Funding Opportunity Synopsis

MENA governments – especially in Jordan, Lebanon, Morocco, and Tunisia – have undertaken important reform initiatives to modernize their public administrations and pass access to information laws. Several have applied to join the Open Government Partnership (OGP), an international initiative that aims to leverage capabilities of new technologies to strengthen participatory governance and fight corruption. Further actions are required to sustain this progress and implement open government principles that foster civil society collaboration with government.

This project will assist governments in developing action plans to improve management and governance activities such as: budgeting, human resources management, regulatory practices, public integrity, public procurement, digital government, open government and data, risk management, and innovations. By focusing on public governance areas and creating inclusive economies and societies, this project will guide governments to benchmark their countries' progress on public sector reforms at the national and regional levels, and to compare them against international standards. Additionally, it will create the first MENA long-term strategic partnership and governance network for policy dialogue and exchange of good practices. Finally, it will deliver ad hoc policy recommendations to advance public sector reform agendas in specific sectors at the national or regional level with a focus on policies pertaining to women and youth.

Success will be measured on the basis of increased engagement between civil society, the private sector, and governments on open government initiatives; expanded utilization of information by civil society; the implementation of policies, initiatives, and laws; government participation with other international partners; and enhanced public perception of open governance.

Promoting transparency and accountability in the MENA region directly addresses U.S. national security interests by supporting governments and civil society in fighting corruption and strengthening government institutions through sustained mutual engagement. This project advances U.S. foreign policies as outlined in FAR Principle 4, “Promote the U.S. Model (e.g., Democracy, Human Rights, and Governance)” and JRS Objective 4.1, “Engage with government institutions and political processes to increase transparency, accountability, inclusivity, and responsiveness to the population” by recognizing that transparency, good governance, and accountability to citizens in unstable regions are essential to improve regional and national economic stability and security. Aligned with MEPI’s Strategic Framework, this project supports participatory governance objectives by enabling government officials’ engagement with, and responsiveness to, citizens to resolve issues of shared concern.

All applications must be submitted in English. Applicants may submit only one (1) application. Complete information on how applicants can submit proposals for this opportunity can be found in Section VI below.

Applicants should read this NOFO in its entirety before writing their proposal, and should refer to the full Evaluation Criteria provided in Section VII while drafting all materials.

Eligible Countries and Territories

In this announcement, we seek to support projects in Algeria, Jordan, Lebanon, Morocco, and Tunisia. Please note: Applications that focus on activities in countries and territories other than those listed will NOT be considered.

I. FUNDING OPPORTUNITY DESCRIPTION

The United States launched the international Open Government Partnership (OGP) in 2011 to transform government performance through transparency, accountability, citizen engagement, and the innovative use of technology to create a race to the top for good governance. It has since grown to include more than 70 countries and a wide range of civil society organizations (CSOs) worldwide. Participating countries develop biannual National Action Plans (NAPs) in consultation with civil society, identifying commitments to advance progress in the above-detailed core areas. Implementation is subject to self-assessment and an Independent Review Mechanism (IRM) progress report on a two-year cycle.

Open governance, transparency, accountability, and clearly communicated government actions – with civil society input wherever possible – are vital principles that underpin stability in the MENA region, and remain U.S. government priorities. Transparent, accountable, and fair governance is essential for U.S. private sector actors to take advantage of new and potentially great markets in the MENA region.

Since 2012, NEA/AC's MEPI funding has supported the Open Government Partnership to encourage open government reforms and increase government transparency in Jordan, Morocco, and Tunisia. MEPI-funded activities from the prior grants in Jordan closed out successfully in 2014, as the project succeeded in sustaining Jordan's OGP membership eligibility through implementation of annual OGP action plans. Morocco is on the cusp of joining OGP, pending passage of an Access to Information law – a critical requirement for OGP membership. Tunisia formally joined the OGP in January 2014 as a direct result of MEPI programming, and MEPI continues to work with Tunisia to implement National Action Plan elements to sustain its membership.

A. PROBLEM STATEMENT

Despite vast political, economic, and social changes, many countries in the Middle East and North Africa (MENA) region are struggling to improve transparency and accountability. However, 90 percent of people believe that their countries remain highly corrupt. Moreover, access to public sector information is limited, resulting in a lack of transparency, which hinders market predictability and business development.

MENA governments – especially in Jordan, Lebanon, Morocco, and Tunisia – have undertaken important reform initiatives to modernize their public administrations and pass access to information laws. Several have applied to join the Open Government Partnership (OGP), an international initiative that aims to leverage capabilities of new technologies to strengthen participatory governance and fight corruption.

B. ACHIEVABLE OBJECTIVES

Open government depends on reforms to the legal, institutional, and policy frameworks that enable citizens and civil society participation by meeting these objectives:

1. Support Jordan, Lebanon, Morocco, and Tunisia to identify and implement the necessary reforms to promote and protect civic space;

2. Increase the ability of government representatives and civil society organizations to improve policies and services using accurate data;
3. Increase regional dialogue among government representatives and civil society organizations to promote policy reform;
4. Support Jordan, Lebanon, Morocco, and Tunisia to implement recommendations on open government policies and initiatives; and
5. Conduct a feasibility assessment of Algeria's readiness to adopt open government and anti-corruption measures.

C. PROJECT DESIGN

This solicitation invites applications in support of promoting national and regional policy dialogue and supporting CSOs in effectively partnering with their governments.

Project activities should include:

Phase One (Years 1 and 2)

- Promote citizen engagement through coalition building among public officials and CSOs in Jordan, Lebanon, Morocco, and Tunisia;
- Train Jordanian, Lebanese, Moroccan, and Tunisian senior policy makers and public officials on the institutional, legal, policy, and implementation frameworks for strategically and effectively promoting open government;
- Assist the governments of Jordan, Lebanon, Morocco, and Tunisia with their OGP National Action Plans;
- Collect data on a number of public governance policy issues in Morocco and Tunisia to better understand practices, benchmarks, and needs for reform; and
- Conduct an assessment and provide a report on the feasibility of Algeria's readiness to adopt open government and anti-corruption measures

Phase Two (Years 3 and 4)

- Promote citizen engagement through coalition building among public officials and CSOs in Jordan, Lebanon, Morocco, and Tunisia;
- Train Jordanian, Lebanese, Moroccan, and Tunisian senior policy makers and public officials on the institutional, legal, policy, and implementation frameworks for strategically and effectively promoting open government;
- Assist the governments of Jordan, Lebanon, Morocco, and Tunisia with their OGP National Action Plans;
- Collect data on a number of public governance policy issues in Jordan and Lebanon to better understand practices, benchmarks, and needs for reform; and
- Strengthen CSOs' ability to influence policy making through implementing open government principles in all four countries

Phase Three (Year 5)

- Monitor the legal, institutional, policy, and implementation frameworks that respond to recommendations on how to concretely strengthen open government in all four countries;
- Promote governments' data production and collection, and CSOs' monitoring and evaluation of policies and services in all four countries;

- Promote citizen engagement through coalition building among public officials and CSOs in Jordan, Lebanon, Morocco, and Tunisia;
- Train Jordanian, Lebanese, Moroccan, and Tunisian senior policy makers and public officials on the institutional, legal, policy, and implementation frameworks for strategically and effectively promoting open government; and
- Assist the governments of Jordan, Lebanon, Morocco, and Tunisia with their OGP National Action Plans

Project beneficiaries must include:

- a. Civil Society Organizations
- b. Government Institutions

Successful applications will provide a detailed plan for how activities for each of the three phases will be completed.

The following activities and costs are **NOT ALLOWED** under this announcement:

- Exchange activities with other countries or territories;
- Social welfare projects;
- Paying to complete activities begun with other funds;
- Activities that appear partisan or that support individual or party electoral campaigns;
- Academic or analytical research (if not necessary as part of a larger project);
- One-time events, such as stand-alone conferences and one-off round tables;
- Medical and psychological research and clinical studies;
- Projects of a commercial or profit-making nature;
- Cultural presentations, cultural research, cultural clubs, or festivals, etc.; and
- Entertainment costs (e.g., receptions, social activities, ceremonies, alcoholic beverages, guided tours).

NOTE: Applications that include any of these activities or costs above may be eliminated at the Technical Eligibility Review stage and will not advance to the Merit Review Panel.

D. GENDER INTEGRATION

NEA/AC requires that all activities fully address gender considerations, ensuring that both men and women benefit from support where applicable, and that gender awareness is a built-in component of project activities. This should be documented through gender analysis in the project narrative that identifies any relevant gender gaps and ways the proposed activities will address those gaps. Proposals should demonstrate how addressing relevant gender gaps will enhance the project's goals and objectives. Applicants who are unfamiliar with integrating gender in foreign assistance programming should view the training video located here: https://encompassworld.com/elearningfiles/DOS/DOS_Gender_Integration_E-Course/story_html5.html

II. MEASUREMENT OF RESULTS

Applicants shall provide a logic model or a theory of change to demonstrate how the proposed project (including activities, the project design, and the surrounding context) will achieve the stated objectives. The logic model or theory of change statements can be generated using the template in Appendix II. Please see Section VI below for more information.

Successful applicants will work with the NEA/AC program and monitoring and evaluation (M&E) teams to create a plan based on the proposed logic model/theory of change to measure qualitative and quantitative indicators as part of the award negotiations process. The successful applicants will be responsible for collecting data against these indicators, which will be monitored throughout the period of performance of the award to gauge necessary modifications to the project's design, and assess the results of the project's success in meeting expected outcomes.

All projects funded as a result of this NOFO will be required to complete a final evaluation of the project at the end of the period of performance with support from the NEA/AC M&E team.

III. AWARD INFORMATION

Funding Mechanism Type:	Grant
Estimated Number of Awards:	1-2
Estimated Total Project Funding:	\$6,000,000
Estimated Initial Increment Award Ceiling:	\$1,500,000
Estimated Initial Increment Award Floor:	\$500,000
Cost-Sharing or Matching:	Encouraged; NOT Required
Estimated Length of Project Period:	5 Years

Contingent on the availability of funds, approximately \$6,000,000 in Economic Support Funds for approximately one to two awards will be awarded through this announcement. If selected to receive an award, an applicant will be awarded funds for up to two (2) years depending on the activities and countries proposed. The estimated start date for this project is September 1, 2020.

NEA/AC reserves the right to award more or less than the estimated program funding, and reserves the right to award funding under this announcement for a period of up to two years after the announcement's close date.

This request for full applications **does not** constitute an award or commitment on the part of the U.S. government to make any awards, **nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of an application.**

Incremental Funding

NEA/AC intends to provide up to \$6,000,000 in total funding over a five-year period. Funding for this award will be provided on an incremental basis subject to the availability of funds and successful performance. NEA/AC reserves the right to change the funding amounts, period of performance, and terms of the Award as a result of U.S. Government requirements, recipient performance, project results, and the availability of funds. The recipient will be notified in writing should such changes occur.

The resulting award will utilize an incremental funding mechanism and will only fund the first increment in the initial award. Up to \$1,500,000 is available for the first increment of funding (ceiling amount). It is estimated that the first increment will provide funding for phase one activities for an initial 24 months of the award (anticipated: September 1, 2020 to August 31, 2022). The second increment will provide funding for an additional 24 months (anticipated: September 1, 2022 to August 31, 2024) for phase two. The third increment will provide funding for an additional 12 months (anticipated September 1, 2024 to August 31, 2025) for phase three. All three increments will result in a combined total five-year period of performance. The second and third increments of funding – which will be for phases two and three, respectively – are contingent upon the availability of funds and will be awarded at NEA/AC's discretion.

Special instructions regarding incremental funding:

Please provide a complete proposal that includes total project funding. The proposal narrative and budget should clearly specify the activities, budget breakdown, and timeframes for each funding increment. Additionally, the applicant should ensure that the project is severable after the completion of the first increment. The proposal should clearly demonstrate the value delivered at the end of the first and second increments, which could stand on its own merits should funding for a second and/or third increment be unavailable.

IV. ELIGIBILITY INFORMATION

All applicants will be screened by NEA/AC to determine whether they meet all of the program eligibility requirements detailed below.

NOTE: Applications that do not demonstrate that they meet all of the eligibility requirements in Section A and Section B will not advance past the Technical Eligibility Review stage and may be deemed ineligible for funding under this announcement. Nothing can be added to an application once the competition deadline has passed.

NEA/AC strongly encourages applications from organizations headquartered in the Middle East and North Africa region. A.1. Prime Applicant

Applicants must have the organizational capacity to implement project components in the MENA region. Applicants must also have experience in conducting risk assessments and monitoring and evaluating programs and sub-recipients in order to document and assess the short- and long-term outcomes of proposed projects. Partnerships may, but are not required to, take the form of sub-grants.

B. REGISTRATION REQUIREMENTS

To apply for NEA/AC (Federal) funding, organizations, whether based in or outside the U.S., must have a Unique Entity Identifier (UEI) number, currently referred to as a DUNS

number, and an active account with the System for Award Management (SAM). Applicants who do not meet all registration requirements are NOT eligible for funding under the opportunity.

UEI Number

The UEI number is a nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities.

All applicants must have a UEI number. To obtain a UEI number, please follow the steps below:

Go to <http://fedgov.dnb.com/webform/pages/CCRSearch.jsp>.

Select the country or territory where your organization is physically located. Complete and submit the form. Organizations will need to provide basic information, including physical and mailing addresses, name and title of the chief executive, primary Standard Industrial Code (SIC) (https://www.osha.gov/pls/imis/sic_manual.html), and annual revenue.

For technical difficulties in obtaining this number, please contact D&B at: govt@dnb.com.

System for Award Management (SAM)

SAM is a U.S. government wide registry of vendors doing business with the Federal government and requires annual renewal. The system centralizes information about grant applicants/recipients, and provides a central location for grant applicants/recipients to change organizational information.

Further, each applicant must maintain an active account, with current information, while its application is under consideration for funding. To keep an active SAM.gov account, an applicant must renew it at least once each year. **If an organization's account expires, the organization cannot submit a grant application until it is renewed.**

To create a new account, please follow the steps below:

Go to <http://www.sam.gov>.

Log In to complete authentication and create an account. On the My SAM page, select *Entity Registrations* from the sub-navigation menu and select *Register New Entity*.

Organizations must have a UEI number and a CAGE number (US Domestic Organizations) or a NCAGE number (Foreign Organizations), to create an account.

Complete and submit the online form. If the applying organization already has the necessary information on hand (see the SAM Quick Start Guide for Grant Registration: https://sam.gov/SAM/transcript/Quick_Guide_for_Grants_Registrations.pdf), the online form takes approximately one hour to complete, depending upon the size and complexity of the applying entity. Because of the different steps in the process, it might take anywhere from **12 - 15 business days** to complete the process of creating an account with the system.

For help with SAM.gov, please visit their support page at <https://www.fsd.gov> or contact them at: 866-606-8220 (U.S.) or +1-334-206-7828 (international).

C. ADDITIONAL ELIGIBILITY CONSIDERATIONS

Cost-Sharing or Matching

There is no minimum or maximum percentage required for this competition. However, NEA/AC encourages applicants to provide maximum levels of cost sharing and funding in support of its programs.

Cost-sharing or matching is not an evaluation criteria of this NOFO.

VI. FUNDING LIMITATIONS, RESTRICTIONS, AND OTHER CONSIDERATIONS

E. AWARDS TO COMMERCIAL FIRMS OR FOR-PROFIT ORGANIZATIONS

The Department of State prohibits profit under its assistance awards to commercial organizations. No funds will be paid as profit to any recipient that is a commercial organization. Profit is defined as any amount in excess of allowable direct and indirect costs. The allowability of costs incurred by commercial organizations is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR Part 31. Program income earned by the recipient may be:

- added to the total of the amount of this award, including the required cost sharing or matching, and use it to further eligible project objectives;
- used to meet the Recipient's cost sharing or matching requirement;
- OR deducted from the total project or program allowable cost in determining the net allowable costs on which the federal share of costs is based.

F. AUDIT REQUIREMENTS

Domestic and foreign organizations that expend \$750,000 or more in a fiscal year in federal assistance must perform an independent, recipient-contracted Single Audit or Program Specific Audit. (**Program-specific Audit** means an audit of one Federal award program. **Single Audit** means an audit which includes both the entity's financial statements and the Federal Awards to be conducted in accordance with Generally Accepted Government Auditing Standards (GAGAS). The audits must be independently and professionally executed in accordance with GAGAS either prescribed by a government's Supreme Audit Institution with auditing standards approved by the Comptroller General of the United States, or the host country's laws or adopted by the host country's public accountants or associations of public accountants, together with generally accepted international auditing standards. However, foreign entity audits consistent with International Standards for Auditing or other auditing standards are acceptable with the Grants Officer's approval. More information can be found at <https://www.gao.gov/assets/700/693136.pdf>

For sub-non-Federal entities expending \$750,000 or more in Department of State award funding during their fiscal year, Department of State standard audit provisions require that Prime non-Federal entities certify that audits of sub-non-Federal entities are performed annually and according to the standards described above. The cost of audits required under this policy may be charged either as an allowable direct cost to the award OR included in the organizations established indirect costs in the award's detailed budget.

G. COMPLIANCE WITH APPLICABLE FEDERAL FUNDING REGULATIONS AND DOS TERMS AND CONDITIONS

Payment of funds awarded under this Notice of Funding Opportunity will not be disbursed until the DOS has been assured that the Recipient's financial management system will provide effective control over and accountability for all Federal funds in accordance with 2 CFR 200 and 2 CFR 600 as applicable. Point values for individual elements of the application are presented in Section VIII. Panel Reviewers' ratings, and any resulting recommendations, are advisory.

Final award decisions will be influenced by whether the application meets NEA/AC's programmatic goals and objectives, how it supports the Department's overarching foreign policy priorities, and the geographic distribution of the top-ranking applications.
