	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
✓	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

The San Diego Audubon has been a successful partner in the past with the Share our Shores Program. We have been running this program on the San Diego National Wildlife Refuge Complex since 2014 and have engaged students throughout Imperial Beach, CA. San Diego Audubon has developed strong working relationships with the teachers and principals within Imperial Beach Elementary School District and have been able to facilitate programs that align with Next Generation Science Standards. Their knowledge and expertise in provide in classroom and field trip experience for school children is invaluable. The project builds upon previous work with other partners that are doing programs within the same school to collectively get more and more students to the National Wildlife Refuge within their backyard. San Diego Audubon staff are trained throughout the year on instructional delivery and the flora and fauna found on San Diego Bay NWR.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.
