Award Instrument	Cooperative Agreement (task award)
Statutory Authority	<i>54 U.S.C. §100703, Cooperative Study Units</i>
CFDA # and Title	<i>15.945, Cooperative Research & Training Programs</i>
Point of Contact	Katie Gaertner, Grants Management Specialist

OVERVIEW, RECIPIENT AND NPS SUBSTANTIAL INVOLVEMENT

The Cornerstones Community Partnership (CCP) will collaborate with the National Park Service (NPS) to work with the NPS to identify and develop repair objectives and methodologies that can efficiently and effectively be carried out under this cooperative agreement, coordinate with the NPS to organize and promote youth or public training workshops at the Preserve for repair and restoration projects, coordinate the preparation of a pilot workshop for the identified tasks above and work with NPS in cooperative efforts in historic preservation of structures through hands-on workshops and trainings.

Substantial involvement on the part the National Park Service (NPS) is anticipated for the successful completion of the objectives to be funded by this award. NPS staff will facilitate the workshops by providing the historic site and access to materials, tools, equipment, and agency specialists or staff, provide project materials, equipment, and facilities that are available and needed to perform volunteer services as described and assist with

park fieldwork and other administrative matters related to the project.

NPS did not solicit full and open competition for this award based the following criteria:

The cooperator is a member of an established Cooperative Ecosystem Studies Unit (CESU) network, and was awarded a Cooperative Agreement (P16AC00031) allowing CCP to participate in specific tasks, and can provide the necessary activities involved in this particular task while providing an effective outcome for the National Park Service and the research and/or education project. Three members of the Cooperative Ecosystem Studies Unit (CESU) network were considered for this award and the CCP was selected based on their institutions expertise and experience in addressing stabilization techniques to historic wood and concrete structures. This is a continuation of the Master Agreement.
