A. PROJECT DESCRIPTION

Overview: The Bureau of International Narcotics and Law Enforcement Affairs of the U.S Department of State announces an open competition for national or international organizations and Educational institutions to submit applications to carry out a project to address the root causes of illegal migration by enhancing the Government of Guatemala's (GoG) capacity to combat human smuggling and gender-based violence trafficking in persons (TIP), by strengthening their interinstitutional coordination to assist victim's and create awareness campaigns to ensure proper crime prevention.

Priority Region/Countries: Country Guatemala

Departments of Guatemala, Alta Verapaz, and Escuintla. Thirteen municipalities identified in total.

Problem Statement: Gender based violence (GBV) in Guatemala has increased significantly during the pandemic and vulnerable populations including minors are among the victims. The Secretariat Against Sexual Violence, Exploitation, and Trafficking in Persons (SVET) of the Guatemalan Government is the entity with the mandate to ensure the coordination of the prevention, security, justice, welfare, and attention from local authorities to victims and create awareness of these crimes. Cultural awareness and crime prevention in Guatemala have been delegated to the National Civil Police (PNC). However, there are multiple institutions who work with SVET that need to take a more active role in addressing these crimes. The Ministry of Education (MINEDUC) is one of these stakeholders, who has the key responsibility of promoting positive values and addressing these kinds of issues with the next generation of Guatemalans. SVET has interinstitutional agreements between them and both MINEDUC and PNC to coordinate and collaborate in topics related to sexual violence, exploitation, and TIP.

Project Vision: Standardize and strengthen SVET, with strong knowledge in sexual crimes, exploitation, trafficking in persons (TIP) and a capable train the trainer program to coordinate all the Government of Guatemala (GoG) institutions to conduct awareness campaigns to combat sexual and GBV by rejecting stereotypes and cultural norms that permit these crimes. In addition, empower SVET to identify and initiate through corresponding authorities investigations against criminal structures engaged in money laundering and human trafficking.

Project Goal(s) and Objectives:

The contractor will evaluate SVET personnel and conduct the evaluation of SVET's applications of the train the trainer methodology to ensure proper knowledge transfer. SVET personnel will accompany MINEDUC, PNC, and local authorities in their training. Key concepts of the developed curricula will be measured prior to the intervention, halfway through, and at the final stage to evaluate whether the concepts were absorbed by participants. Within each department, the contractor will identify with SVET the number of schools to cover with a minimum of three schools of primary education in rural municipalities, and a minimum of 10 in the municipalities of the department of Guatemala. The contractor must identify with SVET and MINEDUC the best mechanism to identify the way to access the children in pre-school ages of five to seven years old, to reach them.

System for Award Management (SAM.gov)

Prior to submitting an application in grants.gov, organizations must register in SAM.gov and/or ensure that their SAM.gov registration is active. Organizations are required to renew their SAM.gov registration annually.

- Initiate the registration or renewal process at <https://www.SAM.gov>. Select “Entity Registration” to begin the registration or renewal request.
- First-time applicants should initiate the SAM.gov registration after receiving their UEI and, if applicable, NCAGE Code (for foreign organizations). CAGE codes will be automatically assigned to US-based organizations.

Note: The process of obtaining or renewing a SAM.gov registration may take anywhere from 4-8 weeks. Please begin your registration as early as possible.

- Organizations **based in the United States** or that pay employees within the United States will need an Employer Identification Number (EIN) from the Internal Revenue Service (IRS), a Commercial and Government Entity (CAGE) code, and a UEI number prior to registering in SAM.gov.
- Organizations **based outside of the United States** and that do not pay employees within the United States do not need an EIN from the IRS but do need a UEI number prior to registering in SAM.gov. **Please note that as of December 2022, organizations based outside of the United States that do not intend to apply for U.S. Department of Defense (DoD) awards are no longer required to have a NATO CAGE (NCAGE) code to apply for non-DoD foreign assistance funding opportunities. If an applicant organization is mid-registration and wishes to remove an NCAGE code from their sam.gov registration, the applicant should submit a help desk ticket (“incident”) with the Federal Service Desk (FSD) online at www.fsd.gov to seek guidance on how to do so.**

Any applicant listed on the Excluded Parties List System (EPLS) in SAM.gov is not eligible to apply for an assistance award. Additionally, no entity listed on the EPLS can participate in any activities under an award. All applicants are strongly encouraged to review the EPLS in SAM.gov to ensure that no ineligible entity is included in their proposal.

NOTE: As of April 2021, any new or renewed SAM.gov registrations were given a Unique Entity Number (UEI). UEI does not expire, however you must renew your SAM.gov registration annually.

For more information regarding the transition from UEI (DUNS) to UEI (SAM), please click on the following link: https://www.fsd.gov/gsafsd_sp

D.3.1 Exemptions

An exemption from these requirements may be permitted on a case-by-case basis if:

- An applicant's identity must be protected due to potential endangerment of their mission, their organization's status, their employees, or individuals being served by the applicant.
- For an applicant, if the Federal awarding agency makes a determination that there are exigent circumstances that prohibit the applicant from receiving a unique entity identifier and completing SAM registration prior to receiving a Federal award. In these instances, Federal awarding agencies must require the recipient to obtain a unique entity identifier and complete SAM registration within **45** business days of the Federal award date.

Organizations requesting exemption from UEI or SAM.gov requirements must email the point of contact listed in the NOFO at least **two weeks prior to the deadline in the NOFO providing a justification of their request**. Approval for a SAM.gov exemption must come from the warranted Grants Officer before the application can be deemed eligible for review.

Note: As of December 2022, organizations based outside of the United States that do not intend to apply for U.S. Department of Defense (DoD) awards are no longer required to have a NATO CAGE (NCAGE) code to apply for non-DoD foreign assistance funding opportunities.

Grants.gov

To submit an application to this NOFO, applicants must register in grants.gov.

- Go to www.grants.gov and select "Register" from the banner at the top of the page.
- This should be the last step of the entity registration processes, completed after obtaining a UEI number, NCAGE/CAGE Code (if applicable), and SAM.gov registration.

Help with grants.gov registrations and application submission:

- Go to the grant.gov support page at <https://www.grants.gov/web/grants/support.html>
- Call +1 800-518-4726
- Email support@grants.gov

It is the responsibility of each applicant to ensure that its application was submitted in www.grants.gov correctly. INL bears no responsibility for errors resulting from transmission or conversion processes associated with application submissions. If applicants are unable to resolve technical issues in the system, they should email the INL points of contact listed on the first page(s) of this NOFO with an explanation of the issue and proof of attempts to resolve it (e.g., emails with grants.gov support). INL Grants Office will then determine whether the applicant is allowed to submit application materials via email.

E. APPLICATION REVIEW INFORMATION

1. Technical Evaluation Criteria

A technical evaluation committee, using the criteria shown in this Section, will evaluate the applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

Project Analysis & Design – Total Possible Points: 50

- Analysis of the problem is insightful and accurate. Insightful analysis includes a thorough discussion of the main causes and scope of the issue the project seeks to address and discussion of who has power to effect change on the issue (10)
- Suggested approaches and solutions (i.e., the theory of change) are: (10)
 - Based on good evidence; and
 - Appropriate given the problem, its causes, and its scope
- Proposed implementation plan is: (12)
 - Aligned with suggested approaches and solutions
 - Feasible given timeline, resources, and context
 - Designed such that activities, if implemented according to plan, should result in achievement of program objectives; and objectives, if achieved, should result in achievement of program goals
- Proposal includes a gender, equity, and inclusion analysis addressing the ways in which women, gender diverse persons, and members of other marginalized and underrepresented groups, including those with intersecting aspects of identity, might affect and be affected by this project, (3)
- Description of likely challenges to implementation plan, including risks of harm to organization staff, project participants, and/or others, is thorough and mitigation strategies are appropriate (8)
- Applicant considers the gender, equity, and inclusion analysis as part of risk assessment by identifying possible risks to participants as a result of their participation in line with Do No Harm principles. (2)
- Analysis and planning for sustainability is realistic (5)

Program Monitoring and Risk – Total Possible Points: 25

- Change Map includes indicators for each goal and objective; and proposed indicators are useful for decision making, accurate in measuring the intended result, reliable, and timely (10)
- Illustrative Indicator Reference Sheet includes selected standard indicators; provides three valid indicators for goals, objectives, or sub-objectives in the change map; and demonstrates a thorough plan for data collection (10)
- Risk assessment is thorough and realistic, addresses challenges in the operating environment, and proposes adequate strategies to mitigate risks to the project (5)

Institution's Record and Capacity Rating – Total Possible Points: 10

- The applicant demonstrates an institutional record of successful programs in the proposed country/region and program area (2)
- Professional experience of staff and institutional resources are adequate and appropriate to achieve the project's objectives (2)
- The roles and responsibilities are clearly delineated among staff and partners (2)
- Applicant is a current/former INL grantee and they successfully manage/managed the project OR the applicant has not worked with INL previously and demonstrates experience in managing similar-sized projects (2)
- Applicant submits copies of organization-wide policies and procedures on Preventing Sexual Exploitation and Abuse or explains how the applicant plans to develop such policies, which should also apply to sub-recipients. (2)

Cost Effectiveness – Total Possible Points: 15

- Activity-related costs are realistic, appropriate, and clearly linked to project objectives (5)
- Personnel costs (e.g., staff salaries, contractor rates, and honoraria) are reasonable given the amount of work and oversight needed to manage the project (5)
- Administrative costs (e.g., staff travel, supplies, office costs) are necessary, justified, and in good proportion to direct activity costs (5)

2. Review and Selection Process

INL first reviews all submitted applications for technical eligibility, based on the list of required documents in Section D: Application and Submission Information. All technically eligible applications are then passed to a review committee, which will evaluate the applications against the Technical Evaluation Criteria listed in the previous sub-section. The application(s) selected by the review committee are then presented to INL management and the Grants Officer for approval.

INL will notify successful applicant(s) via email and pass along any conditions, recommendations, or questions from the review committee. INL will notify unsuccessful applicants via email after an award has been issued to the successful applicant(s); therefore, this notification process may take several months.

INL reserves the right to fund any number of applications or none of the applications submitted and will determine the resulting level of funding for each award(s).

3. Federal Awardee Performance & Integrity Information System (FAPIS)

For all awards with a federal total exceeding \$250,000, INL is required to review and consider any information about the applicant in FAPIS.

Organizations are able to review and comment on any information about itself that a federal awarding agency previously entered and is currently in the designated integrity and performance system, accessible through SAM.gov. INL will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when conducting pre-award due diligence.

F. AWARD ADMINISTRATION INFORMATION

1. Federal Award Notices

The grant award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The DS-1909 award agreement is the authorizing document and will be provided to the recipient for review and signature via email or MyGrants. The recipient may only start incurring program expenses beginning on the official project start date, unless pre-award costs are authorized in the award agreement.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO neither constitutes an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

2. Administrative and National Policy Requirements

Before submitting an application, applicants should review all the terms and conditions and that will apply to this award to ensure that they will be able to comply. These include, but may not be limited to:

- [2 CFR 25 - UNIVERSAL IDENTIFIER AND SYSTEM FOR AWARD MANAGEMENT](#)
- [2 CFR 170 - REPORTING SUBAWARD AND EXECUTIVE COMPENSATION INFORMATION](#)
- [2 CFR 175 - AWARD TERM FOR TRAFFICKING IN PERSONS](#)
- [2 CFR 182 - GOVERNMENTWIDE REQUIREMENTS FOR DRUG-FREE WORKPLACE \(FINANCIAL ASSISTANCE\)](#)
- [2 CFR 183 - NEVER CONTRACT WITH THE ENEMY](#)
- [2 CFR 200 – UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS](#)
- [2 CFR 600 – DEPARTMENT OF STATE REQUIREMENTS](#)
- [U.S. DEPARTMENT OF STATE STANDARD TERMS AND CONDITIONS](#)

INL will review and consider applications in accordance with the Office of Management and Budget’s guidance located at 2 CFR part 200, all applicable Federal laws, and relevant Executive guidance. This may include, but is not limited to:

- Guidance for Grants and Agreements in Title 2 of the Code of Federal Regulations (2 CFR), as updated in the Federal Register’s 85 FR 49506 on August 13, 2020, particularly on:
 - Selecting recipients most likely to be successful in delivering results based on the program objectives through an objective process of evaluating Federal award applications (2 CFR part 200.205)
 - Prohibiting the purchase of certain telecommunication and video surveillance services or equipment in alignment with section 889 of the National Defense Authorization Act of 2019 (2 CFR part 200.216)
 - Promoting the freedom of speech and religious liberty in alignment with *Promoting Free Speech and Religious Liberty* (E.O. 13798) and *Improving Free Inquiry, Transparency, and Accountability at Colleges and Universities* (E.O. 13864) (2 CFR parts 200.300, 200.303, 200.339, and 200.341)
 - Providing a preference, to the extent permitted by law, to maximize use of goods, products, and materials produced in the United States (2 CFR part 200.322)
 - Terminating agreements in whole or in part to the greatest extent authorized by law, if an award no longer effectuates the program goals or agency priorities (2 CFR part 200.340)

3. Reporting Requirements

Recipient Reports

Recipients will be required to submit financial reports and program narrative reports. The award document will specify how often these reports must be submitted.

Applicants should be aware of the post-award reporting requirements reflected in [2 CFR 200 Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters](#).

Foreign Assistance Data Review

As required by Congress, the Department of State must make progress in its efforts to improve tracking and reporting of foreign assistance data through the Foreign Assistance Data Review (FADR). The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Recipient(s) will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, the successful applicant will be required to maintain separate accounting records.

APPENDIX A: PERFORMANCE MONITORING PLAN

Monitoring is the ongoing collection and analysis of information to inform project management and decision making. A monitoring plan is an agreement between stakeholders about how, when, and by whom the intervention's results will be measured, and how measurement will inform decisions.

Requirements for INL Performance Monitoring are met through three documents:

1. Change Map;
2. Performance Indicator Reference Sheet; and
3. Performance Monitoring Reports (during the period of performance).

The Change Map shows the links between project goals, objectives, and activities, as well as which goal, objective, or activity each indicator is intended to monitor. A complete Change Map is a required component of a project proposal, though all elements can be modified over the life of the project.

The Performance Indicator Reference Sheet (PIRS) provides detailed information for each indicator, including baseline and target values. An illustrative PIRS, defining three indicators and using notional data as needed, is a required component of a project proposal. A complete PIRS, with full information for every indicator, is required as an early project deliverable. The PIRS may be modified as needed over the life of the project.

The Performance Monitoring Reports provide information throughout the life of the project about the progress of project implementation and performance against indicator targets. INL and the Grantee will agree upon the quarterly reporting procedures and templates when the Statement of Work is finalized. No documents related to the Performance Monitoring Reports are needed at the time of the proposal.

APPENDIX B: PROJECT RISK ANALYSIS

Risks are unavoidable – all programs inherently contain both internal and external risks. However, with proper identification and management, risks can be prepared for, minimized or mitigated. The purpose of a risk analysis is to identify the internal and external risks associated with the proposed project in the application, rate the likelihood of the risks, rate the potential impact of the risks on the project, and identify actions that could help mitigate the risks. A risk analysis should not be considered a one-time exercise or a static document.

INL defers to organizations to conduct adequate risk analysis and remediation for all of its operations and advises that risk analysis and remediation occur throughout the life of a program and should result in revisions to risk analysis documents and processes as necessary. Applicants should incorporate all assumptions and external factors identified in the Monitoring Plan and Proposal Narrative into the risk analysis. Applicants should rate the likelihood of a risk and potential impact of the risk as “high”, “medium”, or “low.”

The safety and security of recipients and beneficiaries are of utmost importance. INL requires all recipients to conduct thorough risk assessments and take all actions necessary in accordance with those assessments to mitigate those risks. INL does not take responsibility for the risks incurred by any recipient.

INL has included a template for the Project Risk Analysis in the Related Documents tab of the NOFO announcement on grants.gov. For more information about the Risk Analysis, please see 2 CFR 200.519.

APPENDIX C: BUDGET AND BUDGET NARRATIVE

Before grants are awarded, INL reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the INL program and availability of funds.

A. Budget Proposal

Complete budget proposals should include a Summary Budget; Detailed Budget; and Sub-recipient Detailed Budget(s), if applicable. The Summary Budget and Detailed Line-Item Budget should be combined in one spreadsheet document. They should be organized according to the OMB-approved budget categories:

- Personnel
- Fringe Benefits
- Travel
- Equipment
- Supplies
- Contractual
- Construction
- Other Direct Costs
- Indirect Costs

If proposing sub-recipient(s), applicants should include detailed sub-recipient budget(s) as additional tabs within the budget spreadsheet. These budgets should follow the same formatting as the primary budget proposal, including all OMB-approved budget categories.

B. Budget Narrative

The Budget proposal provides a numeric-based description of costs under the project. The Budget Narrative is a critical companion document to the Budget that provides numeric and narrative descriptions of each cost item included in the Budget.

All costs included in the project, whether federal or recipient cost share, must be allowable, allocable, reasonable, necessary, and consistent with OMB guidelines. The applicant should keep this in mind when drafting the Budget Narrative, as INL will reference both the Budget and Budget Narrative to determine whether proposed costs fit these requirements.

Category A. Personnel

This section should include all staff from the applicant organization that will work on this project.

- Identify staff by name, where possible, and position title and include a brief description of duties.
- List the annual or monthly salary of each position, their level of effort (i.e., percentage of time working on project), and number of months or years they will work on the project.

- If applicable, separate personnel by location (e.g., headquarters staff and field office X staff)

Category B. Fringe Benefits

Fringe Benefits are the non-wage compensation provided to employees in addition to their normal wages or salaries. Common examples include health insurance, vacation and sick leave, and employer-paid taxes. Fringe benefit application must be consistent with organization's written policy.

- Explain how benefits are computed for each category of employee
- Specify the type of benefit and rate. If applicable, reference rates found in NICRA.

Category C. Travel

This category outlines travel planned for staff and participants.

- **Domestic and International Airfare**
 - Indicate origin and destination (city and country), number of travelers, number of trips each, unit cost per round trip, and purpose.
 - All travel must be booked with economy class fares only.
 - Where applicable, travel should comply with the Fly America Act. More information located here: <http://www.gsa.gov/portal/content/103191>.
- **In-Country Travel**
 - Indicate origin and destination cities, mode of transportation, number of travelers, and unit cost per traveler per trip.
- **Per Diem**

This includes lodging, meals and incidentals (M&IE) for staff and participant travel.

 - Rates of maximum allowances for U.S. and foreign travel are located here: <https://www.gsa.gov/travel/plan-book/per-diem-rates> Per diem rates must follow the organization's own policy; however, institutions may use official government per diem rates as reference.
 - Per diem rates may be prorated and/or removed if the project is paying for refreshments and/or meals for participants (e.g., while attending a workshop or conference).

Category D. Equipment

Equipment is defined as an item with a per-unit cost of \$5,000 or more and a service life of more than one year. If the item meets these criteria, all federal procurement policies and procedures must be followed. If an item does not meet these criteria, it should be listed as a supply item under Category E.

- Provide a description and justification for all equipment, breaking down the total cost into its components where possible.
- Specify whether the equipment will be purchased or rented.

Category E. Supplies

Supplies include tangible items (e.g., toner, laptops, paper) and intangible items (e.g., computer software and licenses) used to manage the project and activities.

- List items separately, including a brief description and justification for the item, number of units, and unit cost.
- For electronic supplies (e.g., mobile phones and laptops), specify which staff will receive the items and the programmatic need.

Category F. Contractual

- **Sub-grants**

A common distinction between sub-recipients and contractors is the role being played; is the entity simply providing a service or are they an implementing partner:

- Each sub-grant should be listed as a line within the main budget and be supported by a separate line-item sub-grant budget.
- For simple sub-grants, the applicant may elect to include the sub-grant's line items within the contractual section of the Budget Narrative; for more complex sub-grants, the applicant should include the sub-grant's line items at the end of the Budget Narrative.
- All proposed sub-recipients are required to have a Unique Entity Number (UEI), regardless of the proposed budget amount, prior to receiving funding. An active SAM.gov registration is not required for sub-recipients.

- **Consultant Fees and Contracts**

Common examples include lecture fees, honoraria, travel and per diem for outside speakers or independent evaluators, and subject-matter expert consultants.

- Describe the nature of the contract/consultancy and list number of people and rates
- Fees and rates should be consistent with the level of experience and based on a fair market value.
- Fees and honorarium should not exceed \$720/day per person, effective January 1, 2023. The 2022 rates will apply to all NOFOs issued before January 1, 2023, until amended. (Note: The designated INL GO can negotiate final fees and rates during the review process of an award and prior to issuance of an award.)

Category G. Construction

Due to the nature of INL programs, construction costs are not allowable or applicable.

Category H. Other Direct Costs

Other direct costs are any costs not included in the other categories. This category may include the entity's operating expenses that are directly linked to the award but not included as an indirect cost.

- For shared costs (e.g., office rent, utilities, wifi, etc.), justify the percentage of the total cost that is being charged to this project.
- Audit costs can be included if they are not covered by indirect costs. Only the portion of an organizational audit cost associated with this project should be charged to this project.
- Avoid using vague wording such as "miscellaneous", "other", "etc.", and "contingency fund".

Category I. Total Direct Costs

This category simply adds together the totals of all previous categories (A through H) to provide a summary of all direct costs. No additional narrative information is necessary for this category.

Category J. Indirect Costs

Indirect costs must be consistently charged as either indirect or direct costs but may not be double charged or inconsistently charged as both. The organization's elected methodology must be used consistently for all federal awards.

Indirect costs can be included in the budget under one of the following methods:

- **Negotiated Indirect Cost Rate Agreement (NICRA)**

Applicants with an established NICRA may charge their approved indirect rate(s).

- Indicate the rate(s) and the base(s) to which they are applied (e.g., all direct costs, to wages and salaries only, etc.)
- If an applicant is electing to charge a rate lower than their approved NICRA, an explanation should be provided within the Budget Narrative.

- **De Minimis Rate**

Applicants that have never received a NICRA can charge a de minimis rate of 10% of modified total direct costs (MTDC) to cover indirect expenses.

- MTDC includes "all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subaward)"
- MTDC excludes "equipment, capital expenditures, charges for patient care, rental costs, tuition reimbursement, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$25,000". Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.
- Justify the MTDC calculation and outline which costs the applicant is proposing to be included within the MTDC base.

Cost Share

Cost Share is the portion of program costs not borne by the Federal Government. Cost sharing may take the form of allowable direct or indirect costs offered by the applicant and/or in-country partners. Applicants should consider all types of cost sharing, including in-kind and public-private partnerships. Additional information on cost share can be found in 2 CFR 200.306. Common examples include the use of office space owned by other entities; donated supplies and equipment; and activities and services conducted by qualified volunteers.

- Line items that include cost share should be identified as such within the Budget Narrative and include the same level of detail requested within this Appendix for federal expenses.
- Monetary values should be assigned to each cost-share line item, in accordance with 2 CFR 200.306.
- Funding from other U.S. government entities or programs does not constitute cost sharing.

C. Budget Allowances and Restrictions:

Program Income

Recipients must report any income generated by the project, also known as “program income.” Program income earned during the project period shall be retained by the recipient and, in accordance with the terms and conditions of the award, shall be addressed in one or more of the following ways:

- added to the award total and used to further program objectives
- used toward the recipient’s cost sharing requirement
- deducted from the total allowable costs in order to determine the net allowable costs for the award

Cost Share

If a resulting federal award includes recipient cost share, the recipient must maintain written records to support all allowable costs that are claimed as its contribution to cost share. Such records are subject to audit. In the event the recipient does not meet the minimum amount of cost sharing as stipulated in the recipient’s budget, INL may reduce the federal share of the award in proportion to the recipient’s actual cost share contribution.

Considered Costs

INL will consider approval of the following (non-exhaustive) list of expenses:

- External evaluation to assess the project’s impact
- Internal evaluation conducted by the grantee
- Audit for the recipient organization or specific project
- Visa fees, immunizations, and medical insurance necessary for travel under the project
- English translations for reporting, relevant documents, or events
- Training for project staff related to monitoring and evaluation, financial management, and other skills necessary to effectively manage the project

Unallowable Costs

The following (non-exhaustive) list of expenses are not allowed in INL grants and cooperative agreements and should not be included within the proposed budget:

- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction
- Alcoholic beverages
- Buying or leasing land
- Direct support or the appearance of direct support for individual or single-party electoral campaigns
- Duplication of services immediately available through municipal, provincial, or national government

INL Grants Officer Specific Approvals

The following list of expenses will require the pre-approval of an INL Grant Officer:

- Program income for the grantees and/or sub-recipients (Note: Program income is defined as "gross income earned by a recipient that is directly generated by a sponsored activity or earned as a result of the award". Program income must be identified, appropriately documented, and the resulting revenue and expenses properly recorded and accounted for. Program Income must be pre-approved by the Grants Officer).
- Expenses incurred before or after the award period of performance, unless prior written approval is given by INL Grants Officer
- Costs of entertainment, including amusement, diversion, and social activities, except where these costs have a demonstrable programmatic purpose and are authorized by INL
- Construction

Additional Notices

The applicant is reminded that funds provided under this agreement must be used in a manner fully consistent with U.S. law.

The applicant will be responsible for complying with all applicable tax treaties and federal, state, and local laws on tax withholding and reporting for program participants.
