EXECUTIVE SUMMARY

The Bureau of International Narcotics and Law Enforcement Affairs (INL) leads the Department of State's anticrime and counter-narcotics efforts. INL assistance programs help partner nations to build their capacities to extend the reach of justice under the rule of law, including respect for human rights and gender equality, and to deny safe haven to criminals who would otherwise operate with near impunity. The resources entrusted to us, enables INL to deliver technical assistance and capacity to: enhance international drug control through interdiction and supply reduction; develop civilian law enforcement capacity, regional partnerships, and information sharing; and further the administration of justice and corrections under the rule of law with respect for human rights. This mission supports **peace and security** by stabilizing and strengthening security institutions and by combating narco-trafficking and other transnational crimes such as money laundering, criminal gangs, and wildlife trafficking. It promotes **governing justly and democratically** by strengthening justice sector institutions, good governance and respect for human rights.

INL combines forces with other USG and international agencies and takes a regional approach to widespread problems. INL also encourages more developed governments to take responsibility as equal partners in global efforts to support critical country and global programs that combat transnational crime, disrupt illicit trafficking, and build their capacities to extend their reach of justice under the rule of law. The Bureau's priority programs support three inter-related objectives:

- **BUILDING CRIMINAL JUSTICE SYSTEMS:** Institutionalize rule of law by supporting and assisting in capacity building of host nation justice, law enforcement, and corrections institutions, promote human rights and diversity, protect vulnerable groups, and collaborate with multilateral and international partners to establish global standards and accountability mechanisms;
- **COUNTER-NARCOTICS:** Disrupt the overseas production and trafficking of illicit drugs through targeted counter-narcotics and institution-building assistance and coordination with foreign nations and international organizations, and;
- **TRANSNATIONAL CRIME:** Minimize the impact of transnational crime and criminal networks in the U.S. and its allies to oppose and counter corruption; wildlife crimes; cybercrime; intellectual property rights (IPR) fraud; transnational organized crime; environmental crime; crimes that threaten civilian security; and activities using the proceeds of crime.

SECTION I – PROGRAM DESCRIPTION

BACKGROUND

Building capacity in police forces, local governments and communities in gender Based Violence, as a prevention factor for narco-trafficking and femicides (approximately \$150,000 available)

Nearly 10 years after the passage of Costa Rica’s domestic violence criminalization law, women face rising rates of violence, and epidemic levels of court case dismissals and lack of legal reporting. The judicial branch’s gender commission, which monitors progress on the issue of violence against women, reports that over 76 percent of domestic violence cases are rejected by courts and over 12 percent are dismissed.

A recent report by local radio station discovered that last year Costa Rican police arrested on average one person per hour for domestic violence. This was calculated by averaging out the more than 10 thousand arrests for such cases reported by the Ministry of Public Security last year, detailed the station.

According to a statement issued by the judicial branch, of the at least 20,000 domestic violence complaints registered with 9-1-1 or other agencies each year in the country, a mere 5 percent are followed up with a formal legal accusation. Safety officials report that the most violence against women during 2016 occurred in the provinces of San Jose, Guanacaste, Puntarenas, and Alajuela, in that order. And police noted a significant increase in situations such as fighting and aggression in the street.

In 2016, more than one woman per week on average was murdered in Costa Rica, according to data from the judiciary’s Gender Violence Observatory, which tallied 54 homicides against women between January 1 and November 14, 2016. Of these, 22 were classified as femicides, which averages to more than two femicides per month. Femicide is defined as a death at the hands of a current or former male romantic partner, or any instance in which a woman is killed by a man for gender-based motives.

As women gain more awareness of their rights, reporting is going up. The observatory noted that the number of complaints of sexual harassment in public increased 70 percent from 2014 to 2015 (from 1,562 to 2,638 cases). Few if any of these cases are filed in courts, and they are considered lesser crimes sanctioned with fines.

Penalties under the Law on the Criminalization of Violence against Women (LPVcM, the law’s acronym in Spanish), law number 8559 went into effect on April 25, 2007, range from a maximum of 35 years for femicide, 18 years for sexual assault, 10 years for restricting a woman’s freedom of movement, to up to 4 years for restricting a woman’s self-determination, 2 years for physical abuse, 3 years for patrimonial abuse (hiding or blocking access to finances), among other crimes that are detailed on the judiciary’s website.

INL is part of the Department of State’s multi-faceted response to transnational criminal activity.

Dedicated to strengthening criminal justice systems, countering the flow of illegal narcotics, and minimizing transnational crime, INL plays a key role in leading the development and synchronization of U.S. international drug and crime assistance. INL's technical support is tailored to support partner countries through multilateral, regional, and country-specific programs and prevent victimization of vulnerable populations.

INL is currently implementing an integral crime analysis tool in 15 cantons and the results show that gender based violence is in fact a major risk factor for youth to enter a life of crime and or narcotic consumption.

In Costa Rica, there is a high rate of school dropouts in vulnerable communities that are being recruited by organized crime at a very young age. Police, local governments and communities need to be informed and trained on how to prevent gender based violence, how to report it, and where to refer victims for adequate care. Also, it's very important that children and youth from violent home environments know where they can obtain the proper care too.

U.S. Embassy San Jose closely monitor violence prevention efforts carried out by host governments and local organizations working on Community Safety and Security.

To support further progress in Costa Rica, INL has allocated \$150,000.00 USD in FY 2016 CARSI International Narcotics Control and Law Enforcement (INCLE) funds for a program to increase police, local governments and community security by creating a Capacity Enhancement Program on Domestic Violence prevention, increasing vulnerable populations' awareness, and victim's assistance in the 15 cantons (San José, Alajuelita, Alajuela, Desamparados, Escazú, Goicoechea, Belén, Santa Ana, Mora, Montes de Oca, Moravia, Curridabat, La Unión, Tibas and Quepos).

PROJECT PURPOSE/DESCRIPTION

INL is seeking applications from qualified organizations to implement a project on Building capacity in police forces, local governments and communities in gender Based Violence, as a prevention factor for narco- trafficking and femicides.

Applicants are encouraged to submit proposals that address gender based violence capacity enhancement as a prevention tool for crime. INL reserves the right to revise, reduce, or increase the award, and/or to not issue a grant award.

The project is comprised of the following objectives and corresponding activities:

PROJECT GOALS

To increase awareness and prevention of domestic violence in police, local governments and communities from the 15 cantons mentioned above, where INL is conducting an integral crime analysis project. Focus should be on raising awareness, and that police and local governments, as service providers, know how to implement protocols, awareness campaigns, and direct victims to the proper institutions to seek care.

PROJECT OBJECTIVES

Objective 1:

Conduct at least 30 trainings to police officers, local governments and communities on these topics:

a. Police Officers

- ✓ Immediate Response
- ✓ How to interact with victims (specially women, children and youth)
- ✓ Correct use of existing protocols
- ✓ Correct victim's referrals to proper services
- ✓ The role of a police officer in the community as a prevention agent

b. Local Governments (specifically to women's affair's offices or similar)

- ✓ How to create an effective awareness campaign in their communities
- ✓ How to create a victim's advocate program
- ✓ Victim's referrals to proper services
- ✓ Learn how to create programs to address their communities particular needs
- ✓ Working together with other institutions to promote strong networks
- ✓ Encourage communities to embrace "if you see something, say something".

c. Communities

- ✓ Where to report an incident
- ✓ Empower communities to make their neighborhoods safer by reporting incidents to the proper authorities
- ✓ How to detect domestic violence
- ✓ Consequences of domestic violence
- ✓ Learn how to interact with police and local governments to prevent domestic violence
- ✓ Learn how to interact with police and local governments in case of an incident

Objective 2:

Conduct at least 12 sessions with police, local governments and communities all together to make proposals on how to make their communities safer by preventing domestic violence. Focus should be on not only domestic violence but its consequences like drug consumption, narco-trafficking, all other illegal activities, and school dropout.

For this purpose, it's imperative that the grantee divide the 15 cantons into 3 groups. Each group will be integrated by cantons with geographical proximity. For example:

Group 1:

1. Moravia
2. Tibas
3. Goicoechea
4. Montes de Oca
5. Curridabat
6. La Union

7. San Jose

Group 2:

1. Escazu
2. Santa Ana
3. Mora
4. Alajuela
5. Desamparados
6. Alajuelita
7. Belen

Group 3:

1. Quepos: this is the only canton located at the sea.

From these sessions, at least 6 proposals and or action plans should be presented to authorities (Ministry of Security and Local Governments).

Objective 3:

Conduct a public awareness campaign to educate citizens in the fifteen cantons about domestic violence consequences (drug consumption, youth pregnancy, school dropout, illegal activities, and others) impact by September 30, 2019.

Activity 1: INL seeks proposals including an innovative public awareness campaign to address the negative impact that domestic violence produce in the communities. The issues of domestic violence, sexual assault, and child abuse thrive in darkness and in the silence. It should also be focused specifically on how domestic violence is linked to drug consumption, youth pregnancy, school dropout, and illegal activities. **The campaign needs to be tailored to the context, values, language, and resources available to local audiences.**

Activity 2: The campaign may contain Public Service Announcements (PSA) for radio and television, social media pieces, brochures, billboards, and any other means of mass communication available. The implementer will provide the number of people reached through this campaign.

CROSS-CUTTING AND ADDITIONAL ACTIVITIES

1. Coordination and De-conflicting of Projects (if current projects exist in-country)

Implementer is expected to coordinate to avoid conflicting with other existing projects in the fourteen participating cantons during the implementation of this program.

2. Buy-in and Local Ownership

Implementer will work with local leadership to gain buy-in for program sustainability purposes.

It's imperative that implementer talk to the mayors before moving forward with any plans, to ensure buy in and approval.

3. Community Involvement

Implementer is expected to utilize the advantage of Gender Based Violence local networks, groups, community organized associations, etc.

Implementer will also have to work with community coalitions if available in the canton. INL will provide the list of coalitions and poc's.

4. Utilize Local Resources and Expertise

Especially National Police and Local Governments (Municipalidades's Oficina de la Mujer).

5. Program Expansion

In the event of a successful project, INL will consider the option of expanding the project to other areas of countries in the region, subject to availability of future funding. Applicants may include in their proposal a brief section outlining how additional funds could potentially be used to expand work into further activities or additional countries in future years. Applicants are strongly encouraged to demonstrate how their project might leverage funding through other organizations.

TARGET POPULATION

Applicants should work in the 15 cantons mentioned above, specifically with the police, the local governments and the communities.

DESIRED RESULTS AND ILLUSTRATIVE INDICATORS

By the end of the two years of the project, the selected applicant is expected to conduct at least 30 trainings on the topics mentioned in objective number one of this NOFO,

Also, the applicant must conduct at least 12 sessions with police, local governments and communities all together to make proposals on how to make their communities safer by preventing domestic violence. Focus should be on not only domestic violence but its consequences like drug consumption, narco-trafficking, all other illegal activities, and school dropout.

Also, grantee must conduct a public awareness campaign to educate citizens in the fifteen cantons about domestic violence consequences (drug consumption, youth pregnancy, school dropout, illegal activities, and others) impact by September 30, 2019.

The recipient will develop a project-level Performance Monitoring plan (PMP) with annual and end-of- project targets and results anticipated for key performance indicators. The following table shows indicators that will be measured, as well as illustrative targets, upon which the recipient will be responsible for monitoring and reporting during and after the project. In addition, Embassy San Jose will regularly monitor the project's performance to assess whether project activities are on track and targets are being achieved.

Outcome indicators for the project are provided below. The recipient is expected to identify targets

for these indicators based on what it can reasonably achieve within the performance period of the project, and based on the expected overall project results described above.

<i>Example Outcome Indicators</i>	<i>Illustrative targets:</i>
Number of trainings targeting police, local governments and community	30
Number of viable proposals derived from the sessions	6
Number of media outlets running PSAs, public banners, etc.	15

Output indicators and illustrative targets for the project are provided below. The recipient should review these and either confirm the illustrative targets or propose alternative targets, as appropriate.

<i>Example Output Indicators</i>	<i>Illustrative targets:</i>
Number of police officers, local government officials and community members that received trainings	700
Number of community coalitions participating	5
Number of people reached by the public awareness campaign.	5000

The recipient may propose additional outputs, indicators, and/or targets as appropriate. The recipient will be required to collect baseline data for all the PMP indicators during the first year of the project. In addition, certain terms included in the outcomes and indicators will need to be defined at the very beginning of the project so that it is possible to measure the change during and at the end of the project. Examples of such are “capacity”, “spread effect”, etc. Baseline information will be critical for both monitoring and evaluation of project progress and results.

- 3) Complies with AICPA Codification of Statements on Auditing Standards AU Section 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," where applicable. When the U.S. Department of State is the largest direct source of Federal financial assistance (i.e., the cognizant Federal Agency) and indirect costs are charged to Federal grants, a supplemental schedule of indirect cost computation is required;
- 4) A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 subpart F. *The audit costs shall be identified by 2 CFR 200.435.*

INDIRECT COST-RATE

An organization with a negotiated indirect cost rate agreement (NICRA) negotiated with a cognizant federal government agency other than the U.S. Department of State must include a copy of the cost-rate agreement. Applicants should indicate in the proposal budget how the rate is applied and if any of the rate will be cost-shared. Per 2 CFR 200.414. any non-Federal entity that has never received a negotiated indirect cost rate, except for those non-Federal entities described in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals, paragraph D.1.b, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) 200.68 Modified Total Direct cost (MTDC) which may be used indefinitely. MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and sub-awards and sub-contracts up to the first \$25,000 of each sub-award or sub-contract (regardless of the period of performance of the sub-awards and sub-contracts under the award). ***MTDC excludes equipment (\$5,000 or greater), capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each sub-award and sub-contract in excess of \$25,000.*** As described in 2 CFR 200.403, factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

[END OF SECTION IV]

TAB A: PROPOSAL GUIDELINES

Proposals should include the following components:

- Introduction and Problem Statement
- Planned Activities
- Indicators

Problem Statement and Rationale: Describe the problem and how the project will achieve or contribute to achieving a sustainable solution and a measurable outcome. The applicant should explain the extent of existing assistance within the particular geographic area, and how the proposed intervention may complement (or differ from) other similar interventions. The implementer should also explain, as necessary, the particular experience and qualifications they bring to the project. The rationale should also reflect understanding of the priorities and policies of the bureau/post or program with which this agreement is associated.

Planned Activities and Indicators: Describe the planned activities, and relevant stakeholders for implementation. The implementer should highlight key stakeholders and their expected role in the project, along with any contingencies. The implementer should list assumptions that are dependent on the ultimate success of the project. This could include elements like geographic location, coordination efforts with other international organizations, or political will from host governments, private sector, and NGOs. As appropriate, limited contingency possibilities should be included in the proposal, in case the initial planning assumptions are not met. Example of a planned activity and contingency:

Planned Activity	Contingency
<i>Energy efficiency workshops in collaboration with the government of Mexico and other representatives from the Latin America region, focused on raising awareness of energy efficiency standards.</i>	<i>If government of Mexico doesn't engage at the expected level, project team will look to other regional stakeholders, such as the OAS, to assist in convening key stakeholders.</i>

In the proposal, there should be a clearly defined link between each of the following elements as delineated:

Problem Statement → Planned Activities/Inputs → Process Indicators → Output Indicators → Outcome Indicators → Impact
--

Process Indicators measure the activity that has been completed. Please delineate the specific activities to be conducted, such as workshops, roundtables, trainings, forums, exchanges, policy dialogues, etc. All indicators must include targets. Example of a process indicator:

Process Indicator	<i>50 women trained in energy efficiency standards</i>
--------------------------	--

Output Indicators, otherwise known as deliverables associated with the agreement, should be included. Unlike process indicators, outputs are what is produced, and are often tangible. At this level, it is the measurement of ability, knowledge, skills, or access. All indicators must include

targets. Example of an output indicator involving the same participants:

Output Indicator	<i>80 percent of participants demonstrate at least 75 percent cognizance of efficiency standards</i>
-------------------------	--

Outcome Indicators measure the change in system or behavior or practice. Expected outcomes are the results that come from a series of activities that are necessary to achieve impact. All indicators must include targets. Example of an outcome indicator:

Outcome Indicator	<i>30 percent of efficiency standards being implemented in a participant's country as a result of participant's participation.</i>
--------------------------	--

All indicators **must** include measurable, numerical targets, which should serve as the foundation for monitoring and evaluation efforts. Ultimately, proposed activities and achievement of indicator targets will lead to impact.

TAB B: PROGRAM MONITORING AND EVALUATION PLAN and RISK ANALYSIS

INL will work with recipient organizations to implement the appropriate monitoring and evaluation plan that meets both the needs of the bureau and the implementing partner. Incorporating a well-designed monitoring and evaluation component into a project is one of the most efficient methods of documenting the progress and potential success of a program. Successful monitoring and evaluation depend on the following:

- Setting objectives that are specific, measurable, attainable, results-focused, and placed in a reasonable time frame (SMART);
- Linking project activities to stated objectives;
- Developing key performance indicators that measure realistic progress towards the objectives.

INL expects implementing organizations will track participants or partners as appropriate and be able to respond to key evaluation questions, including satisfaction with the program/training, information learned as a result of the program/training, changes in attitude and behavior as a result of the program, and effects of the program on institutions in which participants work or partner with. Applicants should include the monitoring and evaluation process in their timeline.

Recipients will be required to provide reports with an analysis and summary of their findings, both quantitative and qualitative, in their regular quarterly progress reports to INL.

The monitoring and evaluation plan should include, at a minimum, the following elements:

- A results “Logic Model” planning document (see sample Logic Model template attached as a sample document)
- Indicators, as described in Tab A, as well as details on how each indicator will be measured, frequency of the measurements, units of measure, etc. Provide indicators at the output and outcome levels. Monitoring and evaluation plans should include a chart component that clearly delineates indicators and targets. All indicators must include measurable, numerical targets.
- Establish, where possible, performance baseline data and expected performance targets for each indicator/outcome. In some cases, the baseline may be zero.
- Describe monitoring and evaluation tools, such as rapid assessment surveys, site visits, key stakeholder interviews, etc., that will be used.
- Plans should describe how the project’s impact and effectiveness will be monitored and evaluated throughout the project.

INL has included a sample Monitoring and Evaluation template as an attachment to the NOFO.

RISK ANALYSIS

Risks are unavoidable – all programs inherently contain both internal and external risks. However, with proper identification and management, risks can be prepared for, minimized or mitigated. The purpose of a risk analysis is to identify the internal and external risks associated with the

proposed program in the application, rate the likelihood of the risks, rate the potential impact of the risks on the program, and identify actions that could help mitigate the risks. A risk analysis should not be considered a one-time exercise or a static document. INL defers to organizations to conduct adequate risk analysis and remediation for all of its operations and advises that risk analysis and remediation occur throughout the life of a program and should result in revisions to risk analysis documents and processes as necessary. Applicants should include all assumptions and external factors identified in the logic model in the risk analysis. Applicants should rate the likelihood of a risk and potential impact of the risk as “High,” “Medium,” or “Low.”

TAB C: BUDGET GUIDELINES

Complete budgets will provide a detailed line-item budget outlining specific cost requirements for proposed activities. A minimum of three columns should be used to delineate the bureau funding request, cost-share by applicant, and total project funding. Complete applications will include a budget narrative to clarify and justify individual line-items (i.e. calculations of how the costs were derived per month or year, their necessity, and overall contribution to the program's cost-effectiveness).

The three-column proposal line item budget should include the following components, in the suggested format below:

Note: This budget is designed to serve as an example of the format for complete budget submissions and is NOT exhaustive. Individual line items included in each applicant's budget should reflect specific program activities. (pax = participants)

Before grants are awarded, INL reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the INL program and availability of funds.

As mentioned above, the detailed budget should also include an accompanying budget narrative document that explains and justifies each line item, in the suggested format below:

LINE-ITEM BUDGET NARRATIVE –

A. Personnel – Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: \$30,000/year x 25% x 8.5 months; calculation: $\$30,000/12 = \$2,500 \times 25\% \times 8.5 \text{ months} = \$5,312.$).

B. Fringe Benefits - State benefit costs separately from salary costs and explain how benefits are computed for each category of employee - specify type and rate. Fringe benefit application must be consistent with organization's written policy.

C. Travel - Staff and any participant travel (Note: Staff refers to grantee staff only, and not sub-grantee staff or contractors):

1) international and/or domestic airfare - Please indicate origin and destination (country/city), number of travelers and unit cost per round trip

NOTE: All travel must be booked with economy class fares only. Applicants must explain differences in fares among travelers on the same routes. Note that all travel, where applicable, must comply with the Fly America Act. For more information see <http://www.gsa.gov/portal/content/103191>.

2) in-country travel - Please indicate origin and destination (city), type of transportation, number of travelers and unit cost per traveler per trip.

3) per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: <http://www.policyworks.gov/>. Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.

NOTE: Per diem rates must be prorated and/or removed if applicant will pay for refreshments and/or meals for participants during a workshop/conference.

D. Equipment – please provide justification for any equipment purchase/rental, defined as tangible personal property having a useful life of more than one year and an acquisition cost of \$5000 or more.

E. Supplies - list items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone: $\$50/\text{month} \times 50\% = \$25/\text{month} \times 12 \text{ months}$).

F. Contractual –

a) Subgrants - For each subgrant/contract please provide a detailed line-item budget breakdown explaining specific services. Please provide a subgrant budget using the approved OMB budget format. (See Tab C: Budget Guidelines, above.)

b) Consultant Fees - For example lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g., $2 \times \$150/\text{day} \times 2 \text{ days}$). Consultant/outside expert fees/honoraria should be consistent with the level of experience

and based on a fair market value. (NOTE: *Consultant Fees and Honorarium should NOT EXCEED \$655/day*)

G. Other Direct Costs - these will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. All costs must be allowable, allocable, and reasonable, and consistent with OMB guidelines. **Line items such as “Miscellaneous,” “Other,” “Contingency Fund,” and “Reserve Fund” are not permitted.**

H. Indirect Charges - See 2 CFR 200.414 , "Indirect Costs"

- 1) If your organization has an indirect cost-rate agreement with the U.S. Government, please include a copy of this agreement. Please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. This does not count against submission page limitations.
- 2) If your organization is charging an indirect rate, please indicate how the rate is applied--to direct administrative expenses, to all direct costs, to wages and salaries only, etc.
- 3) Do not include indirect costs against participant expenses in the Bureau budget, as it generally does not pay for these costs.

Cost Share/Cost-Effectiveness - Explanation of contributions should be included in the budget narrative, whether cash or in-kind. Assign a monetary value in U.S. dollars to each in-kind contribution. If the proposed project is a component of a larger program, identify other funding sources for the proposal and indicate the specific funding amount to be provided by those sources. In addition, it is recommended that budget narratives address the overall cost-effectiveness of the proposal, including leveraging of institutional or other resources. Cost sharing or matching refers to a portion of project or program cost that is not borne by the Federal Government. Grantees must follow cost sharing or matching policy as stipulated in 2 CFR 200.306. Cost sharing amounts proposed will be incorporated as part of the allowable budget items. If selected for an award, your organization will have to provide the minimum amount of cost sharing as stipulated in the budget approved by the Grants Officer. If your organization does not meet its cost share amount stipulated in the approved budget by the end of the period of performance INL will have the option to (1) reduce its contribution in proportion to your organization's contribution in the event that you do not provide the minimum amount of cost sharing stipulated in the budget or (2) hold your organization accountable for the amount specified in the approved budget.

BUDGET CONDITIONS AND RESTRICTIONS:

The Recipient is reminded that funds provided under this agreement must be used in a manner fully consistent with U.S. law. The recipient agrees that none of the funds provided by this award shall be used to lobby for or against abortion. The recipient agrees that none of the funds provided by this award shall be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions.

Per 22 CFR 200.307 ((e) (1), (2) and (3) of this section please note the following guidance concerning use of Program Income:

- Program income earned during the project period shall be retained by the recipient and, in accordance with the terms and conditions of the award, shall be used in one or more of the ways listed in the following:

- 1) Added to funds committed to the project by the Department and recipient and used to further eligible project or program objectives.
 - 2) Used to finance the non-Federal share of the project or program.
 - 3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.
- It is emphasized, however, that the above three alternatives are applicable only when the grantee is a non-profit entity. Any grant to a commercial firm must state that the first of the alternatives is not available for program income earned by the grantee. (GAO noted in its Principles of Federal Appropriations Law at 10-57, that “This approach [option (1)] increases program size. Both OMB and GAO have expressed preference for the deduction method [option (3)] since it results in savings to the federal government and to grantees.”)

INL will consider budgeted line-items for the following:

- External evaluations to assess the project’s impact (costs must be built into the overall original budget proposal and must be reasonable);
- Costs associated with an internal evaluation conducted by the grantee (costs must be built into the overall original budget proposal and must be reasonable);
- Visa fees, immunizations, and medical insurance associated with program travel;
- A-133 Audit or internal audit for the INL program (or prorated costs that is shared among other Federal Assistance grants/contracts)
- English translation (cost must be built into the original budget proposal and must be reasonable)

The following cost elements will not be reimbursed and are not allowable in this program:

- Publication of materials for distribution within the U.S.;
- Administration of a project that will make a profit;
- Expenses incurred before or after the specified dates of award period of performance (unless prior written approval received);
- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction;
- Entertainment and/or Alcoholic beverages;
- Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency;
- Land;
- Construction;
- Direct support or the appearance of direct support for individual or single party electoral campaigns;
- Duplication of services immediately available through municipal, provincial, or national government;
- Expenses listed as “miscellaneous”, “other”, or “contingencies”;
- Expenses made prior to the approval of a proposal or unreasonable expenditures will not be reimbursed.

INL may make conditions and recommendations on proposals to enhance proposed programs. Conditions and recommendations are to be addressed by the applicant before approval of the award. To ensure effective use of INL funds, conditions or recommendations may include requests to increase, decrease, clarify and/or justify budget costs.

SECTION V – APPLICATION REVIEW INFORMATION

The technical applications and proposal submissions will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Technical evaluation of applications will be based on the extent and appropriateness of proposed approaches and feasibility of achieving the strategic objectives, in accordance with the following criteria.

If award is not made on the initial applications, INL may request clarification and supplemental materials from applicants whose applications have a reasonable chance of being selected for award. The entry into discussion is to be viewed as part of the evaluation process and shall not be deemed by INL or the applicants as indicative of a decision or commitment upon the part of INL to make an award to the applicants with whom discussions are being held.

I. TECHNICAL EVALUATION CRITERIA

A technical evaluation committee, using the criteria shown in this Section, will evaluate the technical applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

Quality of Program Idea (Total Possible Points - 25):

- Responsive to the solicitation (5)
- Appropriate in the country/regional context (5)
- Exhibits originality, substance, and precision (5)
- Prioritizes innovation but is feasible (5)
- In countries where similar activities are already taking place, provides an explanation as to how new activities will not duplicate or merely add to existing activities (5)

Program Planning/Ability to Achieve Objectives (Total Possible Points – 25):

- Includes a clear articulation of how the proposed program activities contribute to the overall program objectives (3)
- Each activity is clearly developed and detailed (3)
- Provides a comprehensive quarterly work plan for project activities that demonstrates substantive undertakings within the logistical capacity of the organization (3)
- Objectives are clear, specific, attainable, measurable results-focused and placed in a reasonable time frame (3)
- Addresses how the program will engage or obtain support from relevant stakeholders and identifies local partners where appropriate (3)
- Describes the division of labor among the direct applicant, any partners and any potential

- subgrantees (2)
- Proposal clearly articulates understanding of the security situation/operating environment and plans for ensuring safety of participants (2)
- Includes contingency plans for potential difficulties in executing the original work plan (6)

Cost Effectiveness/Cost Sharing (Total Possible Points - 15):

- The overhead and administration of the proposal, including salaries and honoraria, are explained and justified for the work involved (5)
- All budget items are necessary, appropriate and linked to program objectives (5)
- Personnel costs are reasonable for the work involved (5)

Program Monitoring and Evaluation (Total Possible Points - 15):

The Monitoring and Evaluation (M&E) Plan includes:

- Narrative explaining how monitoring and evaluation will be carried out and who will be responsible for monitoring and evaluation activities (5)
- Table listing by program objectives the output- and outcome-based performance indicators with baselines and (yearly and cumulative) targets; data collection tools; data sources; types of data disaggregation, if applicable; and frequency of monitoring and evaluation (7)
- Includes an external midterm and/or final evaluation or justification for why one is not included (3)

Multiplier Effect/Sustainability of Impact Rating (Total Possible Points - 10):

- Clearly delineates how elements of the program will have a multiplier effect (5)
- Clearly delineates how impact will be sustainable beyond the life of the grant (5)

Institution's Record and Capacity Rating (Total Possible Points - 10):

- The proposal demonstrates an institutional record of successful programs in the proposed country and the content area (4)
- Personnel and institutional resources are adequate and appropriate to achieve the project's objectives (2)
- Roles, responsibilities, and brief bios/resumes are included for primary staff, and demonstrate relevant professional experience (2)
- Applicant is a current/past Department of State grantee where performance (2)
was/is on target showed/shows responsible fiscal management

OR

- The proposal is from a NEW APPLICANT and proposal demonstrates capacity for responsible fiscal management illustrates success in similar sized projects (2)

COST EVALUATION

Cost will be evaluated for realism, reasonableness, allowability, allocability, and cost effectiveness. The pre-award evaluation of cost effectiveness will include an examination of the application's budget detail to ensure it is a realistic financial expression of the proposed project and does not contain estimated costs which may be unallocable, unreasonable, or unallowable. Applications that have more efficient operational systems that reduce operation costs will be favorably considered.

Applications that maximize direct activity costs including cost sharing and that minimize administrative costs are encouraged. Other considerations are the completeness of the application, adequacy of budget detail and consistency with elements of the technical application. In addition, the organization must demonstrate adequate financial management capability, to be measured by a responsibility determination.

[END OF SECTION V]

SECTION VI – FEDERAL AWARD ADMINISTRATION INFORMATION

Federal Award Notices: The successful applicant(s) will be notified via email that its proposal has been selected to move forward in the review process; this email IS NOT an authorization to begin performance. The Grants Officer is the Government Official delegated the authority by the U.S. Department of State Procurement Executive to write, award, and administer grants and cooperative agreements. The assistance award agreement is the authorizing document and it will be provided to the Recipient through email transmission. The recipient may only incur obligations against the award beginning on the start date outlined in the DS-1909 award document that has been signed by the INL Grants Officer. Organizations whose applications will not be funded will also be notified via email by INL. Please refer to the anticipated time to award information in Section E.

Substantial Involvement (for Cooperative Agreements only): INL shall be substantially involved during the implementation of the award agreement in the following ways:

- 1) Approval of the Recipient's annual work plans, including: planned activities for the following year, travel plans, planned expenditures, event planning, and changes to any activity to be carried out under the Cooperative Agreement;
- 2) Approval of specified key personnel;
- 3) Approval of sub-award Recipients (if any), and concurrence on the substantive provisions of the sub-awards; and coordination with other cooperating agencies; and

- 5) Other country specific approvals will be included in the award documents

Terms and Conditions: Recipients will be held to the applicable terms and conditions found at <https://www.statebuy.state.gov/fa/Pages/TermsandConditions.aspx>.

It is the Recipient's responsibility to ensure they are in compliance with all applicable terms, conditions, and OMB guidance and requirements. Those organizations found to be in non-compliance may be found ineligible for funding or designated high risk.

2 CFR 200 Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards: All applicants must adhere to the regulations found in [2 CFR 200 Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards](#).

Branding Requirements: As a condition of receipt of a grant award, all materials produced pursuant to the award, including training materials, materials for recipients or materials to communicate or promote with foreign audiences a program, event, project, or some other activity under an agreement, including but not limited to invitations to events, press materials, and backdrops, podium signs, etc. must be marked appropriately with the standard, rectangular U.S. flag in a size and prominence equal to (or greater than) any other logo or identity. **Note:** Exceptions to the branding requirement are allowable under certain conditions. If an applicant is notified that their award has been chosen for funding, the Grants Officer will determine, in consultation with the applicant, if an exception is applicable.

Reporting Requirements:

1. Recipients are required to submit quarterly program progress and financial reports throughout the project period. Progress (SF-PPR and narrative) and financial reports (SF 424 and a detailed financial expenditure report) are due 30 days after the reporting period.
