NRRI researchers have decades of experience accurately sampling, assembling, and reporting on all aquatic indicators identified in this project and are quite familiar with the St. Louis River Estuary from previous sampling over the past two decades, including collection of data integral to AOC delisting. NRRI researchers are well-known and respected for their expertise in landscape ecology and their expertise of the St. Louis River Estuary.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.
