Ancillary Costs are all direct or indirect costs associated with each shipment other than port-to-port ocean freight costs. Terminal Handling Charges, Bunker Surcharges, Wharfage, and Security Surcharges are allowable within the port to port ocean freight charges. Foreign inland transportation costs are allowable in the case of landlocked countries and when the conditions outlined in Section I.C.4 "Reimbursement Guidelines" are applicable. Ancillary costs include standard cargo insurance, warehousing, freight forwarding expenses, courier fees, the cost of the loading of the ocean containers, the clearance of domestic, in-transit and foreign customs, inland transportation in the United States and recipient countries that are not landlocked and do not meet the exceptions outlined in "Reimbursement Guidelines." There may be other ancillary costs that are not listed, but which also are not part of the port to port ocean freight costs.

Duty-Free means exempt from all cargo customs duties and other customs service charges, duties, tolls, and taxes of any kind.

Funding Period means the period of time when eligible costs for reimbursement may be accrued by the recipient. Federal funding is available for obligation by the recipient. The funding period begins on the date the funds are obligated by USAID and usually ends twelve to twenty-four months later. The exact start and end dates for each OFR grantee's funding period are listed under "Delivery Period" on the OFR Procurement Authorization.

Point of Origin means the point or city in the U.S., or in the case of excess property in a foreign country, from which the commodity shipment originates.

Port of Embarkation means the port in the U.S., or in the case of excess property in a foreign country, from which the commodity shipment embarks.

SECTION I - PROGRAM DESCRIPTION

A. PURPOSE

The Transportation Division within the Office of Acquisition and Assistance supports the USAID DCHA Bureau's Office of Food for Peace and Office of Foreign Disaster Assistance programs by providing ocean and air logistics program management and contracting services. The division has experience in all aspects of commodity logistics, ocean freight services, commodity storage, and commodity handling around the world.

B. BACKGROUND

The Ocean Freight Reimbursement (OFR) Program is USAID's oldest ongoing Private Voluntary Organization (PVO) support program. The Foreign Assistance Act of 1961, Section123 (b), authorized the creation of the program and, as amended, allows USAID to reimburse eligible transportation charges for shipments of privately donated goods and U.S. excess property for U.S. PVOs. The OFR Program provides small, competitive grants to approximately 20 to 40 U.S. PVOs each year. Funds are used to reimburse PVO's ocean transport costs to transport donated commodities, such as medical supplies, agricultural equipment, educational supplies, and building equipment to responsible consignees in developing countries.

While USAID reimburses the direct costs of ocean freight, participating PVOs are responsible for all associated indirect costs and ancillary costs, such as commodity acquisition, warehousing, insurance, local transportation, and distribution. Additional background information on the OFR Program can be found at www.usaid.gov.

SECTION III – ELIGIBILITY INFORMATION

In order to be properly evaluated, applications must adhere to the requirements and restrictions outlined below - for conformity and consistency with the specifications stated in these guidelines.

1. Applicant Eligibility Requirements

- This competition is open to U.S. PVOs
- Proposal must follow formatting guidelines (Section IV.A.2 "Formatting Guidelines").

Note: PVOs no longer need to register with USAID before participating in most programs. However, PVO registration is still legislatively required for the Ocean Freight Reimbursement Program as a condition of eligibility. For the OFR program USAID will use a simplified self-certification form as part of the registration process. The form is attached as Annex C to the RFA.

2. Program Requirements

- Programs must be in an eligible country or countries (Annex A);
- Programs must be configured to further the efficient use of voluntary commodity and service contributions for development, relief, and rehabilitation of friendly peoples.
- Programs must involve partnership(s) with local government, a nongovernmental organization (including your affiliates), community partner, or other in-country organization that will act as a responsible consignee;
- Applicants must demonstrate that they have staff or responsible consignees in-country to ensure proper pick-up and distribution of commodities by submitting a Consignment Affidavit (Annex B) for each consignee; and
- Applicants must provide a letter from each destination country government stating that their OFR-supported shipments will be received duty-free. All letters not written in English must be accompanied by English translations, and all duty-free waivers must be current and valid for the timeframe in which the PVO will be shipping to each particular country. If the applicant cannot secure a letter from the destination country government, the PVO may submit a letter with their application stating that its organization will take full responsibility for all duties, taxes, tolls, etc. incurred on each shipment.

3. Program Restrictions

The OFR program cannot be used under the following circumstances:

- In countries where the PVO does not have staff or responsible consignees to ensure proper pick-up and distribution of commodities;
- In countries that are not listed on the approved Procurement Authorization;
- Where the PVO or local partner charges the beneficiary or consumer a fee for the supplies or commodities proposed to be shipped under the OFR program (unless prior written approval is given by the USAID grant officer). Exceptions may be considered in special cases, following a request to M/OAA/T and based on M/OAA/T approval,

such as the sale to recipients at nominal cost or as payment for work performed to promote projects of self-help and economic development. However, in no case shall supplies be withheld from needy persons because of their inability to pay or to work;

- To support commodities already funded by the U.S. Government or supported by other USAID-funded programs, including P.L. 480 or Food For Peace food commodities; or
- To ship religious or proselytizing materials.

4. Reimbursement Guidelines

- Indirect support costs and ancillary costs are not reimbursable. Recipients are required to absorb all indirect costs and ancillary costs associated with each shipment, such as freight forwarding expenses, insurance, container stuffing, warehousing, courier fees, and inland transportation in the United States and recipient countries that are not landlocked and do not meet the exceptions outlined below. In these ways, this program leverages many times the value of commodities shipped to USAID dollars spent and encourages grant recipients to contribute their own resources to a successful completion of their program. Reimbursement requests for indirect costs, U.S. inland transportation, other ancillary costs, or any costs other than those outlined below will not be considered. Please do not include these in your OFR application or subsequent invoices.
- Total amount of Ocean Freight funds requested for the FY 2022 and FY 2023 funding periods must not exceed $150,000 per year.

The following ocean freight costs ARE eligible for reimbursement under the OFR program:

- The ocean freight cost of transporting donated or purchased supplies from a U.S. port to a foreign port serving the recipient country. Those costs eligible for reimbursement include ocean freight, Terminal Handling Charges (THC), Bunker Surcharge, Wharfage, and Security Surcharge. All other costs associated with the shipment are considered ancillary costs and are not eligible for reimbursement. The eligible expenses will normally be determined by a review of the actual ocean carrier's rated or priced bill of lading.

- Limited inland transportation costs in a foreign country under one or more of the following circumstances: 1) if the destination country is landlocked; 2) where ports in the destination country cannot be used effectively because of natural or other disturbances; 3) where carriers to a specified country are unavailable, or 4) where a substantial savings in cost or time can be affected by the utilization of points of entry other than recipient country ports. Under these circumstances, the limited inland transportation costs that may be reimbursed under the OFR Program include the actual cost of transportation of the supplies from pick-up point in the initial port of discharge to a designated point of entry in the recipient country.

- Where inland costs are eligible for reimbursement, expenses incurred in transferring supplies from ocean carrier to inland carrier are also eligible for reimbursement.

- Ocean Freight transportation costs for the shipment of United States excess property from the exit port of the country in which the excess property originates to the destination country. In the case of excess property, the excess property can originate in a foreign country; however all other restrictions regarding reimbursement apply.

C. APPLICATION FORMAT

1. PROGRAM DESCRIPTION **(8 pages maximum)**

In this section, it is highly recommended that you provide a concise response for each program, up to three programs. If you have more than three programs for which you are requesting funding, provide a detailed response regarding at least one program in each region which exemplifies other programs in those regions.

a) Executive Summary

The executive summary is a concise summary of the program description and key components of the application including number of shipments planned, proposed countries or regions, types of commodities to be shipped, and estimated value of commodities.

b) Overview of the Applicant

The overview is meant to give the review committee an understanding of the PVO that will implement this program. Please bear in mind that not all reviewers will be familiar with every PVO and its capabilities. Briefly describe:

- your organization's mission, goals, objectives, and in particular, how they relate to the proposed program;
- the major technical sectors in which the organization works and your history working in the sector(s); and
- the alternative sources of funds (donors, private funds, foundations, etc.) available to cover transportation costs in your programs. How much is provided annually from each source?

The purpose of the tables on the next page is to assess whether or not the applicant has experience shipping the proposed commodities to the proposed programs and countries. Based on your experience over the past two years provide at least 3-5 examples each fiscal year of the types of shipments for which you are currently applying for funding. These shipments do not have to be shipments that were reimbursed by OFR. If your organization does not have any recent experience shipping the commodities proposed in your application and/or to the countries and programs for which you are requesting funding, please explain this in your situational analysis and provide 3-5 examples for each fiscal year of any commodity shipments completed by your organization during the last two years.

Funding FY 2022 (Program October 2021 – September 2022)

Program Description	Recipient Country	Type of Commodity and Number of Containers Shipped	U.S. $ Commodity Value*	Total Ocean Freight Cost**
EXAMPLE Medical/Health	Indonesia	1x40’ Container Med. Supplies and Equip.	$500,000.00	$8,500.00

Funding FY 2023 (Program October 2022 – September 2023)

Program Description	Recipient Country	Type of Commodity and Number of Containers Shipped	U.S. $ Value*	Total Ocean Freight Cost**
EXAMPLE Food Security	Niger	1x40’ Container Non-PL 480 Food - Meals	$100,000.00	$5,500.00

*PVOs are encouraged to use ACCORD NETWORK Gifts In Kind valuation methods as outlined in ACCORD NETWORK Interagency GIK Standards which can be downloaded at www.accordnetwork.org. If another method is used to obtain value of goods, please explain method used.

**Includes both ancillary costs (List of Definitions is available after the Table of Contents of this RFA) which are non-reimbursable and ocean freight costs which are eligible for reimbursement (see Section III.4 "Reimbursement Guidelines").

c) *Situational Analysis and Rationale for OFR support*: Describe the current conditions in each country or region where your organization is proposing to work; discuss factors likely to affect proposed program outcomes and discuss the justification for providing support to your organization. Be sure to cite the resources for your data and include the following:

- Identify the country (ies) in which you are proposing to work. Discuss prior experience working with the host country government(s) in the countries where this program will operate.
- Describe the intended beneficiaries of the proposed OFR commodities for each shipment. Include an analysis of their needs, as well as an estimated number by gender and age. Discuss how you estimated the number of beneficiaries and the techniques used to determine their needs (e.g. surveys, census data, and needs assessment). Please note, information on age and gender differentiation of the intended beneficiaries is essential and will be scored.
- Discuss why your organization has a comparative advantage in carrying out this work. Cite prior relevant experience using specific examples and data. Identify any opportunities for synergy with other programs, donors, or sectors, and discuss how the programs might work together and support one another.

d) *Program Objectives*: Describe in greater detail the major objectives of the program(s) for which you are seeking OFR funds.

- Identify and describe in detail the objective(s) of the program(s) for which you are seeking OFR funds. Provide the program duration and timeframe.
- Discuss how your shipments under the OFR program would support or enhance the humanitarian relief and/or long-term development objectives of the program or that of your partner(s) in the countries you have proposed.

e) *Commodities:* Describe and/or list in detail the commodities that will be shipped to each country program. Explain how these commodities support the objectives of these programs.

- Discuss the type of commodities that will be shipped to each country (ies) and explain how each type of commodity will respond to the specific needs of the beneficiaries as outlined in your situational analysis. State in what way(s) shipping these commodities will improve program operations and/or increase access to, or the quality of, the program(s).
- How does your organization address the issue of assuring that commodities will "do no harm?" For example, when large quantities of clothing are shipped during the first phase of a disaster, not only can these shipments potentially clog ports, delaying the entrance of much needed emergency items, they can also harm the local economy by taking away business from the local tailors and small business owners who make a living by selling clothing. Also, large amounts of donated clothing might be sold on the local black-market. How could each type of commodity your organization is proposing to send potentially harm, rather than help, the recipient country, and what steps does your organization take to ensure the commodities will not hurt the local people and/or economy?
  Note: The point behind this question is for the applying organization to demonstrate to the evaluation panel that they have considered both the positive and negative ramifications of what they will be shipping.
- Complete the following tables on the commodities that will be shipped:

Table 1: Provide a summary table under the OFR Program for the FY 2022 and FY 2023 funding periods that lists the countries, percent of OFR commodities being shipped, program focus, types of commodities, and if the commodities are either donated or purchased.

EXAMPLE Table 1

f) *Partnership Formation*: Identify your proposed program partners and provide a rationale for the selection of these partners.

- Provide a description of the partner's (s') experience in the program and in the delivery of commodities. All partners must be listed and briefly discussed. However, it is recommended that if you have more than three partners you provide a detailed response regarding at least one partner in each region which exemplifies other partners in those regions, with a minimum of three examples total.

  - List your partners for this program and indicate whether each partner is an independent NGO or an affiliate of the applicant;
  - Discuss your organization's relationship with in-country implementation partners and state whether the partners are new or continuing. Cite the success you have had with your approach;
  - Discuss your partner's (s') involvement in developing this application;
  - Describe any training your partners have had on the equipment or supplies you send and maintain; and
  - Note whether you have a memorandum of understanding or other agreement with your host country partners.

Standards: We expect all OFR grantees and partners to adhere to "Best Practices." OFR grantees and partners are encouraged to abide by the PVO Standards set forth on InterAction's website at http://www.interaction.org/. For example, it is recommended in InterAction's PVO standards that NGOs involved in the provision of food aid are guided by "Representative Food Aid Standards" promulgated by Food Aid Management. Similarly, those involved with Gifts-In-Kind are guided by the "Interagency Gifts-In-Kind Standards Project" of the Accord Network (ACCORD NETWORK).

- Based on the activities in this proposal how does your organization ensure that it is abiding by the PVO accepted "best practices" specifically as this pertains to commodity shipping?

2. PROGRAM MANAGEMENT AND STRUCTURE **(2 pages maximum, excluding tables)**

This section provides an overview of the management of the proposed program. Please be sure to highlight those areas of program management, like receiving and distribution that were not discussed under the Program Description section. For sections b and c it is recommended that, if you have up to three programs, you give a detailed response regarding each program. If you have more than three programs, you may wish to provide a detailed response regarding at least one program in each region which exemplifies other programs in those regions, with a minimum of three examples. Note: The "example" program(s) should be one(s) for which your organization is requesting funding.

a) Organizational Structure:

- **Discuss how the PVO U.S. headquarters will ensure effective support to the field for this program. Include the number of personnel that manage the OFR program both in the field and at the headquarters.**
- **Provide an organizational chart of the applicant PVO that clearly delineates the key personnel responsible for backstopping the program in the U.S. headquarters office and in the field.**

b) Receiving and Distribution System:

- Identify if your organization has a physical presence (direct employees or hired agents) in each country where the proposed program will operate. If the PVO does not have a physical presence in the country, then identify who is responsible for receiving and distributing the commodities and describe criteria for consignee selection.
- Describe your entire process of receiving and distributing the OFR support commodities, i.e., clearing customs, warehousing, transportation and distribution of goods to final destination.
- Describe in detail how your organization monitors the OFR shipment from shipping dock to the final distribution. Include a discussion of the following elements: reporting requirements, physical inspection, inventory control, distribution schedule, on-site inspection and beneficiaries' response.
- Cite any experiences concerning lost and/or stolen goods (i.e., percent of loss to value of total goods shipped) and the steps taken to safeguard the logistics and distribution process.

c) Contingency and Security Planning: Natural and man-made disasters affect a substantial number of development programs at some time during the course of implementation. Briefly outline plans to prevent and mitigate the effects of security problems or other emergencies on your organization's staff and property to ensure the security and safety of program personnel.

3. PIPELINE ANALYSIS

Prior year OFR grantees with a significant residual pipeline will likely receive less funding during this OFR budget cycle.

PVOs with existing OFR procurement authorizations must provide the following information:

- Outline the amount of OFR funds currently available for use from OFR awards in years prior to and including if applicable Program years 2020 and 2021.

Procurement Authorization No.	Amount of Award	Amount Spent	Amount Available

Describe the schedule/plan for expending any balance of OFR funds by the end of the funding period. The end of your funding period is located on your Procurement Authorization under "Delivery Period."

D. NEGOTIATION AND AWARD

Application(s) which are deemed to offer the greatest value and best meet USAID objectives will be selected for award. USAID may award one or more grants resulting from this RFA to the responsible applicant(s) whose application(s) conform to this RFA and are evaluated to be among the most highly rated. USAID may (a) reject any or all applications, (b) accept other than the lowest cost application, and (c) waive informalities and minor irregularities in applications received.

USAID may award one or more grant(s) on the basis of the initial applications received, without discussions. Therefore, each application should contain the applicant's best terms from a cost and technical standpoint. Neither financial data submitted with an application nor representations concerning facilities or financing, will form a part of the resulting grant.

The Recipient is reminded that U.S. Executive Orders and U.S. law prohibits transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. It is the legal responsibility of the recipient to ensure compliance with these U.S. Executive Orders and laws. This provision must be included in all sub-awards issued under this agreement.

On October 20, 2004, USAID issued its final rule (the "Rule") on participation by religious organizations in USAID programs (69 FR 61716). The Rule amends several USAID regulations in furtherance of Executive Order 13279 (67 FR 77141), which directs executive agencies to ensure equal protection of laws for faith-based and community organizations ("FBCOs") that apply for federal funds. The Rule generally ensures that FBCOs are able to compete fairly for USAID funding, and that USAID programming decisions are based on the program eligibility criteria, without regard to the religious character or affiliation of applicants. Moreover, although faith-based organizations (FBOs) may not use direct USAID funds for inherently religious activities, FBOs may continue to engage in religious activities as long as they are privately-funded, separate in either time or location from USAID activities, and voluntary for beneficiaries of the USAID-funded activity.

Faith–based and/or religiously affiliated PVOs are eligible to participate in USAID programs on the same basis as any other organization without regard to their religious character or affiliation and may not be excluded from competition for USAID funding. USAID may not discriminate for or against a program applicant on the basis of religious character or affiliation. For further details regarding this rule, please see our USAID web pages at http://www.usaid.gov.

The Agreement Officer will perform a pre-award risk assessment in accordance with the principles established by USAID and the Office of Management and Budget (OMB) (see 2 CFR 200.205). As per ADS 303.3.9 (dated 12/26/2014), a positive risk assessment means that the Applicant possesses or has the ability to obtain the necessary management competence to plan and carry out the assistance program to be funded, and that the Applicant will practice mutually agreed upon methods of accountability for funds and other assets provided by USAID. **Prior to making an award**, the Agreement Officer will make a risk determination as required by ADS 303.3.9 and 2 CFR 200.205.

If USAID's review of the full application results in a recommendation for funding, then the organization and USAID will enter final discussions to ensure all pre-award requirements are met and significant grant terms are negotiated and agreed. The exact details will vary according to the circumstances pertaining to each application; however, the following are common areas that require discussion and agreement prior to award:

- Payment terms;
- Procedures concerning administrative reporting and logistical requirements for the program including training components;
- Cost sharing terms, if applicable;
- Other award terms including audit, special provisions, and/or special award conditions.

The Cost Application will not be assigned a score but will be evaluated for cost reasonableness, allocability and allowability. While cost may be a determining factor in the final award(s) decision, the technical merit of applications is substantially more important under this NFO. Consideration will be given to the Applicant's understanding of the NFO requirements and consistency with the technical application.

1. Authority to Obligate

The USAID Agreement Officer is the only individual who may legally commit USAID to the expenditure of public funds. No costs chargeable to the proposed procurement authorization may be incurred before receipt of a signed and executed procurement authorization.

2. Program Funding

The number of applicants to the OFR Program has steadily risen, while funds available for the Program remain limited. In order to maximize the number of PVO recipients each year, awards will not exceed $150,000 per organization, per year.

3. Requirements for Funded Programs

a. USAID Responsibilities

USAID will be responsible for any changes to the Procurement Authorization, review of quarterly and annual reports, tracking of expenditures, and the review, authorizing and processing of all reimbursement requests. The agreement officer, or the cognizant technical officer, or the project officer will provide approval of changes in the program description. Grant recipients must request, in writing, approval to make changes in specific activities, countries, commodity categories, designated consignees, and procurement authorization extensions.

Any deviation from the terms of the procurement authorization requires written authorization by the USAID agreement officer (i.e. eligible countries, commodity categories and procurement authorization extensions).

b. PVO Recipient Responsibilities

The selected PVO recipients are responsible for implementing the program in accordance with USAID's terms and conditions and all other applicable USAID regulations. As all commodities in the OFR program are privately donated and not purchased by USAID, the USAID Branding policy does not apply to OFR recipients. However, PVOs will be responsible for the following activities and documentation during the life of the program for which the PVO receives a grant:

- Making all transportation arrangements;
- Shipping all commodities on vessels registered under the flag of any free world country, flag vessels of developing countries or any free flag vessels. USAID Authorized Geographic Code 935 includes any area or country including the recipient country, but excluding any country that is a prohibited source;
- Shipping only the approved commodities to the eligible countries authorized on the procurement authorization;
- Obtaining approval from M/OAA/T to extend the funding period of a grant which has an unexpended balance at least 60 days prior to the expiration of the grant;
- Paying for all ancillary costs involved in making shipments under the Ocean Freight programs; i.e. freight forwarding, insurance, domestic loading of the container, warehousing, etc.;
- Keeping the agreement officer, or the cognizant technical officer, or the project officer apprised of any changes in consignees and submitting a completed Consignment Affidavit for all consignees;
- Obtaining prior approval to add additional eligible countries and/or commodities to the original Procurement Authorization;
- Submitting a copy of USAID Form 1550-6, "Voluntary Agency Quarterly Report of Shipping Activity" on a quarterly basis; and
- Submitting an annual report including final totals from all quarterly reports.

The awards made pursuant to this RFA will be subject to the requirements of 2 CFR 200 "Uniform Administrative Requirements, Cost Principles, And Audit Requirements for Federal Awards ," 2 CFR 700, 22 CFR 200"Overseas Support of Supplies by Voluntary Non-Profit

Relief Agencies," and the applicable Standard Provisions for U.S. Non-Governmental Organizations. The applicable Standard Provisions and 2 CFR Parts 200 and 700 are available on the USAID website at http://www.usaid.gov.

C. Applications for Reimbursement

OFR Grantee applications or invoices for reimbursement must consist of the following:

- Rated or priced Commercial Bill of Lading from the actual (VOCC) ocean carrier, noting Inland and Port-to-Port Ocean Freight Costs, Terminal Handling Charges, Bunker Surcharges, Wharfage, and Security Surcharges.
- Completed SF 1034, "Public Voucher for Purchases and Services Other Than Personal."
- The SF 1034 must include the award number (referenced on the procurement authorization) and the banking information (American Banking Association number and bank account number) for electronic fund transfer.

Applications for reimbursement which are not complete and which do not contain a clear bill of lading breaking out inland and port-to-port costs may be rejected and returned to the PVO for further supporting documentation. Applications for reimbursement must be submitted within 60 days of the date of the related commercial bill of lading. In the case of inland transportation costs for shipments to landlocked countries, applications for reimbursement must be submitted within 180 days of the related commercial bill of lading. For eligible reimbursement costs please see Section III.4 "Reimbursement Guidelines".

SECTION V – APPLICATION REVIEW INFORMATION

(c) This assurance is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property, discounts, or other Federal financial assistance extended after the date hereof to the recipient by the Agency, including installment payments after such date on account of applications for Federal financial assistance which was approved before such date. 3. PROHIBITION ON ASSISTANCE TO DRUG TRAFFICKERS FOR COVERED COUNTRIES AND INDIVIDUALS (ADS 206)

USAID reserves the right to terminate this Agreement, to demand a refund or take other appropriate measures if the Grantee is found to have been convicted of a narcotics offense or to have been engaged in drug trafficking as defined in 22 CFR Part 140. The undersigned shall review USAID ADS 206 to determine if any certifications are required for Key Individuals or Covered Participants. If there are COVERED PARTICIPANTS: USAID reserves the right to terminate assistance to or take other appropriate measures with respect to, any participant approved by USAID who is found to have been convicted of a narcotics offense or to have been engaged in drug trafficking as defined in 22 CFR Part 140.

4. CERTIFICATION REGARDING TERRORIST FINANCING IMPLEMENTING EXECUTIVE ORDER 13224

By signing and submitting this application, the prospective recipient provides the certification set out below:

advocates, facilitates, or participates in terrorist acts, or has committed, attempted to commit, facilitated, or participated in terrorist acts, as that term is defined in paragraph 3. The Certification in the preceding sentence will not be deemed applicable to material support or resources provided by the Recipient pursuant to an authorization contained in one or more applicable licenses issued by the U.S. Treasury's Office of Foreign Assets Control (OFAC).

2. The following steps may enable the Recipient to comply with its obligations under paragraph 1:

a. Before providing any material support or resources to an individual or entity, the Recipient will verify that the individual or entity does not (i) appear on the master list of Specially Designated Nationals andBlocked Persons, which is maintained by OFAC, or (ii) is not included in any supplementary information concerning prohibited individuals or entities that may be provided by USAID to the Recipient.

b. Before providing any material support or resources to an individual or entity, the Recipient also will verify that the individual or entity has not been designated by the United Nations Security (UNSC) sanctions committee established under UNSC Resolution 1267 (1999) (the "1267 Committee") [individuals and entities linked to the Taliban, Usama bin Laden, or the Al-Qaida Organization]. To determine whether there has been a published designation of an individual or entity by the 1267 Committee, the Recipient should refer to the consolidated list available online at the Committee's Web site: http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm.

c. Before providing any material support or resources to an individual or entity, the Recipient will consider all information about that individual or entity of which it is aware and all public information that is reasonably available to it or of which it should be aware.

d. The Recipient also will implement reasonable monitoring and oversight procedures to safeguard against assistance being diverted to support terrorist activity.

3. For purposes of this Certification –

(iii) any other act intended to cause death or serious bodily injury to a civilian, or to any other person not taking an active part in hostilities in a situation of armed conflict, when the purpose of such act, by its nature or context, is to intimidate a population, or to compel a government or an international organization to do or to abstain from doing any act.

c. "Entity" means a partnership, association, corporation, or other organization, group or subgroup.

d. References in this Certification to the provision of material support and resources must not be deemed to include the furnishing of USAID funds or USAID-financed commodities to the ultimate beneficiaries of USAID assistance, such as recipients of food, medical care, micro-enterprise loans, shelter, etc., unless the Recipient has reason to believe that one or more of these beneficiaries commits, attempts to commit, advocates, facilitates, or participates in terrorist acts, or has committed, attempted to commit, facilitated or participated in terrorist acts.

e. The Recipient's obligations under paragraph 1 are not applicable to the procurement of goods and/or services by the Recipient that are acquired in the ordinary course of business through contract or purchase, e.g., utilities, rents, office supplies, gasoline, etc., unless the Recipient has reason to believe that a vendor or supplier of such goods and services commits, attempts to commit, advocates, facilitates, or participates in terrorist acts, or has committed, attempted to commit, facilitated or participated in terrorist acts.
