge their approved indirect rate(s).
 - Indicate the rate(s) and the base(s) to which they are applied (e.g., all direct costs, to wages and salaries only, etc.)
 - If an applicant is electing to charge a rate lower than their approved NICRA, an explanation should be provided within the Budget Narrative.
- **De Minimis Rate**
Applicants that have never received a NICRA can charge a de minimis rate of 10% of modified total direct costs (MTDC) to cover indirect expenses.

- MTDC includes “all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subaward)”
- MTDC excludes “equipment, capital expenditures, charges for patient care, rental costs, tuition reimbursement, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$25,000”. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.
- Justify the MTDC calculation and outline which costs the applicant is proposing to be included within the MTDC base.

Cost Share

Cost Share is the portion of program costs not borne by the Federal Government. Cost sharing may take the form of allowable direct or indirect costs offered by the applicant and/or in-country partners. Applicants should consider all types of cost sharing, including in-kind and public-private partnerships. Additional information on cost share can be found in 2 CFR 200.306. Common examples include the use of office space owned by other entities; donated supplies and equipment; and activities and services conducted by qualified volunteers.

- Line items that include cost share should be identified as such within the Budget Narrative and include the same level of detail requested within this Appendix for federal expenses.
- Monetary values should be assigned to each cost-share line item, in accordance with 2 CFR 200.306.
- Funding from other U.S. government entities or programs does not constitute cost sharing.

C. Budget Allowances and Restrictions:

Program Income

Recipients must report any income generated by the project, also known as “program income.” Program income earned during the project period shall be retained by the recipient and, in accordance with the terms and conditions of the award, shall be addressed in one or more of the following ways:

- added to the award total and used to further program objectives
- used toward the recipient’s cost sharing requirement
- deducted from the total allowable costs in order to determine the net allowable costs for the award

Cost Share

If a resulting federal award includes recipient cost share, the recipient must maintain written records to support all allowable costs that are claimed as its contribution to cost share. Such records are subject to audit. In the event the recipient does not meet the minimum amount of cost sharing as stipulated in the recipient’s budget, INL may reduce the federal share of the award in proportion to the recipient’s actual cost share contribution.

Considered Costs

INL will consider approval of the following (non-exhaustive) list of expenses:

- External evaluation to assess the project’s impact
- Internal evaluation conducted by the grantee
- Audit for the recipient organization or specific project
- Visa fees, immunizations, and medical insurance necessary for travel under the project

- English translations for reporting, relevant documents, or events
- Training for project staff related to monitoring and evaluation, financial management, and other skills necessary to effectively manage the project

Unallowable Costs

The following (non-exhaustive) list of expenses are not allowed in INL grants and cooperative agreements and should not be included within the proposed budget:

- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction
- Alcoholic beverages
- Buying or leasing land
- Direct support or the appearance of direct support for individual or single-party electoral campaigns
- Duplication of services immediately available through municipal, provincial, or national government

INL Grants Officer Specific Approvals

The following list of expenses will require the pre-approval of an INL Grant Officer:

- Program income for the grantees and/or sub-grantees (Note: Program income is defined as "gross income earned by a recipient that is directly generated by a sponsored activity or earned as a result of the award". Program income must be identified, appropriately documented, and the resulting revenue and expenses properly recorded and accounted for. Program Income must be pre-approved by the Grants Officer).
- Expenses incurred before or after the award period of performance, unless prior written approval is given by INL Grants Officer
- Costs of entertainment, including amusement, diversion, and social activities, except where these costs have a demonstrable programmatic purpose and are authorized by INL
- Construction

Additional Notices

The applicant is reminded that funds provided under this agreement must be used in a manner fully consistent with U.S. law.

The applicant will be responsible for complying with all applicable tax treaties and federal, state, and local laws on tax withholding and reporting for program participants.
