Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, OVC seeks to provide funding to organizations that demonstrate innovative and effective strategies to create, expand, or enhance the use of technology to increase access to and quality of services for victims of crime and improve the accessibility and responsiveness of victim service organizations.

Statutory Authority

34 U.S.C. § 20103(c)(1)(A)

Specific Information

The 2021 Criminal Victimization report from the [Bureau of Justice Statistics](https://bjs.ojp.gov/content/pub/pdf/cv21.pdf) shows that 46 percent of victims of serious violence reported incidents to the police, but only 9 percent of them received victim assistance from a victim services agency. (Note: see Thompson, A. & Tapp, S.N. (2022, September). Criminal Victimization, 2021. *Bureau of Justice Statistics*. <https://bjs.ojp.gov/content/pub/pdf/cv21.pdf>.)

Without access to a range of quality support services such as crisis assistance, mental health support, or financial assistance, victims may not receive the help they need to heal.

To reach more victims and ensure access to services, OVC encourages the use of technology to respond to the needs of victims and expand on the successful growth in technological capacity to provide victim services. Through this program, OVC will support national-scope and regional initiatives (that can be replicated nationally) that maximize the use of technology to increase access to victim services and information about victims' rights, improve the quality of services, and strengthen the responsiveness of victim service organizations.

Funding under this initiative may support technology development and maintenance to facilitate efficient service delivery or communication; staff required to operate, update, and maintain the proposed technology platform or service; training and technical assistance on the purpose and use of the technology (including outreach and public awareness activities); and staff engaged in coalition-building and outreach activities regarding the use of technology.

This funding should not supplant or duplicate currently funded initiatives in these areas. Applicants who propose to use this funding for ongoing, rather than new, initiatives must specify how these funds would be used to *expand or enhance* current services rather than duplicate or continue existing efforts.

Goals, Objectives, and Deliverables

Goals

The goals of this program are to increase greater access to victim services and build the technological capacity of victim-serving organizations to meet the needs of crime survivors through innovative solutions and trauma-informed approaches.

Objectives

An applicant should address the objectives listed below in the Goals, Objectives, Deliverables and Timeline web-based form.

1. Conduct strategic planning activities to identify gaps in technology that can be enhanced by building the organization's technological capacity to ensure greater access to victim services that are sustainable, secure, and safe.
2. Implement technological enhancements to strengthen the organization's response to crime victims and ensure high-quality services that are trauma-informed, culturally responsive, and centered in victim safety, confidentiality, and privacy.
3. Prepare and support staff through training on the technology platform and the organization's confidentiality and privacy guidelines, appropriate to the services provided and populations served.
4. Collaborate with local, state, and community stakeholders to ensure greater coordination of services.
5. Conduct training and public awareness activities for professionals and community members to ensure appropriate education and awareness of the proposed technology platform or program services and resources.
6. Perform data collection and participate in evaluation activities to determine the effectiveness of the program and whether it is meeting stated goals and objectives.

Deliverables

The deliverables can be web applications (apps), management information systems, interactive websites, or any improvement or enhancement that uses technology to provide the service or support the program. Other deliverables must include the following:

- Criteria to best determine strategies and effective collaborative models for planning, implementing, and evaluating the proposed technological innovations in the community, state, or region.

- Development of a staff training plan.
- Development of outreach and public awareness strategies.
- Development of a training and technical assistance plan for participating organizations.
- Development of an evaluation plan to measure project effectiveness in achieving the project goals, objectives, and identified outcomes.
- Signed Letters of Support or Memoranda of Understanding (MOU) with key implementation partners.
- Development of a public-facing report that highlights data collected about the specific service responses to meet the needs of victims of online harassment and abuse and recommendations to address any gaps in services (*Applicable to Priority Area 2A applicants*).

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

For Programs Serving Children and Youth

If your program provides services to child and youth victims of crime, services must be tailored to ensure that they are developmentally appropriate, culturally responsive, victim-centered, and trauma-informed. Programs are expected to engage in practices that remove barriers to receiving services and support survivor autonomy. For youth-serving programs with justifiable mandatory requirements, a [shared decision making model](#) should be used to provide minors with agency in participating in decisions that impact them. OVC encourages the use of evidence-based and evidence-informed practices when working with children and youth victims of crime.

Evidence-Based Programs or Practices

OJP strongly encourages the use of data and evidence in policymaking and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the projects and activities funded under this solicitation. For additional information and applicable documentation to be included in the application, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted

by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

1. Priority Considerations Supporting Executive Order 13985, *Advancing Racial Equity and Support for Underserved Communities Through the Federal Government*

In support of this [Executive Order](#), OJP will provide priority consideration when making award decisions to the following:

A. Applications that propose project(s) that are designed to promote racial equity and the removal of barriers to access and opportunity for communities that have been historically underserved, marginalized, and adversely affected by inequality.

To receive this consideration, the applicant must describe how the proposed project(s) will address potential racial inequities and contribute to greater access to services and opportunities for communities that have been historically underserved, marginalized, and adversely affected by inequality, and identify how the project design and implementation will specifically incorporate the input or participation of those communities and populations disproportionately impacted by crime, violence, and the criminal justice system overall. Examples addressing this requirement include, but are not limited to, the following: budgeted project planning and/or implementation meetings with community stakeholders representing historically underserved and marginalized communities; outreach and/or public awareness campaigns specifically tailored to historically underserved and marginalized communities to encourage participation in the proposed project(s); budgeted incorporation of members representing historically underserved and marginalized communities in program evaluation, surveys, or other means of project feedback; and partnership with organizations that primarily serve communities that have been historically underserved, marginalized, and adversely affected by inequality.

B. Applicants that demonstrate that their capabilities and competencies for implementing their proposed project(s) are enhanced because they (or at least one proposed subrecipient that will receive **at least 40%** of the requested award funding, as demonstrated in the Budget Web-Based Form) identify as a *culturally specific organization*.

To receive this additional priority consideration, applicants must describe how being a culturally specific organization (or funding the culturally specific subrecipient organization (s)) will enhance their ability to implement the proposed project(s) and should also specify which populations are intended or expected to be served or to have their needs addressed under the proposed project(s).

Culturally specific organizations are defined for the purposes of this solicitation as private nonprofit or tribal organizations whose primary purpose as a whole is to provide culturally specific services to racial and ethnic groups, including, among others, Black people,

Hispanic and Latino people, Native American and other Indigenous peoples of North America (including Alaska Native, Eskimo, and Aleut), Asian Americans, Native Hawaiians, and/or Pacific Islanders.

2. In support of the [Memorandum on the Establishment of the White House Task Force to Address Online Harassment and Abuse](#), OVC will provide priority consideration when making award decisions to the following:

A. Applications that propose innovative uses of technology to increase safety and access to support services for those who experience online harassment and abuse at the intersection of misogyny, racism, and homophobia, particularly toward women and girls along with LGBTQ and nonbinary people and other marginalized groups. Online harassment and abuse may include nonconsensual distribution of intimate digital images; cyberstalking; sextortion; doxing; malicious deep fakes; gendered disinformation; the online recruitment and exploitation of victims of sex trafficking; rape and death threats; and various forms of technology-facilitated intimate partner abuse.

To receive this consideration, the applicant must (1) describe how it will address the specific needs of victims of online harassment and abuse, including their safety, and (2) increase programming and resources that respond to victims of online harassment and abuse.

Note: Addressing these priority areas is one of many factors that OJP considers in making funding decisions. Receiving priority consideration for one or more priority areas does not guarantee an award.

The Proposal Narrative must include the following sections:

a. Description of the Issue

- Describe how funding will support the project's value to the victims field by meeting the stated goals. An applicant should use data to provide evidence that the need for the effort exists and demonstrate the scope and size of the need. The applicant should also make a convincing case that the project addresses a gap in existing resources and does not duplicate an existing program.

If the applicant is seeking priority consideration for **Priority 2(A)**, it should address in this section how the proposed projects will address the specific needs of victims of online harassment and abuse, including their safety, and increase programming and resources that respond to victims of online harassment and abuse.

- Describe how the program will be managed and include an organizational chart or information describing staff's unique qualifications that will enable them to fulfill their grant responsibilities.
- Include a list of personnel responsible for managing and implementing the major stages of the project. The Project Director must have both the substantive expertise and experience to perform crucial leadership functions, and sufficient time to devote to the project to provide the needed guidance and supervision.

If the applicant is seeking priority consideration under **Priority 1(B)**, it should describe within this section how being a culturally specific organization (or funding a culturally specific subrecipient organization at a minimum of 40% of the project budget) will enhance its ability to implement the proposed project(s), should also specify which populations are intended or expected to be served or have their needs addressed under the proposed project(s), and should include the website address (if applicable) and formal or informal mission statement or principles of the culturally specific organization.

d. Plan for Collecting the Data Required for this Solicitation's Performance Measures

How to Apply

Registration: Before submitting an application, all applicants must register with the System for Award Management (SAM). You must renew and validate your registration every 12 months. If you do not renew your SAM registration, it will expire. An expired registration can delay or prevent application submission in Grants.gov and JustGrants. Registration and renewal can take up to 10 business days to complete.

Submission: Applications must be submitted to DOJ electronically through a two-step process via Grants.gov and JustGrants.

Step 1: After registering with SAM, the applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <https://www.grants.gov/web/grants/register.html> by the Grants.gov deadline. **Submit the SF-424 and SF-LLL as early as possible, but no later than 48 hours before the Grants.gov deadline.** If an applicant fails to submit in Grants.gov, they will be unable to apply in JustGrants.

Step 2: The applicant must then submit the **full application**, including attachments, in JustGrants at [JustGrants.usdoj.gov](https://www.justgrants.usdoj.gov) by the JustGrants deadline.

Within 24 hours after receipt of confirmation emails from Grants.gov, the individual in Section 8F of the SF-424 will receive an email from DIAMD-NoReply@usdoj.gov with instructions on how to create a JustGrants account. Register the Entity Administrator and the Application Submitter with JustGrants as early as possible but no later than 48-72 hours before the JustGrants deadline. Once registered in JustGrants, the Application Submitter will receive an emailed link to complete the rest of the application in JustGrants. The Entity Administrator also will need to log into JustGrants to review and invite the applicant's Authorized Representative(s) before an application can be submitted.

Submit the complete application package in JustGrants at least 24 – 48 hours prior to the JustGrants deadline. Some of the application components will be entered directly into JustGrants, and others will require uploading attached documents. Therefore, applicants will need to allow ample time before the JustGrants deadline to prepare each component. Applicants may save their progress in the system and revise the application as needed prior to hitting the Submit button at the end of the application in JustGrants.

For additional information, see the “How to Apply” section in the [OJP Grant Application Resource Guide](#) and the [DOJ Application Submission Checklist](#).

Submission Dates and Time

The **SF-424** and the **SF-LLL** must be submitted in Grants.gov by 11:59 p.m. eastern time on May 15, 2023.

The **full application** must be submitted in JustGrants by 8:59 p.m. eastern time on May 22, 2023.

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the

due dates with sufficient time to correct any errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline. Failure to begin the SAM.gov, Grants.gov, or JustGrants registration process in sufficient time (i.e., waiting until the date identified in this solicitation) is not an acceptable reason for late submission.

Experiencing Unforeseen Technical Issues Preventing Submission of an Application

OJP will only consider requests to submit an application after the deadline when the applicant can document that a technical issue with a government system prevented application submission.

If an applicant misses a deadline due to unforeseen technical issues with SAM.gov, Grants.gov, or JustGrants, the applicant may request a waiver to submit an application after the deadline. However, the waiver request will not be considered unless it includes a tracking number generated when the applicant contacts the applicable service desks to report technical difficulties. Tracking numbers are generated automatically when an applicant emails the applicable service desks; and for this reason applicants are encouraged to email the appropriate service desk, even if they also intend to call the service desk for phone support. Experiencing wait times for phone support does not relieve the applicant of the responsibility of getting a tracking number.

An applicant experiencing technical difficulties must contact the associated service desk indicated below to report the technical issue and receive a tracking number:

- SAM.gov - contact the [SAM Help Desk \(Federal Service Desk\)](#), Monday – Friday from 8 a.m. to 8 p.m. ET at 866-606-8220.
- Grants.gov - contact the [Grants.gov Customer Support Hotline](#), 24 hours a day, 7 days a week, except on federal holidays, at 800-518-4726, 606-545-5035, or support@grants.gov.
- JustGrants - contact the JustGrants Service Desk at JustGrants.Support@usdoj.gov or 833-872-5175, Monday – Friday from 7 a.m. to 9 p.m. ET and Saturday, Sunday, and Federal holidays from 9 a.m. to 5 p.m. ET.

If an applicant has technical issues with SAM.gov or Grants.gov, the applicant must contact the OJP Response Center at grants@ncjrs.gov within **24 hours of the Grants.gov deadline** to request approval to submit after the deadline.

If an applicant has technical issues with JustGrants that prevent application submission by the deadline, the applicant must contact the OJP Response Center at grants@ncjrs.gov within 24 hours of the JustGrants deadline to request approval to submit after the deadline.

Waiver requests sent to the OJP Response Center must -

- describe the technical difficulties experienced,
- include a timeline of the applicant's submission efforts (e.g., date and time the error occurred, date and time of actions taken to resolve the issue and resubmit; and date and time support representatives responded),
- include an attachment of the complete grant application and all the required documentation and materials,
- include the applicant's Unique Entity Identifier (UEI), and
- include any SAM.gov, Grants.gov, and JustGrants Service Desk tracking numbers documenting the technical issue.

OJP will review each waiver request and the required supporting documentation and notify the applicant whether the request for late submission has been approved or denied. An applicant that does not provide documentation of a technical issue or that does not submit a waiver request within the required time period will be denied.

For more details on the waiver process, OJP encourages applicants to review the “Experiencing Unforeseen Technical Issues” section in the [OJP Grant Application Resource Guide](#).

Application Review Information

Review Criteria

Merit Review Criteria

Applications that meet the basic minimum requirements will be evaluated by peer reviewers on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (20%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (35%) - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (20%) - evaluate the applicant's administrative and technical capacity to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (10%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (15%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

Other Review Criteria/Factors

Other important considerations for OVC include geographic diversity, strategic priorities (specifically including, but not limited to, those priority areas already mentioned, if applicable), available funding, past performance, and the extent to which the Budget Web-Based form accurately explains project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant entity. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record of performance, integrity, and business ethics, OJP checks whether the applicant entity is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant entity that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important Note on FAPIIS: An applicant may review and comment on any information about its organization that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant entity.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
