

Funding Opportunity F12AS00362:

Award Data	Description
1 Single Source Justification Criteria	505 DM 2.14.B - Unique Qualifications-applicant is uniquely qualified to perform the activity
2 Recipient or Type(s) of Eligible Recipients	Resource Conservation District of Santa Cruz County
3 Award Amount	Total Award: \$145,000
4 Overview - Specific or Generic	The RCD is uniquely qualified to perform the activity based upon technical expertise, experience, support capacity and cost sharing ability. It is anticipated that the Service's involvement will consist of Federal stewardship responsibilities, such as monitoring project performance and on-the-ground activities, and technical assistance, necessary to the satisfactory completion of the activity. The Service will also be responsible for vegetation restoration of project area after construction. Whereas the Service is responsible for providing funds to the RCD for the reconstruction of Prospect Pond, the RCD will fund and /or provide in-kind services for obtaining required environmental documents and permit, coordination with and responding to permitting agencies, generating the Final Drawings and Specifications Engineering Docket, as well as provide additional funds for construction.
