2. Executive Summary

The U.S. Department of State's Embassy Bishkek Public Diplomacy Section (PDS) announces an open competition to implement a program supporting the American Corners network in the Kyrgyz Republic—the U.S. government's primary information and cultural centers. They showcase American innovation to foreign audiences and promote demand for U.S. products and services, particularly as the United States celebrates the 250th anniversary of its founding.

The program will provide strategic guidance, administrative oversight, and resource support to the network of six American Corners located in Bishkek, Kant, Naryn, Karakol, Manas, and Osh —serving approximately 200,000 visitors annually. Activities will enhance English language capacity through conversation clubs and educational resources; promote STEM excellence through hands-on workshops and mobile makerspaces; foster cultural exchange through speaker programs and events celebrating the 250th anniversary of U.S. independence; and maintain free, open, and reliable internet connectivity and upgraded facilities to serve as premier platforms for Embassy-driven campaigns.

Target participants include emerging voices aged 14-30 (university students, young professionals, entrepreneurs, and educators), students aged 12-18 in rural areas with limited access to educational resources, and established opinion leaders and teachers who can multiply impact. Kamkor Center initiatives demonstrate American leadership in accessibility through the the Americans with Disabilities Act and promote increased access to information and public spaces by providing tailored resources and programs about the United States to the Kyrgyz public, including people with disabilities.

By focusing on these priorities, this program will create long-term partnership opportunities with educational institutions and foster deeper U.S.-Kyrgyz ties in high-growth sectors. The program will increase engagement with world-leading American educational resources and technological platforms while promoting American values of free speech and innovation. By promoting increased knowledge of American society, culture, and educational and professional opportunities, the program will ensure the United States remains the partner of choice for educational exchange, cultural engagement, and technological innovation in the Kyrgyz Republic. Please follow all instructions below.

C. Program Description

1. Project Background, Goals, and Objectives

American Corners in the Kyrgyz Republic are information resource centers that provide comprehensive and up-to-date information about the United States to promote mutual understanding between the American and Kyrgyz people. American Corners are a partnership between U.S. Embassy Bishkek and local universities (Manas) and libraries (Bishkek, Osh, Naryn, Karakol, and Kant). There are currently six American Corners throughout the Kyrgyz Republic that hold a variety of programs, including talking clubs, cultural events, movie screenings, workshops and master classes on topics like American tech innovation, leadership, and English language learning, that are focused on strengthening the ties between the U.S. and Kyrgyz people.

The network of six American Corners in the Kyrgyz Republic is one of the country's most popular public diplomacy initiatives. These spaces serve as the U.S. government's primary information and cultural centers that promote American values and showcase the United States as an economic and innovation leader to foreign audiences.

Past projects funded by the Mission have targeted various programs, such as English Language Programs, Cultural and Educational events, and STEM workshops. Successful projects have included:

- **NASA Space Apps Challenge:** A local hackathon held during International Space Week that engaged over 180 participants in solving real-world space exploration challenges using NASA data, connecting Kyrgyz youth with American space innovation and global problem-solving platforms.

- **STEM Roadshow and Workshops:** Mobile programming reaching 20 locations across Kyrgyzstan, bringing hands-on experiences in coding, 3D printing, and technology to students in rural areas, demonstrating American leadership in STEM education.
- **English Language Clubs:** Virtual and in-person conversation programs led by native speakers and USG alumni teachers that improved communication skills, supported professional development, and strengthened connections to American educational resources and opportunities.
- **Kamkor Center Programs:** Initiatives that have showcased American excellence and expanded access for people with disabilities to educational programs and materials like English classes, computer literacy workshops, and accessible resources (including Braille books and audio applications).

This NOFO will support American Corners programming and engagement in the Kyrgyz Republic by:

- **Enhancing English Language Capacity:** Offering English language programs and conversation clubs to improve communication skills, support professional development, and strengthen the influence of the English language as a tool for accessing American educational and economic opportunities.
- **Promoting STEM Excellence:** Conducting hands-on STEM workshops, space science programs, and technical skills training—including the NASA Space Apps Challenge, mobile makerspaces, and astronomy clubs—to inspire youth to pursue STEM careers and recognize the United States as the global leader in STEM innovation, education, and training.
- **Fostering Cultural Exchange:** Organizing speaker programs, cultural events, and educational workshops that showcase American culture, values, and the 250th anniversary of U.S. independence, creating lasting connections between American and Kyrgyz people.
- **Building Strategic Partnerships:** Encouraging collaboration between U.S. and Kyrgyzstani organizations, educational institutions, and USG program alumni to create sustainable initiatives that advance mutual interests and American leadership.
- **Advancing U.S. Economic Interests:** Facilitating opportunities for Kyrgyz innovators, entrepreneurs, and young professionals to engage with American business practices, technology, and innovation—ensuring that U.S. support cultivates future partners for American commercial interests, opens markets for U.S. products and services, and delivers tangible benefits to the American economy.
- **Strengthening Infrastructure:** Maintaining reliable internet connectivity and upgrading American Corners facilities to serve as premier platforms for Embassy-driven campaigns, ensuring these spaces effectively showcase American excellence and advance Administration priorities.

- Emerging voices aged 14-30, including university students, young professionals, entrepreneurs, and educators.

The M&E PMP should show how applicants intend to measure and demonstrate progress towards the project's objectives and goals. Attachment 4 of this funding opportunity contains a template that may be used to fulfill this requirement. While the grantee is free to create their own template, completing Attachment 4 will ensure a thorough PMP.

The key components to the PMP are as follows:

- **Monitoring and Evaluation Narrative:** In narrative form, applicants should describe how they intend to monitor and evaluate the activities of their award. In addition, the applicant should describe any M&E processes, including key personnel, management structure (where M&E fits into the overall program's staff structure), technology, and as well provide a brief budget narrative explaining any line-item expenditures for M&E listed in the program's budget. If the proposal is from a prior grantee, the proposal discusses how the grantee has adapted, improved or otherwise modified their approach based on learning from previous experience. This narrative is limited to two pages.
- **Theory of Change Diagram:** Applicants are expected to submit either a Theory of Change diagram or an If-Then Statement that illustrates how project activities will lead to intended outcomes. Attachment 4 includes a suggested format for these requirements.
- **Monitoring and Evaluation Datasheet:** The applicant must include their proposed activities and their expected outputs and outcomes as well as the goals and objectives as written in the NOFO. The datasheet's purpose is to explicitly illustrate how a project's activities lead to tangible results (such as increased beneficiary skills, knowledge, or attitudes) that ultimately address a PDS objective. For more information, please see Attachment 5: Standard Indicators Sheet and Attachment 6: Instructions – M&E Performance Monitoring Plan.
- The selected applicant's M&E PMP is subject to review and approval before any award will be issued under this NOFO. The selected applicant will be required to work with the Public Diplomacy Section's Monitoring and Evaluation Specialist to ensure the applicant's M&E PMP achieves an expected level of expertise and meets PDS objectives.

- Expenses directly associated with monitoring and evaluation are considered allowable. The suggested template includes a space to list the portion of the total budget amount directly associated with monitoring and evaluation activities.

3. *Budget Justification Narrative*

- **Detailed Budget** - Applicants must submit a detailed line-item budget. Applicants are encouraged to utilize the template provided with the funding opportunity but are not required to do so (Attachment 2). Line-item expenditures should be listed in the greatest possible detail. The budget must identify the total amount of funding requested, with a breakdown of amounts to be spent in the following budget categories: personnel; fringe benefits; travel; equipment; supplies; consultants/contracts; other direct costs; and indirect costs. See Annex Section I for a description of the types of costs that should be included in each category. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If an organization is charging an indirect cost rate without a NICRA, it must apply it to the modified total budget costs (MTDC), refer to [2CFR§200.1](#). **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.
- **Budget Justification Narrative** – Applicants must submit a budget justification narrative to accompany the detailed line-item budget. The purpose of the budget justification narrative is to supplement the information provided in the detailed budget spreadsheet by justifying how the budget cost elements are necessary to implement project objectives and accomplish the project goals. The budget justification narrative is a tool to help Embassy staff fully understand the budgetary needs of the applicant and is an opportunity to provide descriptive information about the requested costs beyond the constraints of the budget template. Together, the detailed budget spreadsheet, the budget justification narrative, and the SF-424A should provide a complete financial and qualitative description that supports the proposed project plan and should be directly relatable to the specific project components described in the applicant’s proposal.

I. **Other Information**

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs as defined in 2 CFR 200.1.

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages.
