Coastal Program - Great Lakes Restoration Initiative

Catalog of Federal Domestic Assistance (CFDA) Number: 15.662

Notice of Funding Availability and Application Instructions

I. Description of Funding Opportunity

The Coastal Program is a voluntary, incentive-based program that provides technical and financial assistance to coastal communities and landowners to restore and protect fish and wildlife habitat on public and private lands. The Coastal Program is not a conventional grants program, in that it does not solicit projects through a request for proposals. Instead, projects are developed strategically, in coordination with partners, and with substantial involvement from Service field biologists. The Coastal Program – Great Lakes Restoration Initiative funding is available to coastal areas within the U.S. portion of the Great Lakes basin which includes parts of Michigan, Wisconsin, Minnesota, Illinois, Indiana, Ohio, Pennsylvania, and New York.

II. Award Information

Projects funded under the Coastal Program – Great Lakes Restoration Initiative will typically range in size from $40,000 - $150,000. We anticipate approximately $400,000 in funding and approximately 7 awards in fiscal year 2014. The period of performance for the majority of projects funded under this program is two years, starting on the date the award is signed by the USFWS. This program uses cooperative agreements as the primary assistance instrument. Service biologists will be substantially involved in developing and implementing projects with partners. This substantial involvement could include helping plan and implement specific project activities, completing permitting and other environmental compliance, working with contractors and partners in implementing on-the-ground actions, and coordinating and facilitating meetings.

III. <u>Basic Eligibility Requirements</u>

Eligible Applicants:

Eligible applicants include state, county, city or township governments, special district governments, independent school districts, public and State controlled institutions of higher education, private institutions of higher education, Native American tribal governments and organizations, nonprofit organizations, individuals, for profit organizations, and small businesses.

Federal law (2 CFR Part 25, Central Contractor Registry and Data Universal Numbering System) mandates that all entities applying for Federal financial assistance must have a valid Dun & Bradstreet Data Universal Number System (DUNS) number and have a current registration in the Central Contractor Registry (CCR). The CCR functionality was consolidated into the System for Award Management (SAM) in September 2012. Exemptions: The SAM registration requirement does not apply to individuals submitting an application on their own behalf and not on behalf of a company or other for-profit entity, State, local or Tribal government, academia or other type of organization.

A. DUNS Registration

Request a DUNS number online at http://fedgov.dnb.com/webform. U.S.-based entities may also request a DUNS number by telephone by calling the Dun & Bradstreet Government Customer Response Center, Monday – Friday, 7 AM to 8 PM CST at the following numbers:

U.S. and U.S Virgin Islands: 1-866-705-5711
Alaska and Puerto Rico: 1-800-234-3867 (Select Option 2, then Option 1)
For Hearing Impaired Customers Only call: 1-877-807-1679 (TTY Line)

Once assigned a DUNS number, entities are responsible for maintaining up-to-date information with Dun & Bradstreet.

B. Entity Registration in SAM

Register in SAM online at http://www.sam.gov/. Once registered in SAM, entities must renew and revalidate their SAM registration at least every 12 months from the date previously registered. Entities are strongly urged to revalidate their registration as often as needed to ensure that SAM is up to date and in synch with changes that may have been made to DUNS and IRS information. Foreign entities who wish to be paid to a bank account in the United States must enter and maintain valid and current banking information in SAM.

Entities that had an active record in CCR have an active record in SAM. Such entities do not need to do anything in SAM unless a change in business circumstances requires updates to your Entity record(s) or the Entity record is due to expire. SAM will send notifications to migrated Entity users via email 60, 30, and 15 days prior to expiration of the Entity record. To update or renew your Entity records(s) in SAM your Entity user(s) will need to create a SAM User Account and link their account(s) to your migrated Entity record(s). Entities migrated from CCR can find complete instructions on accessing their SAM Entity records online at http://www.sam.gov/.

C. Excluded Entities

Applicant entities identified in the SAM.gov Exclusions database as ineligible, prohibited/restricted or excluded from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits will not be considered for Federal funding, as applicable to the funding being requested under this Federal program

Cost Sharing or Matching:

Cost share or matching funds are not required, but are desired under this program. Cost sharing includes cash, in-kind contributions, salary costs, equipment use, non-program grant funds and materials. Other cost sharing or matching contributions may also be eligible and will be determined by the Service biologist involved in the project. The cost share or matching fund component of the project will be captured and tracked as part of the project’s cooperative agreement.

IV. Project Requirements

To receive funding under this funding opportunity, recipients must work cooperative with Service biologists to develop and provide the following:

The budget forms are available online at http://apply07.grants.gov/apply/FormLinks?family=15.

When developing your budget, keep in mind the following:

These OMB circulars are available online at http://www.doi.gov/pam/financialassistance/resources/index.html.

- Federally Funded Equipment: Applicants cannot attribute equipment paid for by the U.S. Federal Government under another award as matching or in-kind contributions. ***Do not include this type of equipment in your budget***! Instead, provide a separate list of any equipment paid for by the U.S. Federal Government that will be used for the project, including the name of the Federal agency that paid for the equipment.

- Indirect Costs: An applicant without an established indirect cost rate agreement with a Federal agency may not charge indirect costs to Federal financial assistance awards and must charge all costs directly. Individuals submitting an application on their own behalf and not on behalf of a company or other for-profit entity, state, local or tribal government, academia or other type of organization must charge all costs directly.

  If indirect costs are included on proposed budget, the applicant must submit copy of their most recently submitted/approved indirect cost rate agreement. Non-profit organizations that have received, or expect to receive, the greatest amount of Federal funding in direct awards from the Department of the Interior, should go to http://www.aqd.nbc.gov/Services/ICS.aspx for online guidance and tools for submitting an indirect cost rate agreement proposal to the Department of the Interior.
