

What do you expect from a certification through the ethics exam?

The expectation of the ethics exam certification is to ensure ethical conduct by those who take and pass the exam.

What does the specialized exam refer to?

The type of specialized exam has not yet been clearly defined. However, we will provide the details once we receive specification from the Government of Mexico (GOM) post-award.

What are the priority federal entities and which are not allowed?

All federal entities should be targeted. During post-award, additional prioritization information will be provided in coordination with the GOM.

What are the priority profiles of system operators that are being considered?

The following priority profiles are being considered: Prosecutors, Public Defenders, Victims' Assistants, Mediators, their Trainers, and other Criminal Justice Operators as applicable.

What is the goal (number) of operators that must be certified?

There is no target number of operators that must be certified. The reason for that is because the exam passage rates may not be high, if the exams set a high standard and the operators that take the exams are ill-prepared.

What is the expectation you have for the exam preparation course?

To the extent possible, we expect the exam preparation course to: prepare the examinees for the specific exam they will take, but understand it cannot teach substantive knowledge that examinees should already possess.

Define the target audience of the publicity campaign.

We expect proposals to include a strategy and propose target audiences for the publicity campaigns. However, the general public, legislators, and criminal justice sector public offices may all be included.

What are the profiles of the goal of 3000 people to attend?

The profiles include: Prosecutors, Public Defenders, Victims' Assistants, Mediators, their Trainers, other Criminal Justice Operators as applicable and recent law school graduates that would like to work in the criminal justice sector.
