EXECUTIVE SUMMARY

The Bureau of International Narcotics and Law Enforcement Affairs (INL) leads the Department of State's anticrime and counter-narcotics efforts. INL assistance programs help partner nations to build their capacities to extend the reach of justice under the rule of law, including respect for human rights and gender equality, and to deny safe haven to criminals who would otherwise operate with near impunity. The resources entrusted to us, enables INL to deliver technical assistance and capacity to: enhance international drug control through interdiction and supply reduction; develop civilian law enforcement capacity, regional partnerships, and information sharing; and further the administration of justice and corrections under the rule of law with respect for human rights. This mission supports **peace and security** by stabilizing and strengthening security institutions and by combating narco-trafficking and other transnational crimes such as money laundering, criminal gangs, and wildlife trafficking. It promotes **governing justly and democratically** by strengthening justice sector institutions, good governance and respect for human rights.

INL combines forces with other USG and international agencies and takes a regional approach to widespread problems. INL also encourages more developed governments to take responsibility as equal partners in global efforts to support critical country and global programs that combat transnational crime, disrupt illicit trafficking, and build their capacities to extend their reach of justice under the rule of law. The Bureau's priority programs support three inter-related objectives:

- **BUILDING CRIMINAL JUSTICE SYSTEMS:** Institutionalize rule of law by supporting and assisting in capacity building of host nation justice, law enforcement, and corrections institutions, promote human rights and diversity, protect vulnerable groups, and collaborate with multilateral and international partners to establish global standards and accountability mechanisms;
- **COUNTER-NARCOTICS:** Disrupt the overseas production and trafficking of illicit drugs through targeted counter-narcotics and institution-building assistance and coordination with foreign nations and international organizations, and;
- **TRANSNATIONAL CRIME:** Minimize the impact of transnational crime and criminal networks in the U.S. and its allies to oppose and counter corruption; wildlife crimes; cybercrime; intellectual property rights (IPR) fraud; transnational organized crime; environmental crime; crimes that threaten civilian security; and activities using the proceeds of crime.

SECTION I – PROGRAM DESCRIPTION

BACKGROUND

The Bureau for International Narcotics and Law Enforcement Affairs (INL) announces an open competition for assistance award in Armenia. Organizations may submit grant proposals for programs that encourage probation development and corrections reform and rehabilitation programs for women. The activities under this award shall take place in Armenia. The announcement is for the solicitation of one award totaling up to \$150,000. INL is seeking proposals with an implementation period of 6 months. A full proposal and budget should be developed for the implementation period of 6 months. Activities under this cooperative agreement must be implemented in their entirety by the primary recipient and/or sub-grantees that are explicitly listed and described in the proposal.

All activity timelines and locations must be provided on a monthly basis and no later than 3 weeks prior to the start of any event.

Armenia continues to face significant challenges due to a weak economy, external relation tensions, human rights protection concerns, and widespread corruption—all of which weaken the rule of law. Lengthy pretrial or preventive detention remained a chronic problem. According to official statistics, as of October 31, 2016, 9.6 percent of the prison population consisted of pretrial detainees, and an additional 22.7 percent were detainees whose trials were in progress or who were awaiting verdicts to enter into force. Some observers saw police use of excessive pretrial detention as a means of inducing defendants to confess or to reveal self-incriminating evidence. The overuse of detention applied also to juvenile offenders. According to the Council of Europe’s human rights commissioner, juveniles were especially vulnerable in the criminal justice system and were not protected from violations of their rights. According to legal experts, suspects had no real opportunities to appeal the legality of their arrests. In cases where the courts ruled on a pretrial detention, another court was unlikely to challenge its ruling.

Prison conditions were marked by poor sanitation, inadequate medical care, and corruption; overcrowding in some facilities remained problems, and conditions in some cases were harsh and life threatening. Prisons generally lacked accommodations for inmates with disabilities. Prisons did not have ombudsmen, and prisoners lacked effective mechanisms to report problems with their confinement. Authorities did not always permit prisoners and detainees to submit uncensored appeals to authorities concerning credible allegations of inhuman conditions. Additional background information is available in the [2016 Department of State Human Rights Report](#).

The State Department sees the Abovyan Women’s and Juvenile Prison as an opportunity to develop human-rights focused practices and implement humane prison management practices at a prison facility dedicated to the incarceration of vulnerable populations.

To support further progress in corrections and probation reform in Armenia, the U.S. Department of State has allocated \$150,000 USD in FY 2013 INCLE funds for the following project. INL reserves the right to reduce or increase the amount of an award.

PROJECT PURPOSE/DESCRIPTION – CORRECTIONS

INL is currently seeking an organization with the requisite capability and experience to support

managerial and specialized technical support to a women and juvenile prison. Incarcerated women face unique and acute challenges. Making rehabilitation services available to these populations in prison and assisting them as they transition back into society will improve the human rights record of the Armenian correctional system and enable more women to lead peaceful, self-reliant, productive lives post-incarceration.

To address these problems, INL plans to support programming at the Abovyan Women's and Juvenile Prison. Implementation of this program may experience challenges with inadequate space and/or limited infrastructure to support educational and vocational training programs. The goal of this program is to give imprisoned women and female juvenile inmates the education and skills necessary to succeed after release through targeted training and rehabilitation programs; develop a cadre of trained and experienced social workers to serve as case workers for women and girls nearing release; and follow up with released inmates to monitor their status. These programs will improve the conditions of women and girls while in prison but will, more importantly, allow women and girls to be safe and self-sufficient upon release.

The project is comprised of the following objectives and corresponding activities:

PROJECT GOALS

Support the Government of Armenia's capacity to operate a probation and prison system that is considered safe, secure, humane, transparent, and compliant with Armenian law as well as international standards and norms concerning prison operations and the treatment of prisoners and vulnerable populations.

Proposed funding for this initiative would support activities that improve conditions for incarcerated vulnerable populations in and their ability to establish themselves safely in society after their release. Activities might include, but are not limited to the following components. Individual proposals should address all components.

PROJECT OBJECTIVES

Within one year of program start date:

Objective 1: Sustainable vocational and educational training for incarcerated women and female juveniles.

Activity 1: Develop and implement sustainable vocational and educational training for incarcerated women and female juveniles, designed to improve employability. If needed for successful implementation of the program, this objective may include donation of required equipment or materials, as approved by the prison authorities, for the vocational and educational training project.

Activity 2: Advocate to appropriate government authorities to budget for and provide more educational and vocational services to female inmates and juvenile offenders.

Activity 3: Ensure sustainability, including a two-year sustainability plan, for implemented training programs.

Objective 2: Social work services for incarcerated women and female juveniles

Activity 1: Train, mentor, and monitor performance of staff, including primarily but not only social workers, working with incarcerated or recently released women and female juveniles.

Activity 2: Develop standard operating procedures and resources for social workers working with incarcerated females to facilitate social worker performance for assessing new arrivals to the prison, developing treatment and/or support plans for inmates, providing referrals (informal or formal) for medical, mental-health services, or other community resources and to monitor the progress of targeted inmates to ensure their safe, self-reliant, and productive re-entry upon release.

Expected outcomes:

- ☐ Increase inmates' literacy and education level
- ☐ Increase inmates' knowledge and mastery of useful vocational skills
- ☐ Ensure that prisoners nearing release have identified a safe release residence and a method of economic support and provide other social services as appropriate
- ☐ Ensure that prisoners nearing release understand their rights to legal services, rights to be free from violence in the home or workplace, and have access to information regarding available community resources (health, safety, shelter, etc.) upon release.
- ☐ Improve the delivery of prison programs and services that enhance management of female offenders to include human rights protections, and reduction of corruption vulnerabilities.

Requirements:

- ☐ Provide monthly and final reports on program activities, challenges.
- ☐ Present final report detailing activities, sustainability, assess buy-in by Abovyan staff and management, and assessment of any future development needs for the Abovyan prison that become apparent during the project.
- ☐ Collaborate closely with the Center for Legal Education and Rehabilitation Programs of the Ministry of Justice and obtain Abovyan and INL approval of final activities.
- ☐ The final report must include a summary of activities, data collected, findings, and recommendations for policy and program implementation for future programs to address corrections reform and access to justice for women and female juveniles.
- ☐ The selected implementer must coordinate and deconflict activities under this solicitation, aimed at the female population of Abovyan prison, with the on-going or planned activities of Project Harmony under a parallel cooperative agreement, which in part addresses juvenile detainee rehabilitation and reintegration. Activities should be complementary but must each be original and not duplicative.

CROSS-CUTTING AND ADDITIONAL ACTIVITIES

1. Coordination and De-conflicting of Projects

INL expects close coordination between the recipient, other international donors, and other USG funded rule of law programs to avoid any overlap and to complement goals and objectives. The recipient must demonstrate universality of program application in both urban and rural settings with only minor adjustments.

2. Program Expansion

In the event of a successful project, INL will consider the option of expanding the project to other regions in Armenia, subject to availability of future funding. Applicants may include in their proposal a brief section outlining how additional funds could potentially be used to expand work into further activities or additional regions in future years. Applicants are strongly encouraged to demonstrate how their project might leverage funding through other organizations.

3. Other Considerations

Regional proposals are not permitted and will be deemed technically ineligible. Organizations may submit one combined proposal if they can demonstrate competency in both technical areas, or may respond to only one of the two portions of the solicitation.

TARGET POPULATION

Applicants should identify target audiences, specific demographics, and the region(s) in which the project will be implemented. It is particularly important to specify the approximate number of beneficiaries to be directly and indirectly impacted by project activities.

DESIRED RESULTS AND ILLUSTRATIVE INDICATORS

The recipient will develop a project-level Performance Monitoring plan (PMP) with annual and end-of- project targets and results anticipated for key performance indicators. The following table shows indicators that will be measured, as well as illustrative targets, upon which the recipient will be responsible for monitoring and reporting during and after the project. In addition, U.S. Embassy Yerevan will regularly monitor the project's performance to assess whether project activities are on track and targets are being achieved.

Outcome indicators for the project are provided below. The recipient is expected to identify targets for these indicators based on what it can reasonably achieve within the performance period of the project, and based on the expected overall project results described above.

<i>Example Outcome Indicators</i>	<i>Illustrative targets:</i>
Percent of participating inmates who report increased motivation and self-confidence after participating in work skills or training programs	TBD
Percent of participating inmates that report increased confidence in expressing a leadership role in their community.	TBD
Percent of participating inmates reporting increased knowledge of and familiarity with their judicial system.	TBD
Percent of participating inmates with employment obtained after release.	TBD
Percent of management reporting increased knowledge of and familiarity with the unique needs of juvenile, female, and minority inmates.	TBD
Percent of participating inmates with housing identified prior to release.	

Output indicators and illustrative targets for the project are provided below. The recipient should review these and either confirm the illustrative targets or propose alternative targets, as appropriate.

<i>Example Output Indicators</i>	<i>Illustrative targets:</i>
Number of education activities	TBD
Number of social work trainings	TBD
Number of work skills and training programs conducted	TBD
Number of work skills and training programs sustainable beyond the conclusion of this funding opportunity	TBD
Number of rehabilitation and work release participants	TBD
Number of inmates trained	TBD

The recipient may propose additional outputs, indicators, and/or targets as appropriate. The recipient will be required to collect baseline data for all the PMP indicators during the first six months of the project. In addition, certain terms included in the outcomes and indicators will need to be defined at the very beginning of the project so that it is possible to measure the change during and at the end of the project. Examples of such are “capacity”, “spread effect”, etc. Baseline information will be critical for both monitoring and evaluation of project progress and results.

[END OF SECTION I]

SECTION II – FEDERAL AWARD INFORMATION

INL expects to award one cooperative agreement(s) based on this NOFO. The anticipated total federal funding amount is not to exceed \$150,000. The period of performance is 6 months with an anticipated start date of May 2018.

The U.S. government may issue one or more awards resulting from this NOFO to the responsible applicant(s) whose application(s) conforming to this NOFO are the most responsive to the objectives set forth in this NOFO. The U.S. government may (a) reject any or all applications, (b) accept other than the lowest cost application, (c) accept more than one application, (d) accept alternate applications, and (e) waive informalities and minor irregularities in applications received. In the event of multiple proposals being approved, coordination between recipients is required and must be reported on in required reporting.

The U.S. government may make award on the basis of initial applications received, without discussions or negotiations. Therefore, each initial application should contain the applicant's best terms from a cost and technical standpoint. The U.S. government reserves the right (but is not under obligation to do so), however, to enter into discussions with one or more applicants in order to obtain clarifications, additional detail, or to suggest refinements in the program description, budget, or other aspects of an application.

Applicants please be advised that the following will be required if your organization is selected for this announcement.

State Department Leahy Amendment Vetting Requirements:

Funds provided under this award are subject to Section 620M of the Foreign Assistance Act of 1961, as amended, a provision titled “Limitation on Assistance to Security Forces” (the “Leahy Amendment”). Subsection (a) of that provision states: “(a) In General.—No assistance shall be furnished under this Act [the Foreign Assistance Act] or the Arms Export Control Act to any unit of the security forces of a foreign country if the Secretary of State has credible information that such unit has committed a gross violations of human rights.” Accordingly, none of the funds under this award may be used to provide training or other assistance to any unit or member of the security forces of a foreign country if the Department of State has credible information that such unit or individual has committed a gross violation of human rights.

In signing this agreement, the Recipient agrees to exercise due diligence to ensure compliance with the Leahy provision and State Department policy, and to cooperate with the State Department in implementation of the Leahy requirement for funds under this award. The Department implements the Leahy requirement by vetting units or individuals proposed for training or other assistance to check for credible information of a gross violation of human rights by such units or individuals. To facilitate State Department vetting, the Recipient must provide the following information for proposed participants at least sixty (60) calendar days prior to commencing award activities. This information should be submitted to the U.S. Embassy in the country where the award will be implemented in order to initiate Leahy vetting procedures:

Information needed: Full name, date of birth, country of birth, country of citizenship, gender,

rank, title, and organizational affiliation. Please also include the activity and date that the activity will take place—if the person will participate throughout an extended program, please note the timeframe. Participant information should be submitted in the format attached.

Information required for “security forces” personnel: The above information is needed for each member of a foreign police or military unit (security forces, broadly defined) who will participate in any activity under this award. This includes both civilian and military employees of security forces participating in any activities funded under this award, including training, workshops or meetings, conferences, or other activities.

The Recipient must collaborate with the relevant U.S. Embassy on a case-by-case basis to determine if the Leahy requirement applies to specific activities or proposed participants. Individuals who are not members of the security forces but who participate in activities under the award (e.g., politicians, academics, etc.) generally do not need to be vetted.

Submission Deadline: Each candidate must be cleared under Leahy vetting in advance of participation in activities funded under this award. The vetting process typically takes approximately one month, but may take longer if there are a large number of candidates or if issues arise. Thus, all information on proposed candidates must be received by the Embassy at least sixty (60) days in advance of the training event or other activity.

The Recipient agrees that it will not include any security forces candidate in training or other activities funded under this award until the State Department advises that the candidate has cleared Leahy vetting and is approved for participation.

Note: INL retains the right to request additional documentation for those items not included on this form.

The recipient's proposal should include the cost of an audit that:

- 1) Complies with the requirements of 2 CFR 200 Subpart F "Audit Requirements;"
- 2) Complies with the requirements of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 92-9, "Audits of Not-for-Profit Organizations Receiving Federal Awards;"
- 3) Complies with AICPA Codification of Statements on Auditing Standards AU Section 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," where applicable. When the U.S. Department of State is the largest direct source of Federal financial assistance (i.e., the cognizant Federal Agency) and indirect costs are charged to Federal grants, a supplemental schedule of indirect cost computation is required;
- 4) A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 subpart F. *The audit costs shall be identified by 2 CFR 200.435.*

INDIRECT COST-RATE

An organization with a negotiated indirect cost rate agreement (NICRA) negotiated with a cognizant federal government agency other than the U.S. Department of State must include a copy of the cost-rate agreement. Applicants should indicate in the proposal budget how the rate is applied and if any of the rate will be cost-shared. Per 2 CFR 200.414, any non-Federal entity that has never received a negotiated indirect cost rate, except for those non-Federal entities described in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals, paragraph D.1.b, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. As described in 2 CFR 200.403, factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

[END OF SECTION IV]

TAB A: PROPOSAL GUIDELINES

Proposals should include the following components:

- Introduction and Problem Statement
- Planned Activities
- Indicators

Problem Statement and Rationale: Describe the problem and how the project will achieve or contribute to achieving a sustainable solution and a measurable outcome. The applicant should explain the extent of existing assistance within the particular geographic area, and how the proposed intervention may complement (or differ from) other similar interventions. The implementer should also explain, as necessary, the particular experience and qualifications they bring to the project. The rationale should also reflect understanding of the priorities and policies of the bureau/post or program with which this agreement is associated.

Planned Activities and Indicators: Describe the planned activities, and relevant stakeholders for implementation. The implementer should highlight key stakeholders and their expected role in the project, along with any contingencies. The implementer should list assumptions that are dependent on the ultimate success of the project. This could include elements like geographic location, coordination efforts with other international organizations, or political will from host governments, private sector, and NGOs. As appropriate, limited contingency possibilities should be included in the proposal, in case the initial planning assumptions are not met. Example of a planned activity and contingency:

Planned Activity	Contingency
<i>Energy efficiency workshops in collaboration with the government of Mexico and other representatives from the Latin America region, focused on raising awareness of energy efficiency standards.</i>	<i>If government of Mexico doesn't engage at the expected level, project team will look to other regional stakeholders, such as the OAS, to assist in convening key stakeholders.</i>

In the proposal, there should be a clearly defined link between each of the following elements as delineated:

Problem Statement → Planned Activities/Inputs → Process Indicators → Output Indicators → Outcome Indicators → Impact
--

Process Indicators measure the activity that has been completed. Please delineate the specific activities to be conducted, such as workshops, roundtables, trainings, forums, exchanges, policy dialogues, etc. All indicators must include targets. Example of a process indicator:

Process Indicator	<i>50 women trained in energy efficiency standards</i>
--------------------------	--

Output Indicators, otherwise known as deliverables associated with the agreement, should be included. Unlike process indicators, outputs are what is produced, and are often tangible. At this

level, it is the measurement of ability, knowledge, skills, or access. All indicators must include targets. Example of an output indicator involving the same participants:

Output Indicator	<i>80 percent of participants demonstrate at least 75 percent cognizance of efficiency standards</i>
-------------------------	--

Outcome Indicators measure the change in system or behavior or practice. Expected outcomes are the results that come from a series of activities that are necessary to achieve impact. All indicators must include targets. Example of an outcome indicator:

Outcome Indicator	<i>30 percent of efficiency standards being implemented in a participant's country as a result of participant's participation.</i>
--------------------------	--

All indicators **must** include measurable, numerical targets, which should serve as the foundation for monitoring and evaluation efforts. Ultimately, proposed activities and achievement of indicator targets will lead to impact.

TAB B: PROGRAM MONITORING AND EVALUATION PLAN and RISK ANALYSIS

INL will work with recipient organizations to implement the appropriate monitoring and evaluation plan that meets both the needs of the bureau and the implementing partner. Incorporating a well-designed monitoring and evaluation component into a project is one of the most efficient methods of documenting the progress and potential success of a program. Successful monitoring and evaluation depend on the following:

- Setting objectives that are specific, measurable, attainable, results-focused, and placed in a reasonable time frame (SMART);
- Linking project activities to stated objectives;
- Developing key performance indicators that measure realistic progress towards the objectives.

INL expects implementing organizations will track participants or partners as appropriate and be able to respond to key evaluation questions, including satisfaction with the program/training, information learned as a result of the program/training, changes in attitude and behavior as a result of the program, and effects of the program on institutions in which participants work or partner with. Applicants should include the monitoring and evaluation process in their timeline.

Recipients will be required to provide reports with an analysis and summary of their findings, both quantitative and qualitative, in their regular monthly progress reports to INL.

The monitoring and evaluation plan should include, at a minimum, the following elements:

- A results “Logic Model” planning document (see sample Logic Model template attached as a sample document)
- Indicators, as described in Tab A, as well as details on how each indicator will be measured, frequency of the measurements, units of measure, etc. Provide indicators at the output and outcome levels. Monitoring and evaluation plans should include a chart component that clearly delineates indicators and targets. All indicators must include measurable, numerical targets.
- Establish, where possible, performance baseline data and expected performance targets for each indicator/outcome. In some cases, the baseline may be zero.
- Describe monitoring and evaluation tools, such as rapid assessment surveys, site visits, key stakeholder interviews, etc., that will be used.
- Plans should describe how the project’s impact and effectiveness will be monitored and evaluated throughout the project.

INL has included a sample Monitoring and Evaluation template as an attachment to the NOFO.

RISK ANALYSIS

Risks are unavoidable – all programs inherently contain both internal and external risks. However, with proper identification and management, risks can be prepared for, minimized or mitigated. The purpose of a risk analysis is to identify the internal and external risks associated with the proposed program in the application, rate the likelihood of the risks, rate the potential impact of the

risks on the program, and identify actions that could help mitigate the risks. A risk analysis should not be considered a one-time exercise or a static document. INL defers to organizations to conduct adequate risk analysis and remediation for all of its operations and advises that risk analysis and remediation occur throughout the life of a program and should result in revisions to risk analysis documents and processes as necessary. Applicants should include all assumptions and external factors identified in the logic model in the risk analysis. Applicants should rate the likelihood of a risk and potential impact of the risk as “High,” “Medium,” or “Low.”

TAB C: BUDGET GUIDELINES

Complete budgets will provide a detailed line-item budget outlining specific cost requirements for proposed activities. A minimum of three columns should be used to delineate the bureau funding request, cost-share by applicant, and total project funding. Complete applications will include a budget narrative to clarify and justify individual line-items (i.e. calculations of how the costs were derived per month or year, their necessity, and overall contribution to the program's cost-effectiveness).

The three-column proposal line item budget should include the following components, in the suggested format below:

Note: This budget is designed to serve as an example of the format for complete budget submissions and is **NOT** exhaustive. Individual line items included in each applicant's budget should reflect specific program activities. (pax = participants)

Before grants are awarded, INL reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the INL program and availability of funds.

As mentioned above, the detailed budget should also include an accompanying budget narrative document that explains and justifies each line item, in the suggested format below:

LINE-ITEM BUDGET NARRATIVE –

A. Personnel – Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: \$30,000/year x 25% x 8.5 months; calculation: $\$30,000/12 = \$2,500 \times 25\% \times 8.5 \text{ months} = \$5,312.$)

B. Fringe Benefits - State benefit costs separately from salary costs and explain how benefits are computed for each category of employee - specify type and rate. Fringe benefit application must be consistent with organization's written policy.

C. Travel - Staff and any participant travel (Note: Staff refers to grantee staff only, and not sub-grantee staff or contractors):

1) international and/or domestic airfare - Please indicate origin and destination (country/city), number of travelers and unit cost per round trip

NOTE: All travel must be booked with economy class fares only. Applicants must explain differences in fares among travelers on the same routes. Note that all travel, where applicable, must comply with the Fly America Act. For more information see <http://www.gsa.gov/portal/content/103191>.

2) in-country travel - Please indicate origin and destination (city), type of transportation, number of travelers and unit cost per traveler per trip.

3) per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: <http://www.policyworks.gov/>. Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.

NOTE: Per diem rates must be prorated and/or removed if applicant will pay for refreshments and/or meals for participants during a workshop/conference.

D. Equipment – please provide justification for any equipment purchase/rental, defined as tangible personal property having a useful life of more than one year and an acquisition cost of \$5000 or more.

E. Supplies - list items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone: \$50/month x 50% = \$25/month x 12 months).

F. Contractual –

a) Subgrants - For each subgrant/contract please provide a detailed line-item budget breakdown explaining specific services. Please provide a subgrant budget using the approved OMB budget format. (See Tab C: Budget Guidelines, above.)

b) Consultant Fees - For example lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g., 2 x \$150/day x 2 days). Consultant/outside expert fees/honoraria should be consistent with the level of experience and based on a fair market value. (NOTE: *Consultant Fees and Honorarium should NOT EXCEED \$610/day*)

G. Other Direct Costs - these will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. All costs must be allowable, allocable, and reasonable, and consistent with OMB guidelines. **Line items such as “Miscellaneous,” “Other,” “Contingency Fund,” and “Reserve Fund” are not permitted.**

H. Indirect Charges - See 2 CFR 200.414 , "Indirect Costs"

1) If your organization has an indirect cost-rate agreement with the U.S. Government, please include a copy of this agreement. Please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. This does not count against submission page limitations.

2) If your organization is charging an indirect rate, please indicate how the rate is applied--to direct administrative expenses, to all direct costs, to wages and salaries only, etc.

3) Do not include indirect costs against participant expenses in the Bureau budget, as it generally does not pay for these costs.

Cost Share/Cost-Effectiveness - Explanation of contributions should be included in the budget narrative, whether cash or in-kind. Assign a monetary value in U.S. dollars to each in-kind contribution. If the proposed project is a component of a larger program, identify other funding sources for the proposal and indicate the specific funding amount to be provided by those sources. In addition, it is recommended that budget narratives address the overall cost-effectiveness of the proposal, including leveraging of institutional or other resources. Cost sharing or matching refers to a portion of project or program cost that is not borne by the Federal Government. Grantees must follow cost sharing or matching policy as stipulated in 2 CFR 200.306. Cost sharing

amounts proposed will be incorporated as part of the allowable budget items. If selected for an award, your organization will have to provide the minimum amount of cost sharing as stipulated in the budget approved by the Grants Officer. If your organization does not meet its cost share amount stipulated in the approved budget by the end of the period of performance INL will have the option to (1) reduce its contribution in proportion to your organization's contribution in the event that you do not provide the minimum amount of cost sharing stipulated in the budget or (2) hold your organization accountable for the amount specified in the approved budget.

BUDGET CONDITIONS AND RESTRICTIONS:

The Recipient is reminded that funds provided under this agreement must be used in a manner fully consistent with U.S. law. The recipient agrees that none of the funds provided by this award shall be used to lobby for or against abortion. The recipient agrees that none of the funds provided by this award shall be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions.

Per 22 CFR 200.307 ((e) (1), (2) and (3) of this section please note the following guidance concerning use of Program Income:

- Program income earned during the project period shall be retained by the recipient and, in accordance with the terms and conditions of the award, shall be used in one or more of the ways listed in the following:
 - 1) Added to funds committed to the project by the Department and recipient and used to further eligible project or program objectives.
 - 2) Used to finance the non-Federal share of the project or program.
 - 3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.
- It is emphasized, however, that the above three alternatives are applicable only when the grantee is a non-profit entity. Any grant to a commercial firm must state that the first of the alternatives is not available for program income earned by the grantee. (GAO noted in its Principles of Federal Appropriations Law at 10-57, that "This approach [option (1)] increases program size. Both OMB and GAO have expressed preference for the deduction method [option (3)] since it results in savings to the federal government and to grantees.")

INL will consider budgeted line-items for the following:

- External evaluations to assess the project's impact (costs must be built into the overall original budget proposal and must be reasonable);
- Costs associated with an internal evaluation conducted by the grantee (costs must be built into the overall original budget proposal and must be reasonable);
- Visa fees, immunizations, and medical insurance associated with program travel;
- A-133 Audit or internal audit for the INL program (or prorated costs that is shared among other Federal Assistance grants/contracts)
- English translation (cost must be built into the original budget proposal and must be reasonable)

The following cost elements will not be reimbursed and are not allowable in this program:

- Publication of materials for distribution within the U.S.;
- Administration of a project that will make a profit;
- Expenses incurred before or after the specified dates of award period of performance (unless prior written approval received);
- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction;
- Entertainment and/or Alcoholic beverages;
- Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency;
- Land;
- Construction;
- Direct support or the appearance of direct support for individual or single party electoral campaigns;
- Duplication of services immediately available through municipal, provincial, or national government;
- Expenses listed as “miscellaneous”, “other”, or “contingencies”;
- Expenses made prior to the approval of a proposal or unreasonable expenditures will not be reimbursed.

INL may make conditions and recommendations on proposals to enhance proposed programs. Conditions and recommendations are to be addressed by the applicant before approval of the award. To ensure effective use of INL funds, conditions or recommendations may include requests to increase, decrease, clarify and/or justify budget costs.

SECTION V – APPLICATION REVIEW INFORMATION

The technical applications and proposal submissions will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Technical evaluation of applications will be based on the extent and appropriateness of proposed approaches and feasibility of achieving the strategic objectives, in accordance with the following criteria.

If award is not made on the initial applications, INL may request clarification and supplemental materials from applicants whose applications have a reasonable chance of being selected for award. The entry into discussion is to be viewed as part of the evaluation process and shall not be deemed by INL or the applicants as indicative of a decision or commitment upon the part of INL to make an award to the applicants with whom discussions are being held.

I. TECHNICAL EVALUATION CRITERIA

A technical evaluation committee, using the criteria shown in this Section, will evaluate the technical applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

Quality of Program Idea (Total Possible Points - 25):

- Responsive to the solicitation (5)
- Appropriate in the country/regional context (5)
- Exhibits originality, substance, and precision (5)
- Prioritizes innovation but is feasible (5)
- In countries where similar activities are already taking place, provides an explanation as to how new activities will not duplicate or merely add to existing activities (5)

Program Planning/Ability to Achieve Objectives (Total Possible Points – 25):

- Includes a clear articulation of how the proposed program activities contribute to the overall program objectives (3)
- Each activity is clearly developed and detailed (3)
- Provides a comprehensive quarterly work plan for project activities that demonstrates substantive undertakings within the logistical capacity of the organization (3)
- Objectives are clear, specific, attainable, measurable results-focused and placed in a reasonable time frame (3)
- Addresses how the program will engage or obtain support from relevant stakeholders and identifies local partners where appropriate (3)
- Describes the division of labor among the direct applicant, any partners and any potential subgrantees (2)

- Proposal clearly articulates understanding of the security situation/operating environment and plans for ensuring safety of participants (2)
- Includes contingency plans for potential difficulties in executing the original work plan (6)

Cost Effectiveness/Cost Sharing (Total Possible Points - 15):

- The overhead and administration of the proposal, including salaries and honoraria, are explained and justified for the work involved (5)
- All budget items are necessary, appropriate and linked to program objectives (5)
- Personnel costs are reasonable for the work involved (5)

Program Monitoring and Evaluation (Total Possible Points - 15):

The Monitoring and Evaluation (M&E) Plan includes:

- Narrative explaining how monitoring and evaluation will be carried out and who will be responsible for monitoring and evaluation activities (5)
- Table listing by program objectives the output- and outcome-based performance indicators with baselines and (yearly and cumulative) targets; data collection tools; data sources; types of data disaggregation, if applicable; and frequency of monitoring and evaluation (7)
- Includes an external midterm and/or final evaluation or justification for why one is not included (3)

Multiplier Effect/Sustainability of Impact Rating (Total Possible Points - 10):

- Clearly delineates how elements of the program will have a multiplier effect (5)
- Clearly delineates how impact will be sustainable beyond the life of the grant (5)

Institution's Record and Capacity Rating (Total Possible Points - 10):

- The proposal demonstrates an institutional record of successful programs in the proposed country and the content area (4)
- Personnel and institutional resources are adequate and appropriate to achieve the project's objectives and demonstrate experience with international best practices in corrections (2)
- Roles, responsibilities, and brief bios/resumes are included for primary staff, and demonstrate relevant professional experience (2)
- Applicant is a current/past Department of State grantee where performance (2)
was/is on target showed/shows responsible fiscal management
OR
- The proposal is from a NEW APPLICANT and proposal demonstrates capacity for responsible fiscal management illustrates success in similar sized projects (2)

COST EVALUATION

Cost will be evaluated for realism, reasonableness, allowability, allocability, and cost effectiveness. The pre-award evaluation of cost effectiveness will include an examination of the application's budget detail to ensure it is a realistic financial expression of the proposed project and does not contain estimated costs which may be unallocable, unreasonable, or unallowable. Applications that have more efficient operational systems that reduce operation costs will be favorably considered.

Applications that maximize direct activity costs including cost sharing and that minimize

administrative costs are encouraged. Other considerations are the completeness of the application, adequacy of budget detail and consistency with elements of the technical application. In addition, the organization must demonstrate adequate financial management capability, to be measured by a responsibility determination.

[END OF SECTION V]

SECTION VI – FEDERAL AWARD ADMINISTRATION INFORMATION

Federal Award Notices: The successful applicant(s) will be notified via email that its proposal has been selected to move forward in the review process; this email IS NOT an authorization to begin performance. The Grants Officer is the Government Official delegated the authority by the U.S. Department of State Procurement Executive to write, award, and administer grants and cooperative agreements. The assistance award agreement is the authorizing document and it will be provided to the Recipient through email transmission. The recipient may only incur obligations against the award beginning on the start date outlined in the DS-1909 award document that has been signed by the INL Grants Officer. Organizations whose applications will not be funded will also be notified via email by INL. Please refer to the anticipated time to award information in Section E.

Substantial Involvement (for Cooperative Agreements only): INL shall be substantially involved during the implementation of the award agreement in the following ways:

- 1) Approval of the Recipient's annual work plans, including: planned activities for the following year, travel plans, planned expenditures, event planning, and changes to any activity to be carried out under the Cooperative Agreement;
- 2) Approval of specified key personnel;
- 3) Approval of sub-award Recipients (if any), and concurrence on the substantive provisions of the sub-awards; and coordination with other cooperating agencies; and
- 4) Approval of Monitoring and Evaluation Plan
- 5) Other country specific approvals will be included in the award documents

Terms and Conditions: Recipients will be held to the applicable terms and conditions found at <https://www.statebuy.state.gov/fa/Pages/TermsandConditions.aspx>.

It is the Recipient's responsibility to ensure they are in compliance with all applicable terms, conditions, and OMB guidance and requirements. Those organizations found to be in non-compliance may be found ineligible for funding or designated high risk.

2 CFR 200 Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards: All applicants must adhere to the regulations found in [2 CFR 200 Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards](#).

Branding Requirements: As a condition of receipt of a grant award, all materials produced pursuant to the award, including training materials, materials for recipients or materials to communicate or promote with foreign audiences a program, event, project, or some other activity under an agreement, including but not limited to invitations to events, press materials, and

backdrops, podium signs, etc. must be marked appropriately with the standard, rectangular U.S. flag in a size and prominence equal to (or greater than) any other logo or identity. **Note:** Exceptions to the branding requirement are allowable under certain conditions. If an applicant is notified that their award has been chosen for funding, the Grants Officer will determine, in consultation with the applicant, if an exception is applicable.

Reporting Requirements:

1. Recipients are required to submit quarterly program progress and financial reports throughout the project period. Progress (SF-PPR and narrative) and financial reports (SF 424 and a detailed financial expenditure report) are due 30 days after the reporting period.
