

Questions and NHTSA Responses

1. Is the funding for a new court program that would be overseen by a Probation Officer experienced in the area of supervising DWI offenders?

***NHTSA Response:** The funding must be used for providing technical assistance/support for the supervision of DWI offenders. How technical assistance and support is provided is based on the technical approach proposed by the Applicant.*

2. Could you expand upon/clarify the eligibility requirements involving a) demonstration of experience in developing and providing training to community supervision providers and b) expertise in impaired driving laws, challenges, and limitations in each State and nationwide?

***NHTSA Response:** Eligible applicants should have experience providing training to community supervision providers such as but not limited to effective screening and assessment tools, leveraging technology in community supervision, reducing DWI recidivism etc.; Expertise in impaired driving laws, challenges, and limitations in each state can be in the form of professional experience, or a combination of formal education and professional experience. Please review Section C – Eligibility Information prior to submitting an application.*

3. Would support from the local Prosecutor's offices and/or local Highway State Patrol posts (or other law enforcement agency) satisfy eligibility requirements towards expertise in law?

***NHTSA Response:** As long as the Applicant's experience stems from professional experience with law enforcement.*
