

PROJECT ANNOUNCEMENT

US Army Corps of Engineers (USACE) Engineer Research and Development Center (ERDC)

Title: Evaluating Physical, Chemical, and Biological Impacts from the Savannah Harbor Expansion Project

Announcement Type: Initial Announcement

Funding Opportunity Number: W81EWF-23-SOI-0006

Assistance Listing Number: 12.630

Date Issued: 23 Mar 2023

Key Dates: Phase I announcement will be open to receive statements of interest continuously until 5:00PM Central Time (CT), 22 Apr 2023, at which point all statements of interest must be received.

If invited to Phase II, full proposal applications will be due at 5:00PM Central Time (CT), 22 May 2023.

Estimated Award Ceiling: \$ 151,000.00

Estimated Total Program Funding: \$ 801,680

Agency Contact: Chelsea Whitten, Chelsea.M.Whitten@usace.army.mil

I. Program Description

A. Short Description of Funding Opportunity

ERDC seeks applications to identify potential investigators for studies and analyses to be performed as part of the Savannah Harbor Expansion Project (SHEP) Monitoring and Adaptive Management Plan (MAMP). The project is funded by the US Army Corps of Engineers (USACE), Savannah District and approximately \$151,000 is expected to be available to support Year 1 of this work. Additional funding at up to \$170,000 per year may be available for follow on work in subsequent fiscal years for up to 4 years after the base award for a total of \$802,000.

B. Background

As part of the SHEP, the U.S. Army Corps of Engineers (USACE) prepared a Monitoring and Adaptive Management Plan (MAMP) that outlines numerous projects and processes that will be carried out to assess project-induced impacts on the environment. One project, or component of the MAMP, included creating a baseline data bank. This data collection, integration, and analysis was initiated in September 2013 and drew upon prior research, readily available data, and new research in the Savannah River Basin and Estuary, located in Georgia and South Carolina, to develop and implement a web-based geographic information system (GIS), which is accessible to the public (<http://www.shep.uga.edu/#&panel1-1>). This information includes data on the resources of concern such as water quality, fisheries, groundwater, wetlands, etc. Monitoring data and the data integration/analysis conducted as part of the work will be used to evaluate the physical, chemical and biological impacts of the SHEP as discussed in the MAMP.

Data will be used to assess the effectiveness of the mitigation features that will be constructed as part of the SHEP to ensure the levels of environmental effects predicted in the Environmental Impact Statement are not exceeded.

C. Program Description/Objective: (brief description of the anticipated work)

To evaluate the effectiveness of the mitigation features constructed for the SHEP, data must be collected to establish a baseline databank. In addition to the data that will be generated from various pre-construction monitoring studies, existing data on resources in Savannah Harbor must be collected. A literature search would be conducted to identify previous applicable surveys and projects. In addition to locating existing data, resources such as, but not limited to, USACE published reports and surveys that would contain data useful in establishing the SHEP post-construction impacts will be reviewed. Data for resources of concern such as water quality, fisheries, groundwater, wetlands, etc. would be collected.

The data will be combined with SHEP monitoring data and integrated into an existing online GIS and web portal.

D. Public Benefit

The data gathered will benefit the public by increasing understanding of the resources that are

located within the Savannah River Estuary, including the Savannah National Wildlife Refuge, a key public resource of importance to the Nation due to its unique ecological habitats. The data reported will provide information on the various types of resources as well as locational data. Portions of the online GIS and web portal will be made available for public access. The current interactive website is accessible to the public and frequently visited. Since the website was implemented in 2014 there have been 11,192 sessions when users have actively engaged with the website. At the end of fiscal year 2022, there was a total of 786 sessions. Of those 786 sessions, there was a total of 465 users actively engaged the website.

Information that will be collected will expand the base of knowledge that supports current and future restoration decision-making and further refines which restoration approaches are most effective for different resources. Data input into the GIS will show how adaptive management principles can be applied to assure that the overall public interest is well served. Data will allow the public to monitor the success or need to alter management of the various environmental mitigation projects. The reports generated will be distributed to a variety of state and federal resource agencies such as USACE, U.S. Geological Survey, GA Department of Natural Resources, National Oceanic and Atmospheric Agency, and U.S. Fish and Wildlife Service. Data in the reports will be used by the researchers to further research interests and reported in professional papers and presentations that are available to the public.

E. Authorization: 10 USC 4001

F. Legal Requirements

Each Cooperative Agreement awarded under this announcement will be governed by 2 CFR 200, “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards”, 2 CFR 1100 Subchapter D—Administrative Requirements Terms and Conditions for Cost-Type Grants and Cooperative Agreements to Nonprofit and Governmental Entities and the DoD research general terms and conditions located at <https://www.nre.navy.mil/work-with-us/manage-your-award/manage-grant-award/grants-terms-conditions>.

G. Program-Specific Requirements

Successful applicants will be expected to attend annual SHEP monitoring meetings either virtually or in-person to provide a status update of completed and ongoing GIS activities associated with the project.

II. Federal Award Information

The following information applies to awards issued under this announcement:

- This is a one-time initiative.
- The Government anticipates 1 Federal awards from this announcement, but reserves the right to award more or less
- The total amount of funding expected to be awarded through this announcement is \$ 801,680
- The expected amount of funding for each award is \$ 151,000 for Year 1, \$ 155,530

for Year 2, \$ _160,196__ for Year 3, \$ _165,002__ for Year 4, and \$ _169,952__ for Year 5.

- Award(s) from this announcement will be Cooperative Agreement(s)
- The anticipated period of performance is 5 Years
- Applications for renewal or supplementation of existing projects are eligible to compete with applications for new Federal awards
- The government reserves the right to accept only portions of an application and to negotiate with potential awardees
- Government's substantial involvement includes USACE technical personnel from both Planning and Engineering Divisions to work collaboratively with the successful applicant to develop the GIS infrastructure and determine the critical components, layouts, long-term goals, etc. With the input of the successful applicant, USACE personnel will provide in-house GIS data so that it will meet the intent of the work described in this statement of interest. USACE personnel will actively contribute to the work by giving feedback, providing new data, and sharing advanced GIS analytical techniques throughout the duration of the agreement to insure the public and other interested parties can easily access and readily use the GIS and web portal.

III. Eligibility Information

A. Eligible Applicants

This opportunity is restricted to non-federal partners of the Piedmont-South Atlantic Coast Cooperative Ecosystems Studies Unit (CESU).

Disclosures of current and pending support made in this application may render an applicant ineligible for funding. Prior to award and throughout the period of performance, ERDC may continue to request updated continuing and pending support information, which will be reviewed and may result in discontinuation of funding.

Religious organizations are entitled to compete on equal footing with secular organizations for Federal financial assistance as described in E.O. 13798, "Promoting Free Speech and Religious Liberty."

B. Cost Sharing or Matching

This action will be _100__% funded by USACE.

C. Conflict of Interest

a) General Requirement for Disclosure

You and your organization must disclose any potential or actual scientific or nonscientific conflict of interest(s) to us. You must also disclose any potential or actual conflict(s) of interest for any identified sub recipient you include in your application. We may have to ask you more questions if we need more information.

At our discretion, we may ask you for a conflict-of-interest mitigation plan after you submit your application. Your plan is subject to our approval.

b) Scientific Conflict of Interest

Scientific collaborations on research and development projects are generally the result of close collaboration prior to the submission of applications for support. Accordingly, these collaborations should be considered when considering potential conflicts of interest. The potential conflict is mitigated by the disclosure of these collaborations, and the list of current and pending support you provide for senior and key researchers. Therefore, you must include in your list of current and pending support all collaborators, even if they did not formally provide support.

D. Other

a) Licensure or Certification

You must include the Acknowledgment of Support and Disclaimer on all materials created or produced under our awards. This language may be found in the Terms and Conditions included in the award documents.

E. Certifications, representations, and assurances

1. To apply for grants and other funding opportunities the applicant entity must have an active registration in the System for Award Management (SAM). Applications will not be accepted through Grants.gov or other methods unless the entity is registered in SAM. Registration in SAM now includes the acceptance of Certifications and Assurances. See <https://www.grants.gov/web/grants/grantors/grantor-standard-language.html> for details on how to register in SAM, and Grants.gov
2. The Federal Assistance Certifications Report is an attestation that the entity will abide by the requirements of the various laws and regulations; therefore, as applicable, you are still required to submit any documentation, including the SF-LLL Disclosure of Lobbying Activities (if award value exceeds \$100,000.00), and, if applicable, informing DoD of unpaid delinquent tax liability or a felony conviction under any Federal law.
3. Certification Regarding Disclosure of Funding Sources. By checking "I Agree" on the SF 424 (R&R) block 17 you agree to abide by the following statement: "By signing this application, I certify the proposing entity is in compliance with Section 223(a) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 which requires that: (a) the PI and other key personnel certify that the current and pending support provided on the proposal is current, accurate and complete; (B) agree to update such disclosure at the request of the agency prior to the award of support and at any

subsequent time the agency determines appropriate during the term of the award; and (c) the PI and other key personnel have been made aware of the requirements under Section 223(a)(1) of this Act. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties. (U.S. code, Title 218, Section 1001)."

IV. Application and Submission Information (2 Phase Process)

A. Phase I: Submission of Statement of Interest (SOI)

1. Materials Requested for Statement of Interest/Qualifications:

a. Please provide the following via e-mail attachment to: Chelsea Whitten via Chelsea.m.whitten@usace.army.mil (Maximum length: 2 pages, single-spaced 12 pt. font).

i. Name, Organization and Contact Information

ii. Brief Statement of Qualifications (including):

- Biographical Sketch,
- Relevant past projects and clients with brief descriptions of these projects,
- Staff, faculty or students available to work on this project and their areas of expertise,
- Any brief description of capabilities to successfully complete the project you may wish to add (e.g. equipment, laboratory facilities, greenhouse facilities, field facilities, etc.).

Note: A proposed budget is NOT requested at this time.

The administrative point of contact is (Chelsea Whitten via Chelsea.m.whitten@usace.army.mil)

2. ERDC will only accept SOIs submitted on or before 22 Apr 2023, 5:00PM Central Time (CT).

Based on a review of the Statements of Interest received, an investigator or investigators will be invited to move to Phase II which is to prepare a full study proposal. Statements will be evaluated based on the investigator's specific experience and capabilities in areas related to the study requirements.

B. Phase II (if invited): Submission of Full Application Package

1. Address to Request Application Package

The complete funding opportunity announcement, application forms, and instructions are

available for download at Grants.gov.

The administrative point of contact is (Chelsea Whitten via Chelsea.m.whitten@usace.army.mil)

2. Content and Form of Application Submission

All mandatory forms and any applicable optional forms must be completed in accordance with the instructions on the forms and the additional instructions below.

- a. SF 424 R&R - Application for Federal Assistance
- b. Full Technical Proposal – Discussion of the nature and scope of the research and technical approach. Additional information on prior work in this area, descriptions of available equipment, data and facilities, and resumes of personnel who will be participating in this effort should also be included.
- c. Cost Proposal/Budget – Clear, concise, and accurate cost proposals reflect the offeror's financial plan for accomplishing the effort contained in the technical proposal. As part of its cost proposal, the offeror shall submit a full budget in sufficient detail so that a reasonableness determination can be made. A recommended template will be included in the invitation to Phase II. The SF 424 Research & Related Budget Form can be used as a guide but is required if the sub-recipient uses it. The cost breakdown should include the following, if applicable:
 1. Direct Labor: Direct labor should be detailed by level of effort (i.e. numbers of hours, etc.) of each labor category and the applicable labor rate. The source of labor rates shall be identified and verified. If rates are estimated, please provide the historical based used and clearly identify all escalation applied to derive the proposed rates.
 2. Fringe Benefit Rates: The source of fringe benefit rate shall be identified and verified.
 3. Travel: Travel costs must include a purpose and breakdown per trip to include destination, number of travelers, and duration.
 4. Materials/Equipment: List all material/equipment items by type and kind with associated costs and advise if the costs are based on vendor quotes and/or engineering estimates; provide copies of vendor quotes and/or catalog pricing data.
 5. Subrecipient costs: Submit all subrecipient proposals and analyses. Provide the method of selection used to determine the subrecipient.
 6. Tuition: Provide details and verification for any tuition amounts proposed.
 7. Indirect Costs: Currently the negotiated indirect rate for awards through the CESU is 17.5%.
 8. Any other proposed costs: The source should be identified and verified.
- d. R&R Senior/Key Person Profile

1. Biographical Sketch

2. Disclosure of Current and Pending Support:

- i. A list of all current projects the individual is working on, in addition to any future support the individual has applied to receive, regardless of the source.
- ii. Title and objectives of the other research projects.
- iii. The percentage per year to be devoted to the other projects.
- iv. The total amount of support the individual is receiving in connection to each of the other research projects or will receive if other applications are awarded.
- v. Name and address of the agencies and/or other parties supporting the other research projects.
- vi. Period of performance for the other research projects.

e. SF-LLL Disclosure of Lobbying Activities (if award value exceeds \$100,000.00)

f. Data Management Plan:

A data management plan is a document that describes which data generated through the course of the proposed research will be shared and preserved, how it will be done, or explains why data sharing or preservation is not possible or scientifically appropriate, or why the costs of sharing or preservation are incommensurate with the value of doing so. See also: DoD Instruction 3200.12.

<https://www.esd.whs.mil/Portals/54/Documents/DD/issuances/dodi/320012p.pdf?ver=2019-04-30-073122-220>

Data management plans are generally 2 pages in length, and must include the following considerations:

- (1) The types of data, software, and other materials to be produced.
- (2) How the data will be acquired.
- (3) Time and location of data acquisition, if scientifically pertinent.
- (4) How the data will be processed.
- (5) The file formats and the naming conventions that will be used.
- (6) A description of the quality assurance and quality control measures during collection, analysis, and processing.
- (7) A description of dataset origin when existing data resources are used.
- (8) A description of the standards to be used for data and metadata format and content.
- (9) Appropriate timeframe for preservation.
- (10) The plan may consider the balance between the relative value of data preservation and other factors such as the associated cost and administrative burden. The plan will provide a justification for such decisions.

3. ERDC will only accept full application packages submitted on or before 22 May 2023, 5:00PM Central Time (CT).

4. Submission Instructions

Choose **ONE** of the following submission methods:

a. E-mail:

Format all documents to print on Letter (8 ½ x 11”) paper. E-mail proposal to Chelsea Whitten via Chelsea.m.whitten@usace.army.mil.

b. Grants.gov: <https://www.grants.gov/>:

Applicants are not required to submit proposals through Grants.gov. However, if applications are submitted via the internet, applicants are responsible for ensuring that their Grants.gov proposal submission is received in its entirety.

All applicants choosing to use Grants.gov to submit proposals must be registered and have an account with Grants.gov. It may take up to three weeks to complete Grants.gov registration. For more information on registration, go to <https://www.grants.gov/web/grants/applicants.html>.

Organizations must have a Unique Entity Identifier (UEI) and active System for Award Management (SAM) registration to apply for Federal financial assistance.

C. Application Withdrawal:

An applicant may withdraw an application at any time before award by written notice via email. Notice of withdrawal shall be sent to the agency point of contact identified in this announcement and are effective upon receipt.

D. Funding Restrictions

Per 2 CFR § 200.216, funds may not be used to procure telecommunications equipment or video surveillance services or equipment produced by

- Huawei Technologies Company,
- ZTE Corporation Hytera Communications Corporation,
- Hangzhou Hikvision Digital Technology Company,
- Dahua Technology Company
- any subsidiary or affiliate of such entities

Funds from an award may not be used to attain fee or profit.

V. Application Review Information

A. Selection Criteria

Applications will be evaluated using the following criteria, listed in descending order of importance:

- Investigator’s specific experience and capabilities in areas related to the study requirements.
- Technical merits of the proposed research and development; and
- Potential relationship of the proposed research and development to Department of

Defense missions

- Successful applicants should have expert knowledge and work experience in the Savannah River Basin, preferably in the estuarine environments that promulgate the Savannah Harbor area.
- The candidates should have prior experience with monitoring datasets found within the Savannah River Basin including mapping and statistical analysis using ArcGIS 10 or later.

B. Review and Selection Process:

Each application will be reviewed based on the selection criteria above rather than against other applications submitted under this Announcement.

Based on the Peer or Scientific Review, proposals will be categorized as Selectable or Not Selectable (see definitions below). The selection of the source for award will be based on the Peer or Scientific Review, as well as importance to agency programs and funding availability.

- i. Selectable: Proposals are recommended for acceptance if sufficient funding is available.
- ii. Not Selectable: Even if sufficient funding existed, the proposal should not be funded.

Note: The Government reserves the right to award some, all, or none of proposals. When the Government elects to award only a part of a proposal, the selected part may be categorized as Selectable, though the proposal as a whole may not merit such a categorization.

In addition to the technical/program review, the DoD performs a budget review and a risk review as directed by 2 CFR 200.206, including a review of the Federal Awardee Performance and Integrity Information System (FAPIIS). Applicants may review information in FAPIIS and comment on any information entered into that system. Comments made by applicants will be taken into account in addition to other information in considering applicants' integrity, business ethics, and record of performance.

VI. Federal Award Administration Information

The notification e-mail regarding a selection is not authorization to commit or expend DoD funds. A DoD grants officer is the only person authorized to obligate and approve the use of federal funds. This authorization is in the form of a signed Notice of Award. Applicants whose applications are recommended will be contacted by a DoD grants officer to discuss any additional information required for award. This may include representations and certifications, revised budgets or budget explanations, or other information as applicable to the proposed award. The award start date will be determined at this time.

VII. Reporting Requirements

The terms and conditions of the award will provide the specifics on how to submit the reports

and any required sections for those reports.

In accordance with 2 CFR 200.328 (Financial Reporting) and 2 CFR 200.329 (Program Performance)

Report	Requirements/Form	Frequency	Means of Submission
ERDC Progress Report		Upon submittal of SF270	E-mail
Research Performance Progress Reports (Interim and Final)	OMB Control Number: 0704-0527	Annually	E-mail
Financial Report	SF 425	Quarterly	E-mail
Payment Report	SF 270	Monthly or quarterly	E-mail
Closeout Report		Once	E-mail

Awardees will need to comply with the reporting requirements in 2 CFR 170: Reporting Subaward and Executive Compensation Information.

The terms and conditions of the award will provide the specifics on how to submit the reports and any required sections for those reports.

VIII. Federal Contacts

Questions should be directed to:

Chelsea Whitten
Grants Officer
Chelsea.m.whitten@usace.army.mil

Questions regarding Grants.gov should be directed to: the toll-free number 1-800-518-4726 and email at support@grants.gov.

IX. Other Information

The Federal government is not obligated to make any Federal award as a result of the announcement. Only grants officers can bind the Federal government to the expenditure of fund.

Applicants are advised to monitor Grants.gov for potential amendments to this Notice of Funding Opportunity. You can also elect to be automatically notified by Grants.gov whenever there is a change to the opportunity.

Applications must not include any information that has been identified as classified national security information under authorities established in Executive Order 12958, Classified National Security Information.
