1.2 *Introduction*

The Small Business Reauthorization Act of 2000, codified at 15 U.S.C 657d, established the Federal and State Technology (FAST) Partnership program. In accordance with its original statutory language, the program expired on September 30, 2005; however, it has been subsequently appropriated, most recently under the Consolidated Appropriations Act of 2026 (Pub. L. No. 119-75).

1.3 *Background*

Since its inception in 1953, the U. S. Small Business Administration (SBA or Agency) has served to aid, counsel, assist and protect the interests of small businesses. While SBA is best known for its financial support of small businesses through its lending programs, the Agency also provides funding to organizations that deliver technical assistance in the form of counseling and training to small business concerns and nascent entrepreneurs to promote growth, expansion, innovation, increased productivity, and management improvement.

SBA's Office of Investment and Innovation (OII) administers the FAST program. OII supports U.S. growth-oriented small businesses and startups by administering federal investment and innovation programs, overseeing policy and compliance, and leading government-wide coordination of the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs.

1.4 *Purpose & Goals*

The primary mission of the FAST program is to strengthen the technological competitiveness of small businesses in the United States. The FAST program provides yearly funding to eligible organizations to execute state-based programs, which may also collaborate regionally, that raise awareness of the SBIR/STTR programs, educate small businesses on new and ongoing program requirements, increase application submission and awards, and reach all eligible small businesses.

Under the authority of the Small Business Act (*see* 15 U.S.C. 657d), FAST awards strengthen the SBIR/STTR programs through:

1. **Stakeholder engagement:** increase the pipeline of SBIR/STTR applicants through targeted trainings and stakeholder engagement; and build the capacity of partner organizations and individuals responsible for supporting SBIR/STTR applicants and existing awardees.
2. **Technical and business assistance:** support entrepreneurs and startups through custom programs and/or services that improve proposal development and team creation; provide assistance that leads to the commercialization of technology developed through SBIR/STTR program funding; and form or encourage relevant mentoring networks to provide business advice and counseling.
3. **Financial support:** make grants or loans to applicants to pay a portion or all the cost of developing SBIR/STTR proposals (Phase 0), attending relevant conferences, and bridging gaps between phases.

1.5 *Leveraging of Resources*

Non-Federal Entities selected for awards under this Announcement are required to maximize their efforts to leverage SBA funding by working in conjunction with other public and private entities that provide support or have resources that would benefit SBIR/STTR applicants and/or awardees, including but not limited to:

- a. Partner organizations such as Small Business Development Centers (SBDCs), APEX Accelerators (formerly known as Procurement Technical Assistance Centers (PTACs)), Growth Accelerators, Veterans Business Outreach Centers (VBOCs), Women's Business Centers (WBCs), SCORE, State Trade Expansion Program (STEP) partners, Regional Innovation Clusters (RICs), and more.
- b. SBA District and Regional Offices.
- c. Federal, state, and local government agencies.
- d. Universities, colleges, and other institutions of higher education.
- e. Private organizations to include those that have access or provide private capital.
- f. Trade/industry groups.

1.6 *SBA Involvement and Oversight*

A designated Grants Officer Technical Representative (GOTR) within the Office of Investment and Innovation (OII) will be responsible for overall monitoring and oversight of FAST Award Recipients, including compliance with the cooperative agreement. A designated Grants Management Officer within the Grants Management Division (GMD) will be responsible for issuing the Notice of Award, making modifications to the award, and processing payments.

1.7 *Changes or Cancellation*

SBA reserves the right to amend or cancel this Announcement, in whole or in part, at will and at the Agency's discretion. Should SBA make material changes to this Announcement, the Agency will extend the Closing Date as necessary to afford Applicants enough opportunity to address such changes.

2.0 **Section II – Award Information**

2.1 *Funding Information*

Funds provided under the FAST program must be used solely for the purposes stipulated in this Announcement and the Notice of Award and may not be commingled with any other funds. All costs proposed in an Applicant's budget must meet the tests of allowability, allocability, and reasonableness set forth in the applicable Office of Management and Budget (OMB) cost principles (2 C.F.R. 200, Subpart E). Indirect costs will be stipulated in an Applicant's indirect cost rate agreement. SBA will not reimburse Applicants for their proposal preparation costs, but Non-Federal Entities may request Pre-Award costs. Pre-Award costs must directly relate to the conduct of the project and meet the tests of allowability, allocability, and reasonableness.

- Applicants may waive indirect costs and choose not to include indirect costs in their budget. Applicants may request reimbursement for indirect costs using their established Negotiated Indirect Cost Rate Agreement (NICRA, if applicable) or the de minimis rate of 15% of Modified Total Direct Costs (MTDC) per 2 CFR § 200.414. o MTDC are calculated as defined in 2 CFR § 200.1 "Modified Total Direct Cost (MTDC)". For more information on indirect costs for recipients, refer to 2 CFR §§ 200.413 and 200.414.
 - o If applying using a NICRA, a copy of the NICRA is required to be provided.
- Organizations that do not have a current negotiated (including provisional) rate, may elect the De Minimis rate (2 CFR 200.414). The Uniform Guidance offers the option of electing to charge a de Minimis rate of 15 percent of modified total direct costs (MTDC) which may be used indefinitely. As detailed in 2 CFR 200.403, costs must be charged consistently as either indirect or direct costs but may not be double charged or inconsistently charged as both. If elected, this methodology must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which it may do at any time

SBA expects to issue no more than \$9,000,000 in total FY 2026 FAST awards.

2.2 *Matching Requirement*

A non-federal match is required, and not less than 50 percent of the match provided by a Non-Federal Entity must take the form of cash. The remaining match amount may consist of indirect costs and in-kind contributions. Except for the Community Development Block Grant (CDBG) program (see 42 U.S.C. § 5305(a)(9)), no portion of the match may be derived from funds provided under any other federal program. Non-Federal Entities may use up to five (5) percent of their cooperative agreement for Planning Activities which are excluded from the non-federal matching requirements (Refer to Section 8.1 for the definition of Planning Activity.) The non-federal share of the cost of an activity (other than a Planning Activity) carried out under the FAST program is provided below:

- a. 50 cents of non-federal match for each federal dollar (a 1:2 match) for Applicant entities in the twenty-two (22) states and territories receiving the fewest number of SBIR/STTR Phase I awards;
- b. except as noted in (d) below, one dollar of non-federal match for each federal dollar (1:1 match), in the case of an Applicant that will serve small business concerns located in one of the sixteen (16) states receiving the greatest number of SBIR/STTR Phase I awards;
- c. except as noted in (d) below, 75 cents of non-federal match (a 3:4 match) for each federal dollar for all other states not described previously; and,
- d. 50 cents for each federal dollar that will be directly allocated by an Applicant described in sections (b) or (c) above to serve small businesses located in a low-income area - a Qualified Census Tract as that term is defined in section 42(d)(5)(C)(ii) of the Internal Revenue Code of 1986. Federal dollars not so allocated by that Applicant shall be subject to the matching requirements of section (a), (b) or (c) above. (Section 8.4)

See Section 8.5 for State ranking and corresponding match requirement.

2.3 *Project Duration*

The Project Period is the same as the Budget Period: 12 months (September 30, 2026 - September 29, 2027).

Each Applicant is required to submit its proposal electronically via [Grants.gov](https://www.grants.gov) no later than 4:00 p.m. Eastern Time on July 22, 2026. Because of the pre-conditions for submitting applications via Grants.gov and the potential for encountering technical difficulties in using that site, Applicants are strongly encouraged to log on to Grants.gov and review the submission instructions early. **DO NOT WAIT UNTIL THE CLOSING DATE TO BEGIN THE SUBMISSION PROCESS.** Applicants bear sole responsibility for ensuring their proposals are submitted and received before the closing date.

SBA will consider the date and time stamp on the validation generated by Grants.gov as the official submission time. A proposal that is not received by Grants.gov before the closing date of this Announcement will be rejected without being evaluated, unless the Applicant can clearly demonstrate through documentation obtained from Grants.gov that it attempted to submit its proposal in a timely manner but was unable to do so solely because of Grants.gov systems issues. Additionally, SBA will not accept any changes, additions, revisions, or deletions to applications made after the closing date.

Applicants should save and print written proof of an electronic submission made at Grants.gov. If problems occur, the applicant is advised to (1) print any error message received; and (2) contact Grants.gov for immediate assistance. 5.0 **Section V - Application Review Information**

5.1 *General*

Applications will be rejected without being evaluated if they are submitted by ineligible organizations (see Section 3), are illegible, or materially incomplete due to an Applicant's failure to include all required forms and/or provide the required level of detail.

Disclosure of SBA Financial Assistance. Applicants must disclose any current or prior financing received from SBA, including any outstanding SBA loans, prizes, awards, grants, and any other forms of SBA financial assistance, as well as any pending applications for such assistance.

If an applicant currently holds any other financial assistance from SBA or has any other applications for SBA financial assistance still pending, the Applicant must identify how it will avoid duplication of efforts, commingling of funds, and overlapping or double claiming of costs among those projects. Applicants must treat each SBA project as separate and discrete with individual outcomes and deliverables and provide distinct reporting, accounting, and audit trails for each application and award.

Failure to sufficiently distinguish between multiple applications from the same organization, or between an application and one or more current SBA awards, may result in rejection of an application on the ground that it is duplicative of proposed or existing efforts.

Certification. Applicants must further certify that all such obligations (SBA loans, contracts, awards, the like) are current and in good standing, with no history of material delinquency, default, or subject to any unresolved enforcement or adverse action, unless otherwise disclosed and explained.

5.2 *Evaluation Criteria*

All timely, materially complete applications received from eligible organizations will be evaluated in accordance with the criteria listed below.

5.2.1 ***Organizational Experience and Capacity (25 Points)***

Applicants will be evaluated on their ability to conduct relevant outreach, provide technical and business assistance and/or financial support to high-growth and/or research and development (R&D)-focused small businesses. Applicants must provide adequate evidence and documentation, including specific examples, of the following:

- Demonstrate organizational capacity (internally and through external partners) to administer technical and business assistance or innovation support programs, including, but not limited to, experience with federally funded programs.
- Track record of supporting entrepreneurs and small businesses engaged in R&D and technology commercialization.
- Have established internal controls, compliance systems, and audit readiness.
- Demonstrate the ability to assist potential SBIR/STTR applicants in the creation of responsive and competitive proposals or to facilitate assistance that provides potential SBIR/STTR applicants with the appropriate expertise to create responsive and competitive proposals.
- Demonstrate experience in creating and facilitating mentoring networks or programs with a mentoring component. Details should include the length of time they have conducted such programs, description of their structure, how they were maintained, and a brief overview of outcomes and lessons learned.
- Record of receiving other cooperative agreements, grants, or contracts for the conduct of technical and business assistance projects, including the names of the awarding agencies, the cooperative agreement, grant or contract numbers, and the performance outcomes/results achieved (chart suggested but not required).
- Sources of operational capital for the Non-Federal Entity.
- Familiarity with eligibility determinations under the Small Business Act, including small business size standards.

5.2.2 ***Project Management (10 Points)***

Applicants will be evaluated on the strength of their staffing and management plans. Applicants must demonstrate they will devote adequate numbers of personnel having sufficient experience to the project, establish clear and direct lines of responsibility and authority for managing and overseeing the project, and show they will have sufficient facilities and other physical resources at their disposal to accomplish the proposed project. An Applicant must:

- Identify the Project Director and key management personnel (individuals who will spend a significant portion of their time on project-related activities), describe their expertise and their roles in conducting/overseeing the project, and stipulate the amount of time they will devote to the project by providing a report detailing each individual's effort on the project.
- Identify small business contractors and consultants and the way they were selected (i.e., competitively or non-competitively). Identify the employees or officials of the Non-Federal Entity who will be responsible for overseeing and administering those agreements; copies of contracts and consulting agreements (either signed or samples as applicable) must be included as attachments in accordance with Section 4.1.2.
- Describe any subcontracting plan, addressing how subcontractors will be selected, the amount or range of funding each subcontractor will receive, and the purposes for which subcontracts will be made, if applicable.

- You may not act as a pass-through or fiscal agent channeling award funds to other parties. You may contract with other parties for the performance of project support functions or services. However, you may not contract out more than 49 percent of this project to other parties (as measured by Project Funds). You also may not contract out the overall administration or day-to-day management of this project to any other party.
- Describe its financial management structure, internal controls for compliance and due diligence, any risk management framework, and identify all staff members who will be responsible for financial recordkeeping, reporting, the receipt, and expenditure of award funds, and addressing audit findings.

5.2.3 **Coordination Across State and Regional SBIR/STTR Efforts (25 Points)**

Applicants are asked to demonstrate a strong understanding of previous and ongoing local and regional efforts to support SBIR/STTR applicants and awardees, both within their own institutions as well as from other entities in their area. An Applicant must:

- Provide a description of the area to be served including:
 - Scope of the geographic area to be served
 - Previous and ongoing efforts or programs related to SBIR/STTR
 - Existing financial and business resources, workforce, and R&D infrastructure
- Define plans to expand the scope and reach of the project through collaboration with other entities. Include the proposed strategy for partnerships, with clear explanations regarding the purpose of implementing any joint activities. Differentiate between entities that are more likely to have significant impact on project goals versus those whose effect will be minor but still relevant.
- Where applicable, please explicitly describe the benefits of the potential collaboration (i.e., increased outreach, enhanced proposal development services, etc.). Letters of support from organizations may be included as attachments.
- If a FAST cooperative agreement or grant has been received in the past, describe how the work funded through the cooperative agreement or grant both impacted the number of SBIR/STTR proposals and awards in that state (chart suggested) and any outcomes related to the strength of the state/region's SBIR/STTR stakeholder network.
 - Describe overall SBIR/STTR-related support services that have taken place in the Applicant's state or territory over the past 3-5 years and provide detailed insight into their effectiveness.
 - Provide examples of prominent programming and their impacts that were executed under previous FAST grants.
- If the Applicant has no direct FAST experience, describe previous work related to the SBIR/STTR programs, and the unique capabilities the organization will employ to reach the goals of the FAST program.
 - Describe overall SBIR/STTR-related support services that have taken place in the Applicant's state or territory over the past 3-5 years and provide detailed insight into their effectiveness.
 - Provide examples of programming that have been executed and their impact in expanding local and regional SBIR/STTR efforts.
- Describe any funds or in-kind resources the Applicant will devote to the project as well as donation commitments from outside entities.

5.2.4 ***Project Design (40 Points)***

5.2.4.1 ***General Program and Small Business Support Details (30 of the 40 points)***

Applicants will be evaluated on their understanding of the purpose of the FAST Program and their proposed approach. An Applicant must:

- Describe types of support provided.
- Number and brief description of training courses/seminars/counseling sessions/accelerator cohorts etc. it expects to conduct and projected number of entrepreneurs and/or small businesses to be served in a one-year time frame.
- Describe efforts to connect small businesses with other sources of capital (i.e., venture capital, etc.).
- Describe efforts to assist small businesses with commercialization and bridging Phase II to Phase III (i.e., manufacturing, licensing, patents, distributing, etc.).
- Describe plans to leverage training tools (e.g., available tutorials on SBIR.gov or another platform).
- Proposed evaluation plan or schedule.
- Milestone Chart (timeline of program accomplishments and activities) - include as an attachment, see section 4.1.2.
- Demonstrated experience educating small business concerns on capital affiliations and structures, ownership structures, foreign ownership, control, or influence (FOCI), and eligibility in accordance with SBIR/STTR program requirements.

Greater weight may be given to applicants demonstrating prior experience conducting eligibility determinations, ownership and control analyses, and foreign risk assessments in connection with federally funded innovation programs.

5.2.4.2 ***Ability to Reach Entrepreneurs and Small Businesses in Places with Historically Lower Levels of SBIR/STTR Participation, especially Rural Areas (10 of the 40 points)***

Applicants must demonstrate their ability to reach entrepreneurs and small businesses in places with historically lower levels of SBIR/STTR participation, especially rural areas. Applicants should show concrete strategies for reaching individuals and businesses that have historically lower levels of SBIR/STTR participation, including proposal submissions and awards. An Applicant must:

- Describe track record of supporting SBIR/STTR applicants from places with historically lower levels of SBIR/STTR participation, especially rural areas, and provide outcome examples, such as increase in SBIR/ STTR proposals, successful SBIR/STTR awards secured, revenue growth achieved, or advancement of innovative technologies to market.
- Experience working with organizations representing the interests of entrepreneurs and small businesses with historically lower levels of SBIR/STTR participation.
 - If no experience is present, describe potential external partners with experience or how these partnerships will be established.
- Methods of outreach/stakeholder engagement, number of these clients it expects to assist, and how it arrived at such estimates. Include any names of existing studies or reports that were used to guide outreach and training activities.

5.3 *Review and Selection Process*

Applications that are not rejected by Grants.gov or SBA's screening process will be evaluated by teams of reviewers and scored based on how well they meet the criteria outlined above. These reviewers may be SBA employees, employees of other federal agencies, or relevant external experts or stakeholders. The maximum score any application can receive is 100 points. Prior to evaluating applications SBA will establish a minimum acceptable score. Only those applications that meet or exceed that threshold will be eligible for funding. Applicants are therefore encouraged to design proposals that address each of the scoring criteria listed above as thoroughly as possible.

In the interest of providing FAST program services to as broad a segment of the small business community as possible, SBA will take the geographical dispersion of Applicants' project service areas into account when making award decisions. An application that exceeds the minimum acceptable score and which scores more highly than other acceptable proposals may nevertheless be passed over for funding if that application proposes to serve the same or substantially the same area or market as another acceptable application that was selected for award.

All Applicants that are recommended for funding will undergo a risk assessment evaluation. This assessment will examine an organization's history of performance including:

- The Applicant's record in managing federal awards.
- Ability to effectively implement statutory, regulatory, or other requirement imposed on Non-Federal Entities.
- Verification of a Non-Federal Entity's conflict of interest policy (must be consistent with the requirements of 2 C.F.R. 2701.112 addressing procedures for ensuring its employees, consultants and contractors do not assist clients in which they, their principals, or their immediate family members have a financial interest or fiduciary duty and for ensuring its employees, consultants and contractors do not use their role in the project as a means of marketing their outside services to project clients).

SBA will be evaluating the efficiency and effectiveness of the proposed use of grant funds; SBA will show preference for proposals that maximize funds leading to greater outcomes. Pursuant to Executive Order 14332—Improving Oversight of Federal Grantmaking, dated August 7, 2025, all else being equal, SBA will provide preference to organizations with lower indirect costs.
