Section 1. Project Summary

PROJECT GOALS AND OBJECTIVES

A. Project Goal - The goal of the special project will be to document the outbuildings associated with the enslaved people at two NATC sites.
B. Project Objectives – This project will complete an intensive historic building survey of the slave dwellings and other outbuildings at two NATC sites, specifically Melrose and the William Johnson House. This will include compiling architectural records and detailed investigative reports, hand-measured recording, and digital documentation. The cooperator will translate the field data into Historic American Building Survey (HABS) format for submission to the Library of Congress as well as entering the historic building information into the Database of Vernacular Architecture (DVA). The collected data will be included into digital and physical public exhibits detailing how the architectural history of Natchez is a microcosm of the region's history.

STATEMENT OF PUBLIC PURPOSE

This project will foster wider awareness of the rare and little-understood cultural resources that exist at NATC, particularly the resources associated with enslaved African lifeways. This survey will provide the first comprehensive effort to record the National Register contributing (and eligible) slave dwellings and outbuildings for both research and public outreach purposes. Results from this project will benefit park visitors and the community of Natchez, MS by increasing their understanding of the historical resources at the park.

STATEMENT OF WORK SUMMARY

In cooperation with Center for Heritage Conservation at Texas A&M University, this project will record and fully document one dozen buildings associated with the enslaved at two NATC sites prior to the Civil War, providing insight into their experiences and lifeways.

(1) Unsolicited Proposal – The proposed award is the result of an unsolicited assistance application which represents a unique or innovative idea, method, or approach which is not the subject of a current or planned contract or assistance award, but which is deemed advantageous to the program objectives. The unsolicited proposal must demonstrate an innovative capability or concept not currently available to the government, and prepared without Government involvement. ;

(2) Continuation – The activity to be funded is necessary to the satisfactory completion of, or is a continuation of, an activity presently being funded, for which competition would have a significant adverse effect on the continuity or completion of the activity;
