Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats and builds trust between law enforcement and the community.

The Office for Victims of Crime (OVC) is committed to enhancing the Nation's capacity to assist crime victims and provide leadership in changing attitudes, policies, and practices to promote justice and healing for all victims of crime. This solicitation seeks to fund one entity to implement, manage, and sustain the Measures for Providers Responding to Victimization Experiences (iMPRoVE) project for victim service providers. The iMPRoVE project provides an assessment survey tool for victim service providers to measure outcomes and assess the effectiveness and quality of services provided to their clients. OVC is working to help drive the victim service field from a focus on effort to a focus on results and effectiveness by creating a standardized approach to measuring the outcomes and quality of services across the field.

Statutory Authority

34 U.S.C. § 20103(c)(1)(A)

Specific Information

OVC regularly collects performance measurement data on outputs from all grant-funded activity. In 2019, the National Institute of Justice (NIJ), in partnership with OVC and the Office on Violence Against Women (OVW), funded the "Measuring the Impact of Victim Services: Instrument Development" solicitation, which resulted in the development of an outcome assessment survey known as the Measures for Providers Responding to Victimization Experiences (iMPRoVE) tool. Outcome and satisfaction surveys, in combination with activity output data, are essential tools for beginning to assess the effectiveness and quality of services; for justifying funding allocations and demonstrating responsible stewardship of funds; and for advocating for additional resources as necessary. The iMPRoVE tool uses best practices in survey research and accounts for the fact that different types of service providers have different intended outcomes for their services. This extensively tested and validated instrument with a user-friendly software platform enables service providers to readily collect and analyze outcome and satisfaction measures. It provides victim service providers with a systematic way of listening to the clients' voices to ensure their needs are being met to the greatest extent possible and it allows providers to quantify the extent to which their services meaningfully affect victims' lives.

This solicitation will support one recipient to implement, manage, and sustain the iMPRoVE project. The selected recipient will create an outreach plan to spread awareness of the iMPRoVE tool and its utility for measuring client outcomes to victim service providers around the country. Once victim service providers decide to participate, the recipient will train participants on how to use the iMPRoVE tool and its data collection platform. After training, victim service providers will distribute the tool to those clients who choose to use it. The recipient will work with OVC to identify the appropriate data storage access point, collect data from the victim service providers, and run analyses on survey responses provided by the victim service providers.

Sustainment is important for establishing trends over time and determining the impact of any programmatic changes put into place by the victim service provider. For this project, sustainment will include education and technical assistance by the recipient to support participating service providers, as well as data analysis products to cultivate long-term engagement and data collection. Sustainment will also include outreach to new victim service providers to increase reach of the iMPRoVE tool's distribution to all willing and available providers.

Goals, Objectives, Deliverables, and Timeline

Goals

The goal of this solicitation is for the award recipient to implement, manage, and sustain the Measures for Providers Responding to Victimization Experiences (iMPRoVE) project for victim service providers. - Data Collection and Analysis: Responsible for proper data collection and sharing agreements, cleaning and managing data from respondents, analyzing survey responses, and providing feedback to victim service providers.
- System Upkeep: Works with OVC to determine appropriate servers for storing the data in addition to providing management and technical assistance for the data collection platform.

Deliverables

1. Strategic planning that should include, but is not limited to:
 - Outreach/Communication Plan
 - Education/Training/Technical Assistance Plan
 - iMPRoVE Assessment Survey Tool Distribution and Oversight Plan

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

Application Review Information

Review Criteria

Applications that meet the basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Description of the Issue (15%) - evaluate the applicant's understanding of the issue to be addressed.
2. Project Design and Implementation (30%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (30%) - evaluate the administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (10%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (15%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities)

Other Review Criteria/Factors

Other important considerations for OVC include geographic diversity, available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and

performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
