The completed and signed form must be maintained in the official award file.

Program Contact: John Tirpak, Science Applications, Gulf Restoration Program

Select all criteria that apply (from 505 DM 2):

☒	(1) Unsolicited Proposal: The proposed award is the result of an unsolicited application that represents a unique or innovative idea, method, or approach that is not the subject of a current or planned award, but is found to be advantageous to program objectives.
☒	(2) Continuation: The activity to be funded is necessary for the satisfactory completion of, or is a continuation of, an activity we are funding and holding a competition would have a significant adverse effect on continuing or completing the activity.
☐	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
☒	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.
☐	(5) Emergencies: Because of a compelling and unusual urgency, or substantial danger to health or safety, there is not enough time to follow adequate competitive procedures.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

This project represents an unsolicited proposal from the Gulf of Mexico Alliance (GOMA) to leverage its extensive and unique network of restoration and conservation professionals and capacities across the Gulf to extend the Gulf Coast Vulnerability Assessment (GCVA) through its Gulf Star program. GOMA participated in the GCVA and contributed significantly to its success; using these dollars to further extend the application of the GCVA's results will continue that collaboration. GOMA's Gulf Star program is a public-private partnership model that allows federal dollars to be leveraged against investments from states, NGOs, private industries and foundations to accomplish shared goals. This is a cost-sharing opportunity provided uniquely by GOMA. The project complies with Executive Order 13840 concerning Regional Ocean Partnerships.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.

I, as the Service employee with signature authority for this award under 516 FW 3, have reviewed this program recommendation and find that it meets the requirements for a single source award.
