Response to a Question Received:

Question:

On page 18 of the solicitation it is stated that "funding for this program will be made available in the maximum amount of \$6million...." Does this \$6 million maximum refer to the maximum amount of a single grant or the total amount that USAID will allocate for all grants that may be awarded under this solicitation?

Response:

The \$6million is the maximum amount estimated per Cooperative Agreement issued under this RFA. It is not the total amount budgeted for all awards under this program. Similarly, the \$2 million is the minimum estimated amount per Cooperative Agreement issued under this RFA.
