Section 1. Project Summary

PROJECT GOALS AND OBJECTIVES

On March 30, 2009, H.R.146, the Omnibus Public Land Management Act of 2009 (as Public Law 111-11. Title VIII, Subtitle A, Section 8002 of the Act) was approved and establishes the Cache la Poudre River National Heritage Area (hereafter "CALA") as a successor to the Cache la Poudre River Corridor. CALA, as established by this legislation, has as its management entity the Poudre Heritage Alliance (hereafter "PHA"), a Colorado non-profit corporation. The PHA has been in existence since 1999, and through the cooperation of local entities with assistance from the National Park Service (hereafter "NPS") the PHA recently had its Management Plan for the heritage area approved by the Department of Interior.

National Heritage Areas are places where natural, cultural, historic and scenic resources combine to form a cohesive, nationally

STATEMENT OF PUBLIC PURPOSE

National Heritage Areas (NHA) promote greater public and private participation and partnership in historic preservation and conservation activities, which build a resource stewardship ethic for participants and the public. NHAs leverage taxpayer investment with public and private resources through historic preservation, conservation, education and outdoor recreation. They support voluntary programs that encourage partnerships, providing matching funds that produce greater benefits to taxpayers for the federal dollars invested. NHAs support large-scale, community-driven initiatives and collaborate with stakeholders to determine how to make heritage relevant to local needs and interests, serving as catalysts for community and economic development. In FY 2016 national heritage areas leveraged $45.5 million catalyzed by $18.8 million in Heritage Partnership Program funding, while participating in almost 7,000 partnerships. They preserve historic sites and battlefields, conserve artifacts, build and maintain trails, undertake water quality improvement projects and develop water trails, offer heritage education programs and provide capacity-building assistance to educators, sponsor community development projects and support downtown revitalization projects. National heritage areas have been rigorously studied via an independent evaluation process that has documented the effectiveness of this partnership model.

STATEMENT OF WORK SUMMARY

This cooperative agreement will support the implementation of the Cache la Poudre River National Heritage Area's management plan, which outlines the framework for interpretation, conservation, and management of the heritage area per the requirements outlined in the Act.

RESPONSIBILITIES OF THE PARTIES

A. The recipient shall be responsible for the following items under this agreement:

Section 3. Single Source Justification

NATIONAL PARK SERVICE
SINGLE SOURCE POLICY REQUIREMENTS

National Park Service Policy FAP&P 1443-2015-06 requires a written justification which explains why competition is not practicable. The justification must address one of the following criteria.

In order for an assistance award to be made without competition, the award must satisfy one or more of the following criteria:

(1) Unsolicited Proposal – The proposed award is the result of an unsolicited assistance application which represents a unique or innovative idea, method, or approach which is not the subject of a current or planned contract or assistance award, but which is deemed advantageous to the program objectives;

(2) Continuation – The activity to be funded is necessary to the satisfactory completion of, or is a continuation of, an activity presently being funded, for which competition would have a significant adverse effect on the continuity or completion of the activity. A single source on the basis of continuation must demonstrate that competition would result in a substantial duplicate cost to the government that cannot be recovered through competition;

(3) Legislative intent – The language in the applicable authorizing legislation or legislative history clearly indicates Congress' intent to restrict the award to a particular recipient of purpose;

(4) Unique Qualifications – The applicant is uniquely qualified to perform the activity based upon a variety of demonstrable factors such as location, property ownership, voluntary support capacity, technical expertise, or other such unique qualifications;

(5) Emergencies – Program/award where there is insufficient time available (due to a compelling and unusual urgency, or substantial danger to health or safety) for adequate competitive procedures to be followed.

NPS did not solicit full and open competition for this award based the following criteria:

☐ Task Agreement issued under previously competed or single source master cooperative agreement per Section 2 above. Single Source Justification not applicable.

☐ Unsolicited Proposal ☐ Continuation ☐ Emergency

☑ Legislative Intent ☐ Unique Qualifications

Explanation of the proposed recipient's qualifications or the criteria of the proposed project which requires use of the single source criteria cited.

See legislative authority: Public Law 111-11. Title VIII, Subtitle A, Section 8002. NPS is specifically directed to enter into a cooperative agreement to carry out the work plan specified by the public law. Funding is specifically appropriated for this agreement on an annual basis.
