I. FUNDING OPPORTUNITY DESCRIPTION

The Bureau of Near Eastern Affairs, Office of Assistance Coordination (NEA/AC), seeks applications to strengthen American-style IHE in Iraq. With this announcement, NEA/AC seeks to support multiple awards with the objective of building and increasing the institutional capacity of IHE in Iraq. Proposals shall address ways to develop new and ongoing partnerships between IHEs in Iraq and higher education institutions in the United States. Particular focus should be given to building the capacity of IHE and educational systems in Iraq to meet American higher education standards. Proposals will be structured to establish sustainable partnerships which in the short-term produce meaningful institutional improvements and in the long-term help achieve formal accreditation by U.S. authorities. Additionally, projects will provide financial assistance to recruit and retain students who are representative of Iraq's diverse ethnic, geographic, and religious communities.

Proposals should facilitate continued professional skills development, including virtual or in-person exchanges with U.S.-based IHE, for faculty and administrators in areas like research, curriculum and pedagogic development, management and administration, and student and career development services. Proposals should also address ways to enhance students' critical thinking and problem solving skills; promote tolerance of different opinions and beliefs to foster community resilience and development; provide students from diverse religious, ethnic, and geographic backgrounds with professional skills that enable them to be engaged members of their field and citizens of their state; and develop facilities to support student access and performance including web-based enrollment applications, virtual classes and exchanges, and online learning tools.

Additionally, to support the U.S. Strategy on Women, Peace, and Security (WPS), proposals must address the distinct needs of women and girls to increase access to higher education through targeted recruitment and assistance efforts; provide tailored assistance to ensure completion of graduation requirements; and develop professional and leadership skills which promote economic empowerment.

This project is intended to contribute to the following NEA objectives: strengthening relationships across ethnic and religious divisions, promoting tolerance, opposing and reducing vulnerability to extremist ideology, and fostering economic development.

A. PROBLEM STATEMENT

American-style higher education plays an important role in influencing and educating the next generation of leaders – both women and men – in the region, offering an alternative vision to extremist ideologies, strengthening democracy, and encouraging economic growth. Support for institutions offering such an education will allow greater numbers of Iraqi students to develop the necessary knowledge and skills for professional and national leadership, in an academic environment that fosters critical thinking; tolerance of different opinions; appreciation for cultural and gender diversity; and a more expansive worldview.

B. ACHIEVABLE OBJECTIVES

A successful project must include, but does not need to be limited to:

1. Improvement in institutional capacity, as evidenced by:
 - a. New or enhanced partnerships and linkages with U.S. or regional IHE(s) that offer American-style curriculum;
 - b. Increased student body recruitment, retention, and diversity, consistent with Iraq's religious, ethnic, gender, and geographic diversity;
 - c. New and improved offerings to support student performance and post-graduate employment.
2. Demonstrable progress toward accreditation by U.S. and Iraqi accrediting organizations.
3. Clear, demonstrable efforts to support women, as evidenced by:
 - a. Targeted recruitment initiatives to increase the number of women enrolled in Iraqi IHEs;
 - b. Development of fields of study, course offerings and/or majors related to gender issues;
 - c. New or improved services to increase retention and graduation rates of female students; and/or,
 - d. Enhanced career development services for women that overcome unique challenges to meaningful participation in the economy.

C. PROJECT DESIGN

This solicitation invites applications in support of American-style higher education in Iraq. Funds are available to support projects with potential to promote this objective through activities that improve the capacity of the institution to provide degree programs for Iraqi students, incorporating high academic standards and progressive curricula; enhance critical thinking and problem solving skills; promote tolerance of different opinions and beliefs to foster community resilience and development; provide students from diverse religious, ethnic, and geographic backgrounds with professional skills that enable them to be engaged members of their field and citizens of their state; and develop facilities to provide employment counseling, and career development services to assist graduates' transitions from academic to professional roles. Proposals should address ways to enhance partnerships with U.S. and regional American-style institutions of higher education for the purposes of research, exchange, and curriculum and pedagogic development, to include faculty exchanges. Additionally, proposals must further WPS goals of promoting women's access to education and economic empowerment.

Project activities may include:

1. Activities to improve institutional capacity and financial sustainability.
2. Activities, which may include financial assistance, to recruit and retain students that are representative of Iraq's diverse ethnic, geographic, and religious communities, and that encourage/support women's enrollment.
3. Activities to work toward accreditation by U.S. and Iraqi accrediting bodies.

4. Curricula and activities designed to expose students to a broad variety of perspectives and worldviews.
5. Activities to enhance partnerships and linkages with U.S. and regional IHE, such as the development and sustainment of exchange programs, joint degree programs, faculty exchanges, and sharing of best practices.
6. Program elements that support the transition from academic to professional roles in the students' communities, possibly including, but not limited to, employment counseling and career development programs.
7. Renovations to existing facilities (not including new construction or structural changes to existing facilities) or improvements to university infrastructure (to include IT) that enhances the institution's ability to provide educational services and appropriate accommodation for women.
8. Third-party evaluations by credible organizations to help institutions improve the quality of curricula and programming, including to modernize areas of study to maintain currency with Western teaching methods and thinking.
9. Creation of new positions to better support recruitment and retention of female students, e.g. dedicated recruitment specialists, academic counselors, or career development officers.
10. New or improved housing options (not including new construction or structural changes to existing facilities) for female students.
11. Partnerships with the private and/or public sector to provide internships or job placement opportunities for students, especially women.
12. Strategies to recruit and retain female faculty or hire female staff at senior levels within the university administration.

Project beneficiaries must include:

1. Students from different religious, ethnic, and geographic backgrounds, representing the diversity of Iraq's population.
2. Women in Iraq (***at least 40% of budgeted project activities must directly benefit women in Iraq***).

The following activities and costs are **NOT ALLOWED** under this announcement:

- Exchange activities, other than Faculty Exchanges with partner IHE, with other countries or territories;
- Social welfare projects;
- Paying to complete activities begun with other funds;
- Activities that appear partisan or that support individual or party electoral campaigns;
- Academic or analytical research (if not necessary as part of a larger project);
- One-time events, such as stand-alone conferences and one-off round tables;
- Medical and psychological research and clinical studies;
- Projects of a commercial or profit-making nature;
- Cultural presentations, cultural research, cultural clubs, or festivals, etc.;
- Entertainment costs (e.g., receptions, social activities, ceremonies, alcoholic beverages, guided tours); and
- New construction of any kind.

NOTE: Applications that include any of these activities or costs above may be eliminated at the Technical Eligibility Review stage and will not advance to the Merit Review Panel.

D. GENDER INTEGRATION

NEA/AC requires that all activities fully address gender considerations, ensuring that both men and women benefit from support where applicable, and that gender awareness is a built-in component of project activities. This should be documented through gender analysis in the project narrative that identifies any relevant gender gaps and ways the proposed activities will address those gaps. Proposals should demonstrate how addressing relevant gender gaps will enhance the project's goals and objectives. Applicants who are unfamiliar with integrating gender in foreign assistance programming should view the training video located here: https://encompassworld.com/elearningfiles/DOS/DOS_Gender_Integration_E-Course/story_html5.html

E. DEFINITIONS

The following are **definitions** of activities accepted under this announcement:

American-Style Institute of Higher Education: A university or college in Iraq that implements an American curriculum; instructs courses in English; hires English-speaking faculty educated in the United States; uses American textbooks; and affiliates itself with American, British, Australian, and Canadian institutions of higher education.

Institutional Capacity: an institution or organizations' overall performance and viability, including its administrative and management functions, service provision, its structure, culture, and its sustainability. Institutional capacity-building programs are intended to strengthen an organization's ability to provide quality and effective services, while being viable as an institution. This means supporting an organization to be programmatically sustainable (providing needed and effective services), as well as organizationally sustainable (with strong leadership and having necessary systems and procedures to manage by), while ensuring that it has sufficient resources (human, financial and material).

II. MEASUREMENT OF RESULTS

Applicants shall provide a logic model or a theory of change to demonstrate how the proposed project (including activities, the project design, and the surrounding context) will achieve the stated objectives. The logic model or theory of change statements can be generated using the template in Appendix II. Please see Section VI below for more information.

Successful applicants will work with the NEA/AC program and monitoring and evaluation (M&E) teams to create a plan based on the proposed logic model/theory of change to measure qualitative and quantitative indicators as part of the award negotiations process. Successful applicants will be responsible for collecting data against these indicators, which will be monitored throughout the period of performance of the award to gauge necessary modifications

to the project's design, and assess the results of the project's success in meeting expected outcomes.

B. REGISTRATION REQUIREMENTS

To apply for NEA/AC (Federal) funding, organizations, whether based in or outside the U.S., must have a Unique Entity Identifier (UEI) number, often referred to as a DUNS number, and an active account with the System for Award Management (SAM). Applicants who do not meet all registration requirements are NOT eligible for funding under the opportunity.

UEI Number

All applicants must have a Unique Entity Identification (UEI) number.

Up to April 3, 2022, entities that are not already registered in SAM.gov and who wish to do business with the federal government need to obtain and/or use a UEI (DUNS) to register their entity on SAM.gov.

To obtain a UEI DUNS number, please follow the steps:

Go to <http://fedgov.dnb.com/webform/pages/CCRSearch.jsp>.

System for Award Management (SAM)

SAM is a U.S. government wide registry of vendors doing business with the Federal government and requires annual renewal. The system centralizes information about grant applicants/recipients, and provides a central location for grant applicants/recipients to change organizational information.

Further, each applicant must maintain an active account, with current information, while its application is under consideration for funding. To keep an active SAM.gov account, an applicant must renew it at least once each year. **If an organization's account expires, the organization cannot submit a grant application until it is renewed.**

To create a new SAM account, go to <https://sam.gov/content/entity-registration>.

Overseas entities must request a NCAGE code at <https://eportal.nspa.nato.int/Codification/CageTool/request-new-cage>.

For help with SAM.gov, please visit their support page at <https://www.fsd.gov> or contact them at: 866-606-8220 (U.S.) or +1-334-206-7828 (international).

Note: Obtaining an active SAM.gov registration may take **12 - 15 business days** to complete the process of creating an account in the system.

B. REVIEW AND SELECTION PROCESS

NEA/AC is committed to ensuring a competitive and standardized process for awarding funding. Applications will be screened initially in a Technical Eligibility Review stage to determine whether applicants meet the eligibility requirements outlined in Section V and have submitted all required documents outlined in Section VI. Applications that do not meet these requirements will not advance beyond the Technical Eligibility Review stage and will be deemed ineligible for funding under this NOFO.

NEA/AC reserves the right to have all applications deemed to be technically eligible undergo a Subject Matter Expert (SME) review prior to the Merit Review Panel. Applications that do not pass SME review will not proceed to the Merit Review Panel.

All applications that proceed to the Merit Review Panel will be evaluated by U.S. government and non-governmental subject matter and/or country-specific experts and will be rated on a 100-point scale. Point values for individual elements of the application are presented in Section VIII. Panel Reviewers' ratings, and any resulting recommendations, are advisory.

Final award decisions will be influenced by whether the application meets NEA/AC's programmatic goals and objectives, how it supports the Department's overarching foreign policy priorities, and the geographic distribution of the top-ranking applications.
