Food for Progress Standing NOFO

Questions received as of June 30

1. Our project is in the process of preparing for the third and last sale of commodities. The total anticipated proceeds after the final sale will lead to a deficit from the approved project budget. After the completion of the third sale, our project will have enough shipping funds to cover an additional sale. Is our project eligible to submit an application under the Supplemental Standing NOFO?
    A. *A project must first complete all planned monetization before submitting an application under the Supplemental Standing NOFO. Applicants that respond to the NOFO without prior approval from IFAD will not be considered.*
