## G. Budget Tables and Justification in Support of SF-424A

Please complete the following two budget tables. The budget should support the narrative statements and reflect projected costs. Address proposed expenditures in relation to the proposed project description. Include cash and in-kind match, other Federal funds, and staff time that may help accomplish the project.

**Applicants must contribute at least 100% of the Forest Service requested funds.** For every \$1 of Federal funding requested, applicants must provide at least \$1 in match. For example, if the requested Federal amount is \$100,000, the applicant match must be at least \$100,000. The applicant's match must come from non-Federal sources. The match may include cash or in-kind contributions. All matching funds must be directly related to the proposed project.

**Applicants must submit letters of support from third-party organizations confirming the amount of cash or in-kind services to be provided, up to the minimum required match. The match needs to be provided within the agreement timeframe.**

**Note:** Applicants should be aware that **the purchase of equipment with Forest Service funds creates a federal interest in the equipment.** The successful applicant will be required to complete additional paperwork before and after receiving Forest Service funds for the purchase and is subject to the regulations at [2 CFR § 200.310](#), [200.313](#), and [200.316](#). These 2 CFR § 200 regulations are available at: [eCFR :: 2 CFR Part 200 -- Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#)

**The purchase of equipment with cooperator matching funds does not create a federal interest in the equipment.**

**Projects must provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States pursuant to [2 CFR § 200.322](#).**

Instructions for the Budget Table:

- Lines 1-8: Enter the dollar amount for each item.

- Line 10: Costs not directly attributable to accomplishing the project, such as overhead or indirect costs.
- Line 11: Sum of 9 and 10.
- Line 12: Use the total in Line 11, Column III to determine the percentage of each share.
