Conservation Agreements for Implementing Key Conservation
Objectives in Delaware.
Questions and Answers – As of 03/13/2019

Q.1. I see that there are two dates for initiation of the projects. One is April 15, 2019 on page 4 and the other is August 1, 2019 on page 7. Can you clarify? I would like to have this for development of our proposal.

A.1. The anticipated award start date is August 1, 2019, or after, but subject change.

Q.2. The paragraph on the top of page 8 concerning formatting states that the document “must not exceed 12 pages”. Does this include SF 424, SF424A, Budget Narrative, SF424B, the Cert on Lobbying, AD-3031 and the Proposal G. a. thru e? Or is the 12 page limit referring to the Proposal G. a. thru e.? If you could clarify for me, I would appreciate it.

A.2. The 12 page limit is refers to the proposal in Section D(2)(g)(subparts a-e).

Q.3. Can the Proposal sections be one continuous document or does each subpart need to be a separate page(s)? I ask this as other proposals we have applied for often limit the length (# of words) and pages used for each subsection.

A.3. The proposal section can be either one continuous document or a separate page for each subpart. Either way the 12 page limit applies.

Q.4. I see that there is allowance for this response to be emailed directly to you. Is that correct or should it be in Grants.Gov?

A.4. That is correct.
