

U.S. Fish and Wildlife Service
Determination for Issuing a Single Source Financial Assistance Award

Instructions: In accordance with Service policy 516 FW 6, *Issuing Discretionary Grant and Cooperative Agreement Awards without Competition*, complete this form to document the justification for issuing a single source grant or cooperative agreement award. This form must be signed by both a program representative and the employee with signature authority for the award to be issued (see 516 FW 3, *Signature Authority for Grant and Cooperative Agreement Awards*). The completed and signed form must be maintained in the official award file.

Recipient Name: Rocky Mountain Bird Observatory
Project Title: Partners In Flight Database Updates and Maintenance
Program Contact: Michael Green

Select all criteria that apply (from 505 DM 2):

	(1) Unsolicited Proposal: The proposed award is the result of an unsolicited application that represents a unique or innovative idea, method, or approach that is not the subject of a current or planned award, but is found to be advantageous to program objectives.
✓	(2) Continuation: The activity to be funded is necessary for the satisfactory completion of, or is a continuation of, an activity we are funding and holding a competition would have a significant adverse effect on continuing or completing the activity.
	(3) Legislative Intent: The language in the applicable authorizing legislation or legislative history clearly indicates the intent of Congress to restrict the award to a particular recipient or purpose.
✓	(4) Unique Qualifications: The applicant is uniquely qualified to perform the activity based on a variety of demonstrable factors such as location; property ownership; voluntary support capacity; cost-sharing ability, if applicable; technical expertise; or other such unique qualifications.
	(5) Emergencies: Because of a compelling and unusual urgency, or substantial danger to health or safety, there is not enough time to follow adequate competitive procedures.

Explain below why competition for this award is not practical. As applicable, summarize the program legislative history, unique capabilities of the proposed recipient, and any cost-sharing contribution offered by the proposed recipient. Be brief and specific:

Rocky Mountain Bird Observatory (RMBO), with oversight by the Science Committee of Partners in Flight, has been maintaining the Partners in Flight databases for over a decade. These databases provide the latest assessment information, and population estimates, for birds in the US and Canada, using the Breeding Bird Survey as the foundation. The U S Fish and Wildlife Service, as the agency charged with the conservation and protection of 1027 species of migratory birds, relies upon these data to make management decisions daily. It is in our interest to work with RMBO to help them maintain this database. There is no other organization capable of doing this work, as RMBO is the sole possessor of the underlying database.

I have determined that this project meets the requirements for a single source award and recommend that it be awarded to the recipient named above.

Program Representative Sign and Date

Michael Green

Printed Name of Program Representative

I, as the Service employee with signature authority for this award under 516 FW 3, have reviewed this program recommendation and find that it meets the requirements for a single source award.

Authorized Signator Sign and Date
