How does DoD define Basic Research?

DoD policy states that basic research is the
*“systematic study directed toward greater knowledge
or understanding of the fundamental aspects of
phenomena and of observable facts...”*

DEPSCoR Program Overview

- Defense *Experimental* Program to Stimulate Competitive Research (DEPSCoR) was created by Congress in FY91 DoD appropriation, and legislatively authorized in 1994
- Defense *Established* Program to Stimulate Competitive Research (DEPSCoR) was reauthorized in 2017
- Appropriations (\$19M): FY22 Defense Appropriations Congressional supplement to the Basic Research Initiatives program line dedicated to DEPSCoR

Program Goals

DEPSCoR Objectives as mandated by Congress:

1. **Enhance the capabilities** of institutions of higher education (IHE) in eligible State/Territories to develop, plan, and execute science and engineering (S&E) research that is relevant to the mission of the DoD and competitive under the peer-review systems used for awarding Federal research assistance
2. **Increase the number of university researchers** in eligible States/Territories capable of performing S&E research responsive to the needs of the DoD
3. **Increase the probability of long-term growth** in the **competitively awarded** financial assistance that IHE in eligible States/Territories receive from the Federal Government for S&E research

DEPSCoR: Defense Established Program to Stimulate Competitive Research

Program Goal

To increase the number of university researchers and improve the capabilities of institutions of higher education in eligible jurisdictions to perform competitive basic research in science & engineering relevant to the DoD mission & reflect national security priorities.

FY22 Program Eligibility

Congressionally-directed eligibility criteria: “States or territories that received less than 60% of 1/50th of the total DoD S&E research obligations to U.S. IHE are eligible if a commitment to developing S&E research is demonstrated.”

***Eligible territories include Guam, Puerto Rico, and U.S. Virgin Islands**

Research Collaboration DEPSCoR Competition

Integrate new researchers from DEPSCoR-eligible states/territories into the DoD Research Enterprise through mentoring

Program Structure:

- 2-person team from DEPSCoR-eligible States/Territories can apply
 - \$200K/year (total cost) for three years
- **FOA-AFRL-AFOSR-2022-0006**

DEPSCoR – Research Collaboration Competition

FOA-AFRL-AFOSR-2022-0006

- **Collaborative research grants**
- **Strongly encouraged to flesh out proposal idea with a tri-Service Program Officer listed in the FOA**
- **One white paper submission per Applicant**
- **Collaborator may partner with more than one Applicant**
- **Security clearance is not required to receive award**
- **U.S. citizenship is not required**
- **Approximately 25 proposals will be selected for funding**

DEPSCoR – Research Collaboration Competition

FOA-AFRL-AFOSR-2022-0006

- Both Applicant and Collaborator must be **tenured or tenure-track faculty members** with appointments at an IHE in a DEPSCoR eligible State/Territory
- Applicant must be a full-time faculty member who has **never** served as a PI on a prior DoD-funded award
- Collaborator will collaborate on research AND provide *mentorship* to the Applicant. Collaborator must have **served as a PI on a DoD-funded research award actively between 1 October 2015 and 30 September 2022.**
- Each application (white paper) is permitted a single Applicant and a single Collaborator

Capacity Building DEPSCoR Competition

Support the strategic objectives of IHEs to achieve basic research excellence in areas of high relevance to the DoD

- Jumpstart capability development in the State/Territory through increased human, technical, and management resources
- Achieve excellence in a DoD-relevant research area through funding to support equipment, education, research, and other relevant activities

Program Structure:

- IHE's executive office, such as Vice-President of Research, in DEPSCoR-eligible States/Territories can apply
 - \$500K/year for 2 years
- **FOA-AFRL-AFOSR-2022-0007**

DEPSCoR – Capacity Building Competition

FOA-AFRL-AFOSR-2022-0007

- Applications must present the opportunities for enhanced academic research and development competitiveness and, if appropriate, industrial or economic competitiveness, for the State/Territory. **A strategic plan to sustain the investment after the DEPSCoR award period of performance must be discussed.**
- Applications must identify basic research gaps currently at the IHE and the required capabilities that need to be developed at the applicant IHE to achieve full and competitive basic research capability in a DoD-relevant research area.
- Applications must present a management plan for coordinating multiple thrusts working on a common basic research theme that will fill the research gaps and develop new basic research capabilities. These thrusts could include, but are not limited to, purchasing new equipment, supporting new hires, and support for graduate students and post-doctoral fellows. Adequate provision for **substantive commitment by the IHE's executive offices and appropriate administrative support** is an important factor contributing to the success of this Capacity Building effort.

DEPSCoR – Capacity Building Competition

FOA-AFRL-AFOSR-2022-0007

- Applicant institutions are limited to no more than **one** application under this FOA
- The proposal must be led by a member of the IHE's executive staff such as the Vice-President for Research who will serve as the Team Lead
- Letters of Recommendation for Commitment / Endorsement are required at the FULL PROPOSAL stage only
