Counterterrorism Legislative Rapid Response Teams

Department of State

Bureau of Counterterrorism

Q&A Part 3 (July 2, 2021)

Question 1: “Will CT Bureau be providing assistance and/or coverage for some or all of the travel costs of the LRRT given that travel will be initiated at the invitation of host countries? If so, which costs would those be? If not, could you provide some clarification on how travel costs should be quantified in the budget line-item and justification in light of not knowing the frequency or location of potential international travel?”

- **Response:** The budget of the successful applicant, if approved, would need to cover all relevant travel costs on this award. Applicants should propose an approach with locations/regions/countries identified and prepare the budget accordingly. The Department of State will work with the successful applicant to review and approve the delivery of all technical assistance to recipient countries under this cooperative agreement.”
