### **Industry Question #14 and Government Response**

14. The following clarification question: “FACTOR TWO Technical Approach - The applicant shall provide a brief narrative of their technical approach and a milestone schedule. The narrative shall be no more than two (2) pages per main task”

Does this paragraph under Factor Two imply that we can provide “8 pages” of narrative for this question based on four Main Tasks?

**Government response:**

If there are 4 main tasks, the total amount allowed is 8 pages, but each main task is limited to no more than two (2) pages for that task.
