Development of Information Technology (IT) and Cybersecurity Fundamentals Course Curriculum:
Question and Answers #3

Q: We understand there needs to be a section in the Proposal Narrative labeled Performance Monitoring and Evaluation. Typically, with DOS applications we are able to upload a detailed Performance M&E chart as an appendix or supplemental attachment, outside of the page limits. Are we permitted to include a brief discussion of the Performance M&E in the Proposal Narrative and also upload a separate, more detailed chart as a supplemental attachment?

A: If applicants would like to include a performance M&E chart or additional M&E information, it will count toward the 10 page limit.
