Section 1. Project Summary

PROJECT GOALS AND OBJECTIVES

The Yurok Youth Trail Crew (YYTC) program will assist Redwood National Park (REDW or Park) with repairing failing and damaged trail surfaces on the DeMartin section of the Coastal Trail and Damnation Creek Trail. These popular trails have become narrow and deteriorated, with deep rutting and erosion, which has caused exposure of roots and rocks, resulting in difficult walking surfaces. This project will bring 3½ miles of trail back into acceptable trail standards and help reduce the Park's deferred maintenance backlog. The crew will participate in resource stewardship education opportunities, gain exposure to various resource management operations, and receive orientation to career opportunities within the park system.

STATEMENT OF PUBLIC PURPOSE

Through collaboration and mentoring with the Park, the project will build further relations with the Tribe and strengthen partnerships. The project will reach out to minority, under-served and disadvantaged young adults and provide financial income; provide opportunities for youth participants to develop skills in the areas of trail maintenance and construction, along with the safe and proper use of associated hand and power tools; and improve their future job and career opportunities with the Yurok Tribe Trails program, (which will help build capacity within the Yurok Tribe) and with REDW and other land management agencies. Through education and hard work, the youth in this program will have a significant and rewarding experience to help develop as sense of stewardship of park resources and expose these young adults to the different career options available in the NPS. The positive benefits of this program will improve the lives of Yurok youth in the local community. The project will also significantly improve visitor experience and enjoyment by providing safe hiking trail surfaces through pristine old growth forest and coastal scenery.

STATEMENT OF WORK SUMMARY

YYTC program will provide 1 crew leader and 5 crew members to repair failing and damaged trail surfaces on 3 1/2 miles of the DeMartin and Damnation Creek trails. The Yurok Tribe will provide transportation for the crew and basic personal safety equipment. REDW will assign work and provide technical oversight of work, and provide educational opportunities for the youth participating in this project.

Section 3. Single Source Justification

NATIONAL PARK SERVICE
SINGLE SOURCE POLICY REQUIREMENTS

National Park Service Policy FAP&P 1443-2015-06 requires a written justification which explains why competition is not practicable. The justification must address one of the following criteria.

In order for an assistance award to be made without competition, the award must satisfy one or more of the following criteria:

(1) Unsolicited Proposal – The proposed award is the result of an unsolicited assistance application which represents a unique or innovative idea, method, or approach which is not the subject of a current or planned contract or assistance award, but which is deemed advantageous to the program objectives. The unsolicited proposal must demonstrate an innovative capability or concept not currently available to the government, and prepared without Government involvement. ;

(2) Continuation – The activity to be funded is necessary to the satisfactory completion of, or is a continuation of, an activity presently being funded, for which competition would have a significant adverse effect on the continuity or completion of the activity;

(3) Legislative intent – The language in the applicable authorizing legislation or legislative history clearly indicates Congress' intent to restrict the award to a particular recipient of purpose;

(4) Unique Qualifications – The applicant is uniquely qualified to perform the activity based upon a variety of demonstrable factors such as location, property ownership, voluntary support capacity, technical expertise, or other such unique qualifications. Successful past performance, familiarity with existing requirements, capabilities that can be obtained or matched by a competitor, or a positive reputation, are not considered to be unique qualifications.

(5) Emergencies – Program/award where there is insufficient time available (due to a compelling and unusual urgency, or substantial danger to health or safety) for adequate competitive procedures to be followed.

NPS did not solicit full and open competition for this award based the following criteria:

☐ Task Agreement issued under previously competed or single source master cooperative agreement per Section 2 above. Single Source Justification not applicable.

☐ Unsolicited Proposal ☐ Continuation ☐ Emergency

☐ Legislative Intent ☑ Unique Qualifications

Explanation of the proposed recipient's qualifications or the criteria of the proposed project which requires use of the single source criteria cited.

This project is part of the National Park Service and the Yurok Tribe's Annual Funding Agreement, as authorized under The Indian Self-Determination and Education Assistance Act, Title IV, Public Law 93-638, as amended, 25 U.S.C. 458 aa et seq. A large portion of Redwood National Park is located within Yurok Tribal Aboriginal Territory and a portion within the existing Yurok Reservation. Because a significant portion of Redwood National Park contains physical and cultural resources that have an important impact on the demographic, economic, cultural, health and institutional needs of the people of the Yurok Tribe, it is the shared goal of the Tribe and the National Park Service to work toward collaborative management of Redwood National Park.
