Food for Progress Standing NOFO

Questions received as of June 19

1. Our organization has an active cooperative agreement. We have remaining freight funds. Our project has experienced monetization shortfalls in 2019 and 2020. How will organizations be notified that they are eligible? When will this notification occur?
   A. *This notification will occur on a rolling basis between now and the August 1st application deadline provided in the Standing FFP NOFO. USDA regularly monitors the status of all monetizations. After a project has completed its final monetization, USDA reviews its agreements for any monetization shortfall and the remaining level of freight funds to determine if the agreement holder meets the eligibility requirements to apply for the Standing NOFO. When the analyses are complete, USDA will inform eligible agreement holders.*
