World Trade Center (WTC) Health Program NOFO: Public Information Session Questions and Answers

RFA-OH-24-002

Q: For resubmissions from last year, what are the additional requirements for the application?

A: RFA-OH-24-002 is a reissue of last year's RFA-OH-23-001. Note that the requirements, guidance, instructions, and other information have changed. Please follow the instructions in the Application Guide and the RFA-OH-24-002 when you prepare a revised application for resubmission. This information is found in Part 2, Section IV.2 (Application and Submission Information, Content and Form of Application Submission). For example, you must use the FORMS-H application package to prepare your application. For resubmissions, a 1-page Introduction to Application where you address reviewer's comments is required. An Introduction to Application is not allowed for new applications.

Q: There is also an RFA-OH-23-001, would you provide more details on that NOFO?

A: RFA-OH-23-001 has expired and was reissued as RFA-OH-24-002. Please follow the reissued NOFO and Application Guide when preparing your application.

Q: What are the differences of the two R21 NOFOs for FY24?

A: RFA-OH-24-003 is for Survivors Only, including WTC Youth. Proposals involving responders will NOT be accepted for review. RFA-OH-24-002 is focused on Lifestyle Medicine. Proposals can include responders and/or survivors as study populations. Please see each NOFO for more information on the requirements, specifically Part 2, Section I, Notice of Funding Opportunity Description.

Q: For these latest announcements, is the maximum period of performance 2 years with budget of $350K per year?

A: Each NOFO has its own maximum period of performance and annual budget requirements. Please see Part 2, Section II, Award Information. For both R21 NOFOs, the period of performance is 2 years with a total cost of up to $500K for both years; no more than $365K in total costs may be requested in any single year. For FY2024 U01 applications, the period of performance is up to 2 years, with an annual budget up to $350K per year. For K01 applications, the period of performance is up to 3 years, with total cost up to $100K per year toward salary and fringe benefits, AND up to $60K per year toward research development costs.
